	ACTION
<b>CALL TO ORDER</b>	<b>1:35 PM</b>
<b>Introduction</b>	
<b>Announcements</b> None	
<b>Public Comment</b> No public comment	
<b>APPROVAL OF PREVIOUS MINUTES</b>	
<b>Approval of May 16th minutes</b>	M. Bronson Motioned, D. McCrain Seconded. Call for a vote (roll call), all approve.
<b>ACTION ITEMS/DISCUSSION ITEMS</b>	
<b>Update on GIS Maps, MEDCOM, Emergency Transport Contract</b> The Emergency Transport Contract was discussed, as were GIS Maps and implementing them into Image trend and Medcom.  Discussion <b>Emergency transport contract.</b> N. Drews – The contract moved through the board has been signed and is being implemented.  <b>Update on GIS Maps/MEDCOM.</b> B. Mulkerin – We are trying to implement the new GIS Maps into CAD, which should be implemented by the end of August. J. Stornetta – Is there a contingency plan if they cannot get it into the system in the near future? B. Mulkerin – Entering them in one by one is an option. J. Stornetta – That is option C. P. Borenstein – Is there no option to use the old maps in the meantime? J. Stornetta – What about what we do in Paso? It populates all the calls on our map, would that work? J. Stornetta – It is a contingency. We can give them until the end of August, but we need a plan B. C. Javine – Even if you are doing a manual process, you are probably only looking at outliers that fall outside the current areas. J. Stornetta – Is the group okay with waiting until August? N. Drews – I think waiting until August is fine, but we should look at other ways and whether additional resources are needed.  <b>Ambulance Response times for June 2024.</b> R. Rosander – Out of compliance in only one zone. J. Stornetta – When was the 24-hour car put on? C. Javine – The 26 <sup>th</sup> of June. J. Stornetta – Did you see decreases in percentages elsewhere with the implementation of that car?	

	<b>ACTION</b>
<p>C. Javine – Saw some residual effects, but we are also moving as much around, and the 12-hour cars are moving in a different pattern than they have in the past.</p> <p><b>Motion to accept the maps and the review of response times.</b></p>	<p>N. Drews Motioned, M. Bronson Seconded. Call for a vote (roll call), all approve.</p>
