Footnote #	Footnote Narrative
1	Under the authority of the Health Officer and mandate of the Department of Public Health to prevent the spread of communicable diseases or occurrence of additional cases (California Health and Safety Code section 120175), fees may be waived or reduced to an amount a patient is able to pay.
2	Sliding fee scale based on household income and number of dependants.
3	Fees may be reduced to comply with state or federal mandates and funding available.
4	At the discretion of the laboratory director, a substitute test may be used in place of an ordered test if the substitute test has comparable or superior performance characteristics and minimally detects all targets of the ordered test. Circumstances that may prompt substitution include supply inventory and overall cost efficiency. The fee charged will be the lower fee between the substitute and ordered tests.
