I. INTRODUCTION

**Purpose:** The purpose of this funding opportunity is to provide grants to local organizations to respond to the negative economic impacts of the COVID-19 public health emergency experienced by businesses and unemployed or underemployed workers.

**Source and Amount of Funding:** On March 11, 2021, the federal American Rescue Plan Act (ARPA) was signed into law and established the Coronavirus State Fiscal Recovery Fund and Coronavirus Local Fiscal Recovery Fund, which together make up the Coronavirus State and Local Fiscal Recovery Funds (“SLFRF”) program. This program is intended to provide support to State, territorial, local, and Tribal governments in responding to the economic and public health impacts of COVID-19 and in their efforts to contain impacts on their communities, residents, and businesses.

On June 15, 2021, the San Luis Obispo County Board of Supervisors directed that $9 million of the County’s $55 million ARPA allocation be used to support businesses, non-profits, and childcare. Based on further direction from the Board, the County seeks to allocate up to $2.5 million to support businesses and workers through one-time grants to local organizations providing technical assistance to businesses, workforce development, and job training for individuals impacted by COVID-19.

There are three other ARPA-related funding opportunities related to the negative economic impacts of the pandemic: relief grants to small businesses, grants to non-profits, and funding to support the childcare sector. Applicants are encouraged to select the funding opportunity that is most applicable to their request and should not apply for funding for the same purpose under multiple Request for Applications (RFAs).

**Timeline and Process:** The Request for Application (RFA) is being released on **January 26, 2022**. Completed electronic applications will be accepted until **February 23, 2022 at 5 p.m.**

A committee will evaluate the applications shortly after receipt and their recommendations will be reviewed by the Board of Supervisors ad hoc subcommittee on ARPA funding. Funding allocations requiring Board approval are expected to be brought to the Board during their regularly scheduled meeting on **April 5, 2022**. After the Board’s approval, grant agreements will be finalized and programming may begin. The County is requiring that all funds be spent by December 31, 2024.
II. ELIGIBILITY

Both public and private nonprofit and for-profit organizations are eligible to apply. Programs/projects must be carried out in San Luis Obispo County and serve only San Luis Obispo County residents.

Applicants must offer their services to all residents of San Luis Obispo County, regardless of political or religious opinions or affiliations, age, sex, race, color, national origin, marital status, disability, sexual orientation.

III. REVIEW AND SELECTION CRITERIA

Applications should be consistent with eligible uses of funds as described in the Department of Treasury’s Final Rule on the Coronavirus State and Local Fiscal Recovery Funds established under the American Rescue Plan Act. Applicants may also consult the Overview of the Final Rule (see pages 17-18 and 21-22 in particular).

Applicants should first consider how they would identify eligible impacted small businesses and individuals or a class of businesses and individuals consistent with the guidance. Second, applicants should consider how they would provide assistance to those businesses and individuals.

Business technical assistance: Per the Treasury guidance, an eligible use of funds would be technical assistance, counseling, or other services to support business planning for small businesses that respond to the negative impacts of COVID-19. The Final Rule discusses that job training and other supports may be provided for individuals who have experienced a negative economic impact from the pandemic, including startups and individuals seeking to start small businesses. It could be shown, for example, that a small business startup faced greater difficulty in accessing credit than prior to the pandemic, faced increased costs to starting the business due to the pandemic, or had lost expected startup capital due to the pandemic.

Workforce development and job training: While ARPA funding is not intended to support general workforce development or economic development, the Treasury guidance permits a broad range of services to unemployed or underemployed workers and other individuals who suffered negative economic impacts from the pandemic, including:

- Public jobs programs
- Subsidized employment
- Combined education and on-the-job training programs
- Job training to accelerate rehiring or address negative economic or public health impacts experienced due to a worker’s occupation or level of training. These
initiatives may also support small business startups or individuals seeking to start small businesses.

The range of permitted services can also include other employment supports, such as child care assistance or assistance with transportation to and from a jobsite or interview.

Selection criteria
Programs/projects will be reviewed and prioritized, among other things, on:

1. Consistency with eligible uses of funds as described in the Department of Treasury’s Final Rule on the Coronavirus State and Local Fiscal Recovery Funds.
2. Local need.
3. Program/project goals, results, outputs/outcomes.

Registry Verification Search

The Registry Verification Search allows you to search and verify whether a charitable organization or fundraiser has complied with the Attorney General’s registration and reporting requirements. You can also review records and other public filings that a charitable organization or fundraiser has submitted to the Attorney General’s Registry of Charitable Trusts. The Registry’s database contains copies of most public filings required to be filed by charitable organizations, charitable trustees and fundraising professionals. This tool allows you to download copies of annual registration renewal forms (NRF-1), copies of IRS Forms 990, raffle reports and other fundraising reports that are in the Registry’s database.

We recommend the following search tips when searching for a charity or fundraiser by name:

- For Organization Name searches, a full name of the organization is not necessary. For example, a search using the words “KIDS FOR” will show registrations for organizations whose names start with “KIDS FOR” (e.g., KIDS FOR SACRAMENTO and KIDS FOR DOLPHINS).
- An asterisk (*) may be used as a wildcard. For example, a search using a wildcard “kids*” will show registrations for organizations whose names contain “KIDS”.

Also available is a list of charities in good standing with the Registry. A charity is in “good standing” with the Registry when it is current in all its reporting requirements with the Registry. The downloadable text file, generated monthly, is a snapshot of the charities in good standing at the time it is created. Much of the data, including the Registration Status of charitable organizations, may change at any time based on the processing of new filings or other reasons.

To download the file, right-click here and select “Save link as” or “Save target as” (depends on your browser) to save it to your device.
