SUBJECT: Procedures for Exemption of For-Profit Entities Giving or Selling Food for the Benefit of a Nonprofit Association at an Event.

INTRODUCTION:

The California Retail Food Code (CRFC), Section 113789 (c), allows for profit entities to be exempt while operating at an event. Specifically, this section exempts from regulation:

“(113789) A for-profit entity that gives or sells food at an event that occurs not more than three days in a 90-day period for the benefit of a nonprofit association, if the for-profit entity receives no monetary benefit, other than that resulting from recognition from participating in an event.”

Attached are documents to be completed by the for-profit entities requesting exemption, and documents to be completed by the nonprofit association receiving the benefit. Both sets of documents must be received in order to be considered for exemption.

These documents must be filled out completely and submitted to Environmental Health at least **two weeks** prior to the event in order to be considered for exemption.

Prior to consideration for exemption by the Environmental Health Services Division, approval must first be obtained by the city or the local jurisdiction where the event is to occur. If the exemption is approved, the sponsoring non-profit organization requesting the exemption will receive an approval letter. You are hereby notified that if this application is accepted, **Environmental Health will not be conducting inspections of exempt food vendors operating at this event.** Accordingly, the Environmental Health Services recommends that you obtain the guidance of a professional Environmental Health Specialist or other inspection service to help ensure healthful, sanitary and safe conditions for members of the public attending the event. Environmental Health will contact you if any questions arise regarding the documents submitted.
