## ELECTION OBSERVER PANEL PLAN

---

### PURPOSE

The purpose of the Election Observer Panel is to:

1. Provide a means for public observation of the election process for Department transparency.
2. Maintain the integrity of the election process.
3. Encourage participation and build voter confidence in the election process.

### PROGRAM INTEGRITY AND SAFETY

Ballot security is our primary concern. Violation of security by an observer will result in their removal. Should the number of observers become so great that it interferes with any of the observable election operations, the County Clerk-Recorder will limit the number of observers who will be allowed to enter areas where operations are taking place. Upon departure, observers will need to return assigned badges, clipboards, pens, and instructions.

For the safety, security, and efficient operation of the **Central Counting and Vote-by-Mail (VBM) Processing area**, observers may not bring backpacks, luggage, oversized purses, large tote bags, or other bulky storage items into the processing area. For purposes of these guidelines, "oversized" items include any bag or container that cannot reasonably fit underneath a standard chair or within the observer's immediate personal space without obstructing walkways, work areas, or access points. Observers will be asked to secure such items elsewhere prior to entering the observation area. The County is not responsible for the storage or security of personal belongings.

### PROCEDURES AND GUIDELINES

For all elections held in the County of San Luis Obispo, the County will invite participation in an Election Observer Panel under the following guidelines. These guidelines will enable the Election Observer Panel and the public to view all procedures at the polls, the vote tabulation process on Election Night, Vote-by-Mail ballot processing and counting, and canvass procedures, while ensuring the elections staff will be able to maintain election integrity and the timely processing of ballots and election materials.

## OBSERVATION IN GENERAL

---

Elections observers should be aware that in general, the law provides elections officials with some discretion in terms of how various observation laws are applied. Furthermore, how a law is applied will vary from jurisdiction to jurisdiction for reasons including, but not limited to:

- The size and configuration of the elections office.
- The staffing levels that the county elections official is able to afford.
- The number of observers who are requesting access to a particular process.

The County Clerk-Recorder has requested participating organizations to designate a representative to observe specific processes during the election period. Per California Elections Code 15004, an organization may have a maximum of two representatives present to observe.

Organizations are responsible for assignment, conduct, and activity of their representatives.

Each organization is to provide the observer contact with the name of their designated representative(s) participating in the Observer Panel Program along with the process(es) they will be assigned to observe.

The Elections Division provides a 'Schedule of Events,' overview of election operations in San Luis Obispo County, list of polling place locations, ballot processing location, and observer rules.

The Elections Division requests observers to contact our office to ensure that the operation they want to observe will be occurring. This will also assist the Division in ensuring that the number of observers present will not exceed the capacity limits for the space in which the operation is occurring. All observers will be required to sign in and sign out when attending any of the Vote-by-Mail activities.

A voter or any other person shall not be prohibited from using an electronic device, including a smartphone, tablet, or other handheld device, at a polling place provided that the use of the device does not result in a violation of Section 14221, 14224, 14291, 18370, 18502, 18540, 18541, or any other provision of the Elections Code.

## AREAS AVAILABLE FOR OBSERVATION

---

### **ELECTION DAY**

#### **Polling Place Observation**

See the List of Polling Places for locations.

Polling Places will be open from 7:00 am – 8:00 pm on Election Day, June 2, 2026.

- 1) Election observers must check in with the polling place Inspector/Lead Inspector in charge and if available, show them a copy of the letter provided by the County Elections Office.
- 2) **Any questions concerning procedures at the polling place should be directed to the Polling Place Inspector/Lead Inspector** in charge to help limit disruption to the voter processing. Any concerns regarding the operation or procedures at a polling place should be directed to the County Elections Official and not the Polling Place Inspector.
- 3) Only voters engaged in receiving, preparing, or depositing their ballots and persons authorized by the precinct board to keep order and enforce the law may be permitted to be within the voting booth area before the closing of the polls.
- 4) Only members of the precinct board, and persons while signing their names on the ePollbook/roster, shall be permitted, during the hours within which voting is in progress, to sit at the desk or table used by the precinct board.
- 5) Any person may inspect the ePollbook/roster while voting is in progress and while votes are being counted. However, this shall not be done at a time or in a manner which will impede, interfere, or interrupt the normal process of voting.

### **OBSERVATIONS RIGHTS AND RESPONSIBILITIES**

---

Prior to the election, observers will receive a copy of the rules for election observers along with a schedule of events. Ballot security and staff and observer safety are our primary concerns and all person(s) who view this process must agree to follow the rules outlined below:

#### **OBSERVERS HAVE THE RIGHT TO:**

- Observe, check, and review pre-Election Day activities, as permitted by law, such as voting equipment preparation and testing and Vote-by-Mail ballot retrieval and processing.
- Specifically, with regard to VBM processing: Maintain sufficiently close access, as determined by the elections official, to enable them to observe VBM identification envelopes, the signatures and dates thereon, and the manner in which Vote-by-Mail ballots are handled and counted. Observers shall not, however, interfere with the orderly processing of VBM envelopes and ballots, including touching or handling of ballots.

- Observe the proceedings at polling places, including the opening and closing procedures.
- Obtain information from the voter list that is posted or otherwise available at the polling place, so long as it will not impede, interfere, or interrupt the normal process of voting
- Take notes and watch election procedures.
- View election-related activities at the central counting site on Election Day.
- View the canvass of the vote activities following the election.
- Ask questions of poll workers, as long as they do not interfere with the conduct of any part of the voting process; the elections official may designate a member of the precinct board to whom an observer may ask questions at the polling place.
- Ask questions of supervisors at the central counting site, as long as they do not interfere with the conduct of the election procedures; these may include questions about signature verification process and technology used to verify VBM identification envelopes, and elections officials will provide answers to questions posed as soon as is reasonably practicable.
- Use an electronic device, including a smartphone, tablet, or other handheld device, at a polling place provided that the use of the device does not result in a violation of any other provision of the Elections Code.
- Observe the retrieval of Vote-by-Mail ballots from official ballot drop boxes and Vote-by-Mail drop-off locations. (Cal. Code Regs., tit. 2, § 20873(g))
- Observe the activities of the semifinal official canvass and the official canvass, beginning when the elections official starts processing Vote-by-Mail ballots through certification of results. (Cal. Code Regs., tit. 2, §§ 20873(h)–(i))

### **ELECTIONS OFFICIALS HAVE THE RIGHT TO:**

- Use discretion in determining a sufficiently close distance for observers to stand from the process they want to observe.
- Require observers to be quiet inside the observation area.
- Use discretion to determine how (e.g., written or verbal) and to whom observers may pose questions and challenges during the observation process.
- Restrict the number of observers permitted in a room to prevent interference with the observed process.
- Restrict the items observers may bring with them into the polling place or central counting site, such as cell phones, large bags, or back packs, etc.
- Give verbal or written warning to an observer who is not following observation rules, with an explanation of the rules not being complied with; if the observer remains non-compliant, the elections official may require that person to leave the observation area or the premises.

### **OBSERVERS ARE RESPONSIBLE FOR:**

- Checking in at each site, whether the polling place or central counting site.
- Wearing an identification badge provided by the elections official; observers may wear their own identification, but it may not include electioneering information or information that could intimidate a voter.
- Maintaining a professional manner while observing the election process.
- Ensuring they do not disrupt or interfere with the election process.
- Following established county observation rules/policies.

### **ELECTIONS OFFICIALS ARE RESPONSIBLE FOR:**

- Maintaining the integrity of the administration of the election and determining observer misconduct or interference.
- Abiding by any local, state, or federal health and safety directives in place during the time the election is conducted.
- Using reasonable measures to ensure that voter registration information that is deemed confidential by Elections Code is not visible to election observers.
- Establishing security rules for public observation. Examples of such rules are the use of sign-in sheets and identification badges, and elections officials will designate a check-in area.
- If necessary to provide an equal opportunity for those observers present, the elections officer shall provide for a rotation of observers or provide a random lottery-type drawing.
- Providing notice to the public of the dates, times, and places of election-related activities that may be observed by the public, as required by law. For example, elections officials are required to provide 48 hours' notice for Vote-by-Mail (VBM) ballot processing and five days' notice of the postelection one percent manual tally.

### **OBSERVERS MUST NOT:**

- Interfere with the conduct of the election. The elections official is entitled to determine whether a person is interfering with the conduct of the election.
- Physically handle any voting materials or equipment.
- Move or rearrange tables, chairs, or voting booths at the polling place or central counting facility.
- Sit at the official worktables or view confidential voter information on any computer terminal or document.
- Communicate with voters within 100 feet of the entrance to, or inside of, a polling place, a vote center, an elections official's office, or a satellite location by encouraging

them to vote for or against a person or a measure or regarding the voter's qualifications to vote. Exit polling of voters is permitted, provided it is conducted at least 25 feet away from the entrance to the polling place.

- Directly challenge a voter. Only a member of a precinct board may do so, based on evidence presented.
- Engage in any electioneering activities.
- Display any campaign material or wear campaign badges, buttons, or apparel.
- Wear the uniform of a peace officer, a private guard, or security personnel.
- Talk to or attempt to stop poll workers or the central counting site workers while they are processing ballots.
- Use the telephones, computers, or other polling place facilities at polling places or the central counting site.
- Touch election personnel.
- Eat or drink in a polling place or the central counting site.
- Assist in operations at any polling place or the central counting site.
- Prevent other observers from observing materials or a process.
- Enter secure areas, or any area other than an identified observation area, without express permission of the elections official.

#### **ELECTIONS OFFICIALS MUST NOT:**

- Delay, interrupt, or halt scheduled operations and processes solely because an observer is or is not present.
- Intentionally configure observation locations in a manner that impedes or obstructs an observer's ability to observe an elections process or activity. (Cal. Code Regs., tit. 2, § 20876(i))
- If a remote live video feed is used in response to a threat or emergency that impairs in-person observation, fail to provide a mechanism for election observers to ask questions and make challenges about the process being observed. (Cal. Code Regs., tit. 2, § 20876(h))

#### **VOTER CHALLENGE PROCEDURES**

- Observers, other voters, or members of the public are prohibited from challenging other voters at the polls. As provided in Elections Code 14240, only a member of the precinct board may challenge a voter and they must have evidence that at minimum establishes probable cause.
- Per Elections Code 15105, challenges made to a VBM ballot voter may be made for the same reason as those made at a polling place. In addition, a challenge may be entered on the grounds that the ballot was not received within the time provided by this code or that a person is currently serving a state or federal prison term for the conviction of a felony.
- All challenges to VBM voters shall be made prior to the opening of the identification envelope of the challenged VBM voter, and per Elections Code 15106, the challenger has the burden of proof because the voter is not present. An example is a challenge that asserts a voter was deceased before VBM ballots were mailed; the challenger must provide a copy of the death certificate.
- Any challenge made will be documented by the elections official, made available to election observers and include the following information:
  1. the name and organization (if applicable) of the challenger,
  2. a description of the proposed issue,
  3. the date and time the issue was reported,
  4. the type of election equipment used at the location/station where the problem was noted (identification number, make, model, and serial number),
  5. pictures of sufficient quantity depicting the right details and positions necessary to document the problem(s) associated with the challenge, and
  6. the ultimate resolution and disposition of the challenge.
- The elections official has the discretion to halt challenges from a person or group if multiple challenges are being made and those challenges are disrupting the processing of Vote-by-Mail identification envelopes. In that case, the person or group retains the right to submit written challenges for the elections official to review at a later time. Additionally, if the elections official determines that challenges appear frivolous or meritless, the elections official may halt the challenge process for those making such challenges in order to prevent interference with the conduct of the elections process.
- Any doubt in the interpretation of the Elections Code applicable to a challenge shall be resolved in favor of the challenged voter.
- Upon the resolution of a challenge, the elections official will provide the observer with an oral or written disposition of the challenge as soon as is reasonably practicable, and the elections official must ensure that no confidential voter registration information is disclosed.

If they do not have their ballot to surrender, the poll worker will contact the Elections Office to see if a ballot has been returned by the voter and accepted by our office.</p> <p>If a ballot has not been received, the office staff will void the Vote-by-Mail ballot issued so the Vote-by-Mail ballot can no longer be accepted, and the voter can vote at the polls.</p> <p>If we are unable to determine the status of the ballot at that time, the voter will need to vote a provisional ballot.</p>
Through Close of Business	Ballot drop box retrievers will secure all open drop slots at the close of business at each location. Once poll ballots have been received at Central Tally – until completed	<p>Voted ballots will be scanned into batches by operators on the Central Count machines. Once the ballots for the polling place have been counted, the ballots are sealed in their transport boxes and stored in the secure Ballot Room.</p> <p>Completed batches are sent to the Tally and Results server. ## VOTE-BY-MAIL PROCESSING

---

Vote-by-Mail (VBM) Ballots are returned by mail or submitted in-person to a secure official ballot drop box, election office or a polling location.

VBM Ballots are entered by the return method and indicate the date they were received. VBM Ballots go through a number of steps to be validated and prepared for counting.

### **First Step - Ballot Sorting and Signature Verification**

- 1) Returned Vote-by-Mail ballot envelopes are scanned on a sorter which endorses the envelope with the election name, date scanned, batch number, and envelope number. Envelopes that are unable to be read by the machine are out-sorted and handled manually.
- 2) Scanned envelopes are stored unopened in batches until they are verified.
- 3) All scanned envelope images are imported into the Election Management System, where staff who have been trained on the criteria in state regulations for verifying signatures review every signatures to determine if they match each voter's signature on file.
- 4) If the staff determines the signatures do not match, the ballot envelope will be challenged as "In-Review."
- 5) Any ballot envelopes flagged as "In-Review" will be provided to a supervisor for further inspection. If it is still determined that the signature does not match, the challenge code will be updated to "Sig Non Match" and the elections office will outreach the voter, who will then have until 5:00 pm two days prior to the certification of the election to submit a Signature Verification Statement. If a Signature Verification Statement is received timely with a matching signature, then the ballot can be counted.

If a voter fails to sign their ballot return envelope, a challenge code of "No Signature" will be entered and the voter will be outreached to complete an Unsigned Ballot Statement which must be returned to the election's office no later than 5:00 pm two days prior to the certification of the election.

Ballots requiring either statement will remain challenged with the appropriate status until the curing statement has been received by our office and the ballot disposition is changed to "Good." If no curing statement is returned, the ballot status will remain challenged.

## **Second Step - Extraction**

---

Verified ballots are manually extracted from their return envelopes by batch. The emptied envelopes are boxed for storage, and the ballots are kept in batches of 50 to be examined for damage and prepared for counting.

## **Third Step - Flattening and Inspection**

---

A batch of 50 ballots is given to a staff member who inspects the ballots for any tears, identifying marks such as signatures or initials, red ink, and pencil. The staff member also flattens the ballot by back bending the ballot at the folds and ensures all ballots face the same direction. Ballots that need to be remade prior to tabulation are given to the lead staff for replacement ballots so that the number of ballots in a batch remains at 50.

## **Fourth Step - Remaking Ballots (Duplication)**

---

Three staff members will participate as the Duplication Board. One board member will hold the original ballot and call out every vote that the voter had marked. Another board member will mark the same vote choice on a "new" ballot. The final board member will observe the original vote that was called and the corresponding "new" vote choice that is made to ensure that they match. These ballots will then be bundled into batches of 50 and prepared for tabulation.

## **Fifth Step - Tabulation and Adjudication**

---

Ballots that are ready for tabulation will be scanned into tabulators in batches of two hundred. Four tabulators are available for use. After scanning, ballot batches are sealed into boxes, labeled with the batch number, and stored in the secure Ballot Room. Tabulated ballot images with write-in votes, overvotes, or marginal marks will be viewed by elections staff and adjudicated based on the California Secretary of State Regulations and Voting System Standards.

## OFFICIAL CANVASS TASKS

---

Listed below are the major components of the official canvass. These components must be performed in a particular order as identified below:

- 1) **Vote-by-Mail Ballots**: Vote-by-Mail ballots that are received timely, either by 8:00 pm on Election Day or received by mail no later than seven (7) days after Election Day and are postmarked on or before Election Day, are processed and tabulated.
- 2) **1% Manual Tally**: A 1% manual tally of ballots cast in the semi-final official canvass is conducted to verify the tabulation equipment's accuracy. On **Tuesday, June 16, 2026, at 9:00 am** staff will randomly select 1% of the polling place precincts and 1% of the batches counted on central count machines included in the semi-official results. Staff will then begin a hand tally to confirm that the manual count matches the machine count.
- 3) **Conditional Voter Registration and Provisional Ballots**: Voters who did not register by the close of registration have the option to register and vote a Conditional Voter Registration Provisional Ballot. As these voters registered after the rosters are printed, they are processed and counted at the end of the canvass period to ensure they did not vote in another county or in San Luis Obispo County.  
  
Provisional ballots are processed by checking the voter registration file to verify the voter's eligibility to cast the ballot, confirming that the signature on the provisional ballot envelope matches the voter's signature on their registration record, confirming the voter cast the ballot in the correct precinct, and confirming the voter has not returned a ballot by any other means. Once verified and approved for opening, the ballot is added to the official count.
- 4) **Damaged Ballots**: Damaged ballots that were unable to be processed by the tabulation equipment, which includes torn ballots, will be duplicated. Once the duplication is completed the ballots will be counted.
- 5) **Unsigned Ballot and Signature Verification Statements**: Process all Unsigned Ballot and Signature Verification Statements, validate Vote-by-Mail return status, and count ballots for those voters.
- 6) **Certification of the Election**: The certification of the election occurs no later than 30 days following the election and is completed once the tasks above and all other canvass procedures are completed.
