The statue required the California Department of Health Care Services (DHCS) “to establish statewide requirements for counties or their representatives to use in developing certification programs for the certification of peer support specialists.”ill has passed. CalMHSA will be holding community input session throughout October to gather input from community on specific topics for program implementation. The sessions are virtual and run for 1.5 hours. Please feel free to forward information on listening sessions to your stakeholders. Information on CalMHSA Community Input Sessions are found here: [California Mental Health Services Authority | Peer Certification (calmhsa.org)]

   We are working with CALMHSA to have a standardized certification.
