No public comment was given.

V. Information Items

A. 3rd Quarter FY 20/21 Budget Status – County Public Works Finance Admin. Services Manager, Sherri Weiss, provided an update on the 3rd Quarter Budget Status (Attachment 4 of the Agenda Packet). The $6.3M budget was broken into three categories: Routine Operations & Maintenance, Non-Routine Operations & Maintenance, and Capital Outlay. At the end of the third quarter, 50% of the total annual budget had been expended.

All agencies are current on their payments. 1st installment billings for FY 20/21 will be mailed by June 1st and payments are due July 1st.

**B. Cloudseeding Update** – A brief verbal update was provided, no cloudseeding events to report on as the rain season ended in April.

No public comment was given.

**C. Contract Changes Update** – A brief verbal update was provided on the status of the contract changes. An admin draft of the CEQA document is currently in review, the document was also shared with WSC for further review and any additional comments. Document is not currently available for public review. The procedural portions of the contract are currently being worked on and running through different scenarios to test that those procedures will work as intended.
D. WY 20/21 Surplus Water (Attachment 5 of the Agenda Packet) – A verbal update was provided; TAC made the request for everyone to consider voluntary water reductions to help conserve water based on the discussions surrounding the LRRP and drought conditions before the 15,000 AF mark is met.

No public comment was given.

VI. Capital Projects Update

Bi-Monthly Update – Updates were provided on the various capital projects (Attachment 6 of the Agenda Packet).

In discussing the Geotechnical Testing & Seismic Alternatives Study of the Terminal Reservoir, $89,000 was budgeted for developing the scope of work needed for the testing and alternatives study, but Sherri Weiss noted there is $500,000 from the Zone 3 agency reserves to be used in FY 21/22 for the Terminal Reservoir project. Mark Chiaramonte followed up in stating the $500,000 reserves will be split by dedicating $300,000 for the physical testing and $200,000 will be used for an alternative study in decommissioning the Terminal Reservoir. The decommissioning of the reservoir will depend on the geotechnical testing to be conducted.

No Public comment was given.

VII. Action Items (No Subsequent Board of Supervisors Action Required)

No Action Items discussed.

VIII. Action Items (Board of Supervisors Action is Subsequently Required)

A. 2021 UWMP Draft and Presentation (Attachment 7 of the Agenda Packet) – Dan Heimel presented the Urban Water Management Plan (UWMP) draft. This is a required planning document by the California Water Code that is to be completed every 5 years and submitted to DWR.

The UWMP supports long-term supply and drought planning, ensure supplies meet existing and projected demands over a 25-year horizon through 2040, provide framework for conservation and drought response, and is a pre-requisite for certain loans and grants. Adoption of the Water Shortage Contingency Plan (WSCP) in the UWMP does not constitute adoption of the LRRP as it is a proposed plan Zone 3 has prepared to prepare for and respond to water supply shortages. The WSCP incorporates components of the LRRP.

Steps for Adoption:

1. Draft Review by TAC
2. Draft reviewed by agricultural stakeholders
3. Policy direction provided by any Contract Agency Governing Boards are considered
4. Zone 3 AC review and approval
5. Zone 3 Contract Agency Governing Boards formal approval by resolution
6. Final approval by the BOS
An inquiry was made as to how soon comments would need to be submitted for the UWMP and when the deadline is for the plan to be submitted. Laura Holder stated the UWMP will need to be submitted by July 1st and will be presented to the BOS July meeting for adoption approval. Comments should be submitted within the next few weeks to meet the July deadline.
