## WEEKLY REPORT OF ENVIRONMENTAL DOCUMENTS AVAILABLE FOR REVIEW (“Courtesy Notice”)

The purpose of the environmental review process is to provide information about the environmental effects of the actions and decisions made by the County, so that these considerations become a part of the decision-making process. The following is a summary of the most recent determinations made by the County’s Environmental Coordinator; these weekly Courtesy Notices can be viewed online at [slocounty.ca.gov/CourtesyNotice](http://slocounty.ca.gov/CourtesyNotice). The purpose of this listing is to notify the public of pending actions, which may affect the environment of San Luis Obispo County. You are invited to participate in this process by reviewing and providing comments on the recommendations of the Environmental Coordinator. Your comments should be addressed to the Environmental Coordinator (address at end of document). For more information about the environmental review process, please visit: [slocounty.ca.gov/EnvironmentalReview](http://slocounty.ca.gov/EnvironmentalReview)

### Proposed Negative Declarations

A Negative Declaration is issued for projects that would not result in significant effects on the environment. In many cases, the project applicant has added mitigation measures to the project to reduce environmental impacts in order to qualify for a Negative Declaration. If you disagree with the issuance of a proposed Negative Declaration, you may provide comments or file a Request for Review (appeal) of the Negative Declaration. Requests for Review must be filed within two weeks of the date that the proposed Negative Declaration is posted and must address only environmental issues. There is a fee for the request. If you would like more information about this process, please contact the Environmental Coordinator.

**For the week of January 31, 2022 – February 4, 2022** (*click each individual project title to view the documents on our [CSS Portal](#)*)

Mitigated Negative Declaration

### [Jack Creek Road at Paso Robles Creek Bridge Replacement Project](#)

SCH Number: [2022020122](#)

A Mitigated Negative Declaration (MND) has been prepared and issued for the County of San Luis Obispo Department of Public Works Jack Creek Road at Paso Robles Creek Bridge Replacement Project. The purpose of this safety improvement project is to replace the existing structurally deficient bridge with a cast-in-place concrete box girder 2-span bridge approximately 225-feet-long and 28-feet-wide. The new bridge will be designed to carry emergency vehicles and improve access to the public and properties served by Jack Creek Road. Construction will be scheduled during the non-rainy season when conditions are dry, or creek flows are at their lowest, however creek diversion and dewatering will likely be required. Avoidance, minimization, and mitigation measures will be implemented to ensure project impacts are less than significant. The bridge is located within the North County Planning Area, Supervisorial District 1, approximately 6 miles west of the community of Templeton on Jack Creek Road.
