

PRECINCT VIEW: MAP PRINTING GUIDE

SET UP THE MAP DISPLAY

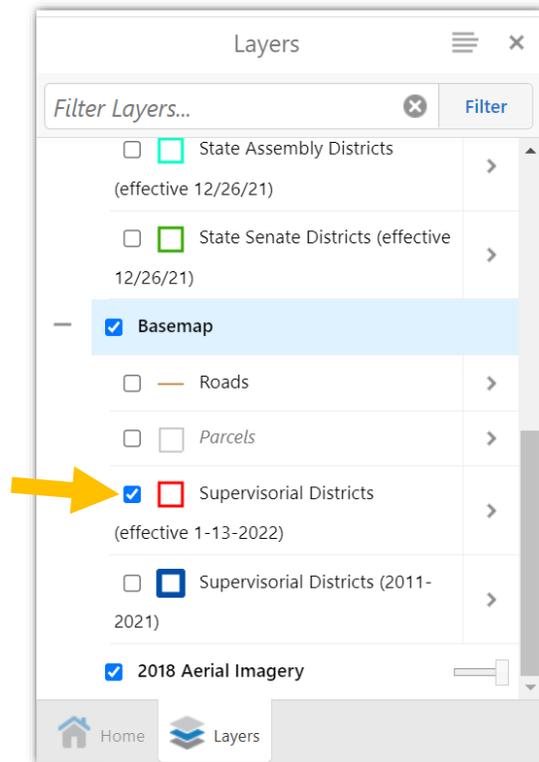

1. **Go to Precinct View:**

<https://gis.slocounty.ca.gov/sites/precinctview.htm>

2. **Go to Layers:** Click the “Layers” tab at the bottom left of the website.

3. **Select layers to display on the map:** Check the box next to a layer to display it; uncheck the box to hide a layer.

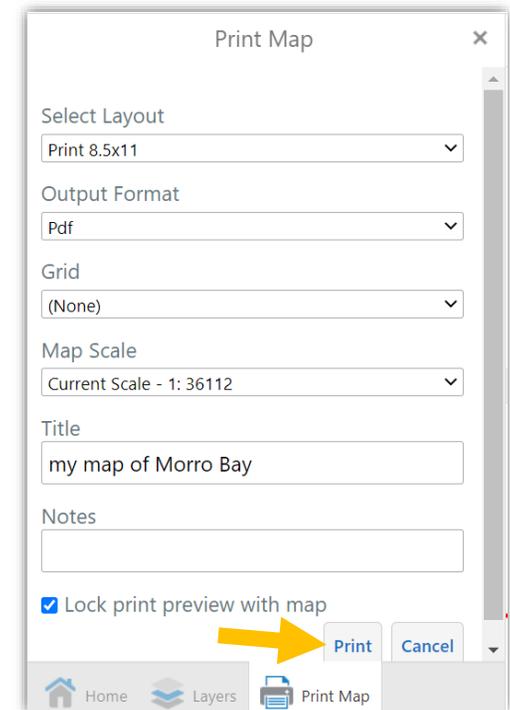

4. **Pan the map** by dragging the map with your mouse.
5. **Zoom into a location** by scrolling your mouse or using the plus and minus buttons near the upper left of the map.
6. When the map is displaying exactly the view you want to print, proceed to the next step.

PRINT THE MAP

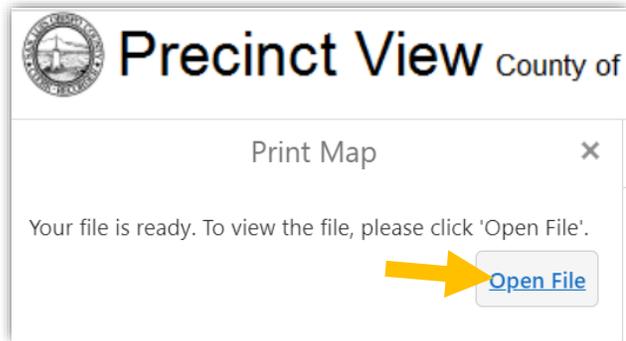

7. **Click the blue “I want to...” button** in the top left of the map. Then select “Print Map.”

8. **In the “Print” panel, select your desired print settings.** The pink shaded area on the map indicates the area that will be printed.
- “Select Layout”: Choose 8.5x11 or 11x17 inch size.
 - “Output Format”: PDF is the only option.
 - “Grid”: Prints a grid on the map. Recommended: either no grid or Latitude/Longitude.
 - “Map Scale”: “Current Scale” is recommended.
 - “Map Title” and “Notes”: You may write whatever you like.
 - “Lock Print Preview with Map”: If you uncheck this box, you may pan/move the map to adjust what gets printed.

9. **Click the “Print” button.**

10. Next, click “Open File.”

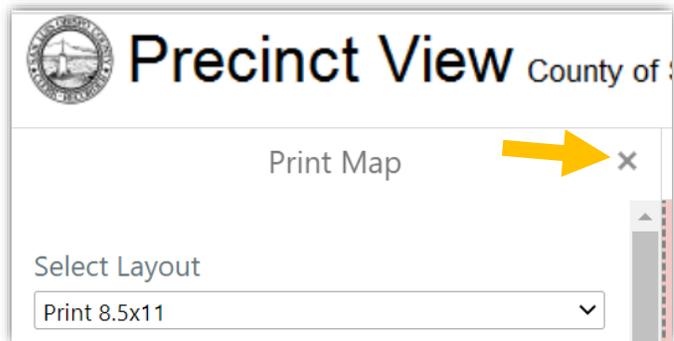

11. **Print your map** however you usually print documents, for example, by pressing Ctrl + P on your keyboard.

12. And/or you may **save** your map PDF file on your device.

PRINT ANOTHER MAP

1. To print a different map, **click the X** to close the Print panel.

2. Then drag and zoom the map display to show the location and scale you want.

3. **Repeat the printing process**, starting with clicking the blue “I want to...” button.
