Just like motorists, bicyclists are also responsible for communicating with other road users. Let others know what direction you are turning or if you are stopping. Hand signals are a bikers equivalent of blinkers and backup lights! Follow road rules and be predictable!

**View from the back**

- Left turn hand signal
- Right turn hand signal
- Stop hand signal

Funding for this program is provided by a grant from the California Office of Traffic Safety, through the National Highway Traffic Safety Administration.
