Inspection Result Description: PERMIT VIOLATION

Department Action Description: TO BE RE-INSPECTED

Score: 83.0

Overall Inspection Comments: Facility will need to be re-inspected due to evidence of rodents and violations. The owner of this facility needs to contact a professional pest management company immediately for assistance or risks closure by the Environmental Health Department. Please submit a copy of pest management report. Facility will be inspected after February 26, 2024. All violations must be corrected by this date. If subsequent re-inspections are required to determine correction or compliance, the facility will be billed at an hourly rate.

Violation Item	Points Lost	Comply By Date	Complied On Date
K004: Proper Eating, Tasting, Drinking or Tobacco Use	<u>2.0</u>	<u>01/26/2024</u>	<u>Corrected On Site</u>
Observed a cup with no lid in the prep area. Store employee beverages with lids in food prep areas to prevent potential cross contamination. Corrected on site.			
K008: Procedures/Records for Time as PH Control Method	<u>2.0</u>	<u>01/26/2024</u>	<u>Corrected On Site</u>
Observed several ham and cheese croissants that require time or temperature control. These items need must be kept either cold (below 41F) or hot (above 135F) or use time as a public health control. Manager moved items into refrigeration unit.			
K014: Food Contact Surfaces: Clean and Sanitized	<u>3.0</u>	<u>01/26/2024</u>	<u>Corrected On Site</u>
Observed sanitizer buckets throughout facility contained less than 100 ppm chlorine. Maintain a concentration of at least 100 ppm chlorine. Corrected on site.			
K023: No Rodents, Insects, Birds, or Animals	<u>2.0</u>		<u>Uncorrected as of 5/2/2025</u>
Observed rodent dropping and sticky traps throughout the facility. The owner of this facility needs to contact a professional pest management company immediately to combat the issue. Reports from pest management need to be sent to health inspector.			
K024: Person In Charge Present and Performs Duties; Valid Certification	<u>1.0</u>	<u>02/09/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Unable to verify Food Manager/ Food Handler Cards at the time of the inspection. Ensure at least one employee obtains a valid Food Manager Certificate and all others have valid Food Handler Cards. Store copies on site for inspector review.			
K033: Nonfood-Contact Surfaces Clean	<u>0.5</u>	<u>02/09/2024</u>	<u>03/12/2024</u>
1. Excess debris was observed throughout the facility. Ensure all nonfood-contact surfaces are maintained clean. 2. Observed aluminum foil used as a shelf liner, and showing evidence of use and debris accumulation. Remove current liner material and detail clean shelves. If continued use of a shelf liner is desired, it must be removed, the shelves must be cleaned, sanitized and a new liner replaced on a regular basis.			
K034: Warewashing Facility/Test Strips: Adequate, Used	<u>0.5</u>	<u>02/02/2024</u>	<u>03/12/2024</u>
Unable to verify test strips at the time of the inspection. Ensure chlorine test strips are obtained and used to measure 100 ppm chlorine in solution at the 3-compartment sink and in the wiping cloth buckets.			
K035: Adequate/Approved Equipment/Utensils, Maintained	<u>0.5</u>	<u>02/09/2024</u>	<u>12/17/2024</u>
Observed refrigeration unit on prep unit with broken doors and gaskets. Repair or replace. Ensure equipment is maintained clean, functional, and in good repair.			
K036: Equipment, Utensils and Linens: Storage and Use	<u>0.5</u>	<u>02/02/2024</u>	<u>03/12/2024</u>
1. Observed several scoops being stored in bulk food containers with handles in contact with food. Ensure scoop handles stay out of contact with the food if stored containers. 2. Label bulk food containers as to the contents of the container.			
K039: Thermometers Provided and Accurate	<u>0.5</u>	<u>02/02/2024</u>	<u>03/12/2024</u>
Ensure secondary thermometers are installed in all refrigeration units holding Potentially Hazardous Foods (PHF).			
K040: Wiping Cloths: Properly Used and Stored	<u>0.5</u>	<u>02/02/2024</u>	<u>03/12/2024</u>
Discontinue using sponges in contact with cleaned and sanitized or in-use food contact surfaces.			
K043: Approved Toilets: Maintained, Accessible, Clean	<u>0.5</u>	<u>02/26/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Repeat violation: Ensure a self closing mechanism is installed on the employee toilet room door as it opens into food prep areas.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>	<u>02/02/2024</u>	<u>03/12/2024</u>
Observed a build up of food debris and rodent droppings on the floors and around equipment. Thoroughly clean and maintain all floors, walls, and ceilings.

Inspection Date: 01/10/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 81.5

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K005: Proper Handwash Procedures and Glove Use	<u>5.0</u>	<u>01/13/2025</u>	<u>01/10/2025</u>
Observed a food handler open a package of raw fish and place it on the flat top grill. The food handler continued to work without first washing their hands including touching a clean bowl and filling the bowl with ready to eat french fries. This violation was corrected by the food handler washing their hands. Education and direction regarding hand washing was given at the time of the inspection.			
K006: Adequate/Accessible Handwash Sinks, Supplies	<u>3.0</u>	<u>01/13/2025</u>	<u>Uncorrected as of 5/2/2025</u>
No paper towels were available from the wall mounted dispenser at the prep area hand sink. The operator placed paper towels near the hand sink when directed in an attempt to correct the violation. Paper towels must be dispensed from a wall mounted dispenser.			
K007: Proper Hot and Cold Holding Temperatures	<u>3.0</u>		<u>01/10/2025</u>
Observed cooked sausage on a plate stored on the flat top grill. The sausage was measured at 100F. A food handler stated they had been held for 1 hour. The plate surface measured 90F. Observed cooked hashed browns stored on a sheet pan on the flat top grill. The hashed browns were measured at 130F. A food handler stated they had been held out of temperature for 1 hour. These violations were corrected by rapidly reheating the food then holding it at or above 135F.			
K008: Procedures/Records for Time as PH Control Method	<u>2.0</u>	<u>01/13/2025</u>	<u>01/10/2025</u>
Observed a container of waffle batter in a bucket of ice. The waffle batter was labeled to be discarded on 1/8/25 at 11:58 AM after 4 hours of use without temperature control. This violation was corrected by discarding approximately .5 gallons of waffle batter. The operator is directed to use labels as needed to comply with Time as a Public Health Control, or to remove the labels and maintain potentially hazardous food at or below 41F or above 135F. Discontinue holding potentially hazardous foods (PHF) beyond four hours past its removal from temperature control and immediately discard it. Follow or create and maintain written procedures on site. Provide and document training for employees. Ensure written procedures are maintained and available for food that has been time-marked and is within the allowable time control period when using time as a public health control.			
K014: Food Contact Surfaces: Clean and Sanitized	<u>3.0</u>	<u>01/13/2025</u>	<u>01/10/2025</u>
No sanitizer bucket was observed at the hot line during active prep. A food handler was directed to set up a sanitizer bucket. However, no sanitizer was measured in the bucket. The sanitizer dispenser was found to be inoperable. This violation was corrected by a food handler correctly setting up a sanitizer bucket and measuring sanitizer concentration.

Inspection Date: 01/10/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 81.5

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K023: No Rodents, Insects, Birds, or Animals	<u>2.0</u>	<u>01/13/2025</u>	<u>01/10/2025</u>
Observed evidence of rodent activity in multiple critical areas including beneath the pre-rinse sink at the scullery and in the storage cabinet at the server's station.			
This violation was corrected by the operator voluntarily closing and performing the following before their reinspection on 1/13/25			
1) Have a pest control inspection and provide an invoice dated 1/10/25 for review at the reinspection. A written report of what was observed by the pest control company and what service was provided is helpful. The operators are directed to follow all recommendations from the pest control company as detailed on their report.			
2) Clean and sanitize all affected areas.			
3) Eliminate entry points and areas of harborage.			
4) Eliminate sources of food including the grease and grime buildup at the hot line.			
5) Eliminate sources of water including the accumulation of water at the scullery and the ice machine in disrepair.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
The grout at the scullery was observed to be in disrepair.			
RegROUT the tiles.			

Inspection Date: 11/06/2023

Type of Service Description: REINSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 95.5

Overall Inspection Comments: Overall improvement was observed, but areas of residue are still soiling cook line equipment, floors, and surfaces. The efforts made by your staff made a significant improvement, but more cleaning will be necessary to remove all residues and debris. Once you have finished with the detail cleaning, devise and follow an adequate cleaning schedule. Have staff sign off when they have completed daily cleaning, and it is highly recommended that a manager evaluate that cleaning is adequate and complete.

Score: 95.5

Overall Inspection Comments: The heavily soiled and greasy cook line has been mentioned in the last 8 inspection reports. It appears that corrections have never been made in this area. Promptly and permanently correct this repeat violation. Devise an adequate cleaning schedule and train staff to follow it daily.

Violation Item	Points Lost	Comply By Date	Complied On Date
K024: Person In Charge Present and Performs Duties; Valid Certification	<u>1.0</u>	<u>11/30/2023</u>	<u>01/10/2025</u>
Obtain current Food Safety Manager certification for at least one owner or employee, and keep the original certificate on site. The certificate this department has on record has expired.			
K033: Nonfood-Contact Surfaces Clean	<u>0.5</u>	<u>10/31/2023</u>	<u>Uncorrected as of 5/2/2025</u>
Equipment, floors, and surfaces on the cook line are heavily soiled with excessive grease accumulation. This violation creates a significant fire hazard in the facility and also attracts pests. This violation has been marked during the last 8 inspection reports, and correction instructions have been given. Thoroughly clean and de-grease the entire cook line. Maintain clean by devising an adequate cleaning schedule which will prevent accumulations and maintain the area clean. Train staff to follow the schedule daily. Your inspector will review the cleaning schedule and a date will be set for re-inspection.			
K035: Adequate/Approved Equipment/Utensils, Maintained	<u>0.5</u>	<u>10/31/2023</u>	<u>Uncorrected as of 5/2/2025</u>

Inspection Date: 04/01/2024

Type of Service Description: CHANGE OF OWNERSHIP INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 92.0

Overall Inspection Comments: Change of ownership inspection for food facility. Food facility plans to operate the same as before, the facility will have the same menu and name. Food facility has multiple preexisting, non-conforming conditions. More information on these conditions are listed below.

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies Observed no dedicated handwash sink on prep line or in back kitchen. Food facility currently uses toilet room hand wash sink. This is a preexisting, nonconforming condition. Per CA Retail Food Code, " FOOD FACILITIES constructed or extensively REMODEled after January 1, 1996, that handle nonPREPACKAGED FOOD, shall provide facilities exclusively for handwashing in FOOD PREPARATION areas and in WAREWASHING areas that are not located within or immediately adjacent to FOOD PREPARATION areas. Handwashing facilities shall be sufficient in number and conveniently located so as to be accessible at all times for use by FOOD EMPLOYEES. " When feasible, ensure a hand wash sink is installed on prep line and/or near warewashing sink to meet current code requirements.	<u>3.0</u>	<u>05/27/2024</u>	<u>Uncorrected as of 5/2/2025</u>
K024: Person In Charge Present and Performs Duties; Valid Certification Observed no food safety certifications. Ensure at least one owner/employee obtains a food manager safety certification and all other employees obtain a food handler safety certification. Ensure certifications are obtained within 60 days of opening.	<u>1.0</u>	<u>06/03/2024</u>	<u>Uncorrected as of 5/2/2025</u>

Two Years of Retail Food Facility Inspection Results

Inspection Date: 04/01/2024

Type of Service Description: CHANGE OF OWNERSHIP INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 92.0

Overall Inspection Comments: Change of ownership inspection for food facility. Food facility plans to operate the same as before, the facility will have the same menu and name. Food facility has multiple preexisting, non-conforming conditions. More information on these conditions are listed below.

Violation Item	Points Lost	Comply By Date	Complied On Date
K027: Food Separated and Protected	<u>1.0</u>	<u>04/03/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed freezer unit with open containers of frozen food items that were spilling out and touching the other food items in the unit. Ensure all food is separated and protected from contamination.			
K034: Warewashing Facility/Test Strips: Adequate, Used	<u>0.5</u>	<u>06/24/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed 2-compartment sink being used at food facility. Per CA Retail Food Code (section 114099c), "A two compartment sink that is in use on January 1, 1996, need not be replaced when used as specified in Section 114099.3. The ENFORCEMENT OFFICER shall approve the continued use of a two compartment sink even upon replacement if the installation of a three compartment sink would not be readily achievable and where other APPROVED sanitation methods are used." The use of a two compartment sink is a preexisting, nonconforming condition that does not need to be modified currently. It is the recommendation of the inspector to update to a three compartment sink when feasible.			
K035: Adequate/Approved Equipment/Utensils, Maintained	<u>0.5</u>	<u>04/08/2024</u>	<u>Uncorrected as of 5/2/2025</u>
- Observed raw wood being used throughout facility. Ensure all materials are smooth, nonabsorbent and easily cleanable. - Observed pieces of wood being used to hold up shelving in refrigeration unit. Discontinue this practice. Repair/replace shelving. Ensure all equipment is commercial grade. - Observed duct tape being used on multiple pieces of equipment. Discontinue this practice. Ensure all equipment is maintained in good repair and the material is smooth, nonabsorbent and easily cleanable.			
K036: Equipment, Utensils and Linens: Storage and Use	<u>0.5</u>	<u>04/03/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed food debris in refrigeration units. Ensure all equipment is maintained clean. Deep clean units prior to opening.			
K041: Plumbing: Proper Backflow Devices	<u>0.5</u>	<u>04/05/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed pipes going into floor sink underneath mop sink. Ensure there is an air gap (at least one inch) between the water inlet and the rim of the floor sink.			
K044: Premises: Personal/Cleaning Items; Vermin-Proofing	<u>0.5</u>	<u>04/03/2024</u>	<u>Uncorrected as of 5/2/2025</u>
- Observed mops being stored in mop bucket. Ensure mops are hung up to air dry without soiling walls or equipment. Facility can install a mop rack. - Observed fan being used as an air curtain by front door. Discontinue this practice, this is not an approved air curtain. Ensure all exterior doors are maintained closed when not in use OR install a commercial air curtain above the door.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>	<u>07/15/2024</u>	<u>Uncorrected as of 5/2/2025</u>
- Observed degrading sheet vinyl throughout food facility. Ensure all flooring is maintained in good repair. - Observed build of grime/debris underneath equipment. Ensure all floors/walls/ceilings are deep cleaned and sanitized (underneath/around equipment) prior to opening. - Observed degrading wall behind mop sink. Repair/replace. Ensure all floors/walls/ceilings are smooth, nonabsorbent and easily cleanable. Discussed installing FRP behind sink with manager.			
K051: Permit Suspension	<u>0.0</u>	<u>04/03/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Ensure dairy license is transferred PRIOR to any sale of dairy products. Please contact CDFA: Milk and Dairy Food Safety Branch immediately.

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	3.0	12/20/2023	12/26/2024
Observed clean dishes stored on the hand washing sink in the back area near the 3-compartment sink. Ensure hand sinks are kept clear and easily accessible at all times. Do not store utensils or equipment on hand sinks as this can lead to contamination of clean items.			
K014: Food Contact Surfaces: Clean and Sanitized	3.0	12/20/2023	12/26/2024
Observed mildew on the panel inside the ice machine. Ice machines and ice dispensers should be cleaned as often as necessary to prevent buildup of mold, bacteria, or other factors that may affect the ice being produced. Note that cleaning an ice machine or ice dispenser is dependent on the specific make and model you have purchased. 1. Go to the manufacturer website to access information for your machine. 2. Find the cleaning instructions for your type of machine. 3. Discard all ice from the machine prior to cleaning. Use only approved chemicals to sanitize.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	12/20/2023	12/26/2024
Observed several clean dishes in the food preparation sink. Discontinue using the food preparation sink for any purpose other than food prep. Clean dishes shall be stored in sanitary areas and only washed in the 3-compartment sink.			
K049: Permits Available	0.5	12/20/2023	12/26/2024
Unable to locate or verify permit from CDFA for the milkshake machine. Ensure the permit is on site and evaluable for review during inspections.

Score: 93.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	3.0	01/22/2025	Corrected On Site
Discontinue blocking access to the hand washing sink, with personal items, at all times. Corrected on site.			
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	07/22/2025	Uncorrected as of 5/2/2025
Unable to locate or verify food safety certifications. Ensure at least one employee has a valid Food Manager Certificate and all other employees have a valid Food Handlers Card. Keep copies on site and available for review during inspections			
K029: Toxic Substances Properly Identified, Stored, Used	0.5	01/22/2025	Corrected On Site
Observed unlabeled spray bottles. Ensure all toxic substances are properly identified/labeled. Bottle observed by inspector was corrected on site.			
K043: Approved Toilets: Maintained, Accessible, Clean	0.5	07/23/2025	Uncorrected as of 5/2/2025
Ensure the Men's toilet room has a self-closing door mechanism in working order.			
K054: Repeat Violations - Good Retail Practices (24 -51)	2.0		Uncorrected as of 5/2/2025
Repeat Violations: K024 and K029			

Inspection Date: 02/29/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 93.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized	3.0	02/29/2024	01/23/2025
Observed no sanitizer solution set up during active food preparation. Ensure all food contact surfaces are maintained clean and sanitized. Food facility needs to set up sanitizer solution/buckets during active food preparation and ensure sanitizer concentration is 100ppm bleach or 200ppm quaternary ammonium.			
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	03/29/2024	Uncorrected as of 5/2/2025
REPEAT VIOLATION: Unable to locate or verify food safety certifications. Ensure at least one employee has a valid Food Manager Certificate and all other employees have a valid Food Handlers Card. Keep copies on site and available for review during inspections.			
K027: Food Separated and Protected	1.0	02/29/2024	Corrected On Site
Observed raw shrimp being stored above ready to eat foods. Ensure all food products are stored so as to be protected from contamination at all times. Corrected on site. To protect food from cross-contamination during storage, always store cooked and ready to eat foods above raw foods or in the following order from top shelf to bottom shelf: ready-to-eat foods; cooked meats; raw meats. If raw foods cannot be stored on the bottom shelf, then store in the following order from top to bottom: seafood, pork/beef, chicken.			
K029: Toxic Substances Properly Identified, Stored, Used	0.5	02/29/2024	Uncorrected as of 5/2/2025
Observed unlabeled spray bottles. Ensure all toxic substances are properly identified/labeled.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	03/01/2024	01/23/2025
Observed cardboard being used for shelving. Discontinue this practice. Cardboard can harbor vermin. Ensure all equipment is commercial grade, smooth, nonabsorbent and easily cleanable.

Score: 95.5

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized Observed grime in soda nozzles and soda nozzle holders at bar. Ensure all food contact surfaces are maintained clean and sanitized.	<u>3.0</u>	<u>09/26/2024</u>	<u>Uncorrected as of 5/2/2025</u>
K033: Nonfood-Contact Surfaces Clean Observed dust built up on ventilation fans in kitchen. Ensure all non food contact surfaces are maintained clean.	<u>0.5</u>	<u>09/28/2024</u>	<u>Uncorrected as of 5/2/2025</u>
K035: Adequate/Approved Equipment/Utensils, Maintained Observed food debris/grime built up on handles of equipment. Ensure all equipment is maintained clean.	<u>0.5</u>	<u>09/28/2024</u>	<u>Uncorrected as of 5/2/2025</u>
K045: Floors/Walls/Ceilings: Built, Maintained, Clean - Observed dust on ceiling above prep line. - Observed grime built up underneath equipment and in hard to reach areas of flooring. Ensure all floors/walls/ceilings are maintained clean. - Note: Observed degrading grout on flooring (near three compartment sink and mechanical dish machine). Facility may want to consider re-grouting tile so cleanability does not become an issue in the future.	<u>0.5</u>	<u>09/29/2024</u>	<u>Uncorrected as of 5/2/2025</u>

Inspection Date: 08/30/2023

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 95.5

Overall Inspection Comments: Food facility was well organized and well managed during time of inspection. Manager was able to correct most violations on site.

Violation Item	Points Lost	Comply By Date	Complied On Date
K007: Proper Hot and Cold Holding Temperatures Observed two units out of temperature compliance (45/50F). Ensure all units can maintain 41 F or below. - Facility decided to utilize time as a public health control method for out of temperature sauces. All potentially hazardous food must be discarded fours after it has been removed from temperature control. Manager had labels for sauces to keep track of time. - Cut fruit in out of temperature bar refrigeration unit had just been prepped before opening, so it was moved to another unit that was maintaining 41F or below.	<u>3.0</u>	<u>08/30/2023</u>	<u>Corrected On Site</u>
K036: Equipment, Utensils and Linens: Storage and Use Observed CO2 cylinders standing freely in kitchen prep area. Ensure all CO2 cylinders are affixed to a rigid structure. Manager corrected on site and chained up CO2 cylinders.	<u>0.5</u>	<u>08/30/2023</u>	<u>Corrected On Site</u>
K039: Thermometers Provided and Accurate Observed a few refrigeration units without secondary thermometers. Ensure all refrigeration units have a secondary thermometer.	<u>0.5</u>	<u>08/31/2023</u>	<u>09/26/2024</u>
K044: Premises; Personal/Cleaning Items; Vermin-Proofing Observed mops placed on side of wall to dry. Ensure mops are hung up to dry without soiling walls or other equipment. Manager can install a mop rack.	<u>0.5</u>	<u>09/04/2023</u>	<u>09/26/2024</u>

Score: 93.5

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized	3.0	11/15/2024	Corrected On Site
Ensure all food contact surfaces are maintained clean and sanitized. Food facility needs to set up sanitizer solution/buckets during active food preparation and ensure sanitizer concentration is 200ppm quaternary ammonium. Corrected on site.			
K021: Hot and Cold Water Available	2.0	11/15/2024	Corrected On Site
At the time of the inspection, no hot water was available. Staff advised they were having issue with the line from the water heater and someone was on site to fix the problem. Staff was heating water up and pouring it into 3 comp sink to wash dishes and using the hand wash station from the facility right next door. ** Hot water is required in order to operate or the permit can be suspended. In the future, if no hot water is available the business should voluntarily close until the problem can be fixed.			
K024: Person In Charge Present and Performs Duties: Valid Certification	1.0	11/16/2024	Uncorrected as of 5/2/2025
Unable to verify Food Manager Certificate at the time of the inspection. Ensure copies on site for inspector review.			
K040: Wiping Cloths: Properly Used and Stored	0.5	11/15/2024	Uncorrected as of 5/2/2025
1. Observed sponges in the 3 comp sink. Discontinue using sponges in contact with cleaned and sanitized or in-use food contact surfaces. 2. Observed soiled wiping cloths sitting on prep areas. Wiping cloths should be held in a solution of sanitizer between uses. Corrected on site.

Inspection Date: 10/17/2023

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 89.0

Overall Inspection Comments: A reinspection is required due to violations listed on this report which do not meet the requirements set forth in the California Retail Food Code commencing with §113700-114437. All violations must be corrected within the time specified. In the event that violations noted on this report are not corrected by the "Next Inspection Date" indicated above, a chargeable reinspection fee may be assessed.

Violation Item	Points Lost	Comply By	Date Complied On	Date
K014: Food Contact Surfaces: Clean and Sanitized	<u>3.0</u>	<u>10/17/2023</u>	<u>Corrected On Site</u>	
Dish machine was not dispensing any sanitizer at time of inspection. Ensure the dish machine is dispensing 50ppm chlorine sanitizer at all times using the appropriate test strips. Corrective action: Immediately discontinue use of the machine until it can be repaired. Dishes shall be washed in the 3-compartment sink using a wash, rinse, sanitize procedure in the interim. Reinspection for this violation is required. Contact your inspector once ready for reinspection.				
K018: HACCP/Variance Required: Approved/Records Kept	<u>2.0</u>	<u>10/17/2023</u>	<u>Corrected On Site</u>	
Facility is packaging food using reduced-oxygen packaging (ROP) but does not have a state approved HACCP plan. Any retail food facility processing potentially hazardous foods using ROP is required to have a Hazardous Analysis Critical Control Point (HACCP) plan approved by California Department of Public Health (CDPH) (Cal Code 114057.1).				
IMMEDIATELY DISCONTINUE USING ROP AND DISPOSE OF ALL ROP PRODUCTS UNTIL YOU HAVE SUBMITTED A HACCP PLAN AND BEEN APPROVED BY THE CDPH OR FOLLOW THE BELOW EXEMPTION RULES.				
Exemption: Your retail food facility is not required to have an approved HACCP plan for ROP of potentially hazardous food if all the following standards are always met:				
1. The food is labeled with the production time and date. 2. The food is held at 41° F or lower during refrigerated storage. 3. The food is removed from its package in the food facility within 48 hours after packaging.				
The lack of oxygen creates an anaerobic environment, which favors the growth of two very dangerous pathogens: Clostridium botulinum and Listeria monocytogenes. Continued operation of a ROP procedure without an approved HACCP plan can result in condemnation of all ROP products, impoundment of any equipment used for ROP, or suspension of your permit to operate.				
To request a CDPH-FDB ROP HACCP plan review, submit a hard copy of the ROP HACCP plan along with a completed Retail Food Program Service Request Application and fee to the address on the application.				
For information on submitting a HACCP plan for approval, please contact CDPH at (916) 650-6500 or by e-mail, fdinfo@cdph.ca.gov				
Once you have received a letter of approval, please contact your inspector to review your HACCP plan.

12/31/2024

01/02/2025

Observed evidence of rodent activity in numerous places throughout the facility. Although evidence of attempts to abate the situation were also observed, a reinspection of the facility within 24 hours is warranted. The operator is directed to perform all of the following prior to the reinspection:

1) Have a professional pest control operator provide service. An invoice dated 12/30 or 12/31 will be required for review at the reinspection.

2) Clean and sanitize all affected areas.

3) Remove areas that may provide harborage. Seal all entry points.

4) Remove sources of water

5) Remove sources of food

K024: Person In Charge Present and Performs Duties; Valid Certification

1.0

Uncorrected as of 5/2/2025

1) No valid food safety manager's certificate was available for review at the time of the inspection.

2) Not all food employees had food handler cards.

Ensure the food facility owner or an employee has a valid/current food safety protection certificate or ensure all food employees have adequate knowledge of, and are properly trained in food safety as it relates to their assigned duties.

Ensure all food employees have a valid/current food handler card/certificate.

K027: Food Separated and Protected

1.0

Uncorrected as of 5/2/2025

Observed ready to eat seaweed salad stored in contact with the sushi bar hand sink.

Observed ready to eat boiled eggs stored below the hot line hand sink.

Ensure all food products are stored so as to be protected from contamination at all times.

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 84.5

Overall Inspection Comments: Education and direction regarding the following topics were given at the time of the inspection:

- 1) Cooling
- 2) Maintaining the facility doors closed
- 3) Holding temperatures
- 4) Warewashing
- 5) Sanitizer concentrations and test strip use
- 6) Vermin infestation abatement
- 7) EatSafeSlo.org : Last inspection report lookup.

Violation Item	Points Lost	Comply By Date	Complied On Date
K030: Food Storage; Food Storage Containers Identified	<u>0.5</u>	<u>12/31/2024</u>	<u>01/02/2025</u>
Observed a box of avocados stored on the floor. Properly elevate food items/packages/container at least 6 inches above the floor.			
K034: Warewashing Facility/Test Strips: Adequate, Used	<u>0.5</u>	<u>12/31/2024</u>	<u>01/02/2025</u>
No test strips were available for the sanitizer buckets or for the dish machine at the time of the inspection. Provide approved and correct testing equipment to test for sanitizer concentration and/or hot water temperature.			
K036: Equipment, Utensils and Linens: Storage and Use	<u>0.5</u>	<u>12/31/2024</u>	<u>01/02/2025</u>
Observed unsecured CO2 cylinders. Properly secure the pressurized CO2 tank.			
K038: Approved Lighting/Ventilation: Adequate, Used	<u>0.5</u>	<u>12/31/2024</u>	<u>01/02/2025</u>
1) Observed all the exterior doors propped open and the kitchen to be excessively warm. The exhaust hood shall have sufficient ventilation to facilitate proper food storage and to provide a reasonable condition of comfort for each employee. Ensure the exhaust hood is fully operational and in good condition. An air balance report may be necessary.			
2) Observed a gap between grease filters. Ensure that the exhaust hood is operated as designed and that grease filters are set to prevent grease entering the ducting.			
K040: Wiping Cloths: Properly Used and Stored	<u>0.5</u>	<u>12/31/2024</u>	<u>01/02/2025</u>
1) Observed wet wiping cloths stored outside the sanitizer bucket. Discontinue using wiping cloths for multiple uses without storing in sanitizing solution.			
2) No sanitizer was measured in the hot line sanitizer bucket. Ensure sanitizing solution for wiping cloths are not turbid and are of an approved concentration of sanitizer.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	<u>0.5</u>	<u>12/31/2024</u>	<u>01/02/2025</u>
Observed exterior doors propped open. Maintain all exterior doors closed except when in use.			
If ventilation is required, ensure that the exhaust hood is operating as initially designed. Refer to violation 38.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>		Uncorrected as of 5/2/2025
Observed top set quarry tile base cove over tile in the "rice room". Ensure all floors and walls are smooth, durable, of approved materials, in good repair, and are free of any peeling paint.

Score: 94.0

Overall Inspection Comments: Prevent unrecognized occurrences of inadequate or absent sanitizing by maintaining a supply of test strips and using them regularly. Train staff to monitor the machine's sanitizer supply level continually, and to use the sanitizer test strips at least daily to verify 50 - 100 ppm chlorine in the final rinse cycle. Manually prepared sanitizer solutions are to be verified at 100 ppm.

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized The automatic dish washing machine was dispensing no sanitizer at the time of inspection. Staff were unable to determine the cause or the duration of the malfunction, and were directed to schedule their servicer for repairs. Direction was given to use manual wash/rinse/sanitize procedures in the 3-comp. sink until the machine is functioning properly. Until test strips are obtained, use 2 teaspoons of bleach per gallon of water to make a 100 ppm chlorine sanitizer solution. Direction was given to ensure adequate sanitizing of any items which may not have been sanitized by the machine due to the malfunction.	3.0	06/29/2023	Corrected On Site
K024: Person In Charge Present and Performs Duties; Valid Certification Food Safety Manager certification has expired. Obtain current certification for at least one owner or employee, and keep the original certificate on site.	1.0	07/29/2023	Uncorrected as of 5/2/2025
K027: Food Separated and Protected In the ice machine, a canned beverage was observed chilling on the ice intended for consumption. Discontinue this practice, and train staff to recognize and prevent potential cross-contamination of food.	1.0	06/29/2023	Corrected On Site
K029: Toxic Substances Properly Identified, Stored, Used Observed unlabeled spray bottles. Maintain accurate labels on all chemical and food containers.	0.5	06/29/2023	Uncorrected as of 5/2/2025
K034: Warewashing Facility/Test Strips: Adequate, Used Obtain a supply of sanitizer test strips, and store in a convenient location for staff to use regularly.	0.5	06/30/2023	Uncorrected as of 5/2/2025

Inspection Date: 01/29/2025

Type of Service Description: REINSPECTION

Inspection Result Description: IN COMPLIANCE

Department Action Description: NEXT REGULAR

Score: 99.5

Overall Inspection Comments: The purpose of this visit was to perform a reinspection after the complaint investigation performed on 1/23/25. Refer to that report for further details.

On this date, all violations checked were observed corrected.

Violation Item	Points Lost	Comply By Date	Complied On Date
K049: Permits Available Obtain an valid/current Public Health Permit.	<u>0.5</u>		Uncorrected as of 5/2/2025

Inspection Date: 12/10/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 92.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K007: Proper Hot and Cold Holding Temperatures Observed the following: 1) In the walk in cooler: Chile Verde 43F, Small container of beans 43F, large cambro of beans 43F, Flat plastic container of beans 43F, flat plastic container of rice 43F. 2) In the cold drawers at the hot line: Chili Relleno 43, Shredded Cheese 46F Maintain all potentially hazardous foods (PHF) at 41°F/45°F or below or at or above 135°F.	<u>3.0</u>	<u>12/10/2024</u>	<u>Corrected On Site</u>
K023: No Rodents, Insects, Birds, or Animals 1) Observed evidence of a rodent infestation throughout the facility. Eliminate rodents and evidence of rodents (e.g. droppings, dead rodents, nesting material, rub marks) from the facility by safe, legal, and effective means at once. 2) Observed evidence of a past cockroach infestation including cockroach carcasses at the ice machine near the hot line and at the cooler in the server's station area. A reinspection is scheduled for 3 days after this inspection. The operator is directed to complete the following prior to reinspection: 1) Have a professional pest control service treat the facility. 2) Remove the accumulation of unnecessary, unused, or inoperable items from the facility. Eliminate all areas that may provide harborage. Seal all cracks and crevices. 3) Thoroughly clean and sanitize all affected areas. Any evidence of rodent activity observed at the time of the reinspection will be presumed to be new and therefore evidence of an ongoing infestation. 4) Remove all sources of food including the egg shell stored for personal use outside the facility. 5) Remove all sources of water that may sustain a vermin infestation. 6) Remove the unapproved rodenticide from the facility. 114254. Poisonous or injurious materials; use and storage Only those insecticides, rodenticides, and other pesticides that are necessary and specifically APPROVED for use in a FOOD FACILITY may be used. The use shall be in accordance with the manufacturer's instructions.	<u>2.0</u>	<u>12/13/2024</u>	Uncorrected as of 5/2/2025

Violation Item	Points Lost	Comply By Date	Complied On Date
K007: Proper Hot and Cold Holding Temperatures	3.0	08/09/2023	Corrected On Site
Observed multiple refrigeration units out of temperature compliance. Ensure temperature is 41F or below for potentially hazardous food items.			
- Refrigeration unit with sandwiches and cheese packets was measured at 50/53F. Food items have been in the unit overnight. Manager agreed to voluntarily discard all items in the fridge. - Refrigeration unit with juices that require refrigeration measured at 50F. Manager agreed to voluntarily discard all juices. - Walk-in refrigeration unit was measured at 48F. Walk-in had been left open for a delivery. Closely monitor temperature to ensure it comes back down to 41F or below. Walk-in had mostly beer and some shell eggs. If temperature does not return to 41F or below, move shell eggs to another unit.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	08/10/2023	01/22/2025
- Observed multiple refrigeration units out of temperature. Ensure all refrigeration units are maintained in good repair. - Observed gaskets on some refrigeration units broken/missing. Repair/replace. - Observed debris build up in refrigeration units. Ensure all units are cleaned and sanitized on a regular basis. - Observed grime build up on ice chute. Clean and sanitize on a regular basis.			
K040: Wiping Cloths: Properly Used and Stored	0.5	08/09/2023	01/22/2025
Discontinue using sponges on food contact surfaces.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	08/11/2023	Uncorrected as of 5/2/2025
Observed mops being stored in mop sink. Ensure mops are hung up to air dry without soiling walls or equipment.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	08/09/2023	01/22/2025
Thoroughly clean and maintain all floors, walls, and ceilings in facility.			
K047: Signs Posted; Last Inspection Report Available	0.5	08/09/2023	01/22/2025
Observed no hand wash sign at the hand washing sink in the bathroom. Ensure every hand wash sink has a hand wash sign posted. Hand wash sign provided to manager.

Inspection Date: 12/17/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 92.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K007: Proper Hot and Cold Holding Temperatures	3.0	12/17/2024	Corrected On Site
Observed salsa, chopped onion, lemon slices, and cucumber at the pastor station at 57F stored on ice. Ensure food is maintained at or below 41F. If storing on ice, ensure the ice is at least half way up the side of the containers. A refrigeration unit for this area is highly recommended. Corrective action: employee stated food was less than one hour since being prepared and added more ice to containers. Corrected on site.			
K009: Proper Cooling Methods	2.0	12/17/2024	Corrected On Site
Food is not properly being cooled. Observed very large pots of beans and other foods inside the walk-in. Discontinue cooling using unapproved methods. All foods shall be rapidly cooled from 135 degrees to 70 degrees within 2 hours, and from 70 degrees to 41 degrees within four hours. This can be done using an ice wand or by transferring food to shallow pans so that they cool faster. Discontinue cooling in large and deep pots because food will not be able to get to 41F within 4 hours.			
K027: Food Separated and Protected	1.0	12/17/2024	Uncorrected as of 5/2/2025
- Observed several containers inside the walk-in without lids. Ensure all food is covered to protect from cross contamination. - Observed containers of food outside by the pastor machine without lids. Keep food covered at all times. Corrected on site. - Relocate the insect trap that is above the food preparation table. These should not be stored above food, food surfaces, or food equipment.			
K033: Nonfood-Contact Surfaces Clean	0.5	12/17/2024	Uncorrected as of 5/2/2025
The refrigerator at the cook line needs to be cleaned inside. Observed a build up of food debris and mildew.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	06/17/2025	Uncorrected as of 5/2/2025
The deli case is out of service and no longer in use. Ensure the unit is either repaired or removed. All equipment must be in working order. Discontinue storing supplies inside the unit.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	12/17/2024	Uncorrected as of 5/2/2025
Discontinue lining the shelves in the walk-in with cardboard. All shelving shall be smooth, non absorbent, and easily cleanable.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	12/17/2024	Uncorrected as of 5/2/2025
Observed employee belongings (phone, bag) on the food preparation table. Discontinue allowing employees to store personal belongings on food preparation surfaces or equipment. Store belongings in a separate area outside of the kitchen.

Inspection Date: 02/06/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 84.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	3.0	02/06/2025	
No hand soap was available at the hot line hand sink at the time of the inspection. This violation was corrected by replacing the batteries in the touchless dispenser. Provide approved handwashing cleanser and towels or drying device in dispensers at or adjacent to each hand washing facility.			
K007: Proper Hot and Cold Holding Temperatures	5.0	02/06/2025	
Measured the entire contents of the walk in cooler at 50F. This violation was corrected by the operator voluntarily discarding the food. Refer to the Measured Observations section for a list of discarded food.			
Maintain all potentially hazardous foods (PHF) at 41°F or below or at or above 135°F.			
K014: Food Contact Surfaces: Clean and Sanitized	3.0	02/06/2025	
No sanitizer buckets were observed at the hot line during active food preparation.			
K023: No Rodents, Insects, Birds, or Animals	2.0	Uncorrected as of 5/2/2025	
Observed evidence of rodent activity in the dry storage/ prep area and at the bar. No current pest control invoice was available for review at the time of the inspection.			
The operator is directed to do all the following prior to the scheduled reinspection: 1) Have a professional pest control operator treat the facility. The invoice shall be presented for review at the reinspection. 2) Seal all cracks and crevices that may provide harborage for vermin. 3) Remove all sources of food that may support vermin populations. Examples of food sources include greasy buildup on floors and equipment and food debris that has accumulated in stagnate areas such as behind equipment. 4) Remove sources of water that may support vermin populations. Examples of water sources include leaking plumbing and plumbing that is not properly discharging into floor sink. 5) Clean and sanitize all affected areas.			
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	Uncorrected as of 5/2/2025	
No valid Food Safety Manager's Certificate was available for review at the time of the inspection. Ensure the food facility owner or an employee has a valid/current food safety protection certificate or ensure all food employees have adequate knowledge of, and are properly trained in food safety as it relates to their assigned duties.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	Uncorrected as of 5/2/2025	
Observed several reach in cooler door gaskets in disrepair. Repair the gaskets.

Score: 84.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K041: Plumbing; Proper Backflow Devices	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
Did not observe the men's toilet to be in proper working order. Please repair the toilet.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
Observed numerous fruit flies near the liquor bottles at the bar. No food contamination was observed at the time of the inspection.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
1) Observed an accumulation of turbid water with an odor of rancid grease in the corner of the dry storage area. The wall adjacent to the water was damaged and the plumbing exposed. The operator stated that there had previously been a plumbing problem, but it had been repaired. No new plumbing was observed. No liquid waste discharging was observed.			
Thoroughly clean and maintain all floors, walls, and ceilings.			
2) Observed a piece of raw wood under the leg of a stand up cooler in the kitchen. Unsealed wood is not an approved finish. Replace floor sink grate with one that will support the cooler or replace the support with a material that is smooth, durable, non porous and easily cleanable.			
K050: Impoundment/Voluntary Condemnation and Destruction	<u>0.0</u>		<u>Uncorrected as of 5/2/2025</u>
The walk in cooler was measured at 50F. Refer to the Measured Observations for items that were voluntarily discarded.

Facility ID: FA0012282

Site Address: 896 FOOTHILL BLVD, SAN LUIS OBISPO

Record ID: PR0017708

Program Description: HR14 - RETAIL MKT (ABOVE 10,000 SF) - FULL PREP

Inspection Date: 11/22/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 94.0

Overall Inspection Comments: The purpose of this visit was to perform a routine inspection.

At the time of the visit, education and direction regarding the following topics were given:

1) Proper glove use.

Hands must be washed immediately prior to donning gloves. Glove use is required when bare hand contact with food is unavoidable, but not required when utensils will be used for food contact.

2) Vermin exclusion

Vermin exclusion includes the following requirements; Eliminate entry points & harborage, eliminate sources of food, eliminate sources of water, and employ active pest control.

3) Hand washing practices.

Violation Item	Points Lost	Comply By Date	Complied On Date
K007: Proper Hot and Cold Holding Temperatures	3.0	11/22/2024	Corrected On Site
Measured a rotisserie chicken in the customer self service hot holding unit at 126F. The operator stated the chicken had been held in the unit for 1.5 hours. The operator was directed to correct the violation. All chickens were moved to the walk in cooler to be rapidly cooled. Adjust or repair the holding unit as need to maintain food temperatures at 135F or higher. Maintain all potentially hazardous foods (PHF) at 41°F/45°F or below or at or above 135°F.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	11/22/2024	Uncorrected as of 5/2/2025
Observed an accumulation of frozen condensation under the doors of both the deli freezer and the meat department freezer. Repair the doors as soon as possible to avoid further damage to the units.			
K040: Wiping Cloths: Properly Used and Stored	0.5	11/22/2024	Uncorrected as of 5/2/2025
Observed an employee wipe his hands on a soiled cloth during active prep then set the cloth on the prep table next to him. All wet wiping cloths must be stored in a sanitizer bucket when not being used. Dry cloths may be used until soiled then must be placed in the sanitizer bucket or the storage area for soiled wiping cloths.			
K041: Plumbing; Proper Backflow Devices	0.5		Uncorrected as of 5/2/2025
No hot water was available at the men's restroom hand sink at the time of the inspection. The operator stated that the issue had been called in to a plumber prior to the inspection. Ensure all employees properly wash their hands with soap and warm water prior to engaging in food preparation or handling food contact surfaces, equipment, utensils, or linen. Provide and maintain an adequate supply of hot potable water (minimum 100°F) and cold potable water to all hand wash sinks.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	11/22/2024	Uncorrected as of 5/2/2025
1) Observed unapproved employee drinks on the concrete curb behind the deli display case. Employees may eat and drink in employee break areas away from food preparation. 2) Observed an accumulation of kitchen equipment and packaging throughout the facility. Remove any items that may provide harborage for vermin. 3) The dumpster lids were observed open at the time of the inspection. Close the dumpster lids to prevent vermin infestations.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	11/22/2024	Uncorrected as of 5/2/2025
Evidence of deferred cleaning was observed throughout the facility, Thoroughly clean and maintain all floors, walls, and ceilings. Thoroughly clean all equipment, cabinets, and shelving.

Score: 91.0

Overall Inspection Comments: The following code section describes exemptions from Food Safety Manager's Certification. This facility does meet the standard described in (b) but did not meet criteria (1) or (2).

113947.1. Food safety certification exam

(b) FOOD FACILITIES that are not subject to the requirements of subdivision

(a) that prepare, handle, or serve nonprepackaged, nonPOTENTIALLY HAZARDOUS FOODs, except TEMPORARY FOOD FACILITIES, shall do one of the following:

(1) Have an owner or EMPLOYEE who has successfully passed an APPROVED and accredited FOOD safety certification examination as specified in Sections 113947.2 and 113947.3.

(2) Demonstrate to the ENFORCEMENT OFFICER that the EMPLOYEEs have an adequate knowledge of FOOD safety principles as they relate to the specific operation involved in their assigned duties.

The following code section describes exemptions from Food Handler Cards. This facility does not meet the exemption criteria:

(e) This section shall not apply to a FOOD HANDLER who is employed by any of the following:

(1) CERTIFIED FARMERS' MARKETS.

(2) COMMISSARIES.

(3) Grocery stores, except for separately owned FOOD FACILITIES to which this section otherwise applies that are located in the grocery store. For purposes of this paragraph, "grocery store" means a store primarily engaged in the retail sale of canned FOOD, dry goods, fresh fruits and vegetables, and fresh MEATs, FISH, and POULTRY and any area that is not separately owned within the store where FOOD is prepared and served, including a bakery, deli, and MEAT and seafood counter. "Grocery store" includes convenience stores.

(4) Licensed health care facilities.

(5) MOBILE SUPPORT UNITS.

(6) Public and private school cafeterias.

(7) RESTRICTED FOOD SERVICE FACILITIES.

(8) RETAIL stores in which a majority of sales are from a pharmacy, as defined in Section 4037 of the Business and Professions Code, and venues with snack bar service in which the majority of sales are from admission tickets, but excluding any area in which restaurant-style sit-down service is provided.

(9) A FOOD FACILITY that provides in-house FOOD safety training to all EMPLOYEEs involved in the preparation, storage, or service of FOOD if all of the following conditions are met:

(A) The FOOD FACILITY uses a training course that has been APPROVED for use by the FOOD FACILITY in another state that has adopted the requirements described in Subpart 2-103.11 of the 2001 edition of the model Food Code, not including the April 2004 update, published by the

federal Food and Drug Administration.

(B) Upon request, the FOOD FACILITY provides evidence satisfactory to the local ENFORCEMENT OFFICER demonstrating that the FOOD FACILITY training program has been APPROVED for use in another state pursuant to subparagraph (A).

(C) The training is provided during normal work hours, and at no cost to the EMPLOYEE.

(10) A FOOD FACILITY that is subject to a collective bargaining agreement with its FOOD HANDLERS.

(11) Any city, county, city and county, state, or regional facility used for the confinement of adults or minors, including, but not limited to, a county jail, juvenile hall, camp, ranch, or residential facility.

(12) An elderly nutrition program, administered by the California Department of Aging, pursuant to the Older Americans Act of 1965 (42 U.S.C. Sec. 3001 et seq.), as amended.

Violation Item	Points Lost	Comply By Date	Complied On Date
<u>K014: Food Contact Surfaces: Clean and Sanitized</u>	<u>5.0</u>		<u>02/20/2025</u>
No sanitizer bucket was set up during active portioning of beer. Ensure that food preparation surfaces are sanitized as needed. Wiping cloths used for wiping food spills must be held in a sanitizing solution when not in use. This violation was corrected by an employee setting up a sanitizer bucket.			
<u>K021: Hot and Cold Water Available</u>	<u>2.0</u>		<u>Uncorrected as of 5/2/2025</u>
Hot water was measured at a maximum of 116F. Maintain an adequate supply of hot potable water (minimum of 120°F) and cold potable water under pressure to all sinks (except hand washing sinks).			
<u>K024: Person In Charge Present and Performs Duties; Valid Certification</u>	<u>1.0</u>		<u>Uncorrected as of 5/2/2025</u>
No employee had a food safety manager's certificate for review at the time of the inspection. Not every employee could demonstrate knowledge of food safety requirements directly related to their positions including warewashing, sanitizer concentrations, sanitizer bucket set up practices and wiping cloth practices. Refer to the code section quoted in the comments of this report for more details. Not every employee had food handler cards available for review at the time of the inspection. This facility does not meet the exemption for food handler cards. Refer to the code section quoted in this comments of this report for more details.			
<u>K034: Warewashing Facility/Test Strips: Adequate, Used</u>	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
No test strips for quaternary ammonium were available onsite at the time of the inspection. The facility uses quaternary ammonium as a sanitizer. Provide approved and correct testing equipment to test for sanitizer concentration and/or hot water temperature.			
<u>K043: Approved Toilets: Maintained, Accessible, Clean</u>	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
No self closer was installed on the restroom door at the time of the inspection. Ensure the toilet room has a self-closing door mechanism in working order.			

Inspection Date: 06/27/2023

Type of Service Description: OPENING INSPECTION

Inspection Result Description: IN COMPLIANCE

Department Action Description: NEXT REGULAR

Score: 100.0

Overall Inspection Comments: The facility was observed to be clean and well constructed. The owner has approval to share use of the adjacent unit's janitorial sink. Owner indicated an intention to install a janitorial sink in the future.

Department Action Description: NEXT REGULAR

Score: 95.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K016: Shell Stock: Quality, Storage, Tags	2.0	04/23/2025	Corrected On Site
Observed two large trays of raw oysters without tags. Maintain shellfish certification tags with the original container until empty, and then maintain tags in chronological order on the premises for a period of not less than 90 days from the date of harvest. Corrected on site.			
K018: HACCP/Variance Required: Approved/Records Kept	2.0	04/23/2025	Corrected On Site
Observed approximately 50 pounds of short ribs in vacuum sealed bags without proper labeling. Facility is packaging food using reduced-oxygen packaging (ROP) but does not have a state approved HACCP plan. Any retail food facility processing potentially hazardous foods using ROP is required to have a Hazardous Analysis Critical Control Point (HACCP) plan approved by California Department of Public Health (CDPH) (Cal Code 114057.1) OR follow the exemption rules.			
IMMEDIATELY DISCONTINUE USING ROP AND DISPOSE OF ALL ROP PRODUCTS UNTIL YOU HAVE SUBMITTED A HACCP PLAN AND BEEN APPROVED BY THE CDPH OR FOLLOW THE BELOW EXEMPTION RULES.			
Exemption: Your retail food facility is not required to have an approved HACCP plan for ROP of potentially hazardous food if all the following standards are always met:			
1. The food is labeled with the production time and date.			
2. The food is held at 41° F or lower during refrigerated storage.			
3. The food is removed from its package in the food facility within 48 hours after packaging.			
The lack of oxygen creates an anaerobic environment, which favors the growth of two very dangerous pathogens: Clostridium botulinum and Listeria monocytogenes. Continued operation of a ROP procedure without an approved HACCP plan can result in condemnation of all ROP products, impoundment of any equipment used for ROP, or suspension of your permit to operate.			
To request a CDPH-FDB ROP HACCP plan review, submit a hard copy of the ROP HACCP plan along with a completed Retail Food Program Service Request Application and fee to the address on the application.			
For information on submitting a HACCP plan for approval, please contact CDPH at (916) 650-6500 or by e-mail, fdinfo@cdph.ca.gov			
Once you have received a letter of approval, please contact your inspector to review your HACCP plan.			
Corrective action: Approx 50lbs of shortribs were packaged less than 48 hours before time of inspection. Food products were removed from packaging to meet exemption rules.			
K043: Approved Toilets: Maintained, Accessible, Clean	0.5	05/01/2025	Uncorrected as of 5/2/2025
Install a self-closing mechanism on the employee restroom door.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	06/01/2025	Uncorrected as of 5/2/2025
Several areas of the tile floor throughout kitchen have deteriorated grout and can no longer be properly cleaned. Re-grout as needed.

Inspection Result Description: IMMINENT PUBLIC HEALTH HAZARD

Department Action Description: CLOSED UNTIL ABATED

Score: 90.0

Overall Inspection Comments: De conformidad con la Sección 114409 del Código de Salud y Seguridad de California, su permiso queda suspendido debido a un peligro inmediato para la salud y la seguridad del público. Las infracciones que se le imputan incluyen Sección 114259.1: K023- infestación de alimañas

Debe cerrar y permanecer cerrado hasta que la División de Servicios de Salud Ambiental del Condado de San Luis Obispo reciba la aprobación por escrito para reabrir. Llame a Joel Schwartz al (805) 781-5757 cuando esté listo para programar una reinspección.

Si así lo desea, puede presentar una solicitud por escrito para una audiencia dentro de los 15 días calendario a partir de la fecha de este aviso para demostrar la causa por la cual no se debe suspender su permiso.

Antes de la reinspección debe hacer lo siguiente:

- 1) Limpiar y desinfectar todas las áreas afectadas. Retire todos los cadáveres de cucarachas y las marcas de heces.
- 2) Retire todas las fuentes de agua.
- 3) Eliminar todas las fuentes de alimento.
- 4) Retirar de la instalación la acumulación de artículos no utilizados o no esenciales. Retire todos los artículos personales de las instalaciones. Retire todo el equipo inoperable de las instalaciones.

Pursuant to California Health and Safety Code Section 114409, your permit is hereby suspended due to an immediate danger to the public's health and safety. The violation(s) you are charged with include Section 114259.1: K023- vermin infestation.

You must close and remain closed until given written approval by the County of San Luis Obispo Environmental Health Services Division to reopen. Please call Joel Schwartz at (805) 781-5757 when you are ready to schedule a reinspection.

Prior to reinspection you must do the following:

- 1) Clean and sanitize all affected areas. Remove all cockroach carcasses and feces marks.
- 2) Remove all sources of water.
- 3) Remove all sources of food.
- 4) Remove the accumulation of unused or nonessential items from the facility. Remove all personal items from the facility. Remove all inoperable equipment from the facility.

If you so choose, you may submit a written request for a hearing within 15 calendar days of the date of this notice to show cause why your permit should not be suspended.

- 4) Remove the accumulation of unused or nonessential items from the facility. Remove all personal items from the facility. Remove all inoperable equipment from the facility.

If you so choose, you may submit a written request for a hearing within 15 calendar days of the date of this notice to show cause why your permit should not be suspended.

Violation Item	Points Lost	Comply By Date	Complied On Date
K009: Proper Cooling Methods	2.0	12/10/2024	Corrected On Site

Midió una olla grande de tomatillos y chiles cocidos a 43F-45F. El operador afirmó que la comida había sido cocinada 16 horas antes de la inspección.

Todos los PHF se enfriarán rápidamente de acuerdo con los requisitos de temperatura y tiempo especificados, de 135 grados a 70 grados en 2 horas, y de 70 grados a 41 grados en cuatro horas.

La infracción fue corregida cuando el operador descartó voluntariamente los alimentos a la basura.

Measured a large pot of cooked tomatillos and chilis at 43F-45F. The operator stated that the food had been cooked 16 hours prior to the inspection.

All PHF shall be rapidly cooled according to specified time temperature requirements, from 135 degrees to 70 degrees within 2 hours, and from 70 degrees to 41 degrees within four hours.

The violation was corrected by the operator voluntarily discarding the food in the trash.

Inspection Result Description: IMMINENT PUBLIC HEALTH HAZARD

Department Action Description: CLOSED UNTIL ABATED

Score: 90.0

Overall Inspection Comments: De conformidad con la Sección 114409 del Código de Salud y Seguridad de California, su permiso queda suspendido debido a un peligro inmediato para la salud y la seguridad del público. Las infracciones que se le imputan incluyen Sección 114259.1: K023- infestación de alimañas

Debe cerrar y permanecer cerrado hasta que la División de Servicios de Salud Ambiental del Condado de San Luis Obispo reciba la aprobación por escrito para reabrir. Llame a Joel Schwartz al (805) 781-5757 cuando esté listo para programar una reinspección.

Si así lo desea, puede presentar una solicitud por escrito para una audiencia dentro de los 15 días calendario a partir de la fecha de este aviso para demostrar la causa por la cual no se debe suspender su permiso.

Antes de la reinspección debe hacer lo siguiente:

- 1) Limpiar y desinfectar todas las áreas afectadas. Retire todos los cadáveres de cucarachas y las marcas de heces.
- 2) Retire todas las fuentes de agua.
- 3) Eliminar todas las fuentes de alimento.
- 4) Retirar de la instalación la acumulación de artículos no utilizados o no esenciales. Retire todos los artículos personales de las instalaciones. Retire todo el equipo inoperable de las instalaciones.

Pursuant to California Health and Safety Code Section 114409, your permit is hereby suspended due to an immediate danger to the public's health and safety. The violation(s) you are charged with include Section 114259.1: K023- vermin infestation.

You must close and remain closed until given written approval by the County of San Luis Obispo Environmental Health Services Division to reopen. Please call Joel Schwartz at (805) 781-5757 when you are ready to schedule a reinspection.

Prior to reinspection you must do the following:

- 1) Clean and sanitize all affected areas. Remove all cockroach carcasses and feces marks.
- 2) Remove all sources of water.
- 3) Remove all sources of food.
- 4) Remove the accumulation of unused or nonessential items from the facility. Remove all personal items from the facility. Remove all inoperable equipment from the facility.

If you so choose, you may submit a written request for a hearing within 15 calendar days of the date of this notice to show cause why your permit should not be suspended.

Violation Item	Points Lost	Comply By Date	Complied On Date

K023: No Rodents, Insects, Birds, or Animals	2.0	12/10/2024	12/13/2024

Se observó evidencia de una plaga de cucarachas en toda la instalación. Se observaron cucarachas vivas en la impresora de recibos encima del refrigerador de preparación superior frío en la línea caliente. Se observaron cajas de huevos de cucarachas en varios lugares de la instalación.

Elimine las cucarachas y toda evidencia de cucarachas de la instalación (por ejemplo, cápsulas de huevo, cucarachas muertas, marcas fecales) de la instalación por medios seguros, legales y efectivos de inmediato.

The property owner stated that pest control service was provided on 10/24/24.

Observed evidence of a cockroach infestation throughout the facility. Observed live cockroaches in the receipt printer on top of the cold top prep cooler at the hot line. Observed cockroach egg cases in various places throughout the facility.

Eliminate cockroaches and all evidence of cockroaches from the facility (e.g. egg capsules, dead cockroaches, fecal markings) from the facility by safe, legal and effective means at once.

Record ID: PR0015675
Program Description: HR12 - RETAIL MKT (150 - 5,000 SF) - FULL PREP
Inspection Date: 12/13/2024
Type of Service Description: REINSPECTION
Inspection Result Description: MINOR VIOLATIONS
Department Action Description: TO BE RE-INSPECTED
Score: 96.5

Overall Inspection Comments: The purpose of this visit was to perform a reinspection after the facility's permit was suspended due to a rodent infestation and an accumulation of cockroach carcasses from a past cockroach infestation.

On this date, the violations checked were sufficiently abated. The facility's permit is reinstated.

A followup inspection has been scheduled for 12/27/24.

The operator is directed to continue to make progress toward facility compliance as noted on this report.

The operator is directed to remove all evidence of rodent activity by the reinspection on 12/27/24. Any evidence observed on that date will be assumed to be evidence of an ongoing infestation and the facility will be subject to a permit suspension until the infestation is abated.

Violation Item	Points Lost	Comply By Date	Complied On Date
K023: No Rodents, Insects, Birds, or Animals	2.0	12/27/2024	01/07/2025
1) Evidence of rodent activity was observed in the hot line area and in the storage area near the ice cream. The operator is directed to continue to clean and sanitize all affected areas. The operator is directed to remove all evidence of rodent activity by the reinspection on 12/27/24. Any evidence observed on that date will be assumed to be evidence of an ongoing infestation and the facility will be subject to a permit suspension until the infestation is abated. 2) An accumulation of cockroach frass was observed throughout the hot line area. The operator is directed to continue to clean and sanitize all affected areas. The operator is directed to have a professional pest control company treat the facility for cockroaches on or about 12/27/24 or as needed to prevent reinfestation from hatching egg cases left from the previous infestation.			
K033: Nonfood-Contact Surfaces Clean	0.5	12/13/2024	01/07/2025
Though progress was noted, the facility continues to show evidence of deferred cleaning. Maintain the facility's floors, walls, and ceiling in a clean and sanitary condition.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	12/10/2024	01/07/2025
1) Se observaron múltiples equipos inoperables en las instalaciones. Asegúrese de que el equipo se mantenga limpio, funcional y en buen estado. Repare o retire todo el equipo inoperable. 2) Se observó una acumulación de suciedad en el ventilador de la cámara frigorífica. Limpiar el ventilador. 3) Se observó un cubo de condensación debajo de la línea de drenaje de condensación en el refrigerador. Repare la línea de drenaje de condensación para que descargue aguas residuales al alcantarillado según lo aprobado. 1) Observed multiple inoperable pieces of equipment in the facility. Ensure equipment is maintained clean, functional, and in good repair. Repair or remove all inoperable equipment. 2) Observed an accumulation of grime on the fan in the walk in cooler. Clean the fan. 3) Observed a bucket of condensation under the condensation drain line in the walk in cooler. Repair the condensation drain line so that it discharges wastewater to the sewer as approved.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	12/13/2024	01/07/2025
Observed equipment that was not in operation at the time of the inspection. The operator state that the additional refrigerators were needed as backup for when the main display cooler fails. The operator is directed to keep all equipment in the facility in good repair and operational. Repair or remove all inoperable equipment. Equipment that is not in operation must be removed from the facility.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	12/27/2024	01/07/2025
The operator is directed to continue progress toward removing all personal items and items that are not necessary for the daily operation of the facility.

Inspection Date: 07/30/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 84.0

Overall Inspection Comments: A reinspection is required due to violations listed on this report which do not meet the requirements set forth in the California Retail Food Code commencing with §113700-114437. All violations must be corrected within the time specified. If violations noted on this report are not corrected by the "Next Inspection Date" indicated above; a chargeable reinspection fee may be assessed.

Violation Item	Points Lost	Comply By	Date Complied On	Date
K007: Proper Hot and Cold Holding Temperatures	<u>3.0</u>	<u>07/30/2024</u>	<u>Corrected On Site</u>	
Observed prep top unit at 45F during initial inspection. Unit was able to be adjusted and refrigeration unit came back down to 41F. Ensure all refrigeration units are maintained at 41F or below.				
K014: Food Contact Surfaces: Clean and Sanitized	<u>3.0</u>	<u>07/30/2024</u>	<u>Corrected On Site</u>	
Observed no sanitizer solution set up during active food preparation. Ensure all food contact surfaces are maintained clean and sanitized. Food facility needs to set up sanitizer solution/buckets during active food preparation and ensure sanitizer concentration is 100ppm bleach or 200ppm quaternary ammonium. Corrected on site.				
K018: HACCP/Variance Required: Approved/Records Kept	<u>2.0</u>	<u>07/30/2024</u>	<u>Corrected On Site</u>	
Observed meat drying on wooden mop handle. DISCONTINUE IMMEDIATELY. All food items were voluntarily discarded. Ensure a HACCP plan is submitted to the state and approved by the state PRIOR to curing/drying any meat products.				
K021: Hot and Cold Water Available	<u>2.0</u>	<u>07/30/2024</u>	<u>Corrected On Site</u>	
Observed hot water turned off at hand wash sink. ENSURE HOT WATER IS AVAILABLE AT ALL TIMES AT HAND WASH SINK. Corrected on site.				
K024: Person In Charge Present and Performs Duties; Valid Certification	<u>1.0</u>	<u>08/20/2024</u>	<u>12/10/2024</u>	
Observed no food handler or food manager safety certification. Ensure at least one owner/employee obtains a food manager safety certification and ALL OTHER EMPLOYEES OBTAIN A FOOD HANDLER CARD.				
K034: Warewashing Facility/Test Strips: Adequate, Used	<u>0.5</u>	<u>08/02/2024</u>	<u>12/10/2024</u>	
Observed facility using quaternary ammonia for sanitizer. Facility only has chlorine test strips. Ensure quaternary ammonia test strips are obtained to properly measure sanitizer concentration.				
K035: Adequate/Approved Equipment/Utensils, Maintained	<u>0.5</u>	<u>08/06/2024</u>	<u>12/10/2024</u>	
- Observed many pieces of broken equipment. Ensure all equipment is maintained in good repair. Remove all equipment that is broken or unused. - Observed cardboard being used to line shelving. Discontinue this practice. Cardboard can harbor vermin. Ensure all equipment is smooth, nonabsorbent and commercial grade.				
K036: Equipment, Utensils and Linens: Storage and Use	<u>0.5</u>	<u>07/30/2024</u>	<u>12/10/2024</u>	
Observed mop sink full of utensils/pots. Discontinue this practice. Ensure three compartment sink is used for warewashing and shelves are used for storage. Mop sink is intended for disposal of wastewater and to fill up mop bucket; do not place food contact surfaces inside of this sink.				
K038: Approved Lighting/Ventilation: Adequate, Used	<u>0.5</u>	<u>08/02/2024</u>	<u>12/10/2024</u>	
Observed light out in hood system. Repair/replace.				
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	<u>0.5</u>	<u>08/26/2024</u>	<u>12/10/2024</u>	
Observed many personal items and miscellaneous equipment being stored at facility. Discontinue this practice. Ensure the premises is kept free of litter and items that are unnecessary to the operation and/or maintenance of the facility. Facility needs to clear out back kitchen area and storage room next to large walk-in refrigerator.				
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>	<u>08/02/2024</u>	<u>12/10/2024</u>	
Observed build up of grime/food debris throughout kitchen. Ensure all floors/walls/ceilings are maintained clean. Food facility needs to deep clean throughout entire kitchen.				
K054: Repeat Violations - Good Retail Practices (24 -51)	<u>2.0</u>	<u>07/30/2024</u>	<u>12/10/2024</u>	
See comments in section 24.

Facility Name: LOTUS THAI CUISINE

Facility ID: FA0013493

Site Address: 2060 9TH ST STE A, LOS OSOS

Record ID: PR0019006

Program Description: HR23 - RESTAURANT (SEATING UNDER 10) - FULL PREP

Inspection Date: 04/09/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 90.0

Overall Inspection Comments: The exhaust hood did not appear to be in adequate working condition to remove grease laden vapors from the facility.

Repair the exhaust hood. If the hood or motor needs to be replaced, a plan check evaluation by this agency is required.

An air balance report may be required.

Violation Item	Points Lost	Comply By Date	Complied On Date
K005: Proper Handwash Procedures and Glove Use	5.0		04/09/2025
Observed a food employee touch their face then touch a container of food. An intervention was made prior to any food contamination. This violation was corrected by the employee washing their hands before returning to food preparation. Ensure all employees properly wash their hands with soap and warm water prior to engaging in food preparation or handling food contact surfaces, equipment, utensils, or linen.			
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	04/10/2025	Uncorrected as of 5/2/2025
Not every employee had a food handler card available for review at the time of the inspection..			
K026: Approved Thawing Methods Used, Frozen Food	0.5		Uncorrected as of 5/2/2025
Observed improper thawing of chicken satay and raw chicken thighs. Thaw PHF by one of the approved methods; completely submerged under running water (70°F or below) inside a food preparation sink (not to exceed two hours); in a refrigeration unit, as part of the cooking process, or by use of a microwave.			
K027: Food Separated and Protected	1.0		Uncorrected as of 5/2/2025
Observed the following: 1) Raw beef and raw chicken stored in the cold top cooler next to ready to eat pineapple. 2) Raw shell eggs stored over ready to eat bean sprouts and ready to eat tea. Discontinue storing raw food of animal origin in the cold top next to Ready-to-eat (RTE) foods. To protect food from cross-contamination during storage, always store cooked and ready to eat foods above raw foods or in the following order from top shelf to bottom shelf: ready-to-eat foods; cooked meats; raw meats. If raw foods cannot be stored on the bottom shelf, then store in the following order from top to bottom: seafood, pork/beef, chicken.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	04/10/2025	Uncorrected as of 5/2/2025
Observed an accumulation of unused kitchen items. Remove all unused items.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	04/10/2025	Uncorrected as of 5/2/2025
Observed in use utensils stored in water at ambient temperature. In use utensils must be stored in water above 135F.			
K040: Wiping Cloths: Properly Used and Stored	0.5		Uncorrected as of 5/2/2025
Observed multiple wet wiping cloths stored outside of the sanitizer bucket. Wet cloths must be stored completely submerged in sanitizer except. Discontinue using wiping cloths for multiple uses without storing in sanitizing solution.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	04/10/2025	Uncorrected as of 5/2/2025
1) Observed the front door propped open at the time of the inspection. Maintain all exterior doors closed except when in use.			
2) Observed the dumpster lids open at the time of the inspection. Every facility that uses the dumpster is responsible for its maintenance. The dumpster lids must be maintained closed to prevent vermin.

Type of Service Description: OPENING INSPECTION

Inspection Result Description: IN COMPLIANCE

Department Action Description: NEXT REGULAR

Score: 100.0

Overall Inspection Comments: Facility is conditionally approved to operate. The following must be corrected by next inspection date listed on this report:

- Install a minimum 6 inch high metal splash guard between the 3-compartment sink and the mop sink
- Ensure the flooring in the restroom is smooth, non-absorbent, easily cleanable, and has approved sanitary cove base. See "Approved Flooring Materials" document for guidance.
- Ensure the ventilation, fire suppression system, and fire extinguishers have been approved and inspected by the local jurisdiction
- Within 60 days ensure at least one employee has a valid Food Manager Certificate
- Within 30 days ensure all other employees have a valid Food Handlers Card

*Based on the facilities proposed menu, a food preparation sink is not required. The facility does not have the required janitorial sink and has opted to use the current food preparation sink as a janitorial sink. Upon any changes to the menu that require a food preparation sink, an additional sink will be required to be installed.

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 89.5

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies - Observed utensils in the hand wash sink. Discontinue this practice. Ensure the hand wash sink is easily accessible at all times and only used for hand washing purposes. Corrected on site. - Observed no paper towels at hand wash sink. Ensure hand wash sink is fully stocked with pump soap and paper towels at all times. Manager added a stack of paper towels next to the sink. Ensure paper towels are maintained in a dispenser.	3.0	04/02/2025	Corrected On Site
K013: Food in Good Condition, Safe and Unadulterated Observed no sanitizer solution set up during active food preparation. Ensure all food contact surfaces are maintained clean and sanitized. Food facility needs to set up sanitizer solution/buckets during active food preparation and ensure sanitizer concentration is 100ppm bleach or 200ppm quaternary ammonium. Corrected on site.	2.0	04/02/2025	Corrected On Site
K024: Person In Charge Present and Performs Duties: Valid Certification Unable to verify food manager safety certification and food handler cards for employees working during time of inspection. Ensure there is at least one person with a food manager safety certification and all other employees obtain a food handler card. Ensure copies are stored on site and able to be presented during inspection.	1.0	04/30/2025	Uncorrected as of 5/2/2025
K027: Food Separated and Protected Observed raw shell eggs being stored above produce in refrigeration unit. Ensure all raw foods are stored below ready to eat foods. To protect food from cross-contamination during storage, always store cooked and ready to eat foods above raw foods or in the following order from top shelf to bottom shelf: ready-to-eat foods; cooked meats; raw meats. If raw foods cannot be stored on the bottom shelf, then store in the following order from top to bottom: seafood, pork/beef, chicken.	1.0	04/02/2025	Uncorrected as of 5/2/2025
K029: Toxic Substances Properly Identified, Stored, Used Observed unlabeled spray bottles. Ensure all toxic spray bottles are labeled as to the contents of the container.	0.5	04/03/2025	Uncorrected as of 5/2/2025
K030: Food Storage; Food Storage Containers Identified - Observed open bag of flour in kitchen. Ensure all opened bulk food is stored in a labeled container with a lid. - Observed shelf with food items almost on the floor in front kitchen. Ensure all food is stored at least 6 inches above the ground.	0.5	04/04/2025	Uncorrected as of 5/2/2025
K034: Warewashing Facility/Test Strips: Adequate, Used Observed no sanitizer test strips (for quaternary ammonia). Ensure correct testing equipment is obtained to properly measure sanitizer concentration.	0.5	04/04/2025	Uncorrected as of 5/2/2025
K036: Equipment, Utensils and Linens: Storage and Use Observed food debris on meat slicer. Ensure all equipment is maintained clean.	0.5	04/03/2025	Uncorrected as of 5/2/2025
K041: Plumbing; Proper Backflow Devices Observed grime inside and around floor sink. Ensure all floor sinks are maintained clean.	0.5	04/03/2025	Uncorrected as of 5/2/2025
K044: Premises; Personal/Cleaning Items; Vermin-Proofing - Observed front doors to food facility propped open. Ensure all exterior doors are maintained closed when not in use. Facility can install an air curtain or permanent screen door if they want to keep the doors open. Corrected on site. - Observed mops being stored in mop sink. Ensure mops are hung up to air dry without soiling walls or equipment. Facility can install a mop rack.	0.5	04/02/2025	Corrected On Site

Inspection Date: 02/19/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 89.0

Overall Inspection Comments: Education and direction regarding the following topics were given at the time of the inspection:

- 1) Sanitizer bucket set up and concentration testing
- 2) High temperature dish washer testing.
- 3) Cooling
- 4) Time As a Public Health Control (TPHC). Refer to the code section quoted below for TPHC details.

114000. Time as a public health control

(a) Except as specified in subdivision (b), if time only, rather than time in conjunction with temperature, is used as the public health control for a working supply of POTENTIALLY HAZARDOUS FOOD before cooking or for READY-TO-EAT POTENTIALLY HAZARDOUS FOOD that is displayed or held for service for immediate consumption, the following shall occur:

(1) The FOOD shall be marked or otherwise identified to indicate the time that is four hours past the point in time when the FOOD is removed from temperature control.

(2) The FOOD shall be cooked and served, served if ready-to-eat, or discarded within four hours from the point in time when the FOOD is removed from temperature control.

(3) The FOOD in unmarked containers or packages or marked to exceed a four-hour limit shall be discarded.

(4) Written procedures shall be maintained in the FOOD FACILITY and made available to the ENFORCEMENT AGENCY upon request, that ensure compliance with this section and Section 114002, for FOOD that is prepared, cooked, and refrigerated before time is used as a public health control.

(b) Time only, rather than time in conjunction with temperature, may not be used as the public health control for raw EGGS in the following FOOD FACILITIES:

- (1) Licensed health care facilities.
- (2) Public and private school cafeterias

K007: Proper Hot and Cold Holding Temperatures

5.0

02/20/2025

02/19/2025

1) The following temperatures were measured in the cold side prep top refrigerator at the hot line:

Minced turkey 45F, Tuna 50F, Boiled Eggs 47F.

This violation was corrected by rapidly cooling the food to 41 F or below.

2) Hollandaise sauce stored on top of a soup well measured 110F. The person in charge stated the sauce had been made about 6 hours prior to the inspection.

Education regarding TPHC was given at the time of the inspection. Refer to the description of TPHC quoted in the comments section of this report.

This violation was corrected by an employee voluntarily discarding the hollandaise sauce.

3) Aioli in the salmon colored reach in cooler was measured at 45 F.

4) Cut melon in an ice bath at the prep line was measured at 60F.

This violation was corrected by rapidly cooling the food to 41 F or below. The operator is directed to ensure that food in an ice bath is maintained at 41 F or below at all times. Smaller containers and ice higher on the container sides may provide better cold holding.

Program Description: HR25 - RESTAURANT (SEATING 51 +) - FULL PREP

Inspection Date: 03/21/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 97.5

Overall Inspection Comments: Overall, the facility was observed to be performing adequately. It is a large and high volume facility with many staff members. No critical or repeat violations were observed in any inspected areas. As the main kitchen and banquet area are aged, ongoing maintenance is required. Structural maintenance of the main kitchen appears to be adequate, however multiple violations were observed in Good Retail Practice categories due to staff habits and monitoring practices. Promptly and permanently correct noted violations. Train staff to be conscious of wiping cloths as a potential for cross-contamination, and to consistently store them in sanitizer solution between uses. Monitor equipment regularly to ensure proper functioning and good repair. Maintain accurate data plates on equipment with safety parameters for reference to ensure proper functioning. Routinely monitor kitchen for compliance with all health codes.

Violation Item	Points Lost	Comply By Date	Complied On Date
K030: Food Storage; Food Storage Containers Identified	<u>0.5</u>	<u>03/22/2024</u>	<u>02/20/2025</u>
Multiple bulk food containers were observed with no labels identifying contents. Maintain accurate labels on all food products removed from the original labeled packaging.			
K033: Nonfood-Contact Surfaces Clean	<u>0.5</u>	<u>03/22/2024</u>	<u>02/20/2025</u>
Clean heavy residue from electrical conduits on the wall of the bakery. Include these areas in your routine cleaning regimen.			
K035: Adequate/Approved Equipment/Utensils, Maintained	<u>0.5</u>	<u>03/22/2024</u>	<u>02/20/2025</u>
1) The thermometers of the large conveyor dish washing machine in the main kitchen were not functional at the time of inspection. An adhesive test thermometer was used to confirm that the rinse cycle was measuring at minimum 160 degrees. Repair or replace the dysfunctional thermometers. It is recommended to obtain a supply of adhesive test thermometers for periodic verification. 2) Can opener was observed soiled with dried food residue. Maintain clean and sanitary. 3) Bare wood has been added to metro shelving where small items are stored. Remove and/or replace with an impermeable and cleanable material.			
K040: Wiping Cloths: Properly Used and Stored	<u>0.5</u>	<u>03/21/2024</u>	<u>Corrected On Site</u>
Multiple soiled and damp wiping cloths were observed on work surfaces throughout the facility. Train staff to store the cloths in sanitizer solution between uses. Verify adequate sanitizer solutions with your test strips, and replace when solution becomes soiled or cloudy.			
K047: Signs Posted; Last Inspection Report Available	<u>0.5</u>	<u>03/21/2024</u>	<u>Corrected On Site</u>
Hand washing signs were missing at some hand sinks. Maintain required signage posted. A supply of EHS hand signs were provided for posting.

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized	<u>3.0</u>	<u>02/13/2024</u>	<u>Corrected On Site</u>
Observed no sanitizer dispensing from mechanical warewasher. Ensure proper sanitizer concentration is maintained to ensure proper sanitization. Manager refilled sanitizer fluid and re-sanitized dishes.			
K026: Approved Thawing Methods Used, Frozen Food	<u>0.5</u>	<u>02/13/2024</u>	<u>Corrected On Site</u>
REPEAT VIOLATION: Observed multiple food items being defrosted in a bucket of water at food preparation sink. Discontinue this practice. Ensure all potentially hazardous foods (PHF) are thawed using an approved method. Thaw PHF by one of the approved methods; completely submerged under running water (70°F or below) inside a food preparation sink (not to exceed two hours); in a refrigeration unit, as part of the cooking process, or by use of a microwave.			
Corrected on site by manager.			
K035: Adequate/Approved Equipment/Utensils, Maintained	<u>0.5</u>	<u>02/13/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed build-up/grime on soda nozzle gaskets. Ensure all equipment is maintained clean and in good repair.			
K036: Equipment, Utensils and Linens: Storage and Use	<u>0.5</u>	<u>02/16/2024</u>	<u>12/16/2024</u>
REPEAT VIOLATION: Observed bulk food with bowls for dispensing. Ensure bulk food is dispensed via scoops with handles. Handles should be stored above the top of the food surface to prevent cross contamination.			
- Observed open food containers in dry storage area. Ensure lids are maintained closed when not in use.			
- Observed grime on ice chute. Ensure ice chute is thoroughly cleaned and sanitized.			
K054: Repeat Violations - Good Retail Practices (24 -51)	<u>2.0</u>	<u>02/13/2024</u>	<u>12/16/2024</u>
See comments in sections 26 and 36.

Facility Name: MASON BAR

Facility ID: FA0011724

Site Address: 307 E BRANCH ST, ARROYO GRANDE

Record ID: PR0017082

Program Description: HR25 - RESTAURANT (SEATING 51 +) - FULL PREP

Inspection Date: 07/03/2023

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 89.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K007: Proper Hot and Cold Holding Temperatures	3.0	07/03/2023	Corrected On Site
Observed multiple refrigeration units out of temperature. All refrigeration units should be 41F or below.			
1. The smaller kitchen near the bar had a prep line refrigerator at 52F. Vegetables that were cut that morning were moved out of fridge, the dough in the refrigerator was voluntarily discarded and whole/uncut produce were to be relocated. Discontinue use of this unit. Repair or replace. 2. Multiple prep top refrigeration units were measured at 43-45F in main kitchen. Prep top lids should be kept closed and temperatures of refrigeration units should be closely monitored. Prep top units were closed during time of inspection and rechecked later. After rechecking units, refrigeration unit across from hood system was still 45F. Potentially hazardous food (PHF) items were probed: - Shrimp (50F) was voluntarily discard by manager. - White fish and other PHF food items in unit were 42F. All food must be moved to walk-in or alternate refrigeration unit (41F) immediately. Manager started moving items during time of inspection. Food facility may want to start to keep temperature logs of each unit to ensure temperature is being maintained/monitored throughout the day.			
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	07/04/2023	02/13/2024
Ensure food safety certification and food handler cards can be provided during time of inspection. Manager was unable to provide documents during time of inspection for verification.			
K026: Approved Thawing Methods Used, Frozen Food	0.5	07/03/2023	Corrected On Site
Observed raw sealed turkey in a bucket of water in the walk-in. Discontinue this practice immediately. Manager corrected on site and completely submerged raw packaged turkey under running water.			
Thaw potentially hazardous food (PHF) by one of the approved methods; completely submerged under running water (70°F or below) inside a food preparation sink (not to exceed two hours); in a refrigeration unit, as part of the cooking process, or by use of a microwave.			
K030: Food Storage; Food Storage Containers Identified	0.5		Uncorrected as of 5/2/2025
Observed unlabeled bulk food storage. Ensure all bulk food is clearly labeled.			
K034: Warewashing Facility/Test Strips: Adequate, Used	0.5	07/03/2023	Corrected On Site
Observed bleach sanitizer concentration at bar warewashing facility low (50ppm). Ensure concentration of bleach sanitizer is at least 100ppm for manual warewashing.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	07/04/2023	12/16/2024
Observed bulk food with bowls for dispensing. Ensure bulk food is dispensed via scoops with handles. Handles should be stored above the top of the food surface to prevent cross contamination.			
K039: Thermometers Provided and Accurate	0.5	07/04/2023	Uncorrected as of 5/2/2025
Ensure all refrigeration units have secondary thermometers. Ensure those thermometers are closely monitored to maintain proper temperature of food.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	07/04/2023	12/16/2024
Observed mops propped against walls to dry in mop sink. Ensure mops, after use, are placed in a position that allows them to air-dry without soiling walls, equipment or supplies. Food facility can install a designated rack to hang mops to dry.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	07/03/2023	02/13/2024
Observed back door of kitchen fully propped open. Food facilities shall be fully enclosed. Ensure the back door remains closed or install a metal screen door.			
K047: Signs Posted; Last Inspection Report Available	0.5	07/03/2023	02/13/2024
Ensure hand wash signs are posted at every hand wash sink. Signs were provided to manager.

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 92.0

Overall Inspection Comments: Facility may upgrade flooring and make changes to the existing facility. Prior to any changes contact EHS office for approval. A plan check may be required for the remodel.

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized	3.0	01/23/2025	Corrected On Site
1. Observed no sanitizer solution set up during active food preparation. Ensure all food contact surfaces are maintained clean and sanitized. Food facility needs to set up sanitizer solution/buckets during active food preparation and ensure sanitizer concentration is 100ppm bleach or 200ppm quaternary ammonium. Corrected on site.			
2. Observed staff washing dishes at front 3 compartment sink with no sanitizer. Reviewed proper warewashing with staff and helped create sanitizer solution. Used test strip to verify the correct concentration.			
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	01/31/2025	Uncorrected as of 5/2/2025
Unable to verify Food Manager/ Food Handler Cards at the time of the inspection. Ensure at least one employee obtains a valid Food Manager Certificate and all others have valid Food Handler Cards. Store copies on site for inspector review.			
K029: Toxic Substances Properly Identified, Stored, Used	0.5	01/24/2025	Uncorrected as of 5/2/2025
Observed unlabeled bottles throughout the facility. Ensure toxic spray bottles are labeled as to the contents of the container.			
K034: Warewashing Facility/Test Strips: Adequate, Used	0.5	01/24/2025	Uncorrected as of 5/2/2025
Automatic dish machine measured 0 ppm chlorine. Discontinue use until dispenses 50 ppm chlorine sanitizer. Utilize sanitizer test strips to confirm correct concentrations.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	01/24/2025	Uncorrected as of 5/2/2025
1. Observed a small pillow being used on prep line used for bread preparation. DISCONTINUE using pillow. Ensure all equipment is commercial grade and approved for food.			
2. Observed two broken refrigeration units in the back room. Ensure equipment is maintained clean, functional, and in good repair. If equipment is not going to be repaired, it needs to be removed from building.			
3.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	01/31/2025	Uncorrected as of 5/2/2025
Observed several pieces of equipment (dough machine, large can opener, and fry cutter attached to side of walk in unit) dirty with food debris. Ensure all equipment is maintained clean and in good repair.			
K038: Approved Lighting/Ventilation: Adequate, Used	0.5	01/31/2025	Uncorrected as of 5/2/2025
1. Observed two fryer machines set up on prep top table, not under hood. Discontinue using fryers in that location and ensure they are placed/ used under the hood system. If there is no room under hood, discontinue use.			
2. Observed missing hood filter. Replace all missing hood filters and ensure they are properly installed.			
K041: Plumbing; Proper Backflow Devices	0.5		Uncorrected as of 5/2/2025
1. Observed floor sink under 3 compartment sink clogged and not draining properly. Drain lines extending into floor sink, no air gap was observed. Maintain all plumbing fixtures fully operative, clean and in good repair as to prevent any contamination of food or utensils.			
2. Observed pipe extending from 3 compartment sink to grease interceptor in order to avoid use of floor sink. Staff advised there is a leak in the sub-floor and have contacted a repair person.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	02/07/2025	Uncorrected as of 5/2/2025
Observed a hole in the wall behind the prep sink. Repair the wall. Ensure finish more durable than semi or high gloss enamel painted wallboard such as fiberglass -reinforced plastic (FRP), vinyl wall paneling, stainless steel, etc., must be installed from the top of the base coving to minimum 8-foot height in the following areas: behind hand wash, FOOD PREPARATION, janitorial, and utensil washing sinks and/or pressurized water spray arm assemblies.

Score: 100.0

Overall Inspection Comments: The purpose of this visit was to perform a reinspection after the initial inspection dated 11/25/24. Refer to that inspection report for details.

Inspection Date: 11/25/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 78.5

Overall Inspection Comments: The purpose of this visit was to perform a routine inspection.

Facility will be inspected on or after 12/1/24. All violations shall be corrected by this date. If subsequent reinspections are required to determine correction or compliance, the facility will be billed at an hourly rate.

Education and direction regarding the following topics were given at the time of the inspection:

- 1) Proper glove use. Gloves must be worn to minimize bare hand contact with food. Hands must be washed each time gloves are donned when changing tasks.
- 2) Finishes must be smooth, durable and easily cleanable. Foil lined shelves are not approved finishes.
- 3) Potentially hazardous food may be held without temperature control for a maximum of 2 hours during active prep. Tater tots at the prep line must be held at approved temperature unless they are part of active food preparation.

Violation Item	Points Lost	Comply By Date	Complied On Date
K004: Proper Eating, Tasting, Drinking or Tobacco Use	2.0	11/25/2024	
The following observations were made at the time of the inspection:			
1) Observed an employee eating at the hot line. The employee finished eating and began prepping food without first washing his hands. Refer to the hand washing violation 005.			
2) An employee was observed eating a tater tot at the hot line.			
K005: Proper Handwash Procedures and Glove Use	5.0	11/25/2024	Corrected On Site
Observed an employee eating at the hot line. The employee finished eating and began prepping food without first washing his hands. Refer to the eating violation 004.			
The violation was corrected by the employee removing his gloves and washing his hands before returning to food preparation.			
K006: Adequate/Accessible Handwash Sinks, Supplies	5.0	11/25/2024	Corrected On Site
After observing an employee eating at the hot line, then continuing to prepare food, the employee was directed to wash their hands. No soap was available at the hand sink the employee used, but they rinsed their hands and returned to food preparation.			
This violation was corrected by directing the employee to use another hand sink where soap was available.			
K014: Food Contact Surfaces: Clean and Sanitized	5.0	11/25/2024	Corrected On Site
No sanitizer was measured in the prep line sanitizer bucket during active prep. No sanitizer was measured at the sanitizer dispenser at the three compartment sink.			
The violation was corrected by directing the operator to use chlorine and remake all the sanitizer buckets.

Site Address: 972 E FOOTHILL BLVD, SAN LUIS OBISPO

Record ID: PR0017695

Program Description: HR25 - RESTAURANT (SEATING 51 +) - FULL PREP

Inspection Date: 11/25/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 78.5

Overall Inspection Comments: The purpose of this visit was to perform a routine inspection.

Facility will be inspected on or after 12/1/24. All violations shall be corrected by this date. If subsequent reinspections are required to determine correction or compliance, the facility will be billed at an hourly rate.

Education and direction regarding the following topics were given at the time of the inspection:

- 1) Proper glove use. Gloves must be worn to minimize bare hand contact with food. Hands must be washed each time gloves are donned when changing tasks.
- 2) Finishes must be smooth, durable and easily cleanable. Foil lined shelves are not approved finishes.
- 3) Potentially hazardous food may be held without temperature control for a maximum of 2 hours during active prep. Tater tots at the prep line must be held at approved temperature unless they are part of active food preparation.

Violation Item	Points Lost	Comply By Date	Complied On Date
K027: Food Separated and Protected	<u>1.0</u>	<u>11/25/2024</u>	<u>Uncorrected as of 5/2/2025</u>
A) Observed raw cubed beef and raw fish stored next to ready to eat food like sliced tomatoes and salsa in the cold top prep cooler at the hot line.			
B) Observed food stored on the floor of the walk in freezer.			
K035: Adequate/Approved Equipment/Utensils, Maintained	<u>0.5</u>	<u>11/25/2024</u>	<u>Uncorrected as of 5/2/2025</u>
A) Observed the following violations:			
1) Observed all the french fries were defrosted in the french fry freezer at the hot line.			
2) Observed the walk in cooler door to be in disrepair.			
3) Observed an inoperable oven in the storage area.			
4) Observed an inoperable ice machine at the bar.			
B) Food debris was observed on the deli slicer. Clean the slicer.			
K036: Equipment, Utensils and Linens: Storage and Use	<u>0.5</u>	<u>11/25/2024</u>	<u>Uncorrected as of 5/2/2025</u>
A) Observed a wet towel stored outside of a sanitizer bucket.			
B) Observed unsecured pressurized CO2 cylinders in the dry storage area. Secure the cylinders.			
K041: Plumbing; Proper Backflow Devices	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
Maintain an air gap of at least one inch between discharge pipes and the flood level of the floor sinks.

Department Action Description: NEXT REGULAR

Score: 80.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K001: Demonstration of Knowledge	5.0		Uncorrected as of 5/2/2025
At the time of the inspection, the person in charge could not demonstrate knowledge of the following topics:			
1) Proper manual warewashing procedure.			
2) Sanitizer use, required concentrations, and testing procedure.			
K007: Proper Hot and Cold Holding Temperatures	5.0		01/29/2025
Measured the boba at 94F after being held for more than 4 hours.			
Maintain all potentially hazardous foods (PHF) at 41°F or below or at or above 135°F.			
K014: Food Contact Surfaces: Clean and Sanitized	5.0		01/29/2025
Observed an employee washing dishes without a sanitizing step.			
No sanitizer was available in the facility.			
The employee voluntarily closed the facility until sanitizer could be brought in.			
Education and direction regarding sanitizing and sanitizer concentrations were given at the time of the inspection.			
Clean and sanitize multi-use utensils and equipment in the following manner after coming in contact with food or becoming contaminated; wash with detergent and water not less than 100°F; rinse with clear potable water; sanitize with 100 ppm chlorine for 30 seconds, 200 ppm quaternary ammonium for 1 minute, 25ppm iodine for 1 minute, complete immersion in water of at least 171° F for 30 seconds, or other methods as approved.			
K021: Hot and Cold Water Available	2.0		Uncorrected as of 5/2/2025
Hot water was measured at a maximum of 111F.			
Maintain an adequate supply of hot potable water (minimum of 120°F) and cold potable water under pressure to all sinks (except hand washing sinks).			
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0		Uncorrected as of 5/2/2025
Not every employee had a food handler card available for review at the time of the inspection.			
No Food Safety Manager's certificate was available for review at the time of the inspection.			
K029: Toxic Substances Properly Identified, Stored, Used	0.5		Uncorrected as of 5/2/2025
Observed a container of "Home Defense" residential pesticide.			
Pesticides that are not specifically approved for food facilities are not permitted in the facility. Pesticides that are approved must only be applied by licensed pest control operators.			
K030: Food Storage; Food Storage Containers Identified	0.5		Uncorrected as of 5/2/2025
Observed an opened bulk ingredient container stored directly on the floor.			
Seal all containers of food to prevent vermin.			
Properly elevate food items/packages/container at least 6 inches above the floor.			
K034: Warewashing Facility/Test Strips: Adequate, Used	0.5		Uncorrected as of 5/2/2025
No test strips were available in the facility.			
Provide approved and correct testing equipment to test for sanitizer concentration and/or hot water temperature.			
K040: Wiping Cloths: Properly Used and Stored	0.5		Uncorrected as of 5/2/2025
Observed a wet towel stored on the drain board of the three compartment sink.			
Discontinue using wiping cloths for multiple uses without storing in sanitizing solution.

Program Description: HR25 - RESTAURANT (SEATING 51 +) - FULL PREP

Inspection Date: 12/06/2024

Type of Service Description: REINSPECTION

Inspection Result Description: PERMIT VIOLATION - CORRECTED

Department Action Description: NEXT REGULAR

Score: 100.0

Overall Inspection Comments: The purpose of this visit was to perform a reinspection after a permit suspension dated 12/5/24. On this date all violations checked were observed corrected.

K007: Proper Hot and Cold Holding Temperatures

3.0

12/05/2024

The following temperatures were measured in the exterior walk in cooler:

- 1) Cooked Lamb 44
- 2) Mayonnaise 43
- 3) Mashed Potatoes 43
- 4) Sauce 43

Repair the cooler. Refer to violation 35.

K016: Shell Stock: Quality, Storage, Tags

2.0

12/05/2024

Observed oysters in the prep line reach in cooler without a tag. The operator stated that he had the tag.
The violation was corrected by placing the tag in with the shellstock.

Maintain shellfish certification tags with the original container until empty, and then maintain tags in chronological order on the premises for a period of not less than 90 days from the date of harvest.

K023: No Rodents, Insects, Birds, or Animals

4.0

Uncorrected as of 5/2/2025

Observed evidence of rodent activity in multiple critical areas of the facility.

Eliminate rodents and evidence of rodents (e.g. droppings, dead rodents, nesting material, rub marks) from the facility by safe, legal, and effective means at once.

- 1) Close all exterior entry points and seal all holes, cracks and crevices that may provide entry to the facility. Eliminate areas that may provide harborage.
- 2) Eliminate sources of water
- 3) Eliminate sources of food.
- 4) Contract a professional pest control provider for regular service.

K024: Person In Charge Present and Performs Duties; Valid Certification

1.0

Uncorrected as of 5/2/2025

Not all food handlers were able to present food handler cards at the time of the inspection.
Ensure all food employees have a valid/current food handler card/certificate.

K027: Food Separated and Protected

1.0

Uncorrected as of 5/2/2025

Observed raw shell eggs stored over ready to eat oysters.

To protect food from cross-contamination during storage, always store cooked and ready to eat foods above raw foods or in the following order from top shelf to bottom shelf: ready-to-eat foods; cooked meats; raw meats. If raw foods cannot be stored on the bottom shelf, then store in the following order from top to bottom: seafood, pork/beef, chicken.

K029: Toxic Substances Properly Identified, Stored, Used

0.5

12/05/2024

Uncorrected as of 5/2/2025

Observed consumer grade rodent bait at the bar and in the prep area.

Only those insecticides, rodenticides, and other pesticides that are necessary and specifically approved for use in a food facility may be used.

Inspection Date: 12/05/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: IMMINENT PUBLIC HEALTH HAZARD

Department Action Description: CLOSED UNTIL ABATED

Score: 85.5

Overall Inspection Comments: Education and direction regarding the following topics were given at the time of the inspection:

- 1) Vermin Exclusion and infestation abatement.
- 2) Warewashing
- 3) Test strip use
- 4) Sanitizer bucket set up.
- 5) Reheating
- 6) Cooling

Violation Item	Points Lost	Comply By Date	Complied On Date
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	Uncorrected as of 5/2/2025	
1) Observed a pot of open food stored in the beer walk in cooler. The beer walk in cooler has vinyl top set cove and residential laminate flooring. This cooler is not approved for storage of anything except non potentially hazardous food in seal, commercially produced packages.			
2) Measured the exterior walk in cooler holding between 43F and 44F. Repair the cooler.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	Uncorrected as of 5/2/2025	
1) Observed unsecured CO2 cylinders in various places. Properly secure the pressurized CO2 tank.			
2) Observed a serving utensil fully immersed in a 5 gallon bucket of mayonnaise.			
K040: Wiping Cloths: Properly Used and Stored	0.5	Uncorrected as of 5/2/2025	
Observed a wet wiping cloth stored outside of the sanitizer bucket. Discontinue using wiping cloths for multiple uses without storing in sanitizing solution.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	Uncorrected as of 5/2/2025	
1) Observed numerous doors and windows propped open without screens. Maintain all exterior doors closed except when in use. Properly rodent proof the exterior doors to eliminate gaps greater than 1/4 inch.			
2) Observed numerous trash bags full of green waste stored behind the facility. Observed an accumulation of items that may provide vermin harborage. Ensure the premises is kept free of litter and items that are unnecessary to the operation and/or maintenance of the facility.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	Uncorrected as of 5/2/2025	
Observed a piece of cardboard under a table leg. Remove the cardboard and repair the leg. Ensure all floors and walls are smooth, durable, of approved materials, in good repair, and are free of any peeling paint.			
K049: Permits Available	0.5	Uncorrected as of 5/2/2025	
Maintain the Public Health Permit in a conspicuous place.			
K051: Permit Suspension	0.0	Uncorrected as of 5/2/2025	
Pursuant to California Health and Safety Code Section 114409, your permit is hereby suspended due to an immediate danger to the public's health and safety.			
Section 114259.1: K023- vermin infestation			
You must close and remain closed until given written approval by the County of San Luis Obispo Environmental Health Services Division to reopen. Please call Joel Schwartz, REHS at (805) 781-5757 when you are ready to schedule a reinspection.			
If you so choose, you may submit a written request for a hearing within 15 calendar days of the date of this notice to show cause why your permit should not be suspended by contacting:

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	<u>3.0</u>	<u>02/26/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Observed ice cubes, lemon wedges, and straws in handwash sink. Discontinue dumping in handwash sink. Handwash sinks shall not be used for purposes other than handwashing. Ensure handwash sink is clean, unobstructed, and accessible at all times for employee use.			
K024: Person In Charge Present and Performs Duties; Valid Certification	<u>1.0</u>	<u>03/12/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Unable to verify food safety manager at time of inspection. Ensure the food facility owner or an employee has a valid/current food safety manager certificate and ensure all food employees have adequate knowledge of, and are properly trained in food safety as it relates to their assigned duties. Email copy of certificate as per discussion.			
K030: Food Storage; Food Storage Containers Identified	<u>0.5</u>	<u>03/05/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Observed unlabeled containers with food. Provide labels to all working containers to indicate contents.			
K034: Warewashing Facility/Test Strips: Adequate, Used	<u>0.5</u>	<u>03/05/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Provide approved and correct testing equipment to test for sanitizer concentration.			
K036: Equipment, Utensils and Linens: Storage and Use	<u>0.5</u>	<u>02/28/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Observed unsecured pressurized tank. Properly secure the pressurized CO2 tank.			
K038: Approved Lighting/Ventilation: Adequate, Used	<u>0.5</u>	<u>03/12/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Observed light out under hood system. Replace.			
K039: Thermometers Provided and Accurate	<u>0.5</u>	<u>03/05/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Provide an accurate thermometer to all refrigeration units holding Potential Hazardous Foods (PHF).			
K040: Wiping Cloths: Properly Used and Stored	<u>0.5</u>	<u>02/28/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Observed wiping cloths sitting on prep tables. Discontinue using wiping cloths for multiple uses without storing in sanitizing solution.			
K041: Plumbing; Proper Backflow Devices	<u>0.5</u>	<u>04/26/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Observed 3-compartment sink plumbing lines extending into floor sink. Ensure to provide the required air gap between the water supply inlet and floor sink. Air gap shall be at least twice the diameter of the water supply inlet and may not be less than one inch.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	<u>0.5</u>	<u>02/26/2025</u>	<u>Uncorrected as of 5/2/2025</u>
1) Observed front and back doors propped open at time of inspection. Maintain all exterior doors closed except when in use. 2) Observed personal items through out prep areas. Ensure employees store personal items away from food preparation areas or food/utensil/equipment storage rooms.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>	<u>08/26/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Observed non-conforming flooring and cove in storage room. Ensure all floors are smooth, durable, of approved materials, in good repair, and with the required 4" base coving with 3/8 inch radius coving. Contact your inspector prior to any changes for approval.			
K049: Permits Available	<u>0.5</u>	<u>03/05/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Observed 2023 permit posted. Ensure to post the 2025 Public Health Permit in a conspicuous place.			
K054: Repeat Violations - Good Retail Practices (24 -51)	<u>2.0</u>		<u>Uncorrected as of 5/2/2025</u>
Repeat Violations: 34, 36, 45, 49

Department Action Description: NEXT REGULAR

Score: 95.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized	3.0	05/07/2024	Uncorrected as of 5/2/2025
- Observed heavy accumulation of food debris on the can opener. Ensure the can opener is cleaned and sanitized daily to prevent cross contamination. - Observed mildew inside the ice machine located outside. Ensure the ice machine is properly cleaned and sanitized on a regular basis to prevent contamination of ice. - Discontinue storing the ice scoop in the open air on top of the ice machine. This is not a clean or sanitary location. Store the scoop inside or somewhere where it is protected from contamination.			
K034: Warewashing Facility/Test Strips: Adequate, Used	0.5	05/07/2024	Uncorrected as of 5/2/2025
Obtain quaternary ammonium sanitizer test strips to ensure 200ppm quat sanitizer in solution. Use daily to check sanitizer levels in the 3-compartment sink and sanitizer buckets.			
K038: Approved Lighting/Ventilation: Adequate, Used	0.5	05/07/2024	Uncorrected as of 5/2/2025
Ensure fan covers are clean so that dust is not blown around the kitchen and onto food surfaces.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	05/07/2024	Uncorrected as of 5/2/2025
- Observed the front door propped open. Facility has an unenclosed kitchen and therefore the doors need to remain closed, have tight fitting screens, or an air curtain to prevent entrance of vermin. - Provide a tighter fitting screen on the back door of kitchen to keep out flies.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	05/07/2024	Uncorrected as of 5/2/2025
Observed deteriorating and moldy FRP behind the dish machine. It appears moisture is getting behind the FRP. Replace with new FRP.

Violation Item	Points Lost	Comply By Date	Complied On Date
K007: Proper Hot and Cold Holding Temperatures	3.0		Uncorrected as of 5/2/2025
Measured the following in the cold top prep cooler near the pizza oven: Mozzarella balls 48 F, Pepperoni 45 F. The operator is advised to ensure that the heat from the pizza oven is properly vented. Refer to violation 038.			
K014: Food Contact Surfaces: Clean and Sanitized	3.0		12/19/2024
No sanitizer bucket was set up and wet towels were observed stored on preparation surfaces during active food prep. Education and direction regarding setting up sanitizer buckets were given at the time of the inspection. Education and direction regarding types of sanitizer and their required concentrations were given at the time of the inspection. This violation was corrected by properly setting up a sanitizer bucket and placing all the wet towels into it.			
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0		Uncorrected as of 5/2/2025
No employee had a Food Safety Manager's certificate or Food Handler Cards. Ensure the food facility owner or an employee has a valid/current food safety protection certificate or ensure all food employees have adequate knowledge of, and are properly trained in food safety as it relates to their assigned duties. Ensure all food employees have a valid/current food handler card/certificate.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5		Uncorrected as of 5/2/2025
1) Observed inoperable equipment and an accumulation of unused items outside the facility. Repair or remove all unused or inoperable equipment. Remove clutter to eliminate areas of vermin harborage. 2) Observed an accumulation of condensation in the bottom of the beer tap cooler at the bar. Repair the cooler.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5		Uncorrected as of 5/2/2025
1) Observed single-use cups used as scoops in the cold top cooler and in a container of blue cheese dressing. Provide a scoop with a handle. Store the scoop in a manner to prevent food contamination. 2) Observed an unsecured CO2 cylinder. Properly secure the pressurized CO2 tank.			
K038: Approved Lighting/Ventilation: Adequate, Used	0.5		Uncorrected as of 5/2/2025
The air flow to the exhaust hood was not observed to be functioning. Ensure that the exhaust hood works as designed to adequately remove heat from the facility.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5		Uncorrected as of 5/2/2025
1) Observed all the exterior doors propped open. Maintain all exterior doors closed except when in use. 2) Observed evidence of rodent activity in 2 non critical areas. Clean and sanitize all affected areas. Eliminate all vermin activity by removing sealing entry points, removing areas of harborage, & removing sources of food and water. Professional pest control is generally recommended. 3) Ensure the premises is kept free of litter and items that are unnecessary to the operation and/or maintenance of the facility.			
K049: Permits Available	0.5		Uncorrected as of 5/2/2025
Maintain the Public Health Permit in a conspicuous place.

Score: 97.5

Overall Inspection Comments: The purpose of this visit was to perform a routine inspection.

Violation Item	Points Lost	Comply By Date	Complied On Date
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0		Uncorrected as of 5/2/2025
1) No food handler card was available for every employee at the time of the inspection. Ensure all food employees have a valid/current food handler card/certificate.			
2) No food safety manager's certificate was available for review at the time of the inspection.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	11/25/2024	Uncorrected as of 5/2/2025
The cover for the ice machine condenser was not observed in place. Please repair, replace or remove the broken equipment. Properly store all equipment /utensils/linens in an approved and clean area.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	11/25/2024	Uncorrected as of 5/2/2025
1) Observed the front door propped open at the time of the inspection. Maintain all exterior doors closed except when in use.			
2) Observed a pet dog in the dining room at the time of the inspection. A service animal is trained to help with a specific disability. The operator shall ask every person who brings an animal into the facility whether the animal is a service animal and what the animal is trained to do. Emotional support animals do not qualify as ADA service animals.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	11/25/2024	Uncorrected as of 5/2/2025
1) Observed a soiled, unsealed wood shelf under the prep table. All surfaces must be smooth, durable, non-porous and easily cleanable. Please seal the wood or replace with an approved material.			
2) Observed an accumulation of grime and debris in the walk in cooler. Please clean the walk in cooler floors, walls, and ceiling.

Program Description: MR24 - RESTAURANT (SEATING 11 - 50) - MODERATE PREP

Inspection Date: 12/24/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 91.5

Overall Inspection Comments: Education and direction regarding the following topics were given at the time of the inspection.

Warewashing

Sanitizing and sanitizer concentrations.

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	3.0	12/24/2024	Uncorrected as of 5/2/2025
No paper towels were available from the wall mounted dispenser in the restroom. Provide approved handwashing cleanser and towels or drying device in dispensers at or adjacent to each hand washing facility.			
K007: Proper Hot and Cold Holding Temperatures	3.0	12/24/2024	Corrected On Site
1) Observed a bowl of rice on the service counter without temperature control. The person in charge stated that the rice was placed on the counter about 6 hours prior to the inspection. The violation was corrected by an employee voluntarily discarding about 1 lb of rice. Refer top violation 36 for more details.			
2) Measured Cut Tomatoes at 50 F and Sausage Patties at 51F in the cold top cooler. The person in charge stated that the food had been held in the cooler for more than 4 hours. The violation was corrected by an employee moving the food to another cooler to rapidly cool down. Refer to violation 35 for more details.			
K029: Toxic Substances Properly Identified, Stored, Used	0.5		Uncorrected as of 5/2/2025
Observed a container of unapproved pesticide in the facility. Only certified pest control operators are authorized to apply poisons in food facilities. Only poisons specifically formulated for food facilities may be used. Remove the can of Raid.			
K034: Warewashing Facility/Test Strips: Adequate, Used	0.5		Uncorrected as of 5/2/2025
No test strips were available at the time of the inspection. Provide approved and correct testing equipment to test for sanitizer concentration and/or hot water temperature.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	12/24/2024	Uncorrected as of 5/2/2025
Observed the bagel toaster adjacent to the cold top cooler to be very warm. Ensure that the bagel warmer does not heat the cold top cooler above it's ability to maintain food at 41F or below.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	12/24/2024	Uncorrected as of 5/2/2025
Observed a rice paddle stored in a container of rice without temperature control. In use utensils shall be stored in a container of water with a flow of sufficient force to remove particles or in a container of water above 135 F.			
K040: Wiping Cloths: Properly Used and Stored	0.5	12/24/2024	Uncorrected as of 5/2/2025
Observed numerous wet wiping cloths stored outside the sanitizer bucket. This violation was corrected by returning all the wet towels to the sanitizer buckets.			
Please note, that though a wiping cloth is needed for the espresso machine steam wand, if the cloth is wet is must be stored in sanitizer when not being actively used.

Department Action Description: TO BE RE-INSPECTED

Score: 88.5

Overall Inspection Comments: Change of ownership inspection for Hy Brothers Sushi, Inc. Food facility will be re-inspected in one month due to the violations listed.

Violation Item	Points Lost	Comply By Date	Complied On Date
K024: Person In Charge Present and Performs Duties; Valid Certification	<u>1.0</u>	<u>12/18/2023</u>	<u>02/15/2024</u>
Observed no food manager safety certification. Ensure at least one employee obtains a food manager certification within 60 days.			
K030: Food Storage; Food Storage Containers Identified	<u>0.5</u>	<u>10/25/2023</u>	<u>03/06/2025</u>
Observed food being stored on floor in walk-in refrigeration. Ensure all food is stored 6" off the ground.			
K033: Nonfood-Contact Surfaces Clean	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
Observed grime on all equipment. Ensure ALL equipment is cleaned and sanitized thoroughly.			
K035: Adequate/Approved Equipment/Utensils, Maintained	<u>0.5</u>	<u>11/08/2023</u>	<u>02/15/2024</u>
- Observed raw wood being used for shelving in dry storage room. Ensure all surfaces are smooth, non absorbent and easily cleanable. Facility can seal the raw wood or replace the material.			
- Observed grime/food debris on gaskets of refrigeration units. Ensure all equipment is maintained clean and in good repair.			
K036: Equipment, Utensils and Linens: Storage and Use	<u>0.5</u>	<u>10/25/2023</u>	<u>Corrected On Site</u>
Observed free standing CO2 tanks in bar area. Ensure CO2 tanks are affixed to a rigid structure. Correct on site by manager.			
K041: Plumbing; Proper Backflow Devices	<u>0.5</u>	<u>10/31/2023</u>	<u>02/15/2024</u>
Observed piping from three compartment sink going into floor sink. Ensure the air gap between the water supply inlet and flood level rim of the floor sink is at least twice the diameter of the water supply inlet and may not be less than one inch.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	<u>0.5</u>	<u>10/25/2023</u>	<u>02/15/2024</u>
- Observed mops being stored in mop bucket. Ensure mops are hung up to air dry without soiling walls or other equipment.			
- Observed screen door with opening at the top. Repair/replace. Ensure food facility is fully enclosed.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>	<u>11/27/2023</u>	<u>02/15/2024</u>
- Observed degrading FRP in multiple locations throughout food facility. Ensure all floors/walls/ceilings are smooth, non absorbent and easily cleanable.			
- Observed grime on flooring throughout food facility. Ensure all floors/walls/ceilings are thoroughly cleaned and sanitized prior to next inspection.			
- Observed duct tape being utilized in multiple places in food facility. Discontinue the use of any duct tape. Ensure all surfaces are smooth, non absorbent and easily cleanable.

Inspection Date: 12/09/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 82.5

Overall Inspection Comments: Education and direction regarding the following topics were given at the time of the inspection:

1) For Boba and for hydrated rice noodles, the code section below allows food to be held in the danger temperature zone for up to 4 hours. Please mark each container with the time 4 hours after it was made, so you know when the food is expired.

114000. Time as a public health control

(a) If time only, rather than time in conjunction with temperature, is used as the public health control for a working supply of POTENTIALLY HAZARDOUS FOOD before cooking

or for READY-TO-EAT POTENTIALLY HAZARDOUS FOOD that is displayed or held for service for immediate consumption, the following shall occur:

(1) The FOOD shall be marked or otherwise identified to indicate the time that is four hours past the point in time when the FOOD is removed from temperature control.

(2) The FOOD shall be cooked and served, served if ready-to-eat, or discarded within four hours from the point in time when the FOOD is removed from temperature control.

(3) The FOOD in unmarked containers or packages or marked to exceed a four-hour limit shall be discarded.

(4) Written procedures shall be maintained in the FOOD FACILITY and made available to the ENFORCEMENT AGENCY upon request, that ensure compliance with this section and Section 114002, for FOOD that is prepared, cooked, and refrigerated before time is used as a public health control.

2) Warewashing

3) Cooling

4) Generally regarded as safe food additives.

113732. Adulterated

"ADULTERATED" means either of the following:

(a) FOOD that bears or contains any poisonous or deleterious substance that may render the FOOD impure or injurious to health.

113867. Poisonous or toxic materials

"POISONOUS OR TOXIC MATERIALS" means substances that are not intended for ingestion and are included in one of the following categories:

(c) Substances necessary for the operation and maintenance of the facility, such as nonFOOD grade lubricants and PERSONAL CARE ITEMS that may be deleterious to health.

(d) Substances that are not necessary for the operation and maintenance of the facility and are on t

5) Hand washing

6) Glove usage

113973. Use of gloves

(a) Single-use nonlatex gloves shall be worn when contacting FOOD and FOOD-CONTACT SURFACES if the EMPLOYEE has any cuts, sores, rashes, artificial nails, nail polish, rings, other than a plain ring, such as a wedding band, uncleanable orthopedic support devices, or fingernails

that are not clean, smooth, or neatly trimmed.

(b) Whenever gloves are worn, they shall be changed, replaced, or washed as often as handwashing is required by this part.

Single-use gloves shall

not be washed.

(c) If used, single-use gloves shall be used for only one task, such as working with READY-TO-EAT FOOD or with raw FOOD of animal

origin, used for
no other purpose, and shall be discarded when damaged or soiled, or when interruptions in the FOOD handling occur.

Violation Item	Points Lost	Comply By Date	Complied On Date

K005: Proper Handwash Procedures and Glove Use

5.0**12/09/2024****Corrected On Site**

Observed the following:

- 1) An employee touched their face, then continued to handle clean utensils without first washing their hands.
- 2) An employee washed their hands without first removing their glove. Do not wash gloves.
- 3) An employee donned a new glove to begin a new task without first washing their hands.

Discontinue re-using single use gloves.

Ensure all employees properly wash their hands with soap and warm water prior to engaging in food preparation or handling food contact surfaces, equipment, utensils, or linen.

K007: Proper Hot and Cold Holding Temperatures

3.0**12/09/2024****Corrected On Site**

The following violations were observed:

- 1) Hydrated rice noodles were held without temperature control for 7 hours and measured at 63F.

This violation was corrected by thoroughly reheating the noodles before service and by discarding any hydrated noodles at the end of the day.
Education was provided regarding Time as a Public Health Control. Refer to the comments on this report for more details.

- 2) Boba was held at 80F for 7 hours.

The violation was corrected by discarding about .25 lbs of boba.

Education was provided regarding Time as a Public Health Control. Refer to the comments on this report for more details.

- 3) Curry was measured at 68 F in the 2 door stand up cooler. The operator stated that the curry had been held on the counter prior to the inspection. The violation was corrected by rapidly cooling the food to 41 F within 2 hours.

- 4) Observed 2 containers, 18 quarts each of raw shell eggs stored without temperature control. The operator said they were necessary for the dinner rush, but there was no rush at the time of the inspection.

Maintain the eggs at approved temperatures.

K009: Proper Cooling Methods

2.0**12/09/2024****Corrected On Site**

Measured 2 plastic containers, 6 quarts each of cooked chicken between 68F and 102F. The person in charge stated they had been cooked 6 hours earlier..

The violation was corrected by the operator voluntarily discarding the food.

K014: Food Contact Surfaces: Clean and Sanitized

3.0**12/09/2024****Corrected On Site**

During active warewashing, observed an employee sanitize utensils without proper contact time.

Clean and sanitize multi-use utensils and equipment in the following manner after coming in contact with food or becoming contaminated; wash with detergent and water not less than 100°F; rinse with clear potable water; sanitize with 100 ppm chlorine for 30 seconds, 200 ppm quaternary ammonium for 1 minute, 25ppm iodine for 1 minute, complete immersion in water of at least 171° F for 30 seconds, or other methods as approved.

This violation was corrected by providing education and directing the operator to re-immersion the utensils in the sanitizer and allow contact for the appropriate time (30 seconds).

K023: No Rodents, Insects, Birds, or Animals

2.0**12/09/2024****Uncorrected as of 5/2/2025**

Observed evidence of rodent activity in the back storage room.

Eliminate rodents and evidence of rodents (e.g. droppings, dead rodents, nesting material, rub marks) from the facility by safe, legal, and effective means at once.

K029: Toxic Substances Properly Identified, Stored, Used

0.5**Uncorrected as of 5/2/2025**

Observed a jar of unknown plant material stored in a chest freezer along with food for the restaurant.

The operator is directed to only use ingredients that are federally recognized as safe food additives. Do not store unapproved food additives along with food in the facility.

This violation was corrected by the operator removing the unknown material from the facility.

K035: Adequate/Approved Equipment/Utensils, Maintained

0.5**Uncorrected as of 5/2/2025**

Observed a knife with a severely degraded handle in the prep area.

Replace the knife with one that can be easily cleaned.

K038: Approved Lighting/Ventilation: Adequate, Used

0.5

12/09/2024

Uncorrected as of 5/2/2025

At the time of the inspection the exhaust hood was not turned on during food prep. The kitchen was excessively warm.

All areas of a FOOD FACILITY shall have sufficient ventilation to facilitate

proper FOOD storage and to provide a reasonable condition of comfort

for each EMPLOYEE, consistent with the job performed by the

EMPLOYEE.

K040: Wiping Cloths: Properly Used and Stored

0.5

Uncorrected as of 5/2/2025

Observed wet wiping clothes stored outside the sanitizer bucket.

Discontinue using wiping cloths for multiple uses without storing in sanitizing solution.

K044: Premises; Personal/Cleaning Items; Vermin-Proofing

0.5

12/10/2024

Uncorrected as of 5/2/2025

Observed the front windows open without approved screens. If the windows are to be used as pass through windows they must comply with the following requirements, otherwise they must have screens or remain closed.

Passthrough window service openings shall be limited to 216 square

inches each. The service openings shall not be closer together than 18 inches.

Each opening shall be provided with a solid or screened window, equipped with a

self-closing device. Screening shall be at least 16 mesh per square inch.

Passthrough windows of up to 432 square inches are APPROVED if equipped with

an air curtain device. The counter surface of the service openings shall be

SMOOTH and EASILY CLEANABLE.

0.0

Inspection Date: 06/24/2024

Type of Service Description: OPENING INSPECTION

Inspection Result Description: IN COMPLIANCE

Department Action Description: NEXT REGULAR

Score: 100.0

Overall Inspection Comments: OPENING INSPECTION:

Facility equipment and finishes following remodel appear to meet current code requirements. Facility has Health Department's approval to operate.

Within 60 days of the opening date, provide a valid Food Manager Certificate to inspector via email. Keep a copy of the certificate on-site for review upon inspection.

-All facility staff preparing, portioning, and/or serving food are required to obtain a valid Food Handler Card within 30 days of the date of hire. Keep copies of Food Handler Cards on-site for review upon inspection.

Per plans, overhead protection has been provided over walk-in refrigerator door. Although not a plan requirement, it is recommended that an air curtain or screen be provided at the walk-in refrigerator door as an additional means of vermin exclusion.

Inspection Notes:

-Per facility staff chlorine sanitizer testing strips are on order.

Department Action Description: TO BE RE-INSPECTED

Score: 84.0

Overall Inspection Comments: A reinspection is required due to violations listed on this report which do not meet the requirements set forth in the California Retail Food Code commencing with §113700-114437. All violations must be corrected within the time specified. In the event that violations noted on this report are not corrected by the "Next Inspection Date" indicated above, a chargeable reinspection fee may be assessed.

Violation Item	Points Lost	Comply By Date	Complied On Date
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	<u>0.5</u>	<u>01/08/2025</u>	<u>Uncorrected as of 5/2/2025</u>
- Observed unused and/or broken equipment inside facility. Remove or repair equipment that is not in use. Discontinue using the refrigeration unit for dry goods storage. This promotes harborage of vermin. - Remove excess equipment and supplies from the storage room and kitchen. Only equipment and supplies necessary for the function of the facility shall be kept on site.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>	<u>01/22/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Floors and walls throughout facility are in need of deep cleaning, especially behind the cook line. REPEAT VIOLATION.			
K053: Repeat Violations - Critical (1 - 23)	<u>5.0</u>	<u>01/08/2025</u>	<u>Uncorrected as of 5/2/2025</u>
REPEAT VIOLATIONS: - #14			
K054: Repeat Violations - Good Retail Practices (24 -51)	<u>2.0</u>	<u>01/08/2025</u>	<u>Uncorrected as of 5/2/2025</u>
REPEAT VIOLATIONS: - #24 - #34 - #45			

Inspection Date: 10/18/2023

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 94.0**Overall Inspection Comments:** None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized	<u>3.0</u>	<u>10/18/2023</u>	<u>01/08/2025</u>
- Facility had no sanitizer buckets set up in the kitchen but was actively preparing foods. Ensure a sanitizer solution of 100ppm chlorine or 200ppm quaternary ammonium is prepared BEFORE beginning any type of food preparation. Sanitizer solution shall be changed every 4 hours or more often if needed. Check using the appropriate test strips. Corrected on site. - Observed food debris on the large table mounted can opener. Clean and sanitize daily to prevent cross contamination and bacterial growth.			
K024: Person In Charge Present and Performs Duties; Valid Certification	<u>1.0</u>	<u>10/18/2023</u>	<u>01/08/2025</u>
Food Manager Card on file is expired. Ensure at least one employee has a valid Food Manager Certificate and all other employees have a valid Food Handlers Card. Keep copies on site and available for review during inspections.			
K034: Warewashing Facility/Test Strips: Adequate, Used	<u>0.5</u>	<u>10/18/2023</u>	<u>01/08/2025</u>
Obtain chlorine sanitizer test strips to ensure 100 ppm sanitizer in solution.			
K035: Adequate/Approved Equipment/Utensils, Maintained	<u>0.5</u>	<u>10/18/2023</u>	<u>01/08/2025</u>
Equipment throughout kitchen is in need of cleaning. Clean and sanitize equipment regularly.			
K040: Wiping Cloths: Properly Used and Stored	<u>0.5</u>	<u>10/18/2023</u>	<u>01/08/2025</u>
Observed multi-use wiping cloths stored on food prep surfaces. Discontinue using wiping cloths for multiple uses without storing in sanitizing solution. Store wiping cloths in an approved sanitizer solution between uses or provide a clean cloth for each use.

Inspection Date: 12/05/2024

Type of Service Description: CHANGE OF OWNERSHIP INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 94.0

Overall Inspection Comments: Facility is approved to operate. Ensure the violations listed on this report are corrected by your first routine inspection.

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized	3.0	12/05/2024	Uncorrected as of 5/2/2025
- Dish machine was not dispensing sanitizer at start of inspection. Ensure dish machine measures 50ppm chlorine sanitizer using appropriate test strips each day. Corrected on site. - Observed mildew build up on some of the beer taps on the patio. Clean and sanitize regularly.			
K030: Food Storage: Food Storage Containers Identified	0.5	12/05/2024	Uncorrected as of 5/2/2025
Discontinue stacking food and oil containers in front of the hand washing sink. Ensure hand sinks are fully accessible at all times.			
K034: Warewashing Facility/Test Strips: Adequate, Used	0.5	12/05/2024	Uncorrected as of 5/2/2025
Obtain chlorine test strips for the dish machine to ensure 50ppm.			
K038: Approved Lighting/Ventilation: Adequate, Used	0.5	01/07/2025	Uncorrected as of 5/2/2025
Clean the fan covers in the walk-in.			
K041: Plumbing: Proper Backflow Devices	0.5	01/07/2025	Uncorrected as of 5/2/2025
Observed drain lines extending into the floor sink near the ice machine. Ensure at least a one inch air gap between the rim of the floor sink and end of drain lines to prevent backflow contamination.			
K044: Premises: Personal/Cleaning Items; Vermin-Proofing	0.5	01/07/2025	Uncorrected as of 5/2/2025
Facility does not have an enclosed kitchen and therefore needs to protect from entrance of vermin. Ensure doors are kept closed or install tight fitting screens.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	01/07/2025	Uncorrected as of 5/2/2025
Floors throughout facility are in need of cleaning especially in hard to reach areas like under the sinks, equipment, and racks.

Inspection Date: 07/05/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 78.0

Overall Inspection Comments: A reinspection is required due to violations listed on this report which do not meet the requirements set forth in the California Retail Food Code commencing with §113700-114437. All violations must be corrected within the time specified. If violations noted on this report are not corrected by the "Next Inspection Date" indicated above; a chargeable reinspection fee may be assessed.

Violation Item	Points Lost	Comply By Date	Complied On Date
K001: Demonstration of Knowledge	5.0	07/05/2024	Uncorrected as of 5/2/2025
Manager did not demonstrate any knowledge of proper cold or hot holding temperatures, sanitizer concentration levels, etc. Ensure all food employees have adequate knowledge of, and are properly trained in food safety as it relates to their assigned duties.			
K005: Proper Handwash Procedures and Glove Use	5.0	07/05/2024	Corrected On Site
Observed improper glove use by employees at facility. Ensure gloves are being changed in between uses and hands are being washed in between glove changes.			
K007: Proper Hot and Cold Holding Temperatures	3.0	07/05/2024	Corrected On Site
- Observed prep line refrigeration unit at 58F. All potentially hazardous food items were probed at 58F and voluntarily discarded. Repair/Replace unit. Facility was allowed to use ice to supplement the top of prep line unit (the bottom is not to be used until unit is repaired). - Observed sauce refrigeration unit at 46F. All food items are to be removed from unit (unit had just been restocked). Repair/replace unit. ENSURE ALL REFRIGERATION UNITS ARE MAINTAINED AT 41F OR BELOW. - Observed bacon being stored at room temperature. Ensure bacon is stored at 41F or below, 135F or above OR time as a public health control method is utilized. Manager decided to use time as a public health control method (TPHC). Ensure written records are kept of time the food is made and what time it is used/discarded. All food must be discarded after four hours when using TPHC.			
K014: Food Contact Surfaces: Clean and Sanitized	3.0	07/05/2024	Corrected On Site
Observed no sanitizer solution set up during active food preparation. Ensure all food contact surfaces are maintained clean and sanitized. Food facility needs to set up sanitizer solution/buckets during active food preparation and ensure sanitizer concentration is 100ppm bleach or 200ppm quaternary ammonium. Corrected on site.			
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	08/05/2024	Uncorrected as of 5/2/2025
REPEAT VIOLATIONS: Observed no food handler or food manager safety certifications on site. Ensure that all employees obtain a food handler card and there must be at least one valid/current food manager safety certification. Copies of the food safety certifications must be kept on site and be able to be presented during re-inspection.			
K033: Nonfood-Contact Surfaces Clean	0.5	07/07/2024	Uncorrected as of 5/2/2025
Observed debris on fan in dry storage room. Ensure all non food contact surfaces are maintained clean.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	07/12/2024	Uncorrected as of 5/2/2025
- Observed raw wood shelving in food facility. Ensure all equipment is smooth, nonabsorbent and easily cleanable. Facility can seal the raw wood. - Observed food debris/grime built up in refrigeration units. Ensure all equipment is maintained clean and in good repair.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5		Uncorrected as of 5/2/2025
Observed strainer being stored with mop sign. Ensure all utensils/equipment are stored in a manner that prevents cross contamination.			
K040: Wiping Cloths: Properly Used and Stored	0.5	07/05/2024	Uncorrected as of 5/2/2025
- Observed wiping cloths being stored on prep line. Ensure all wiping cloths are maintained in sanitizer solution when not in use. - Observed sponges being used at three compartment sink to wash dishes. Discontinue this practice. Sponges are not to be used on food contact surfaces.

Facility Name: OLD VILLAGE GRILL
Facility ID: FA0000459

Site Address: 101 E BRANCH ST, ARROYO GRANDE

Record ID: PR0000459

Program Description: HR24 - RESTAURANT (SEATING 11 - 50) - FULL PREP

Inspection Date: 07/05/2024
Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 78.0

Overall Inspection Comments: A reinspection is required due to violations listed on this report which do not meet the requirements set forth in the California Retail Food Code commencing with §113700-114437. All violations must be corrected within the time specified. If violations noted on this report are not corrected by the "Next Inspection Date" indicated above; a chargeable reinspection fee may be assessed.

Violation Item	Points Lost	Comply By Date	Complied On Date
K044: Premises; Personal/Cleaning Items; Vermin-Proofing Observed mops being stored on fence line outside. Ensure mops are hung up to air dry without soiling walls or equipment.	0.5	07/09/2024	Uncorrected as of 5/2/2025
K045: Floors/Walls/Ceilings: Built, Maintained, Clean REPEAT VIOLATION: Observed food debris/grime throughout kitchen. Ensure all floors/walls/ceilings are maintained clean.	0.5	07/08/2024	Uncorrected as of 5/2/2025
K054: Repeat Violations - Good Retail Practices (24 -51) See comments in sections 24 and 45.	2.0	07/05/2024	Uncorrected as of 5/2/2025

Inspection Date: 10/26/2023
Type of Service Description: REINSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 97.0

Overall Inspection Comments: Re-inspection for food facility. This is not a routine inspection; only items in previous report are being addressed. Facility has been making progress towards previous inspection violations.

Violation Item	Points Lost	Comply By Date	Complied On Date
K024: Person In Charge Present and Performs Duties; Valid Certification REPEAT VIOLATION: Observed no food handler or food manager safety certifications on site. Owner had a food manager certification (which is expired now) and no other employees had food handler certifications. Ensure that all employees obtain a food handler card and there must be at least one valid/current food manager safety certification. Copies of the food safety certifications must be kept on site and be able to be presented during re-inspection. Manager (Justin) is taking the class in December for the food manager certification. Send a copy of certificate to health inspector once obtained.	1.0	12/15/2023	Uncorrected as of 5/2/2025
K034: Warewashing Facility/Test Strips: Adequate, Used REPEAT VIOLATION: Observed no bleach test strips at food facility. Facility uses quaternary ammonium and bleach for sanitizing. Ensure facility obtains correct testing equipment in order to properly measure sanitizer.	0.5	10/27/2023	Uncorrected as of 5/2/2025
K039: Thermometers Provided and Accurate REPEAT VIOLATION: Observed no secondary thermometer in milk/meat refrigeration unit. Ensure each unit has a secondary thermometer.	0.5	10/27/2023	Uncorrected as of 5/2/2025
K044: Premises; Personal/Cleaning Items; Vermin-Proofing Maintain all exterior doors closed except when in use. Corrected on site.	0.5	10/26/2023	Corrected On Site
K045: Floors/Walls/Ceilings: Built, Maintained, Clean REPEAT VIOLATION: Observed food debris and grime throughout food facility. Thoroughly clean and maintain all floors, walls, and ceilings. Ensure facility is cleaned and sanitized on a regular basis. Ensure all surfaces are smooth non-absorbent and easily cleanable.	0.5	11/02/2023	Uncorrected as of 5/2/2025

Inspection Date: 09/12/2023
Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 87.0

Overall Inspection Comments: Food facility will need to be re-inspected due to violations listed in report.

Department Action Description: TO BE RE-INSPECTED

Score: 87.0

Overall Inspection Comments: Food facility will need to be re-inspected due to violations listed in report.

Violation Item	Points Lost	Comply By Date	Complied On Date
K001: Demonstration of Knowledge	<u>5.0</u>	<u>09/12/2023</u>	<u>Uncorrected as of 5/2/2025</u>
Manager did not demonstrate any knowledge of proper cold or hot holding temperatures, sanitizer concentration levels, etc. Ensure all food employees have adequate knowledge of, and are properly trained in food safety as it relates to their assigned duties.			
K007: Proper Hot and Cold Holding Temperatures	<u>3.0</u>	<u>09/12/2023</u>	<u>Corrected On Site</u>
Observed two refrigeration units out of temperature. - Sauce refrigeration unit near prep line was at 45F, unit increased in temperature during time of inspection. Manager was instructed to move sauces to another unit. Repair/replace unit. - Milk and meat refrigeration was measured at 50F. Manager stated that the door had been open for an order that just came in. Unit was able to come back down to 41.5F. Ensure unit can maintain 41F or below.			
K024: Person In Charge Present and Performs Duties; Valid Certification	<u>1.0</u>	<u>10/16/2023</u>	<u>Uncorrected as of 5/2/2025</u>
REPEAT VIOLATION: Observed no food handler or food manager safety certifications on site. Manager informed me that the owner had a food manager certification (which is expired now) and no other employees had food handler certifications. Ensure that all employees obtain a food handler card and there must be at least one valid/current food manager safety certification. Copies of the food safety certifications must be kept on site and be able to be presented during re-inspection.			
K033: Nonfood-Contact Surfaces Clean	<u>0.5</u>	<u>09/14/2023</u>	<u>Uncorrected as of 5/2/2025</u>
REPEAT VIOLATION: Observed build-up/grime on most surfaces throughout food facility. Ensure all nonfood-contact surfaces are maintained clean.			
K034: Warewashing Facility/Test Strips: Adequate, Used	<u>0.5</u>	<u>09/12/2023</u>	<u>07/05/2024</u>
- Observed no bleach test strips at food facility. Facility uses quaternary ammonium and bleach for sanitizing. Ensure facility obtains correct testing equipment in order to properly measure sanitizer. - Observed 0ppm of sanitizer in three compartment sink. Ensure bleach concentration is 100 ppm and/or quaternary ammonium concentration is 200ppm. Corrected on site by employee who added more bleach to the compartment.			
K039: Thermometers Provided and Accurate	<u>0.5</u>	<u>09/13/2023</u>	<u>Uncorrected as of 5/2/2025</u>
REPEAT VIOLATION: Observed meat/ milk refrigeration unit with no secondary thermometer. Ensure all refrigeration units have a secondary thermometer.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>	<u>09/14/2023</u>	<u>Uncorrected as of 5/2/2025</u>
Observed food debris and grime throughout food facility. Thoroughly clean and maintain all floors, walls, and ceilings. Ensure facility is cleaned and sanitized on a regular basis.			
K054: Repeat Violations - Good Retail Practices (24 -51)	<u>2.0</u>	<u>09/12/2023</u>	<u>Uncorrected as of 5/2/2025</u>
See comments above in sections 24, 33, 39.

Violation Item	Points Lost	Comply By Date	Complied On Date
AWRD: EXCELLENCE AWARD	0.0		
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	03/18/2025	Uncorrected as of 5/2/2025
- Remove the fabric chair from facility. All equipment shall be smooth, non-absorbent, and easily cleanable. - Provide a wall mounted soap dispenser for the hand wash sink in the back.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	03/18/2025	Uncorrected as of 5/2/2025
- Remove the fabric mats from facility. These are not approved. All floor mats shall be smooth, non-absorbent, and easily cleanable. - Clean or replace the ceiling tiles more frequently. - Repair or replace the broken wall tiles lining the 3-compartment sink.			

Inspection Date: 11/16/2023

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 92.5

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K007: Proper Hot and Cold Holding Temperatures	3.0	11/16/2023	Corrected On Site
Observed the refrigeration unit for cream cheese frosting at 56F. Ensure all cold held potentially hazardous foods are kept at 41F or below. Corrective action: Manager cleaned the compression system and the temperature began to drop. If fridge continues to not hold temperature, it will need to be replaced or removed.			
K023: No Rodents, Insects, Birds, or Animals	2.0	11/16/2023	03/19/2025
Observed several flies inside the kitchen. The front doors and back door were propped open. Facility has an unenclosed kitchen and therefore needs to either keep doors closed or equip them with a screen to prevent entrance of vermin. Air curtains are approved for the front doors. The back door needs a screen.			
K040: Wiping Cloths: Properly Used and Stored	0.5	11/16/2023	Corrected On Site
Observed no sanitizer in the sanitizer bucket at the front. Other sanitizer buckets have proper concentration. Ensure the sanitizer solution measures 100ppm chlorine or 200ppm quaternary ammonium. Sanitizer solution shall be changed every 4 hours or more often if needed. Check using the appropriate test strips. Corrected on site. REPEAT VIOLATION.			
K054: Repeat Violations - Good Retail Practices (24 -51)	2.0	11/16/2023	03/19/2025
REPEAT VIOLATIONS: - Improper sanitizer levels in sanitizer bucket

Site Address: 1771 W GRAND AVE, GROVER BEACH

Record ID: PR0000529

Program Description: MR24 - RESTAURANT (SEATING 11 - 50) - MODERATE PREP

Inspection Date: 03/06/2024

Type of Service Description: REINSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 88.5

Overall Inspection Comments: Facility has corrected most of the significant food safety violations from the 2/27/24 inspection. Remaining violations listed on this report still need to be addressed.

Overall, facility is in need of more consistent on-site managerial control. Owner stated they currently have a manager in training. The onsite manager is responsible for ensuring all employees are properly trained in food safety and that their food handlers certificates are up to date at all times.

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	3.0	03/06/2024	Uncorrected as of 5/2/2025
Although paper towels were available at the front hand wash sink, a dispenser still needs to be installed. This is an ongoing repeat violation that has been noted in reports since 2021. Install a paper towel dispenser.			
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	03/06/2024	Uncorrected as of 5/2/2025
Facility currently has an employee enrolled in the Food Manager Certification course. Send a copy of the certificate to your inspector once complete. Ensure all other employees have a valid Food Handlers Card. Unable to verify if all employees working at the facility are food handler certified during time of inspection. Upon next inspection the Food Manager Certificate and Food Handlers cards for all employees will be reviewed. Manager/operator are expected to be able to show certifications and point out who in the kitchen they belong to. This is an ongoing repeat violation noted in reports since 2018.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	03/06/2024	Uncorrected as of 5/2/2025
Observed a broken cove tile in the womens restroom with a large hole in the wall where it once was. Repair or replace the tile.			
K053: Repeat Violations - Critical (1 - 23)	5.0	03/06/2024	Uncorrected as of 5/2/2025
REPEAT VIOLATIONS: - Paper towel dispenser needed at front hand wash sink			
K054: Repeat Violations - Good Retail Practices (24 -51)	2.0	03/06/2024	Uncorrected as of 5/2/2025
REPEAT VIOLATIONS: - Unable to confirm which employees in facility have a valid Food Handlers Card			

Inspection Date: 02/27/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 72.5

Overall Inspection Comments: A reinspection is required due to violations listed on this report which do not meet the requirements set forth in the California Retail Food Code commencing with §113700-114437. All violations must be corrected within the time specified. In the event that violations noted on this report are not corrected by the "Next Inspection Date" indicated above, a chargeable reinspection fee of \$147/hr may be assessed.

Violation Item	Points Lost	Comply By Date	Complied On Date
K001: Demonstration of Knowledge	5.0	02/27/2024	Uncorrected as of 5/2/2025
Employees are not properly trained on food safety. Employees are required to be knowledgeable in food safety as it applies to their assigned duties. Immediately train all employees and ensure they have valid food safety certifications. The Certified Food Manager is responsible for ensuring staff are trained and following food safety requirements.

Violation Item	Points Lost	Comply By Date	Complied On Date
K005: Proper Handwash Procedures and Glove Use	<u>5.0</u>	<u>02/27/2024</u>	<u>Corrected On Site</u>
All hand sinks in facility did not have proper hand washing supplies. Employees are not properly washing hands. Ensure all employees properly wash their hands with soap and warm water prior to engaging in food preparation or handling food contact surfaces, equipment, utensils, or linen.			
K006: Adequate/Accessible Handwash Sinks, Supplies	<u>3.0</u>	<u>02/27/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Facility has several hand washing sink violations. The following must be corrected immediately: - No soap in men's restroom (REPEAT VIOLATION) - Broken soap dispenser in women's restroom (REPEAT VIOLATION) - No paper towels or towel dispenser at front hand wash sink. Install a dispenser and keep paper towels available at all times (REPEAT VIOLATION) - No paper towels at back hand washing sink - Soap at front hand sink and back hand sink not in dispensers - bag of soap hanging over sinks. If dispensers are broken, repair or replace them and keep hand soap in the dispensers and available for hand washing at all times			
K014: Food Contact Surfaces: Clean and Sanitized	<u>3.0</u>	<u>02/27/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Facility had no sanitizer buckets set up in the kitchen but was actively preparing foods. Ensure a sanitizer solution of 100ppm chlorine or 200ppm quaternary ammonium is prepared BEFORE beginning any type of food preparation. Sanitizer solution shall be changed every 4 hours or more often if needed. Check using the appropriate test strips. REPEAT VIOLATIONS.			
K024: Person In Charge Present and Performs Duties; Valid Certification	<u>1.0</u>	<u>02/27/2024</u>	<u>Uncorrected as of 5/2/2025</u>
1) No designated person in charge at time of inspection. A person in charge shall be present at the food facility during all hours of operation. REPEAT VIOLATION. 2) Unable to locate or verify food safety certifications. Ensure at least one employee has a valid Food Manager Certificate and all other employees have a valid Food Handlers Card. Keep copies on site and easily available for review during inspections. All food safety certifications will be thoroughly checked at the next inspection - discontinue locking in a drawer where employees do not have access. ONGOING REPEAT VIOLATION.			
K027: Food Separated and Protected	<u>1.0</u>	<u>02/27/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed uncovered and open food inside the refrigeration units at the cook line. Ensure food is covered and protected to prevent from cross contamination.			
K034: Warewashing Facility/Test Strips: Adequate, Used	<u>0.5</u>	<u>02/27/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Provide approved test strips to measure sanitizer concentration (100ppm for chlorine, 200ppm for quat). REPEAT VIOLATION.			
K038: Approved Lighting/Ventilation: Adequate, Used	<u>0.5</u>	<u>02/27/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Clean the hood filters above the grill. REPEAT VIOLATION.			
K040: Wiping Cloths: Properly Used and Stored	<u>0.5</u>	<u>02/27/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed several multi-use wiping cloths on food prep surfaces at the cook line. Discontinue using wiping cloths for multiple uses without storing in sanitizing solution. Store wiping cloths in an approved sanitizer solution between uses or provide a clean cloth for each use. REPEAT VIOLATION.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	<u>0.5</u>	<u>02/27/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Back door to kitchen was wide open at start of inspection. Ensure doors remain closed or install a tight fitting screen to prevent entrance of vermin (flies, cockroaches, rodents) REPEAT VIOLATION.			
K049: Permits Available	<u>0.5</u>	<u>02/27/2024</u>	<u>Uncorrected as of 5/2/2025</u>
The CDFA license for the milkshake machine was unable to be located or verified during the inspection. Ensure the license is posted near the machine at all times. If a license for the machine has not been obtained, immediately discontinue use until approved by CDFA.

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K018: HACCP/Variance Required: Approved/Records Kept	2.0	04/09/2024	Corrected On Site
Facility is packaging various meats and food using reduced-oxygen packaging (ROP) but does not have a state approved HACCP plan. Any retail food facility processing potentially hazardous foods using ROP is required to have a Hazardous Analysis Critical Control Point (HACCP) plan approved by California Department of Public Health (CDPH) (Cal Code 114057.1). IMMEDIATELY DISCONTINUE USING ROP AND DISPOSE OF ALL ROP PRODUCTS UNTIL YOU HAVE SUBMITTED A HACCP PLAN AND BEEN APPROVED BY THE CDPH OR FOLLOW THE BELOW EXEMPTION RULES. Exemption: Your retail food facility is not required to have an approved HACCP plan for ROP of potentially hazardous food if all the following standards are always met: 1. The food is labeled with the production time and date. 2. The food is held at 41° F or lower during refrigerated storage. 3. The food is removed from its package in the food facility within 48 hours after packaging. The lack of oxygen creates an anaerobic environment, which favors the growth of two very dangerous pathogens: Clostridium botulinum and Listeria monocytogenes. Continued operation of a ROP procedure without an approved HACCP plan can result in condemnation of all ROP products, impoundment of any equipment used for ROP, or suspension of your permit to operate. To request a CDPH-FDB ROP HACCP plan review, submit a hard copy of the ROP HACCP plan along with a completed Retail Food Program Service Request Application and fee to the address on the application. For information on submitting a HACCP plan for approval, please contact CDPH at (916) 650-6500 or by e-mail, fdinfo@cdph.ca.gov. Once you have received a letter of approval, please contact your inspector to review your HACCP plan. Corrective action: Employees voluntarily discarded several ROP packages of raw fish, beef, pork, and other seafood. Corrected on site.			
K023: No Rodents, Insects, Birds, or Animals	2.0	04/09/2024	03/19/2025
1) Observed rodent droppings on top of the dish machine. Droppings appeared to be old and no signs of a current infestation were found. Immediately clean and sanitize all areas where droppings are found. Contact pest control services to ensure monthly treatments are being done to prevent further issues. 2) Observed a significant amount of flies in the dining area and near the oyster bar. Facility does not have an enclosed kitchen and shall do whatever necessary to prevent entrance of vermin. Discontinue leaving open doors and windows without screening and/or air curtains.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	04/09/2024	03/19/2025
1) Observed refrigeration drawers below the grill on the right side of cook line at 49F. Drawers did not have food inside at time of inspection. Ensure refrigeration units are maintaining 41F or below. Discontinue use of the unit until it has been repaired. 2) Observed leak in the produce walk-in. Repair to prevent contamination of foods.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	04/09/2024	03/19/2025
Discontinue lining the inside of refrigeration units with towels or wiping cloths. All equipment shall be non-absorbent and easily cleanable.			
K038: Approved Lighting/Ventilation: Adequate, Used	0.5	04/09/2024	03/19/2025
Observed heavy dust accumulation on the fan covers in the seafood walk-in and the produce walk-in. Clean regularly.			
K039: Thermometers Provided and Accurate	0.5	04/09/2024	03/19/2025
Observed broken or missing thermometers for multiple refrigeration units near the cook line. Ensure each unit has a fully functional thermometer. Check regularly to ensure 41F or below.			
K043: Approved Toilets: Maintained, Accessible, Clean	0.5	04/09/2024	03/19/2025
Observed the sink in the employee restroom on the right side falling away from the wall. Re-caulk so that the sink is flush with the wall.

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 87.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	3.0	04/11/2025	Corrected On Site
1. Upon arrival, water supply was shut off at the hand washing station. Access to both hot and cold water is REQUIRED at all times (at every sink). When directed by health inspector, employee turned on the water. Corrected on site. Repeat Violation.			
2. Provide paper towels or drying device in dispensers at or adjacent to each hand washing facility. Corrected on site. Repeat Violation.			
K030: Food Storage; Food Storage Containers Identified	0.5	05/01/2025	Uncorrected as of 5/2/2025
1. Observed an open container with salt sitting on the floor (near the kitchen entry). Properly elevate food items/packages/container at least 6 inches above the floor. Corrected on site.			
2. Observed several bulk containers (under a prep table) without any labels to demonstrate what ingredients were inside. Provide labels to ALL working containers to indicate contents.			
K033: Nonfood-Contact Surfaces Clean	0.5	05/01/2025	Uncorrected as of 5/2/2025
Observed and felt food debris accumulation at the handles, shelves, and bottom of all refrigeration units. Thoroughly clean all equipment, cabinets, and shelving. Repeat Violation.			
K034: Warewashing Facility/Test Strips: Adequate, Used	0.5	05/01/2025	Uncorrected as of 5/2/2025
Provide approved and correct testing equipment to test for sanitizer concentration. If Chlorine is used ensure that the sanitizer concentration measures 100ppm and/or if a quat based sanitizer is used ensure that the sanitizer concentration measures 200ppm.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	10/11/2025	Uncorrected as of 5/2/2025
Observed a refrigerator unit (near the front counter) with a broken handle. Equipment shall be maintained functional and in good repair. Repair and/or replace the handle.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	04/12/2025	Uncorrected as of 5/2/2025
Properly secure the pressurized CO2 tanks. Repeat Violation.			
K040: Wiping Cloths: Properly Used and Stored	0.5	04/12/2025	Uncorrected as of 5/2/2025
Discontinue using wiping cloths for multiple uses without storing in sanitizing solution/bucket. Ensure sanitizer buckets with adequate amount of sanitizer are provided during operation. Repeat Violation.			
K053: Repeat Violations - Critical (1 - 23)	5.0	04/11/2025	Uncorrected as of 5/2/2025
Repeat Violation: K006			
K054: Repeat Violations - Good Retail Practices (24 -51)	2.0		Uncorrected as of 5/2/2025
Repeat Violations: K033, K036, K040

K006: Adequate/Accessible Handwash Sinks, Supplies	<u>3.0</u>	<u>10/18/2024</u>	<u>10/11/2024</u>
1. Upon arrival water supply to the hand washing sink was turned off, due to a leak in the faucet. Hand washing sinks must always be accessible and the food prep sink should not be used for anything other than food prep. Ensure the leak is repaired. 2. Provide approved handwashing cleanser and towels or drying device in dispensers at or adjacent to each hand washing facility. Corrected on site.			
K033: Nonfood-Contact Surfaces Clean	<u>0.5</u>	<u>10/14/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Felt debris accumulation at the handles of all refrigeration units and along shelves. Thoroughly clean all equipment, cabinets, and shelving.			
K036: Equipment, Utensils and Linens: Storage and Use	<u>0.5</u>	<u>10/12/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Properly secure the pressurized CO2 tanks.			
K038: Approved Lighting/Ventilation: Adequate, Used	<u>0.5</u>	<u>10/18/2024</u>	<u>04/11/2025</u>
Replace light bulb that's out, under the hood system.			
K040: Wiping Cloths: Properly Used and Stored	<u>0.5</u>	<u>10/12/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Discontinue using wiping cloths for multiple uses without storing in sanitizing solution. Ensure sanitizer buckets with adequate amount of sanitizer are provided during operation.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	<u>0.5</u>	<u>10/12/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Ensure that there is never any dirty pots/dishes in the mop sink. The mop sink may only be utilized for janitorial purposes.			

Inspection Date: 04/08/2024

Type of Service Description: CHANGE OF OWNERSHIP INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 100.0

Overall Inspection Comments: Overall, the new owner is making all the changes needed to ensure his facility is kept in good condition. Most importantly the owner will be replacing the preexisting flooring within 9-12 months, to ensure it is safe and help prevent any slips.

Score: 88.5

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	<u>3.0</u>	<u>04/02/2025</u>	<u>Corrected On Site</u>
- Discontinue storing supplies inside the hand washing sink. Keep hand sink clear and accessible at all times. Corrected on site. - Install a wall mounted soap dispenser near the hand washing sink.			
K007: Proper Hot and Cold Holding Temperatures	<u>3.0</u>	<u>04/02/2025</u>	<u>Corrected On Site</u>
Observed sauces and salsas on ice packs at 60F. Maintain all cold held potentially hazardous foods at or below 41°F. Either use an ice bath with containers submerged half way up with ice or keep sauces in the refrigerator. Corrected on site.			
K024: Person In Charge Present and Performs Duties; Valid Certification	<u>1.0</u>	<u>04/02/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Unable to locate or verify food safety certifications for all employees. Ensure at least one employee has a valid Food Manager Certificate and all other employees have a valid Food Handlers Card. Keep copies on site and available for review during inspections. REPEAT VIOLATION.			
K026: Approved Thawing Methods Used, Frozen Food	<u>0.5</u>	<u>04/02/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Observed improper thawing of raw meats. Thaw potentially hazardous foods by one of these methods: 1. Under cool (below 70 degrees F) potable running water for a period not to exceed 2 hours. Water shall be of sufficient velocity to flush loose food particles into the sink drain. 2. In refrigeration units (usually overnight). 3. In a microwave oven. 4. As part of the cooking process.			
K033: Nonfood-Contact Surfaces Clean	<u>0.5</u>	<u>04/02/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Outside and inside of all equipment is in need of cleaning. Clean equipment regularly.			
K042: Proper Waste Disposal; Facilities Maintained	<u>0.5</u>	<u>04/02/2025</u>	<u>Uncorrected as of 5/2/2025</u>
- Observed trash and debris near the dumpsters. Keep area clean. - Keep dumpster lids closed.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	<u>0.5</u>	<u>04/02/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Observed front door and window open without screens. Ensure windows and doors remain closed or install tight fitting screens to prevent entrance of vermin.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>	<u>04/02/2025</u>	<u>Uncorrected as of 5/2/2025</u>
- Observed degrading floors/walls/ceilings throughout facility. Ensure all floors/walls/ceilings are smooth, nonabsorbent, and easily cleanable. Ensure all flooring has the required 4" base coving with 3/8 inch radius coving. - Observed food debris/grime throughout food facility. Ensure all floors/walls/ceilings are cleaned and sanitized on a regular basis. - Vinyl flooring and walls in storage shed are deteriorating. Plan for future repairs. REPEAT VIOLATIONS.			
K054: Repeat Violations - Good Retail Practices (24 -51)	<u>2.0</u>	<u>04/02/2025</u>	<u>Uncorrected as of 5/2/2025</u>
REPEAT VIOLATIONS: - #24 - #45

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 87.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K009: Proper Cooling Methods	<u>2.0</u>	<u>03/13/2024</u>	<u>03/12/2024</u>
Observed improper cooling methods of salsa verde and tacos. Discontinue cooling PHF using unapproved methods. All PHF shall be rapidly cooled according to specified time temperature requirements, from 135 degrees to 70 degrees within 2 hours, and from 70 degrees to 41 degrees within four hours. Ensure salsa verde is placed into shallow pans for cooling rather than cooling it inside a large cylindrical container. Ensure tacos are also placed in a shallow pan and are kept uncovered. Ensure time for each food item is recorded to ensure accurate cooling procedures.			
K014: Food Contact Surfaces: Clean and Sanitized	<u>3.0</u>	<u>03/13/2024</u>	<u>Uncorrected as of 5/2/2025</u>
- Observed no sanitizer dispensing from mechanical warewasher at bar. Discontinue use until repaired/replaced. Ensure mechanical warewasher dispenses sanitizer (concentration must be at least 50ppm for bleach/chlorine). - Observed sanitizer bucket with less than 100ppm of bleach. Ensure sanitizer buckets have a concentration of at least 100ppm. Manager instructed to add more bleach.			
K024: Person In Charge Present and Performs Duties; Valid Certification	<u>1.0</u>	<u>04/15/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed no food handler safety certifications. Facility did have one food manager safety certification. Ensure all other employees obtain a food handler safety certification.			
K027: Food Separated and Protected	<u>1.0</u>	<u>03/13/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed raw meat being stored above tomatoes in refrigeration unit. Discontinue this practice. Ensure all raw foods are stored below ready to eat foods to avoid any cross contamination.			
K029: Toxic Substances Properly Identified, Stored, Used	<u>0.5</u>	<u>03/13/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed unlabeled spray bottles. Ensure all toxic spray bottles are labeled as to the contents of the container.			
K030: Food Storage; Food Storage Containers Identified	<u>0.5</u>	<u>03/13/2024</u>	<u>Uncorrected as of 5/2/2025</u>
- Observed dry food items (potatoes, onions) being stored on the floor of dry storage room. Ensure all food items are elevated six inches above the ground. - Observed unlabeled bulk food. Ensure all bulk food items are labeled as to their contents.			
K035: Adequate/Approved Equipment/Utensils, Maintained	<u>0.5</u>	<u>03/15/2024</u>	<u>Uncorrected as of 5/2/2025</u>
- Observed foil/duct tape being used on equipment. - Observed raw wood shelving throughout kitchen. Raw wood is not an approved material for food facilities. - Observed bulk food containers that are not commercial grade.			
Ensure all equipment is commercial grade, smooth, nonabsorbent and easily cleanable.			
K036: Equipment, Utensils and Linens: Storage and Use	<u>0.5</u>	<u>03/13/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed scissors being stored between equipment and wall. Discontinue this practice. Ensure all equipment/utensils/linen are stored in manner to protect from contamination.			
K038: Approved Lighting/Ventilation: Adequate, Used	<u>0.5</u>	<u>03/15/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed missing hood filter. Ensure there are no hood filters missing and that they are properly installed.			
K040: Wiping Cloths: Properly Used and Stored	<u>0.5</u>	<u>03/12/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed wiping cloth being kept on prep line. Ensure wiping cloths, when not in use, are stored in sanitizer solution.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	<u>0.5</u>	<u>03/13/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed mops being propped up against wall. Ensure mops are hung up to air dry without soiling walls or other equipment. Facility has a mop rack.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>	<u>03/13/2024</u>	<u>Uncorrected as of 5/2/2025</u>
REPEAT VIOLATIONS:			
- Observed degrading floors/walls/ceilings throughout facility. Ensure all floors/walls/ceilings are smooth, nonabsorbent, and easily cleanable. Ensure all flooring has the required 4" base coving with 3/8 inch radius coving. - Observed food debris/grime throughout food facility. Ensure all floors/walls/ceilings are cleaned and sanitized on a regular basis.

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 82.5

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K004: Proper Eating, Tasting, Drinking or Tobacco Use	<u>2.0</u>	<u>01/23/2025</u>	<u>Corrected On Site</u>
Observed an employee eating on cook line at the start of the inspection. Discontinue allowing employees to eat in any area of the food facility which may contaminate foods or food-contact surfaces. Designate an area for employee eating and drinking to prevent potential contamination of food. Correct on site.			
K007: Proper Hot and Cold Holding Temperatures	<u>3.0</u>	<u>01/24/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Observed a refrigeration unit measuring 53F. Unit was holding tortillas, whole produce and eggs. Staff advised eggs were for personal use only. Ensure all potentially hazardous food is stored in other refrigeration units until it is repaired or replaced.			
K014: Food Contact Surfaces: Clean and Sanitized	<u>3.0</u>	<u>01/23/2025</u>	<u>Corrected On Site</u>
Observed no sanitizer solution set up during active food preparation. Ensure all food contact surfaces are maintained clean and sanitized. Food facility needs to set up sanitizer solution/buckets during active food preparation and ensure sanitizer concentration is 100ppm bleach. Corrected on site.			
K030: Food Storage; Food Storage Containers Identified	<u>0.5</u>	<u>01/31/2025</u>	<u>Uncorrected as of 5/2/2025</u>
REPEAT VIOLATION: 1. Observed a bag of onions on the floor in storage area. Properly elevate food items at least 6 inches above the floor. 2. Ensure bulk food items are labeled as to the contents of the container (ex., flour, sugar, etc.). 3. Observed an open garbage bag of bread sitting on freezer in the back room. Staff advised bread came from an unknown bakery in Santa Maria. Inspector will follow up with owner regarding bakery. Ensure all food items are stored in approved areas and with sufficient protection to prevent cross contamination. DISCONTINUE using garbage bag to transport and store bread.			
K033: Nonfood-Contact Surfaces Clean	<u>0.5</u>	<u>01/31/2025</u>	<u>Uncorrected as of 5/2/2025</u>
REPEAT VIOLATION: Observed food debris on refrigeration gaskets, handles and shelves. Ensure all nonfood contact surfaces are maintained clean.			
K035: Adequate/Approved Equipment/Utensils, Maintained	<u>0.5</u>	<u>02/07/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Observed broken equipment (refrigeration unit) being used as storage in the back room. Ensure equipment is maintained clean, functional, and in good repair. If equipment is not going to be repaired, it needs to be removed from building.			
K040: Wiping Cloths: Properly Used and Stored	<u>0.5</u>	<u>01/31/2025</u>	<u>Uncorrected as of 5/2/2025</u>
REPEAT VIOLATION: Observed sponges in 3 compartment sink. Discontinue using sponges in contact with cleaned and sanitized or in-use food contact surfaces.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	<u>0.5</u>	<u>01/24/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Observed back door wide open at the time of the inspection. Maintain all exterior doors closed except when in use.			
K053: Repeat Violations - Critical (1 - 23)	<u>5.0</u>	<u>01/23/2025</u>	<u>Uncorrected as of 5/2/2025</u>
See comments in section 14.			
K054: Repeat Violations - Good Retail Practices (24 -51)	<u>2.0</u>		<u>Uncorrected as of 5/2/2025</u>
See comments in sections 30, 33, and 40.

- 2) ADA dogs
- 3) Time as a Public Health Control

114000. Time as a public health control

(a) Except as specified in subdivision (b), if time only, rather than time in conjunction with temperature, is used as the public health control for a working supply of POTENTIALLY HAZARDOUS FOOD before cooking or for READY-TO-EAT POTENTIALLY HAZARDOUS FOOD that is displayed or held for service for immediate consumption, the following shall occur:

(1) The FOOD shall be marked or otherwise identified to indicate the time that is four hours past the point in time when the FOOD is removed from temperature control.

(2) The FOOD shall be cooked and served, served if ready-to-eat, or discarded within four hours from the point in time when the FOOD is removed from temperature control.

(3) The FOOD in unmarked containers or packages or marked to exceed a four-hour limit shall be discarded.

(4) Written procedures shall be maintained in the FOOD FACILITY and made available to the ENFORCEMENT AGENCY upon request, that ensure compliance with this section and Section 114002, for FOOD that is prepared, cooked, and refrigerated before time is used as a public health control.

(b) Time only, rather than time in conjunction with temperature, may not be used as the public health control for raw EGGS in the following FOOD FACILITIES:

- (1) Licensed health care facilities.
- (2) Public and private school cafeterias

Observed mildew on the panel inside the ice machine. Ice machines and ice dispensers should be cleaned as often as necessary to prevent buildup of mold, bacteria, or other factors that may affect the ice being produced.			
Note that cleaning an ice machine or ice dispenser is dependent on the specific make and model you have purchased.			
1. Go to the manufacturer website to access information for your machine.			
2. Find the cleaning instructions for your type of machine.			
3. Discard all ice from the machine prior to cleaning. Use only approved chemicals to sanitize.

Violation Item

Points Lost Comply By Date Complied On Date

K011: Proper Reheating Procedures for Hot Holding

4.0

04/30/2024

Corrected On Site

Observed improper reheating of potentially hazardous foods (clam chowder) for hot holding. Clam chowder had been moved directly from the fridge into the unit and measured 43F. Ensure all reheated foods are first brought to a temperature of 165F BEFORE placing in the hot holding unit. Hot holding units are meant to keep food hot, not to heat them up. If new food is being taken from a sealed container it must be brought to 135F before placing in the unit. Reheating for hot holding shall be done rapidly, and the time the food is between 41F and 165F shall not exceed 2 hours. Corrective action: employee microwaved clam chowder and brought to proper temperature before moving back to hot holding unit. Corrected on site.

K024: Person In Charge Present and Performs Duties; Valid Certification

1.0

04/30/2024

Uncorrected as of 5/2/2025

Food Manager Certificate on-site is expired. Ensure at least one employee has a valid Food Manager Certificate and all other have a valid Food Handlers card. Keep copies on site at all times.

K043: Approved Toilets: Maintained, Accessible, Clean

0.5

04/30/2024

Uncorrected as of 5/2/2025

Observed restroom door propped open. Ensure the restroom door remains closed and is equipped with a self-closing mechanism.

K044: Premises; Personal/Cleaning Items; Vermin-Proofing

0.5

04/30/2024

Uncorrected as of 5/2/2025

Ensure the kitchen door remains closed while the roll-up door is open to protect the kitchen from contamination and entrance of vermin (flies, cockroaches, rodents, etc.)

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized	3.0	02/21/2025	Corrected On Site
- Facility had no sanitizer set up in the kitchen but was actively preparing foods. Ensure a sanitizer solution of 100ppm chlorine or 200ppm quaternary ammonium is prepared BEFORE beginning any type of food preparation. Sanitizer solution shall be changed every 4 hours or more often if needed. Check using the appropriate test strips. Corrected on site. - Discontinue putting dirty dishes in the food preparation sink. Keep food prep sink clean and sanitized.			
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	04/21/2025	Uncorrected as of 5/2/2025
Facility does not have an active Food Manager Certification. Ensure at least one employee has a valid Food Manager Certificate and all other employees have a valid Food Handlers Card. Keep copies on site and available for review during inspections. ONGOING REPEAT VIOLATION. Violations shall be corrected by 4/21/25.			
K030: Food Storage; Food Storage Containers Identified	0.5	02/21/2025	Uncorrected as of 5/2/2025
Discontinue storing open food products in the back store room/office. This area is not approved for food storage. Ensure only foods and drinks in original, un-opened containers are stored in this location.			
K033: Nonfood-Contact Surfaces Clean	0.5	02/21/2025	Uncorrected as of 5/2/2025
Clean the following: - The shelves and spaces behind the prep top unit near the cook line - The fan covers in the walk-in - Outside of equipment, especially handles of refrigeration units			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	02/21/2025	Uncorrected as of 5/2/2025
- Immediately discontinue using latex gloves. These are not approved in food facilities. - Discontinue re-using milk crates for storing produce. Ensure foods are stored in containers that can be easily cleaned and sanitized.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	02/21/2026	Uncorrected as of 5/2/2025
Observed unused and excess supplies and equipment inside facility. Remove any items not necessary for the function of the facility to prevent harborage of vermin.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	02/21/2026	Uncorrected as of 5/2/2025
The following violations have a strict compliance deadline of one year. Violations shall be corrected by 2/21/2026. - Flooring inside the walk-in has severely deteriorated. Raw wood underneath the stainless steel is exposed and beginning to rot. Replace the flooring with an approved flooring material. See attachment for approved flooring materials for food facilities. ONGOING REPEAT VIOLATION. - Observed several areas in the kitchen where the paint is peeling. Ensure walls are smooth and free of peeling paint. ONGOING REPEAT VIOLATION. - Observed several holes in the walls throughout facility. Fill and repaint all holes so that walls are smooth and easily cleanable. - Flooring in the hallway area with the hand sink and the large dough mixer is deteriorating. Plan for future repairs. - Replace the missing coving tiles where needed			
K054: Repeat Violations - Good Retail Practices (24 -51)	2.0	04/21/2025	Uncorrected as of 5/2/2025

Inspection Date: 05/07/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 84.0

Overall Inspection Comments: A reinspection is required due to violations listed on this report which do not meet the requirements set forth in the California Retail Food Code commencing with §113700-114437. All violations must be corrected within the time specified. In the event that violations noted on this report are not corrected by the "Next Inspection Date" indicated above, a chargeable reinspection fee may be assessed.

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized	<u>3.0</u>	<u>05/07/2024</u>	<u>06/06/2024</u>
- Observed heavy food debris accumulation on the can opener. Ensure the large table mounted can opener is cleaned and sanitized daily to prevent cross contamination of canned foods. REPEAT VIOLATION. - Facility had no sanitizer buckets set up in the kitchen but was actively preparing foods. Ensure a sanitizer solution of 100ppm chlorine or 200ppm quaternary ammonium is prepared BEFORE beginning any type of food preparation. Sanitizer solution shall be changed every 4 hours or more often if needed. Check using the appropriate test strips. Corrected on site.			
K023: No Rodents, Insects, Birds, or Animals	<u>2.0</u>	<u>05/07/2024</u>	<u>06/06/2024</u>
Observed sticky fly strip near the water heater. These are not approved for food facilities. Immediately discontinue using fly strips.			
K024: Person In Charge Present and Performs Duties; Valid Certification	<u>1.0</u>	<u>05/07/2024</u>	<u>06/06/2024</u>
Unable to locate of verify food safety certifications. Ensure at least one employee has a valid Food Manager Certificate and all other employees have a valid Food Handlers Card. Keep copies on site and available for review during inspections. REPEAT VIOLATION.			
K036: Equipment, Utensils and Linens: Storage and Use	<u>0.5</u>	<u>05/07/2024</u>	<u>06/06/2024</u>
Observed pizza slicer kept in stagnant water. Discontinue this practice. Ensure in-use utensils are maintained in running water of sufficient velocity to flush of loose particles (i.e. - dipper well!) OR in a container of water that is maintained at a temperature of 135F and the container is cleaned at least every 24 hours.			
K040: Wiping Cloths: Properly Used and Stored	<u>0.5</u>	<u>05/07/2024</u>	<u>06/06/2024</u>
Multi-use wiping cloths were observed stored outside of the bucket. Discontinue using wiping cloths for multiple uses without storing in sanitizing solution. Store wiping cloths in an approved sanitizer solution between uses or provide a clean cloth for each use.			
K041: Plumbing; Proper Backflow Devices	<u>0.5</u>	<u>05/07/2024</u>	<u>06/06/2024</u>
Observed drain lines extending into floor sink at three compartment sink. Cut/raise drain line to 1" (or twice the diameter of the drain line) above the rim of the floor sink to provide an air gap and to prevent backflow contamination risk. ONGOING REPEAT VIOLATION.			
K043: Approved Toilets: Maintained, Accessible, Clean	<u>0.5</u>	<u>05/07/2024</u>	<u>06/06/2024</u>
Ensure both restrooms have a self-closing door mechanism in working order.

Facility Name: PIZZA EXPRESS

Facility ID: FA0016646

Site Address: 3348 SPRING ST 104, PASO ROBLES

Record ID: PR0022255

Program Description: MR24 - RESTAURANT (SEATING 11 - 50) - MODERATE PREP

Inspection Date: 02/25/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 75.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K001: Demonstration of Knowledge	<u>5.0</u>		<u>Uncorrected as of 5/2/2025</u>
Facility had numerous major violations that could potentially cause food borne illness diseases. A lack of understanding of basic food safety principles was observed at the time of inspection.			
K005: Proper Handwash Procedures and Glove Use	<u>5.0</u>	<u>02/25/2025</u>	<u>Corrected On Site</u>
Observed staff not following proper glove use. Staff member put on gloves without washing her hands prior. Hands must be washed each time gloves are donned and when they are removed after changing tasks.			
K006: Adequate/Accessible Handwash Sinks, Supplies	<u>3.0</u>	<u>02/25/2025</u>	<u>Corrected On Site</u>
Observed hand drying device unplugged above the hand wash sink. Ensure hand drying is plugged in at all times. Corrected on site.			
K007: Proper Hot and Cold Holding Temperatures	<u>3.0</u>	<u>02/28/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Observed a container of garlic & herb spread sitting on counter for over a day. The container states to keep refrigerated. It measured 75°F. Product was voluntarily discarded by staff. Maintain all potentially hazardous foods (PHF) at 41°F or below or at or above 135°F. Or facility can use time as a public health.			
For time as a public health, food shall be marked or identified with time for food to be discarded after 4 hours. Food that is unmarked or exceeds the 4 hours will be discarded.			
K014: Food Contact Surfaces: Clean and Sanitized	<u>3.0</u>	<u>02/25/2025</u>	<u>Corrected On Site</u>
REPEAT VIOLATION: Observed no sanitizer solution set up during active food preparation. Ensure all food contact surfaces are maintained clean and sanitized. Food facility needs to set up sanitizer solution/buckets during active food preparation and ensure sanitizer concentration is 100ppm bleach. Corrected on site			
K033: Nonfood-Contact Surfaces Clean	<u>0.5</u>	<u>02/28/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Observed a build up of food debris on refrigeration handles throughout the facility. Ensure all nonfood-contact surfaces are maintained clean.			
K040: Wiping Cloths: Properly Used and Stored	<u>0.5</u>	<u>03/07/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Observed sponges in 3 compartment sink. Discontinue using sponges in contact with cleaned and sanitized or in-use food contact surfaces.			
K053: Repeat Violations - Critical (1 - 23)	<u>5.0</u>		<u>Uncorrected as of 5/2/2025</u>
See comment in section 14.			

Inspection Date: 03/25/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 95.5

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized	<u>3.0</u>	<u>03/25/2024</u>	<u>Corrected On Site</u>
No sanitizer buckets were set up at the time of the inspection. Ensure sanitizer buckets are setup and maintain a concentration of at least 100 ppm chlorine or 200 PPM quat concentration. Ensure chlorine/quat sanitizer test strips are obtained and used to monitor sanitizer in solution.			
K024: Person In Charge Present and Performs Duties; Valid Certification	<u>1.0</u>	<u>04/25/2024</u>	<u>02/26/2025</u>
Ensure at least one employee obtains a valid Food Manager Certificate and all others have valid Food Handlers Cards. Store copies on site for inspector review.			
K034: Warewashing Facility/Test Strips: Adequate, Used	<u>0.5</u>	<u>03/29/2024</u>	<u>02/26/2025</u>
Unable to verify test strips at the time of the inspection. Ensure chlorine/quat test strips are obtained and used to measure 100 ppm chlorine or 200 PPM quat in solution at the 3-compartment sink and in the wiping cloth buckets.

Score: 97.5

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K026: Approved Thawing Methods Used, Frozen Food Observed raw chicken being thawed on a rack near the prep table. Discontinue thawing potentially hazardous foods at room temperature immediately. Thaw PHF by one of the approved methods; completely submerged under running water (70°F or below) inside a food preparation sink (not to exceed two hours); in a refrigeration unit, as part of the cooking process, or by use of a microwave.	0.5		<u>Uncorrected as of 5/2/2025</u>
K029: Toxic Substances Properly Identified, Stored, Used Observed a container of unapproved pesticide in the facility. Only pesticides that are specifically formulated for food facilities and applied by licensed pest control professionals may be used. Discontinue the use of all "household use only" insecticides in the food facility.	0.5	12/26/2024	<u>Uncorrected as of 5/2/2025</u>
K035: Adequate/Approved Equipment/Utensils, Maintained Observed the stand up cooler door gasket in disrepair. Repair the gasket.	0.5	12/26/2024	<u>Uncorrected as of 5/2/2025</u>
K036: Equipment, Utensils and Linens: Storage and Use 1) Observed unsecured CO2 cylinders. Properly secure the pressurized CO2 tank. 2) Observed in-use utensils stored in a container of ice water. In-use utensils must be stored in a container of water over 135F or else cleaned at least every 4 hours.	0.5	12/26/2024	<u>Uncorrected as of 5/2/2025</u>
K044: Premises; Personal/Cleaning Items; Vermin-Proofing Observed a gap beneath the screen door. Seal all entry points to prevent vermin harborage.	0.5	12/26/2024	<u>Uncorrected as of 5/2/2025</u>

Inspection Date: 10/30/2023

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Program Description: HR25 - RESTAURANT (SEATING 51 +) - FULL PREP

Inspection Date: 06/06/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 91.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized	3.0	06/06/2024	Corrected On Site
Dish machine was out of sanitizer at time of inspection and was actively being used. Ensure the dish machine is dispensing 50ppm chlorine sanitizer before washing dishes. Corrective action: employee installed new container of sanitizer and by end of inspection the machine was running properly. Ensure all dishes that were washed get rewashed with sanitizer.			
K016: Shell Stock: Quality, Storage, Tags	2.0	06/06/2024	Corrected On Site
Observed raw oysters without tags. Maintain shellfish certification tags with the original container until empty, and then maintain tags in chronological order on the premises for a period of not less than 90 days from the date of harvest. Corrected on site.			
K034: Warewashing Facility/Test Strips: Adequate, Used	0.5	06/06/2024	Uncorrected as of 5/2/2025
- Obtain chlorine sanitizer test strips for the dish machine. Test each day to ensure the dish machine is dispensing at least 50ppm. - Install a 6 inch high metal splash guard between the 3-compartment sink and the food preparation sink to prevent cross contamination. A splash guard on the hand sink is highly recommended.			
K038: Approved Lighting/Ventilation: Adequate, Used	0.5	06/06/2024	Uncorrected as of 5/2/2025
- Observed very heavy grease accumulation on the ventilation hood filters. Clean more regularly to prevent fire hazard. REPEAT VIOLATION. - Clean the fan cover inside the walk-in.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	06/06/2024	Uncorrected as of 5/2/2025
Observed front and side door propped open. Facility does not have an enclosed kitchen and needs to protect from entrance of vermin. Either keep doors closed, install screens, or install air curtains to keep out the flies.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	06/06/2024	Uncorrected as of 5/2/2025
Clean the walls by the dish machine.			
K054: Repeat Violations - Good Retail Practices (24 -51)	2.0	06/06/2024	Uncorrected as of 5/2/2025
REPEAT VIOLATIONS: - Hood filters need cleaning

Inspection Date: 01/07/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 86.5

Overall Inspection Comments: Education and direction regarding the following topics were given at the time of the inspection:

- 1) Sanitizer bucket setup, concentration and testing.
- 2) Manual Warewashing
- 3) Proper Cooling

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	<u>3.0</u>	<u>01/07/2025</u>	<u>Corrected On Site</u>
No paper towels were available from the hot line hand sink dispenser. Provide approved handwashing cleanser and towels or drying device in dispensers at or adjacent to each hand washing facility.			
K007: Proper Hot and Cold Holding Temperatures	<u>5.0</u>	<u>01/07/2025</u>	<u>Corrected On Site</u>
Measured the following temperatures: Cooked rice 130F, cooked beans 47F, cooked broccoli 45F, unshelled boiled eggs 53F, pot stickers 50F, cooked cabbage 55F. Observed rehydrated mushrooms on the prep table. The operator stated that the mushrooms are rehydrated at ambient temperature in water overnight. The operator is directed to rehydrate the mushrooms in the walk in cooler to maintain them at 41 F or below. Observed portioned bowls of soup base stored at ambient temperature. The operator is directed to provide documentation that the soup base is not potentially hazardous food by confirming that the water activity is .85 or less, or that the pH is 4.6 or below at 75F. Otherwise the soup base must be held either above 135F or below 41F.			
K014: Food Contact Surfaces: Clean and Sanitized	<u>3.0</u>	<u>01/07/2025</u>	<u>Corrected On Site</u>
No sanitizer was measured in the final rinse of the dish machine. Observed food contact utensils in the dish machine that had been washed without a sanitizing step. Clean and sanitize multi-use utensils and equipment in the following manner after coming in contact with food or becoming contaminated; wash with detergent and water not less than 100°F; rinse with clear potable water; sanitize with 100 ppm chlorine for 30 seconds, 200 ppm quaternary ammonium for 1 minute, 25ppm iodine for 1 minute, complete immersion in water of at least 171° F for 30 seconds, or other methods as approved. This violation was corrected by the operator filling the sanitizer container and rewashing the dishes.			
K027: Food Separated and Protected	<u>1.0</u>	<u>01/07/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Observed raw shell eggs stored over ready to eat lettuce. To protect food from cross-contamination during storage, always store cooked and ready to eat foods above raw foods or in the following order from top shelf to bottom shelf: ready-to-eat foods; cooked meats; raw meats. If raw foods cannot be stored on the bottom shelf, then store in the following order from top to bottom: seafood, pork/beef, chicken.			
K035: Adequate/Approved Equipment/Utensils, Maintained	<u>0.5</u>	<u>01/07/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Observed an accumulation of ice around the walk in freezer door. Observed an accumulation of ice on the walk in freezer condensation drain line.			
K036: Equipment, Utensils and Linens: Storage and Use	<u>0.5</u>	<u>01/07/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Observed an accumulation of unused items in the electrical room. Remove unused items to eliminate areas of vermin harborage.			
K041: Plumbing: Proper Backflow Devices	<u>0.5</u>	<u>01/07/2025</u>	<u>Uncorrected as of 5/2/2025</u>
No airgap was observed from one wastewater line at the hot line and one at the walk in freezer floor sink. Ensure preparation and warewashing sinks and other equipment with drain lines drain via indirect connection to an approved receptacle.

K013: Food in Good Condition, Safe and Unadulterated Multiple containers of infant food and formula were observed with expired "use by" dates. Train staff to carefully monitor infant food and formula to ensure that expired items are removed from retail. FIFO practices should be in place to assist with this goal. Staff were summoned by management to start removing the expired items immediately, and the violation was corrected on site.	<u>2.0</u>	<u>01/23/2024</u>	<u>Corrected On Site</u>
K033: Nonfood-Contact Surfaces Clean Surfaces and floors of the baking area were observed to be soiled and the area appears disorganized. Clean, de-clutter, and maintain the area clean and sanitary.	<u>0.5</u>	<u>01/24/2024</u>	<u>11/13/2024</u>
K045: Floors/Walls/Ceilings: Built, Maintained, Clean 1) Floors under frying equipment were observed with excessive grease and debris. Floor perimeters throughout the facility were observed soiled with residue and debris. Modify cleaning schedules to maintain these areas clean and sanitary.	<u>0.5</u>	<u>03/23/2024</u>	<u>11/13/2024</u>
K054: Repeat Violations - Good Retail Practices (24 -51)	<u>2.0</u>	<u>02/23/2024</u>	<u>11/13/2024</u>

Violation Item	Points Lost	Comply By Date	Complied On Date
K001: Demonstration of Knowledge	5.0	01/12/2024	Uncorrected as of 5/2/2025
All employees are not properly trained on food safety - specifically on proper sanitation of food contact surfaces. Employees are required to be knowledgeable in food safety as it applies to their assigned duties. Immediately train all employees on proper sanitation of equipment, surfaces, and dishes. The Certified Food Manager is responsible for ensuring staff are trained and following food safety requirements.			
K014: Food Contact Surfaces: Clean and Sanitized	3.0	01/12/2024	Uncorrected as of 5/2/2025

1) Employees are not using sanitizer when washing dishes and equipment. A wash, rinse, sanitize cycle is required. Immediately begin using sanitizer to wash dishes, wipe surfaces, and clean equipment that comes in contact with food.

Clean and sanitize multi-use utensils and equipment in the following manner after coming in contact with food or becoming contaminated: wash with detergent and water not less than 100°F; rinse with clear potable water; then sanitize with 100 ppm chlorine for 30 seconds OR 200 ppm quaternary ammonium for 1 minute. Test sanitizer solution using the appropriate test strips.

2) Employees are not using a sanitizer solution to wipe down prep tables and food contact surfaces. Ensure a sanitizer solution bucket of either 100ppm chlorine or 200ppm quaternary is set up BEFORE food preparation begins and is available in the food prep area. Store wiping rags in the sanitizer bucket between uses. Ensure sanitizer is changed every 4 hours or more often if needed. Test using test strips to ensure proper concentration.

3) Observed mildew growth on the inside of the ice machine. Clean and sanitize regularly to prevent contamination of ice. Follow the cleaning instructions from the manufacturer of your machine.

In the event that violations noted on this report are not corrected by the "Next Inspection Date" indicated above, a chargeable reinspection fee may be assessed.

Violation Item	Points Lost	Comply By Date	Complied On Date
K024: Person In Charge Present and Performs Duties; Valid Certification	<u>1.0</u>	<u>01/12/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Unable to locate or verify food safety certifications. Ensure at least one employee has a valid Food Manager Certificate and all other employees have a valid Food Handlers Card. Keep copies on site and available for review during inspections. ONGOING REPEAT VIOLATION SINCE 2020. This violation needs to be corrected by 2/12/24. A reinspection for this violation will be conducted and if not in compliance by the listed date the facility will be subject to possible chargeable reinspection, an office hearing, and potential loss of permit due to ongoing repeat violations.			
K034: Warewashing Facility/Test Strips: Adequate, Used	<u>0.5</u>	<u>01/12/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Obtain the proper sanitizer test strips. Observed chlorine sanitizer but only quaternary ammonium test strips.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	<u>0.5</u>	<u>01/12/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Facility has unenclosed kitchen but has the front door propped open. The door needs to either be equipped with a tight fitting screen or kept close to prevent entrance of vermin (flies, rodents, cockroaches, etc.).			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>	<u>01/12/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Maintain floor sinks clean, especially the one near the front counter. ONGOING REPEAT VIOLATION.			
K054: Repeat Violations - Good Retail Practices (24 -51)	<u>2.0</u>	<u>01/12/2024</u>	<u>Uncorrected as of 5/2/2025</u>
REPEAT VIOLATIONS: - No food safety certificates for employees - Dirty floor sinks

Facility Name: ROUND TABLE PIZZA

Facility ID: FA0011988

Site Address: 1600 W GRAND AVE, GROVER BEACH

Record ID: PR0017362

Program Description: HR25 - RESTAURANT (SEATING 51 +) - FULL PREP

Inspection Date: 01/30/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 87.5

Overall Inspection Comments: Due to several violations noted in the inspection report, a re-inspection is set to occur in 2 weeks on 2/13/2025. Corrections must be completed. Failure of completion may warrant a facility closure.

Violation Item	Points Lost	Comply By Date	Complied On Date
K005: Proper Handwash Procedures and Glove Use	5.0	01/30/2025	Corrected On Site
Hand washing station in the main food prep room has a leak and is currently not accessible. All hand washing station must be in good condition. Ensure that a licensed plumber makes the repair. In the meantime, the hand washing station in the salad bar area must be designated for hand washing until repair occurs. Demonstrate evidence of repair completion to health inspector.			
K023: No Rodents, Insects, Birds, or Animals	2.0	02/13/2025	Uncorrected as of 5/2/2025
Rodent droppings were found along one of the walls in an outdoor "storage" room, where unused equipment is placed. Since there was no evidence of rodent activity inside the physical facility, where the food is stored, prepped, and cooked. Operation was able to continue. Manager stated that pest control is set to come in the following day. Evidence of the completed service and invoice must be submitted to health inspector. A major deep clean and removal of rodent droppings and any unused equipment must occur asap. Re-inspection is set to occur in 2 weeks on 2/13/2025.			
K034: Warewashing Facility/Test Strips: Adequate, Used	0.5	02/13/2025	Uncorrected as of 5/2/2025
Obtain chlorine sanitizer test strips for the dish machine. Use daily to ensure 50ppm chlorine sanitizer			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	02/13/2025	Uncorrected as of 5/2/2025
Properly discard of any unused equipment in the "storage room." This is to prevent vermin harborage and eliminate a rodent infestation.			
K039: Thermometers Provided and Accurate	0.5	02/28/2025	Uncorrected as of 5/2/2025
Provide an accurate, secondary thermometer to all refrigeration units holding Potential Hazardous Foods (PHF).			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	02/28/2025	Uncorrected as of 5/2/2025
Properly rodent proof the exterior doors to eliminate gaps greater than 1/4 inch, specifically the roll-up door to the storage room. There are large gaps visible at the corners of the roll-up door. Ensure that you utilize a rodent proof seal kit OR weatherproof rubber seal strip.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5		Uncorrected as of 5/2/2025
Floors, walls, and ceilings must maintain a finish that is smooth, durable, easily cleanable, and nonabsorbent. Make the necessary repairs where deteriorated, broken, or holes/gaps present. - Broken wall tiles in the women's restroom - Broken/missing wall tiles near the food prep sink			
K047: Signs Posted; Last Inspection Report Available	0.5	01/31/2025	Uncorrected as of 5/2/2025
Ensure employee hand washing signs are posted in both the men and women restrooms. Hand washing signs were provided.			
K049: Permits Available	0.5	02/07/2025	Uncorrected as of 5/2/2025
Obtain an valid/current Public Health Permit. 5 business days have been allotted for submission of payment for 2025 health permit. Failure to provide payment will result in a facility closure.			
K054: Repeat Violations - Good Retail Practices (24 -51)	2.0		Uncorrected as of 5/2/2025
Repeat violations: K034 and K045

Type of Service Description: REINSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 96.0

Overall Inspection Comments: Facility has corrected almost all Food Safety Violations. Continue to work on additional violations listed in this report.

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized	<u>3.0</u>	<u>02/27/2024</u>	<u>01/31/2025</u>
The walk-in refrigeration unit needs to be fully deep cleaned and sanitized. Observed mildew and mold growth on the walls, metal shelving, floors, and fans.			
K034: Warewashing Facility/Test Strips: Adequate, Used	<u>0.5</u>	<u>02/27/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Obtain chlorine sanitizer test strips for the dish machine. Use daily to ensure 50ppm chlorine sanitizer.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>	<u>02/27/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Floors, walls, and ceilings must maintain a finish that is smooth, durable, easily cleanable, and nonabsorbent. Make the necessary repairs where deteriorated, broken, or holes/gaps present. REPEAT VIOLATION.			
- Tile floor near the 3-comp sink is in need of a re-grout - Broken cove tile near the 3-comp. - Peeling paint on the ceiling above the 3-compartment sink. - Broken wall tiles in the women's restroom			

Inspection Date: 02/05/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 82.0

Overall Inspection Comments: Facility is in the process of changing owners. The violations listed on this report must be addressed before a new owner will be approved to operate. *A reinspection is required due to violations listed on this report which do not meet the requirements set forth in the California Retail Food Code commencing with §113700-114437. All violations must be corrected within the time specified. In the event that violations noted on this report are not corrected by the "Next Inspection Date" indicated above, a chargeable reinspection fee may be assessed.*

Violation Item	Points Lost	Comply By Date	Complied On Date
K001: Demonstration of Knowledge	<u>5.0</u>	<u>02/05/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Employees are not properly trained on food safety. Employees are required to be knowledgeable in food safety as it applies to their assigned duties. Immediately train all employees and ensure they have valid food safety certifications. The Certified Food Manager is responsible for ensuring staff are trained and following food safety requirements.			
K006: Adequate/Accessible Handwash Sinks, Supplies	<u>3.0</u>	<u>02/05/2024</u>	<u>Uncorrected as of 5/2/2025</u>
1) Observed hand washing sink at the front counter completely blocked by a drink fridge. ALL hand sinks must be easily accessible and fully stocked with supplies at all times. Ensure the sink is made accessible. 2) Hand sink at the service counter had food debris and soda residue inside. It appears to be being used as a "dump sink". Hand sinks shall be used for hand washing only.			
K014: Food Contact Surfaces: Clean and Sanitized	<u>3.0</u>	<u>02/05/2024</u>	<u>Uncorrected as of 5/2/2025</u>
1) Facility is not properly using the food preparation sink. Employees stated they use the 3-compartment sink for washing/rinsing produce and other food prep activities. Immediately discontinue this practice. The 3-comp sink shall be used for warewashing only. Utilize the food preparation sink for its intended purpose. Maintain the food prep sink clean and sanitary. Relocation of the food prep sink is recommended, as its proximity to the food prep station is inconvenient and hard to use. 2) The walk-in refrigeration unit needs to be fully deep cleaned and sanitized. Observed mildew and mold growth on the walls, metal shelving, floors, and fans.			
K021: Hot and Cold Water Available	<u>2.0</u>	<u>02/05/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Hot water not available at the hand sink near the cook line. Hand sinks shall have warm water of 100F at all times. Repair the sink.

Violation Item	Points Lost	Comply By Date	Complied On Date
K024: Person In Charge Present and Performs Duties; Valid Certification	<u>1.0</u>	<u>02/05/2024</u>	<u>01/31/2025</u>
Unable to locate or verify food safety certifications. Ensure at least one employee has a valid Food Manager Certificate and all other employees have a valid Food Handlers Card. Keep copies on site and available for review during inspections. REPEAT VIOLATION.			
K034: Warewashing Facility/Test Strips: Adequate, Used	<u>0.5</u>	<u>02/05/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Obtain chlorine sanitizer test strips for the dish machine. Use daily to ensure 50ppm chlorine sanitizer. REPEAT VIOLATION.			
K035: Adequate/Approved Equipment/Utensils, Maintained	<u>0.5</u>	<u>02/05/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed freezer in the back storage room. This storage room does not have approved floors, walls, or ceilings for food storage. Only supplies and dry goods can be stored in this area. Remove the freezer and relocate.			
K038: Approved Lighting/Ventilation: Adequate, Used	<u>0.5</u>	<u>02/05/2024</u>	<u>Uncorrected as of 5/2/2025</u>
1) Observed heavy grease and dust accumulation on the filters in the ventilation hood above pizza oven. Clean more regularly to prevent fire risk. 2) All ceiling vents throughout the facility are in need of cleaning. Remove all dust and dirt from vents. 3) Clean dirt and dust off the fans inside the walk-in.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>	<u>02/05/2024</u>	<u>Uncorrected as of 5/2/2025</u>
1) Facility in need of a deep cleaning to remove food debris, flour, and dirt buildup on floors, walls, and ceilings. REPEAT VIOLATION. 2) Floors, walls, and ceilings must maintain a finish that is smooth, durable, easily cleanable, and nonabsorbent. Make the necessary repairs where deteriorated, broken, or holes/gaps present. REPEAT VIOLATION. - Tile floor near the 3-comp sink is in need of a re-grout - Broken cove tile near the 3-comp. - Peeling paint on the ceiling above the 3-compartment sink. - Broken wall tiles in the women's restroom - Wall next to the 3-compartment sink (on right side) is deteriorating and stained. Replace or repaint.			
K054: Repeat Violations - Good Retail Practices (24 -51)	<u>2.0</u>	<u>02/05/2024</u>	<u>Uncorrected as of 5/2/2025</u>
REPEAT VIOLATION: - No food safety certs for active employees on site. - No chlorine test strips readily available. - Facility in need of cleaning - Walls, floors, and ceilings need repairs

Type of Service Description: OPENING INSPECTION

Inspection Result Description: NOT APPLICABLE

Department Action Description: NOT APPLICABLE

Score: 100.0

Overall Inspection Comments: Today's attempt at an opening/construction final inspection revealed items having to be completed PRIOR to opening to the public:

- Finish the floors as per plan check letter from 10/10/2023. Not so today.
- Finish the mop sink room to meet code requirements floor, walls and ceiling, according to discussion on site today. Epoxy trowled on flooring with integral cove base is approved. Notify this section if there are any changes to be made
- Install self-closing devices on restroom doors
- Finish all raw wood surfaces underneath bar counter with a waterproof product, rendering nonabsorbent, easily cleanable
- Install employee lockers
- Install mop hangers to allow for well ventilated drying
- Point out location of the grease trap

Program Description: HR24 - RESTAURANT (SEATING 11 - 50) - FULL PREP
Inspection Date: 11/14/2024
Type of Service Description: REGULAR INSPECTION
Inspection Result Description: SIGNIFICANT VIOLATIONS
Department Action Description: TO BE RE-INSPECTED
Score: 76.0
Overall Inspection Comments: Upon arrival for routine inspection no hot water was available. The operator voluntarily closed the facility until hot water is repaired or replaced.

Violation Item	Points Lost	Comply By Date	Complied On Date
K021: Hot and Cold Water Available	<u>2.0</u>	<u>11/18/2024</u>	<u>Corrected On Site</u>
No hot water was available for use at the time of the inspection. Maintain an adequate supply of hot potable water (minimum of 120°F) and cold potable water under pressure to all sinks (except hand washing sinks). The operator voluntarily closed the facility.			
K023: No Rodents, Insects, Birds, or Animals	<u>4.0</u>	<u>11/18/2024</u>	<u>Corrected On Site</u>
Observed evidence of a rodent infestation at the time of the inspection. Observed numerous rodent droppings in multiple critical areas of the food facility. The operator is directed to, seal all areas that may provide vermin harborage, remove all sources of food & water, and clean & sanitize all affected areas. Unused or inoperable equipment will provide harborage for vermin. Refer to the equipment violation.			
K027: Food Separated and Protected	<u>1.0</u>	<u>11/18/2024</u>	<u>Corrected On Site</u>
Observed raw fish stored over ready to eat cucumbers and lemons. To protect food from cross-contamination during storage, always store cooked and ready to eat foods above raw foods or in the following order from top shelf to bottom shelf: ready-to-eat foods; cooked meats; raw meats. If raw foods cannot be stored on the bottom shelf, then store in the following order from top to bottom: seafood, pork/beef, chicken.			
K029: Toxic Substances Properly Identified, Stored, Used	<u>0.5</u>	<u>11/18/2024</u>	<u>Corrected On Site</u>
1) Properly label all chemicals and store in an area separate from food and utensils. 2) Observed a container of Home Defense pesticide in the dry storage area. Only licensed pest control operations may apply pesticide in a food facility.			
K036: Equipment, Utensils and Linens: Storage and Use	<u>0.5</u>	<u>11/18/2024</u>	<u>Corrected On Site</u>
Observed improperly used or inoperable equipment throughout the facility. Repair, replace, or remove the improperly used or inoperable equipment from the facility. Ensure equipment is maintained clean, functional, and in good repair.			
K038: Approved Lighting/Ventilation: Adequate, Used	<u>0.5</u>	<u>11/18/2024</u>	<u>Corrected On Site</u>
Observed and accumulation of grease on the exhaust hood. Clean the exhaust hood. Observed gaps between the grease filters. Operate the hood as designed with no gaps between the filters.			
K040: Wiping Cloths: Properly Used and Stored	<u>0.5</u>	<u>11/18/2024</u>	<u>Corrected On Site</u>
Ensure wiping cloths are stored in sanitizer solution when not in active use.

Site Address: 1032 CHORRO ST, SAN LUIS OBISPO

Record ID: PR0019317

Program Description: HR24 - RESTAURANT (SEATING 11 - 50) - FULL PREP

Inspection Date: 03/22/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 79.0

Overall Inspection Comments: Significant improvement is needed in facility monitoring and maintenance, as well as employee practices and habits. It appears that there is inadequate involvement of owners/managers to ensure that the facility is performing safely and that staff are well trained. Provide active managerial oversight, and make note of areas in need of improvement. Ensure evidence of required staff training is kept on site and monitored for expiration so that all staff can stay current on their training and skills. Ensure that the Food Safety Manager is providing any necessary training and requiring staff to follow safe food handling practices. Improve facility monitoring and structural upkeep, and enforce staff adherence to food safety requirements. Multiple critical and repeat violations were observed. Promptly and permanently correct all noted violations. Focus your attention first to correction of CRITICAL VIOLATIONS and STAFF SAFETY RISKS, and then move on to categories of GOOD RETAIL PRACTICES.

The facility is to be reinspected within one month. IF SIGNIFICANT IMPROVEMENT IS NOT OBSERVED, ANY SUBSEQUENT RE-INSPECTIONS ARE TO BE CHARGED TO THE FACILITY AT A RATE OF \$147/hr.

Violation Item	Points Lost	Comply By Date	Complied On Date

K001: Demonstration of Knowledge	5.0	03/22/2024	Corrected On Site

Staff exhibited poor knowledge and/or behaviors regarding the importance of clean and sanitized food contact surfaces. Additionally, there appeared to be a lack of motivation to monitor and correct issues of potential cross-contamination. Inadequate cleaning and sanitizing of food contact equipment is one of the top food borne illness risk factors. Staff must be immediately trained to have adequate knowledge to properly perform their tasks and consistently adhere to health and safety codes.

Staff were educated on site by the inspector. It is expected that Food Safety Managers will monitor staff behaviors and habits to ensure adherence to required food safety procedures. Provide training as needed to ensure adequate knowledge of the risk factors associated with their assigned tasks, and require that they demonstrate consistent safe food handling practices.

K014: Food Contact Surfaces: Clean and Sanitized	3.0	03/22/2024	Corrected On Site

1) At the time of inspection, the dish washing machine was dispensing no sanitizer. Staff were unaware, and did not know how to fix it (it appeared to be a line priming issue, which is common and easily corrected). I tried to offer suggestions for troubleshooting, but there was a communication disconnect and the employee was not motivated to address the issue. Staff should be monitoring the machine with test strips regularly to ensure proper function and adequate sanitizer. Staff need training to recognize and correct common and simple maintenance issues with equipment. Direction was given to use only the 3 compartment sink until the machine is serviced/adjusted to dispense adequate sanitizer in the rinse cycle.

2) As we were discussing the direction to temporarily discontinue use of the dish washing machine and to clean all utensils and equipment in the 3 compartment sink, it was observed that the sanitizer solution in the sink was cloudy and had a large amount of food scraps floating in the solution. No detectable sanitizer was measured. Sanitizer solution is being maintained inadequately. Train staff to replace with fresh sanitizer solution when it becomes cloudy and/or contaminated with food debris, and to use the provided test strips to verify and maintain adequate sanitizer levels. Fresh sanitizer was prepared in the 3 comp. and measured above 100 ppm. Direction was given to sanitize any items which may have not been adequately sanitized in the machine.

3) Knives put away on the magnetic rack were observed inadequately cleaned, and soiled with food residue. Train staff to ensure all equipment is properly cleaned and sanitized before being returned to service. Soiled knives were taken out of service to be rendered clean and sanitary.

The facility has the equipment and supplies to compensate for the malfunctioning dish washing machine. It is expected that inspector's directions will be enforced and adhered to in the interim.

K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	04/22/2024	04/24/2024

Evidence of staff training was not available on site. Our records do not indicate a Food Safety Manager for the facility. Obtain current Food Safety Manager certification for at least one owner or employee. This employee is responsible for training staff to perform their tasks in a safe manner. Adequate staff training is an important component of facility safety and compliance, and could have prevented safety violations observed during this inspection. Ensure that all remaining staff have current Food Handler Cards, and keep records to track when employees are due for renewal. Keep the original Food Safety Manager certification on site at all times.

The facility is to be reinspected within one month. IF SIGNIFICANT IMPROVEMENT IS NOT OBSERVED, ANY SUBSEQUENT RE-INSPECTIONS ARE TO BE CHARGED TO THE FACILITY AT A RATE OF \$147/hr.

Violation Item	Points Lost	Comply By Date	Complied On Date
K027: Food Separated and Protected	1.0	03/22/2024	04/24/2024
1) The items in the salsa bar were open with no lids or coverings. Facility windows and doors were open, and no deterrent to pest entry was in place. This issue has been discussed during prior inspections, and was corrected by providing lids for the containers. Restore the practice of keeping containers in the salsa bar covered and protected. 2) Relocate the tortillas currently being stored under ceiling pipes to a protected area. Do not store any food underneath the ceiling pipes that are running in multiple places in the unfinished ceiling.			
K029: Toxic Substances Properly Identified, Stored, Used	0.5	03/22/2024	04/24/2024
Unlabeled spray bottles were observed. Maintain accurate labels on all cleaning chemicals or other contents in spray bottles.			
K030: Food Storage; Food Storage Containers Identified	0.5	03/22/2024	04/24/2024
Food was observed stored on the floor of the walk in refrigerator. Maintain storage of all food at least 6 inches above the floor.			
K033: Nonfood-Contact Surfaces Clean	0.5	03/23/2024	04/24/2024
1) Bulk food containers were observed excessively soiled with food debris and residue. Maintain clean. Include these items in your routine cleaning schedule. 2) The rack which stores clean knives was heavily soiled with food debris and residue. Clean and maintain sanitary.			
K034: Warewashing Facility/Test Strips: Adequate, Used	0.5	03/22/2024	04/24/2024
The facility has a supply of test strips, but the sanitizing violations observed indicate that they are not being used as required. Train staff to regularly verify and monitor sanitizer solutions used anywhere in the facility.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	03/23/2024	04/24/2024
1) Service or adjust the dish washing machine to dispense between 50 - 100 ppm chlorine in the rinse cycle. Monitor the machine regularly with your test strips to ensure proper functioning. 2) Replace the torn and unattached gasket of the downstairs reach in refrigerator. 3) A sponge was observed in the 3 compartment sink. Sponges are not to be used on food contact surfaces. Replace with approved cleaning supplies. 4) Replace broken handle on the small refrigerator near the door of the kitchen. 5) Remove the soiled and torn plastic bag taped to the shelving near the 3 comp. sink. Replace with a durable, impermeable, and cleanable material if it is necessary to shield shelf items from splash. 6) Remove torn and stained cardboard from shelving and replace with a durable and cleanable material if shelf lining is needed. 7) Single use plastic ramekin cups were observed stored in bulk bins for dispensing. Provide durable dispensing equipment with handles which are designed to be cleaned and reused. Store in a manner which prevents cross-contamination from hands. Discontinue using single use items as food service equipment.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	03/22/2024	04/24/2024
1) Wet mops were observed with mop heads in the curbed janitorial sink. Use the provided racks to store the mops in a manner which will allow them to dry and prevent mildew growth. 2) Unsecured CO2 tanks were observed in the downstairs storage area. Secure all pressurized cylinders to a rigid structure.

Violation Item	Points Lost	Comply By Date	Complied On Date
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	03/22/2024	04/24/2024
1) Doors and windows of the facility were open at the time inspection. This is allowed only if the kitchen is fully enclosed, and it is not. There is a screen on the door frame to the kitchen, but it is inadequate to prevent pest entry. The pass-through window is open with no pest barrier installed. Maintain doors and windows closed at all times to keep the facility and kitchen fully enclosed. If pest barriers are to be installed, ensure that they are approved by contacting this department before purchase, and be prepared to submit specifications which verify that they provide an adequate barrier to prevent pest entry. 2) Employee phone and personal items were observed on shelving in the kitchen where food is stored/prepared. Provide a designated area separate from food areas for employees to store personal belongings. 3) The downstairs storage areas are disorganized and cluttered, which makes it difficult to clean and monitor for pests. Organize the storage areas, and remove any items which are unused, in disrepair, or unnecessary. Monitor your organized facility regularly for evidence of pest activity.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	03/23/2024	04/24/2024
1) The floor of the kitchen near the ware washing area was wet with pooled water. Kitchen floors were excessively slick with grease accumulation. Maintain floors clean and safe at all times. Wipe up/clean and maintain areas of grease and water splash/spillage promptly to maintain cleanliness and prevent injuries from slip and fall risks. 2) The stairs to the downstairs area present a surface which is not cleanable and poses a slip risk for staff. Resurface with a cleanable, impermeable, and slip resistant finish. Food storage areas are required to have cleanable ceilings. Install an approved ceiling above any food storage areas. 3) The floors of the downstairs areas were soiled with food debris. Maintain clean and sanitary. This is an important factor for pest prevention and monitoring.

Violation Item	Points Lost	Comply By Date	Complied On Date
K007: Proper Hot and Cold Holding Temperatures	3.0	04/16/2025	Corrected On Site
Observed prep top refrigeration unit measuring 60°F. Maintain all potentially hazardous foods (PHF) at 41°F or below or at or above 135°F. Staff voluntarily discarded all food out of temperature. Items discarded: 2 pounds shrimp and 2 chili relleno- all items measured 60°F.			
2. Food in the hot holding display case measured 112°F. Staff made all the food early this date (within 3 hours). Staff turned up the heat to ensure hot holding is at or above 135°F. Reviewed with staff about proper hot holding and they make sure hot holding table is turned on and hot prior to putting food inside.			
K039: Thermometers Provided and Accurate	0.5	04/18/2025	Uncorrected as of 5/2/2025
1. Provide an accurate thermometer to all refrigeration units holding Potential Hazardous Foods (PHF).			
2. Unable to locate probe thermometer. Provide an approved, accurate, and easily readable metal probe thermometer for measuring food temperatures.			

Inspection Date: 10/16/2024

Facility Name: SAN MIGUEL MARKET & DELI #2

Facility ID: FA0013301

Site Address: 2060 9TH ST STE D, LOS OSOS

Record ID: PR0018820

Program Description: HR24 - RESTAURANT (SEATING 11 - 50) - FULL PREP

Inspection Date: 12/04/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 87.5

Overall Inspection Comments: Education and direction regarding the following topics were given at the time of the inspection:

- 1) Manual warewashing.
- 2) Glove usage
- 3) Hand washing
- 4) Cooling

After legal evaluation of the carne seca, a return visit was performed on 12/5 to request a voluntary condemnation and destruction of the carne seca. Refer to violation 18 for further details.

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	<u>3.0</u>	<u>12/04/2024</u>	<u>Uncorrected as of 5/2/2025</u>
1) Observed an employee wash their hands in the 3 comp sink. Hands must only be washed in the hand sink.			
2) No paper towels were available from the wall mounted dispenser at the time of the inspection. Provide approved handwashing cleanser and towels or drying device in dispensers at or adjacent to each hand washing facility.			
K007: Proper Hot and Cold Holding Temperatures	<u>3.0</u>	<u>12/04/2024</u>	<u>Corrected On Site</u>
Observed a container of salsa in the steam table at 125F. All other containers were held at appropriate temperature.			
Maintain all potentially hazardous foods (PHF) at 41°F/45°F or below or at or above 135°F.			
The operator corrected the violation by reheating the salsa to 165F on the range before returning it to the steam table for hot holding.			
K018: HACCP/Variance Required: Approved/Records Kept	<u>0.0</u>	<u>12/04/2024</u>	<u>Corrected On Site</u>
Observed a container of housemade carne seca. A food employee said the carne seca was made by drying raw meat with a fan over 3 days. Discontinue drying raw meat without temperature control at the facility until an approved HACCP plan is obtained from the CA Department of Farms and Agriculture (CDFA).			
K023: No Rodents, Insects, Birds, or Animals	<u>2.0</u>	<u>12/04/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed multiple flies in the facility. Eliminate flies from the facility by safe, legal, and effective means at once.			
K027: Food Separated and Protected	<u>1.0</u>		<u>Uncorrected as of 5/2/2025</u>
1) Observed raw shell eggs stored over RTE food in the reach in cooler. To protect food from cross-contamination during storage, always store cooked and ready to eat foods above raw foods or in the following order from top shelf to bottom shelf: ready-to-eat foods; cooked meats; raw meats. If raw foods cannot be stored on the bottom shelf, then store in the following order from top to bottom: seafood, pork/beef, chicken.			
2) Observed a container of raw Al Pastor meat stored in the beverage walk in. Discontinue storing raw food of animal origin beside Ready-to-eat (RTE) foods.			
K029: Toxic Substances Properly Identified, Stored, Used	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
Observed a container of unapproved pesticide. Discontinue the use of all "household use only" insecticides in the food facility.

- 1) Manual warewashing.
- 2) Glove useage
- 3) Hand washing
- 4) Cooling

After legal evaluation of the carne seca, a return visit was performed on 12/5 to request a voluntary condemnation and destruction of the carne seca. Refer to violation 18 for further details.

Violation Item	Points Lost	Comply By Date	Complied On Date
K030: Food Storage; Food Storage Containers Identified	0.5	12/04/2024	Uncorrected as of 5/2/2025
1) Observed unlabeled containers of bulk ingredients. Provide labeling information for bulk food containers for consumer self-service.			
2) Observed a container of raw tomatoes, a bucket of manteca, and a container of raw onions stored on the floor. Properly elevate food items/packages/container at least 6 inches above the floor.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	12/04/2024	Uncorrected as of 5/2/2025
1) Observed sponges being used for manual warewashing. Sponges are not approved for warewashing in a food facility. Discontinue using sponges.			
2) Observed an accumulation of grime on the band saw. Clean the band saw at least every 4 hours when in use. Ensure equipment is maintained clean, functional, and in good repair.			
3) Observed an inoperable 3 door stand up cooler. Repair the cooler. Ensure equipment is maintained clean, functional, and in good repair.			
4) Observed unsecured CO2 cylinders. Properly secure the pressurized CO2 tank.			
5) Observed single use containers used as scoops and stored inside bulk food containers. Provide scoops with handles and store scoops in a manner that will not contaminate food.			
K039: Thermometers Provided and Accurate	0.5		Uncorrected as of 5/2/2025
No probe thermometer was available in the facility at the time of the inspection.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	12/04/2024	Uncorrected as of 5/2/2025
1) Observed an unapproved employee drink on a prep table next to ready to eat cut avocados. Employee drinks should be covered and set on a lower shelf to reduce risk of contaminating food.			
2) Observed the front door propped open at the time of the inspection. Maintain all exterior doors closed except when in use.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	12/04/2024	Uncorrected as of 5/2/2025
1) Observed degraded cardboard on the floor in numerous areas. Floors must be smooth, durable and easily cleanable. Discontinue using cardboard on the floor.			
2) Observed a unsealed wood "door" used to close off the back area. Remove the unsealed wood door.			
K049: Permits Available	0.5	12/04/2024	Uncorrected as of 5/2/2025
The current permit was not posted or available for review at the time of the inspection.

Inspection Date: 04/25/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 96.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	3.0	04/25/2024	Uncorrected as of 5/2/2025
Observed utensil in the hand washing sink at the front counter. Ensure hand sinks are used strictly for hand washing. Discontinue using sink to store utensils and/or equipment.			
K038: Approved Lighting/Ventilation: Adequate, Used	0.5	04/25/2024	Uncorrected as of 5/2/2025
Facility is utilizing cooking equipment but does not have proper ventilation. Observed a panini press, hot plate, and convection oven in the coffee bar area. Walls surrounding the equipment are yellow from grease latent vapors. Per California Retail Food Code: 114149.1. (a) Mechanical exhaust ventilation EQUIPMENT shall be provided over all cooking equipment as required to effectively remove cooking odors, smoke, steam, grease, heat, and vapors. All mechanical exhaust ventilation equipment shall be installed and maintained in accordance with the California Mechanical Code, except that for units subject to Part 2 (commencing with Section 18000) of Division 13, an alternative code adopted pursuant to Section 18028 shall govern the construction standards. 114149.1. (c) This section shall not apply to cooking EQUIPMENT when the EQUIPMENT has been submitted to the local ENFORCEMENT AGENCY for evaluation, and the local ENFORCEMENT AGENCY has found that the EQUIPMENT does not produce toxic gases, smoke, grease, vapors, or heat when operated under conditions recommended by the manufacturer. The local ENFORCEMENT AGENCY may recognize a testing organization to perform any necessary evaluations.			
* This violation has been referred to the local jurisdiction for further review per 114149.1(c).*			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	04/25/2024	Uncorrected as of 5/2/2025
Observed yellowing on the walls and ceiling near and above the cooking equipment. Ensure walls and ceilings are maintained clean.

K005: Proper Handwash Procedures and Glove Use

5.0

03/24/2025

Corrected On Site

Observed staff not following proper glove use. Staff member donned gloves without washing hands prior and was using phone in the middle of food prep without changing out gloves. Hands must be washed each time gloves are donned and when they are removed after changing tasks. Reviewed glove use with staff.

K014: Food Contact Surfaces: Clean and Sanitized

3.0

03/24/2025

Corrected On Site

No sanitizer buckets were set up at the time of the inspection. Ensure sanitizer buckets are setup and maintain a concentration of at least 100 ppm chlorine concentration. Ensure chlorine sanitizer test strips are obtained and used to monitor sanitizer in solution. Corrected on site.

K016: Shell Stock: Quality, Storage, Tags
