<https://inspections.myhealthdepartment.com/ca-san-luis-county>

**Facility Name:** BLACK ROSE TATTOO CO

**Facility ID:** FA0015580

**Site Address:** 671 W TEFFT ST STE 3, NIPOMO

**Record ID:** PR0021052

**Program Description:** 1501 - BODY ART FACILITY PERMIT

**Inspection Date:** 02/21/2024

**Type of Service Description:** REGULAR INSPECTION

**Inspection Result Description:** MINOR VIOLATIONS

**Department Action Description:** NEXT REGULAR

**Overall Inspection Comments:** No active body art procedures were taking place during time of inspection.

**Violation Item**

**Comply By Date** **Complied On Date**

**BA12: Training Records are Maintained and Available for 3 Years**

**02/28/2024**

**Uncorrected as of 5/2/2025**

Observed only 1-2 years of blood borne pathogen (BBP) training for practitioners. Ensure all practitioners maintain and have available the last three years of BBP training. Ensure the BBP training is at least two hours in length and is from the pre-approved courses listed on the EHS website.

**BA20: Adequate Handwashing Sinks, Supplied and Accessible**

**02/21/2024**

**Uncorrected as of 5/2/2025**

Observed no pump soap or paper towels at two of the hand wash sinks. Ensure ALL hand wash sinks are fully stocked with wall-mounted, touchless soap and paper towel dispensers. Facility had one hand wash sink fully stocked.

**BA57: Purchase/Procedure Logs are Maintained for 90 Days**

**02/21/2024**

**Uncorrected as of 5/2/2025**

Observed no purchase/procedure logs for pre-sterilized equipment. Per the CA Safe Body Art Act, "In place of the requirements for maintaining sterilization records, the following records shall be kept and maintained for a minimum of 90 days following the use of the instruments at the site of practice for the purpose of verifying the use of disposable, single-use, pre-sterilized instruments:

(1) A record of purchase and use of all single-use instruments.

(2) A log of all procedures, including the names of the practitioner and client and the date of the procedure.

(3) Written proof on company or laboratory letterhead showing that the pre-sterilized instruments have undergone a sterilization process.

Written proof shall clearly identify the

instruments sterilized by name or item number and shall identify the lot or batch number of the sterilizer run."

Ensure this log is maintained on site and available during time of inspection.

**Overall Inspection Comments:** No comment entered

**Violation Item**

**Comply By Date** **Complied On Date**

**BA20: Adequate Handwashing Sinks, Supplied and Accessible**

**11/17/2023**

**Uncorrected as of 5/2/2025**

Observed pump soap being used at hand washing sink. Ensure containerized liquid soap is dispensed from a wall-mounted, touchless dispenser (119314.b.4). Practitioner will be installing a wall mounted touchless soap dispenser.

**BA28: Handwashing is Being Performed Consistent with Requirements**

**11/14/2023**

**Uncorrected as of 5/2/2025**

Note (not a violation): Ensure hands are being washed with warm water and soap per CA Safe Body Art Act section 119301 (m). During inspection the hand wash sink warm water took a long time to work at the hand wash sink; ensure you have warm water while washing your hands or install an instant water heater by the hand wash sink.

**BA29: PPE is Properly Worn/Donned/Changed as Required**

**11/15/2023**

**Uncorrected as of 5/2/2025**

Practitioner informed inspector that no apron/bib/lap pad is used during procedures (she wears scrubs). Ensure that a clean apron, bib or lap pad is put on over clean, dry clothing (119308.2).

**Overall Inspection Comments:** No comment entered

#### **Violation Item**

#### **Comply By Date** **Complied On Date**

#### **BA07: Questionnaire Contains All Required Information**

**03/05/2024**

**Uncorrected as of 5/2/2025**

Observed medical questionnaire missing required information. Ensure the medical questionnaire contains all required information. The medical questionnaire needs to include:

1. Whether the client may be pregnant.
2. Whether the client has a history of herpes infection at the proposed procedure site, diabetes, allergic reactions to latex or antibiotics, hemophilia or other bleeding disorder, or cardiac valve disease.
3. Whether the client has a history of medication use or is currently using medication, including being prescribed antibiotics prior to dental or surgical procedures.
4. Other risk factors for bloodborne pathogen exposure.

#### **BA16: Training Records are Maintained and Available for 3 Years**

**03/04/2024**

**Uncorrected as of 5/2/2025**

Repeat Violation: Ensure training of Infection Prevention and Control Plan records are maintained and available for the last three years.

#### **BA21: Facility Equipped with Hot Water**

**03/01/2024**

**Uncorrected as of 5/2/2025**

- Observed not hot water at hand wash sink; warm water was available. Ensure facility is equipped with hot and cold water at all times. Facility can install a water heater booster at the hand wash sink.

- Observed no hot or warm water at communal restroom hand wash sink. Ensure hot/warm water are available at hand washing sinks in restroom facilities. Practitioner rewashes hands at hand wash sink in procedure room. Building needs to obtain a water heater for the restrooms to be in compliance with health and safety code.

**Record ID:** PR0019858

**Program Description:** 1501 - BODY ART FACILITY PERMIT

#### **Inspection Date:** 04/04/2025

**Type of Service Description:** REGULAR INSPECTION

**Inspection Result Description:** IN COMPLIANCE

**Department Action Description:** NEXT REGULAR

**Overall Inspection Comments:** No comment entered

#### **Violation Item**

#### **Comply By Date** **Complied On Date**

#### **BA16: Training Records Are Maintained and Available for 3 Years**

**Uncorrected as of 5/2/2025**

No training records were available for review at the time of the inspection.

Maintain training records for 3 years.

#### **BA57: Purchase/Procedure Logs Are Maintained for 90 Days**

**Uncorrected as of 5/2/2025**

No Purchase and Procedure logs were available for review at the time of the inspection.

Begin maintaining all purchase and procedure logs. Ensure that the following information is retained for a minimum of 90 days following the use of the instrument:

- 1) A record of the purchase and use of all single-use instruments.
- 2) A log of all procedures, including the names of the practitioner and client and the date of the procedure.

#### **Inspection Date:** 01/31/2024

**Type of Service Description:** REGULAR INSPECTION

**Inspection Result Description:** IN COMPLIANCE

**Department Action Description:** NEXT REGULAR

**Overall Inspection Comments:** The facility was observed to be clean and well organized. Staff on site appear knowledgeable and well trained. No active procedure was taking place, but staff on site demonstrated facility methods and products used for decontamination of procedure areas, and explained methods used to prevent cross-contamination during procedures.

### **Facility Name: VITALITY PIERCING STUDIO**

**Facility ID:** FA0016461

**Site Address:** 710 DOLLIVER ST, PISMO BEACH

**Record ID:** PR0022036

**Program Description:** 1501 - BODY ART FACILITY PERMIT

### **Inspection Date: 10/19/2023**

**Type of Service Description:** OPENING INSPECTION

**Inspection Result Description:** NOT APPLICABLE

**Department Action Description:** NOT APPLICABLE

**Overall Inspection Comments:** Facility has Health Department's conditional approval to operate.

#### Conditions for Approval:

Facility has a centrally located hand washing sink. Facility is approved to engage exclusively in body piercing without a additional hand wash sink in the denomination/sterilization area provided the following conditions are met:

- No other body art procedure other than body piercing shall be performed at the facility.
- Only pre-sterilized body piercing equipment (needles, calipers, etc.) will be used at the facility. Equipment lot numbers shall be recorded in a log or on client's digital consent form.
- Only jewelry purchased from the facility will be utilized for piercing. (This condition shall be included in the facility's IPCP.)
- The Safe Body Art Act requires that jewelry be cleaned prior to being sterilized. However, the Safe Body Art Act does require that body jewelry be cleaned in a sink or with soap and water. Body jewelry will be cleaned using an antiseptic wipe prior to being sterilized in the Statim. (This condition shall be included in the facility's IPCP.)
- The hand washing sink will be used exclusively for the purposes of hand washing. (Procedures for the decontamination of the hand washing sink should an accidental spill and/or emergency or unauthorized use occur shall be included in the facility's IPCP.)

If upon facility inspection, it is observed that conditions of approval are not being maintained, the facility Health Permit may be suspended or revoked. Facility Health Permit will not be re-issued or reinstated until it is determined that the facility meets all Safe Body Art Act requirements.

| Violation Item                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | Comply By Date    | Complied On Date                  |
