12:00 – 12:30 PM: Assorted Q & A
Introductions and Overview

• Instant Overview of Post-Construction Requirements

• County Application Intake and Review

• Plan Review and Inspection Staff
Overview of Post-Construction Requirements

1. Central Coast Post-Construction Requirements
   • Applies to all areas **inside** the County’s MS4 Permit Coverage Area.

2. Construction General Permit for Stormwater
   • Applies to all areas **outside** the County’s MS4 Permit Area.

MS4: Municipal Separate Storm Sewer System
How do I know if my project is in the MS4 Area?

**Step 1:** Browse to County Planning & Building webpage.

(Look for Land Use View application. Towards the bottom, in left menu pane.)
How do I know if my project is in the MS4?

**Step 2:** Launch Land Use View via Planning & Building webpage.
How do I know if my project is in the MS4?

Step 3: Click on the Layers Tab.
How do I know if my project is in the MS4?

**Step 4:** Type MS4 into the Layers filter box.
**Step 5:** Check box to turn on the MS4 Coverage Areas Layer.
**Step 6:** Enter parcel number or address, zoom to location on map.
Planning & Building receives applications for construction on individual parcels.

(Residential, Commercial, Industrial, Grading.)

Planning reviews zoning rules and conditions of tract.

Building reviews structural, mechanical and grading.

Public Works reviews drainage, roads, encroachment, and public improvements (curb, gutter, sidewalk).

Planning & Building or Public Works may require a SWPPP if necessary.

Public Works will review flood control and drainage requirements.

Applicant enrolls in Construction General Permit, includes Post-Construction documentation in Stormwater Pollution Prevention Plan (SWPPP).
Planning & Building receives applications for construction on individual parcels.

(Residential, Commercial, Industrial, Grading.)

Planning reviews zoning requirements and conditions of tract.

Building reviews structural, mechanical and grading.

Public Works reviews drainage, roads, encroachment, and any public improvements (curb, gutter, sidewalk).

Planning reviews may require a SWPPP if necessary.

Public Works reviews Stormwater Control Plan, determine if CCM Case is required.

Building opens a Condition Compliance Monitoring Case and requires an Operations and Maintenance Agreement.

Applicant records Agreement with Building Division or incorporates maintenance into CC&Rs with Planning Division.
