## What Students are Saying

*"In FNL I've been able to start a project, led by myself, solving issues I care about... I feel that I have made a name for myself as someone who genuinely cares about change and I feel I have learned many good skills."*

*"Friday Night Live is important to me because it's an environment that supports students. It educates people on such a wide variety of important issues or topics. Not only have I gained knowledge about the dangers of drugs, alcohol, and distracted driving, but I've also gained so many different skills and experiences that have helped me grow and will continue to help me grow after high school."*
