

Requirements for Managing Project Waste

Requirements for Managing Project Waste

Under WASTE MANAGEMENT in your Construction Permit Application you must select either:

- a. use an Integrated Waste Management Authority (IWMA)-certified construction and demolition waste recycling facility. or
b. use other recycling and disposal facilities.

Please select (a) or (b) on back of this form.

Your choice means:

- a. Use an IWMA-certified construction and demolition waste recycling facility. Check this if your construction and demolition waste is going to the following facilities.

Table with 2 columns: Facility Name, Contact. Rows include C&D Recycling Facility at Cold Canyon Landfill, Chicago Grade Landfill, North SLO County Recycling, API (roll-off/debris box company), R&R (a roll-off/debris box company), Recycling Facility at the Paso Robles Landfill, Santa Maria Transfer Station, Bedford Enterprises/SMART, Health Sanitation Service.

By using the above IWMA-certified recycling facilities for your construction and demolition (C&D) waste, you have met the requirement to recycle 75% of your waste. You can either hire a hauling company or haul your C&D waste yourself to these facilities. Call for rates and hours of operation.

- b. Use other recycling and disposal facilities. Check this if your C&D waste is NOT going to the C&D recycling facilities listed above. If you choose this option, before your building permit can be issued you need to fill out an extra form (a Detailed Recycling Plan) that shows how you will recycle 75% of your C&D waste. The form is available from the Building Division (805-781-5628) or at http://www.slocounty.ca.gov/planning/formslibrary.htm.

Receipts. With both Option A or Option B, at the end of your project you must submit all the original receipts from any recycling and/or disposal facility that received waste from your project. (Be sure that the receipts from Cold Canyon Landfill, Chicago Grade Landfill, Paso Robles Landfill, and the Santa Maria Transfer Station indicate that you used the C&D recycling area.) Your receipts must be submitted and approved before you can receive the Final Building Inspector Approval. If you select Option B, before you receive the Final Inspector Approval you also need to fill out another part of the Detailed Recycling Plan that shows you recycled the required amount of project waste. Do NOT use a regularly scheduled garbage/recycling collection service because you will not have proper documentation for the amount of waste generated and where it went.

Requirements for Managing Project Waste

SLO Green Building Ordinance requires that you recycle 75% (by weight) of the waste your construction or demolition project generates. Waste includes anything you discard from the site, such as wood scraps, cardboard, drywall, flashing, paint or other finishing products, tools, concrete, asphalt, plastic bags, remnants of insulation, etc.

Before you receive a construction permit you must tell the County how you will handle the project’s waste stream. As noted above, there is a place to do this on the Construction Permit Application, or on the other side of this paper, or on the form on the web. Failure to achieve the recycling goal could result in delays in receiving Final Inspection Approval and result in a Code Enforcement Case against your property. Code Enforcement Fees must be paid before receiving Final Approval.

Simplified Recycling Plan

WASTE MANAGEMENT

You need to review the Requirements for Managing Project Waste information on this form and then check the box that fits your project. You must check one of the boxes prior to permit issuance. Note: IWMA means Integrated Waste Management Authority. Are you planning to;

- A) use an IWMA-certified construction and demolition waste recycling facility? or
- B) use other recycling and disposal facilities?

If B is checked, you must fill out Sections 1 & 2 of a [Detailed Recycling Plan](#) form and have it approved prior to the permit being issued. For a copy of the Detailed Recycling Plan form, use the web: <http://www.slocounty.ca.gov/planning/formslibrary.htm>. or contact Building Div. (781-5601). For more information and a list of certified facilities read the **Requirements for Managing Project Waste** on this form.

Prior to a construction permit being issued, this form must be signed and faxed to 805-788-2414, or emailed to saldana@co.slo.ca.us or mailed to Recycling Attn: Sylvia Aldana, Building Division, County Government Center, Room 200 Old County Courthouse, San Luis Obispo, CA 93408

LEGAL DECLARATION

I, the owner of record of this property, or authorized agent, have accurately completed this form and declare that all statements herein are true. I acknowledge the responsibility for recycling my project’s waste and the penalty for non-compliance. I agree to comply with the requirements of the State Green Code and SLO County’s Green Ordinance

Property owner/Agent signature _____

Date _____

Seven days prior to Final Inspection you must submit receipts from all of the recycling and landfill facilities that received waste from your project.
