Check (*Checks payable to the Agricultural Commissioner*)
Mastercard, Visa, Discover, American Express (*in person only or call for online payment options*)
Cash (In person only)

Important Messages:

1. **Pesticide Use Reporting Requirements:** Pest Control Businesses must submit use reports for applications to an agricultural commodity within 7 days from the application. A Negative Use Report is required for those months during which no pest control work is performed. Negative Use Reports and Use Reports for applications other than on an agricultural commodity are due by the 10th day of the following month.
2. **California Code of Regulations 6602, Labeling Available at Use Site:** A copy of the registered labeling that allows the manner in which the pesticide is being used shall be available at each use site. Digital or physical formats are acceptable, however if an electronic device fails and the digital format cannot be viewed, then the user is in violation of 6602.
3. As required by EPA's [Paraquat Dichloride Human Health Mitigation Decision](#) and the amended paraquat dichloride (a.k.a. paraquat) product labels, all handlers (mixing, loading and applying) must be certified applicators **and** must successfully complete EPA Paraquat Training module. The training provides important information about paraquat's toxicity, new label requirements and restrictions, and the consequences of misuse.
