REBUTTAL TO ARGUMENT IN FAVOR OF MEASURE G-18

As citizens who proudly live in San Luis Obispo County, we care deeply about our County’s future and strongly oppose Measure G.

At this time, when our County faces adverse effects due to the closure of Diablo Canyon, Measure G would create more economic uncertainty, hurt our community, and increase our dependence on foreign oil.

Measure G would shut down EXISTING oil and gas production.

- The promoters of this proposition are using scare tactics about fracking to try to pass Measure G. But, there is no hydraulic fracturing in San Luis Obispo County and no plans to do so.
- Measure G is so broadly written that practices safely used for over a century—and which are needed for existing production to continue—would be banned by Measure G.

Measure G would put the County and its taxpayers at risk for millions of dollars in liability that the County is not insured for.

- San Luis Obispo County would be on the hook to pay millions of dollars to property owners whose mineral rights would be violated by Measure G—thus facing drastic reductions in vital public services.
- A state judge already held that a similar measure in Monterey County was illegal and resulted in Monterey being exposed to massive legal liability.

Even the County’s own impartial analysis cited the risk of litigation resulting from the measure (7/20/2018).

We need a balanced approach as we transition to a clean energy economy, not the drastic energy shutdown caused by Measure G.
