**DISTRICT ATTORNEY AND CAL POLY ANNOUNCE NEW
STATEWIDE PARTNERSHIP TO COMBAT CYBER CRIME IN
CALIFORNIA**

Media invited to grand opening and tour of new Central Coast Cyber Forensics Lab (CCCFL), the first active facility in the new California Cyber Training Complex (CCTC), on March 1

- WHAT:** Ribbon cutting and media tours for Central Coast Cyber Forensics Lab (CCCFL), part of the brand new California Cyber Training Complex (CCTC), which is a collaborative partnership between Cal Poly, the San Luis Obispo County District Attorney's Office, the California National Guard and other statewide partners. The cyber education center will become an important training ground and collaboration space for current and future cyber defenders, as they face the increasingly complex and growing problem of cybercrime.
- WHEN:** Wednesday, March 1
10 a.m. to noon
- WHERE:** Camp San Luis Obispo
Highway 1
- ABOUT:** In partnership with Cal Poly and under the District Attorney's management, the CCCFL will provide each participating law enforcement agency with tools and capabilities needed for high-tech evidence collection. The CCTC will serve as a statewide hub that provides the latest training and support required to identify, investigate and prosecute cyber-crime. Military personnel and law enforcement from across the state will be able to use the center to learn and practice the latest cyber forensics and defense techniques, and Cal Poly students will get a true Learn by Doing experience by using real world examples in classroom curriculum. For more information, visit cctc.calpoly.edu
