Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized	3.0	12/04/2023	02/10/2025
- Observed mildew inside the ice machine on the deflector panel. Clean and sanitize regularly to prevent contamination of ice. - Observed heavy accumulation of food debris on the large table mounted can opener. Clean and sanitize daily to prevent contamination of canned foods.			
K018: HACCP/Variance Required: Approved/Records Kept	2.0	12/04/2023	Corrected On Site
Facility is packaging food using reduced-oxygen packaging (ROP) but does not have a state approved HACCP plan. Any retail food facility processing potentially hazardous foods using ROP is required to have a Hazardous Analysis Critical Control Point (HACCP) plan approved by California Department of Public Health (CDPH) (Cal Code 114057.1). IMMEDIATELY DISCONTINUE USING ROP UNTIL YOU HAVE SUBMITTED A HACCP PLAN AND BEEN APPROVED BY THE CDPH OR FOLLOW BELOW EXEMPTION RULES. Exemption: Your retail food facility is not required to have an approved HACCP plan for ROP of potentially hazardous food if all the following standards are always met: 1. The food is labeled with the production time and date. 2. The food is held at 41° F or lower during refrigerated storage. 3. The food is removed from its package in the food facility within 48 hours after packaging. The lack of oxygen creates an anaerobic environment, which favors the growth of two very dangerous pathogens: Clostridium botulinum and Listeria monocytogenes. Continued operation of a ROP procedure without an approved HACCP plan can result in condemnation of all ROP products, impoundment of any equipment used for ROP, or suspension of your permit to operate. For information on submitting a HACCP plan for approval, please contact CDPH at (916) 650-6500 or by e-mail, fdinfo@cdph.ca.gov. Once you have received a letter of approval, please contact your inspector to review your HACCP plan. **REPEAT VIOLATION** Corrective action: Manager voluntarily discarded several non-frozen steaks and packs of vacuum sealed fish. Immediately discontinue vacuum sealing raw fish. Only frozen fish is approved to be vacuum sealed.			
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	12/04/2023	02/10/2025
Unable to locate or verify food safety certifications. Ensure at least one employee has a valid Food Manager Certificate and all other employees have a valid Food Handlers Card. Keep copies on site and available for review during inspections.			
K027: Food Separated and Protected	1.0	12/04/2023	02/10/2025
Provide a six (6) inch high metal splashguard or twenty four (24) inch separation between handwashing sink and the food preparation sink to prevent cross contamination.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	12/04/2023	02/10/2025
Remove the cork board from the wall near the 3-compartment sink. All floors and walls shall be smooth, non-absorbent, and easily cleanable.			
K053: Repeat Violations - Critical (1 - 23)	5.0	12/04/2023	02/10/2025
REPEAT VIOLATION: - Vacuum sealing of PHF without an approved HACCP plan and not following the exemption rules.

Score: 95.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K009: Proper Cooling Methods Discontinue cooling rice on counter, using unapproved methods. All potentially hazardous foods shall be rapidly cooled. From 135 F to 70 F within two hours, and from 70 F to 41 F within four hours. Employee corrected cooling violation during inspection.	2.0	01/27/2025	Corrected On Site
K027: Food Separated and Protected To prevent cross contamination, discontinue storing raw meats over ready to eat foods and discontinue storing raw meats with other open food products. Clean and sanitize containers holding bulk foods in walk-in refrigeration unit. Employee corrected violations during inspection.	1.0	01/27/2025	Corrected On Site
K030: Food Storage; Food Storage Containers Identified Ensure bulk food storage bins are labeled as to the contents of the containers.	0.5	02/03/2025	Uncorrected as of 5/2/2025
K034: Warewashing Facility/Test Strips: Adequate, Used Obtain chlorine sanitizer test strips to monitor 100 PPM chlorine sanitizer in solution.	0.5	02/03/2025	Uncorrected as of 5/2/2025
K036: Equipment, Utensils and Linens: Storage and Use 1. Facility does not have a mop sink. Ensure an approved mop sink, including an approved AVB faucet is installed in facility to fill and discard mop water in an approved manner. 2. Obtain scoops with handles. Use to obtain foods from bulk food bins.	0.5	02/10/2025	Uncorrected as of 5/2/2025
K041: Plumbing; Proper Backflow Devices Employee toilet room has a leaking hand wash sink faucet that is being manually turned off. Discontinue shutting off water to the toilet room hand wash sink. 1. Hand washing is required to be available for use at all times. 2. Repair or replace plumbing under sink. Employee manually turned water back on to the sink during inspection.	0.5	02/03/2025	Uncorrected as of 5/2/2025

Inspection Date: 05/21/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 85.0

Overall Inspection Comments: The market area of the facility is clean. There is some degrading flooring that will need to be repaired or replaced in the future. Flooring in kitchen is in good repair.

Storage area throughout the facility need to be cleaned and maintained. Observed an accumulation of unused equipment and cardboard debris. Storage area behind walk in freezer was not able to be accessed due to large refrigeration unit(unknown if working) and several shopping carts filled with boxes blocking the entrance.

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies Observed empty paper towel dispenser at hand wash sink. Ensure hand wash station is stocked and available to use at all times.	3.0	05/21/2024	01/27/2025
K007: Proper Hot and Cold Holding Temperatures Meat display case measured 45F at the time of the inspection. The display temperature read 51F. Maintain all potentially hazardous foods (PHF) at 41°F or below or at or above 135°F. Monitor units to ensure that they maintain 41F or less at all times. Staff started moving meats from display case into walk in refrigeration unit and contacted a repairman who would be responding later this date.	3.0	05/21/2024	Corrected On Site

Violation Item	Points Lost	Comply By Date	Complied On Date
K024: Person In Charge Present and Performs Duties; Valid Certification	<u>1.0</u>	<u>05/24/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Unable to verify Food Manager/ Food Handler Cards at the time of the inspection. Ensure at least one employee obtains a valid Food Manager Certificate and all others have valid Food Handler Cards. Store copies on site for inspector review.			
K027: Food Separated and Protected	<u>1.0</u>	<u>05/21/2024</u>	
Observed salsa and cheese stored below raw meats. Ensure all food products are stored so as to be protected from contamination at all times. Items were moved to another shelf.			
Always store cooked and ready to eat foods above raw foods or in the following order from top shelf to bottom shelf: ready-to-eat foods; cooked meats; raw meats. If raw foods cannot be stored on the bottom shelf, then store in the following order from top to bottom: seafood, pork/beef, chicken.			
K030: Food Storage; Food Storage Containers Identified	<u>0.5</u>	<u>05/24/2024</u>	<u>01/27/2025</u>
1. Observed food on the floor throughout the facility (boxes for produce and meats in walk in refrigeration unit and bagged bulk items in the back of the store). Properly elevate food items at least 6 inches above the floor.			
K032: Food Properly Labeled & Honestly Presented	<u>0.5</u>	<u>05/24/2024</u>	<u>01/27/2025</u>
1. Observed unlabeled food for sale on the shelf in refrigeration unit (rice, guacamole, salsa, etc.) Ensure all food containers are labeled as to the contents of the container.			
2. Observed unlabeled bulk food containers in prep area. Ensure all bulk foods containers are labeled as to the contents of the container.			
K034: Warewashing Facility/Test Strips: Adequate, Used	<u>0.5</u>	<u>05/24/2024</u>	<u>01/27/2025</u>
Repeat violation: Unable to verify test strips at the time of the inspection. Ensure chlorine test strips are obtained and used to measure 100 ppm chlorine in solution at the 3-compartment sink and in the wiping cloth buckets.			
K035: Adequate/Approved Equipment/Utensils, Maintained	<u>0.5</u>	<u>05/24/2024</u>	<u>01/27/2025</u>
Observed a build up of food debris and trash on the floor of walk in refrigeration units. Ensure equipment is maintained clean, functional, and in good repair.			
K036: Equipment, Utensils and Linens: Storage and Use	<u>0.5</u>	<u>05/23/2024</u>	<u>Uncorrected as of 5/2/2025</u>
1. Discontinue storing plastic bowls in bulk food containers. Ensure scoops with handles are used and the handles are stored upright out of contact with the food.			
2. Observed several unsecured CO2 tanks in the back of business. Ensure CO2 tanks are secured to a fixed location.			
K040: Wiping Cloths: Properly Used and Stored	<u>0.5</u>	<u>05/24/2024</u>	<u>01/27/2025</u>
1. Observed sponges at 3 compartment sink. Discontinue using sponges in contact with cleaned and sanitized or in-use food contact surfaces.			
2. Observed soiled wiping cloths sitting on prep areas. Wiping cloths should be held in a solution of sanitizer between uses.			
K042: Proper Waste Disposal; Facilities Maintained	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
Observed a build up of cardboard, debris, and shopping carts throughout the facility. There are several pieces of equipment not being used including a walk in freezer being used as a storage area. Remove all unused equipment from the facility. Discard excess cardboard and debris on a regular basis.			
K043: Approved Toilets: Maintained, Accessible, Clean	<u>0.5</u>	<u>06/21/2024</u>	<u>01/27/2025</u>
Repeat Violation: Ensure a self closing mechanism is installed on the employee toilet room door as it opens into food prep area.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
Repeat violation: No mop sink has been installed. Ensure mop sink is installed. Ensure mops are placed in a position that allows them to air dry without soiling wall, or equipment. Facility could install a mop rack. Staff advised they are currently dumping dirty mop water outside on the side of the building. Discontinue this practice.

Overall Inspection Comments: Education and direction regarding the following topics were given at the time of the inspection:

1) Consumer advisory. Provide Disclosure and Reminder Statements for raw or undercooked animal derived food that is being offered.
"Consuming raw or undercooked meats, poultry, seafood, shellfish, or eggs may increase your risk of foodborne illness, especially if you have certain medical conditions."

2) Reduced Oxygen Packaging

Do not prepare or process foods using reduced oxygen packaging at the facility until an approved HACCP plan is obtained from the CA Department of Public Health.

3) Employees eating or drinking in a food prep area.

Employees may not eat in any food prep area. Employees may drink in a manner that will minimize chances of food contamination. A working food employee may drink from a container with a lid and a straw. Drinking containers must be stored below food to eliminate potential contamination from spills.

Violation Item	Points Lost	Comply By Date	Complied On Date

K007: Proper Hot and Cold Holding Temperatures	5.0		03/20/2025

Measured yogurt at 46F and cut tomato salad at 46 F in the cold top prep cooler.

This violation was corrected by rapidly cooling the food to 41 F or below within 2 hours.

Maintain all potentially hazardous foods (PHF) at 41°F/45°F or below or at or above 135°F.

Inspection Date: 01/17/2025

Type of Service Description: OPENING INSPECTION

Inspection Result Description: IN COMPLIANCE

Department Action Description: NO VIOLATION

Score: 100.0

Overall Inspection Comments: The purpose of this visit was to perform an opening inspection.

General education and direction were given at the time of the inspection.

All areas and knowledge checked were observed to be ready for service.

The facility is authorized to open.

Inspection Date: 04/16/2025

Type of Service Description: REINSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 99.0

Overall Inspection Comments: Facility has corrected all major violations and most minor violations from the 4/2/25 inspection. Continue to address the remaining violations listed on this report.

Violation Item	Points Lost	Comply By Date	Complied On Date
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	04/16/2025	Uncorrected as of 5/2/2025
The ice scoop is still exposed to outside elements and needs to be protected from contamination. Keeping the scoop in a closed container that gets washed daily or inside the ice machine is recommended.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	10/16/2025	Uncorrected as of 5/2/2025
Re-grout areas of tile floors as needed so that they are easily cleanable. Many areas of the tile flooring in the kitchen has very deep grooves where grout is missing and there is a heavy accumulation of food debris. Floors shall be re-grouted by next inspection date (10/16/2025).			

Inspection Date: 04/02/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 78.5

Overall Inspection Comments: A reinspection is required due to violations listed on this report which do not meet the requirements set forth in the California Retail Food Code commencing with §113700-114437. All violations must be corrected within the time specified. In the event that violations noted on this report are not corrected by the "Next Inspection Date" indicated above, a chargeable reinspection fee may be assessed.

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	3.0	04/02/2025	Uncorrected as of 5/2/2025
- No paper towels/jammed paper towel dispenser at the bar. Paper towels shall be easily available for hand washing at all times. REPEAT VIOLATION. - No paper towels in one of the restrooms. Keep paper towels stocked at all times.			
K011: Proper Reheating Procedures for Hot Holding	4.0	04/02/2025	Corrected On Site
Observed improper reheating of potentially hazardous foods. Tomato sauce inside the hot holding unit measured 87F. Ensure foods that are cooked, cooled, and then reheated for hot holding reach a minimum temperature of 165F for at least 15 seconds. This is to be done on the stove top or in a microwave before placing into a hot holding unit. Reheating for hot holding shall be done rapidly, and the time the food is between 41F and 165F shall not exceed 2 hours. Corrective action: employees rapidly reheated sauces to 165F on the stove top.			
K014: Food Contact Surfaces: Clean and Sanitized	3.0	04/02/2025	Uncorrected as of 5/2/2025
- Observed mildew growth on the panel inside the ice machine. Clean and sanitize regularly to prevent contamination of ice. REPEAT VIOLATION. - Observed scoop for ice sitting in dirty bucket on top of ice machine (outside). Immediately discontinue storing the ice scoop in this manner. Scoop shall be kept clean and sanitary and stored in a manner that it cannot be contaminated.			
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	04/02/2025	Uncorrected as of 5/2/2025
Unable to locate or verify food safety certifications for all employees. Ensure at least one employee has a valid Food Manager Certificate and all other employees have a valid Food Handlers Card. Keep copies on site and available for review during inspections. REPEAT VIOLATION.

Violation Item	Points Lost	Comply By	Date Complied On	Date
K026: Approved Thawing Methods Used, Frozen Food	<u>0.5</u>	<u>04/02/2025</u>	<u>Corrected On Site</u>	
Observed improper thawing of raw meats. Thaw potentially hazardous foods by one of these methods:				
1. Under cool (below 70 degrees F) potable running water for a period not to exceed 2 hours. Water shall be of sufficient velocity to flush loose food particles into the sink drain.				
2. In refrigeration units (usually overnight).				
3. In a microwave oven.				
4. As part of the cooking process.				
Corrected on site. REPEAT VIOLATION.				
K030: Food Storage; Food Storage Containers Identified	<u>0.5</u>	<u>04/02/2025</u>	<u>Uncorrected as of 5/2/2025</u>	
Observed several bags and containers of food directly on the floor of the outside storage room. Ensure food is maintained at least 6 inches off the floor at all times.				
K035: Adequate/Approved Equipment/Utensils, Maintained	<u>0.5</u>	<u>04/02/2025</u>	<u>Uncorrected as of 5/2/2025</u>	
Small chest freezer outside is rusted and deteriorated. Equipment is not approved to be stored outside. Remove the freezer.				
K036: Equipment, Utensils and Linens: Storage and Use	<u>0.5</u>	<u>04/02/2025</u>	<u>Uncorrected as of 5/2/2025</u>	
Observed ice cream scoop and rice paddle being stored in room temperature standing water. Discontinue this practice. During pauses in food preparation or dispensing, food preparation and dispensing utensils shall be stored in the following manner:				
- in the food with their handles above the top of the food and the container.				
- on a clean portion of the food preparation table or cooking equipment only if the in-use utensil and the food-contact surface of the food preparation table or cooking equipment are cleaned and sanitized				
- in running water of sufficient velocity to flush particulates to the drain, if used with moist food such as ice cream or mashed potatoes.				
- in a clean, protected location if utensils, such as ice scoops, are used only with a food that is not potentially hazardous.				
- in a container of water if the water is maintained at a temperature of at least 135°F and the container is cleaned at least every 24 hours				
K042: Proper Waste Disposal; Facilities Maintained	<u>0.5</u>	<u>04/02/2025</u>	<u>Uncorrected as of 5/2/2025</u>	
Observed lid to outside grease container open and the outside of the grease container very dirty. Maintain the lid closed when not in use and maintain the outside of the container as clean as possible to prevent storm water contamination and attraction of vermin.				
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	<u>0.5</u>	<u>04/02/2025</u>	<u>Uncorrected as of 5/2/2025</u>	
Observed back door to kitchen propped open. The current screen is torn and does not close all the way. Ensure doors remain closed or install a tight fitting screen to prevent entrance of vermin (flies, cockroaches, rodents). REPEAT VIOLATION.				
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>	<u>04/02/2025</u>	<u>Uncorrected as of 5/2/2025</u>	
Re-grout areas of tile floors as needed so that they are easily cleanable.				
K053: Repeat Violations - Critical (1 - 23)	<u>5.0</u>	<u>04/02/2025</u>	<u>Uncorrected as of 5/2/2025</u>	
REPEAT VIOLATION:				
- #6				
- #14				
K054: Repeat Violations - Good Retail Practices (24 -51)	<u>2.0</u>	<u>04/02/2025</u>	<u>Uncorrected as of 5/2/2025</u>	
REPEAT VIOLATIONS:				
- #24				
- #26				
- #44

Score: 93.5

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	3.0	02/20/2024	Corrected On Site
1) No paper towels available at the hand sink in the kitchen or the hand sink at the bar. Ensure paper towels are available for hand washing at all times. Corrected on site. 2) Hand sink in the kitchen is very close to the prep top unit. Install a 6 inch high metal splash guard between the hand sink and the prep unit to protect from contamination.			
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	08/20/2024	Uncorrected as of 5/2/2025
Unable to locate or verify food safety certifications. Ensure at least one employee has a valid Food Manager Certificate and all other employees have a valid Food Handlers Card. Keep copies on site and available for review during inspections. All employees food safety certifications and food handlers will be thoroughly reviewed at next routine inspection.			
K026: Approved Thawing Methods Used, Frozen Food	0.5	02/20/2024	Corrected On Site
Observed improper thawing of raw meats. Thaw potentially hazardous foods by one of these methods: 1. Under cool (below 70 degrees F) potable running water for a period not to exceed 2 hours. Water shall be of sufficient velocity to flush loose food particles into the sink drain. 2. In refrigeration units (usually overnight). 3. In a microwave oven. 4. As part of the cooking process.			
Corrected on site.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	02/20/2024	Uncorrected as of 5/2/2025
Observed the start of mildew growth on the deflector panel inside the ice machine. Ensure ice machine is cleaned and sanitized regularly to prevent contamination of ice.			
K038: Approved Lighting/Ventilation: Adequate, Used	0.5	02/20/2024	Uncorrected as of 5/2/2025
Observed very heavy accumulation of grease on the filters in the ventilation hood. Clean more frequently to prevent risk of fire.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	02/20/2024	Uncorrected as of 5/2/2025
Observed back door to kitchen propped open without a screen. Ensure doors remain closed or install a tight fitting screen to prevent entrance of vermin (flies, cockroaches, rodents).			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	02/20/2024	Uncorrected as of 5/2/2025
Observed raw wood framing around the window by the dish washing area. Ensure all walls are smooth, non-absorbent, and easily cleanable.

K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	07/05/2024	Uncorrected as of 5/2/2025
1) Flooring in kitchen no longer meets code requirements for a food facility. The floors must be smooth, durable, easily cleanable, and nonabsorbent. Need to reseal or replace with approved material with a base cove (toe kick) extending up the wall at least 4". Make plans for repairs prior to your next routine inspection.			
2) Need to provide a more durable back splash for the wall above the three-compartment sink. Current finish is a painted brick wall. Materials such as stainless steel sheeting or fiberglass reinforced plastic (FRP) need to be installed here. The brick finish is deteriorated and not easily cleanable or nonabsorbent.			
K054: Repeat Violations - Good Retail Practices (24 -51)	2.0	07/05/2024	Uncorrected as of 5/2/2025
Kitchen flooring and walls.

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	3.0	03/19/2024	02/25/2025
Observed paper towels outside of the dispenser and sitting on a rolling cart. Ensure paper towels for hand washing are kept in the paper towel dispenser at all times.			
K021: Hot and Cold Water Available	2.0	03/19/2024	02/25/2025
Unable to verify water temps due to a plumbing issue that was not allowing for sinks to be run for more than a few seconds. Ensure hot water of 120F is available at the 3-compartment sink and the food preparation sink. Ensure 100F at the hand washing sink. Reinspection to occur 3/20/24.			
K041: Plumbing; Proper Backflow Devices	0.5	03/19/2024	02/25/2025
1) Repair the plumbing issue in the floor sink that is not allowing for sinks to be used properly. 2) Observed several drain lines from sinks and equipment extending into the floor sink. Ensure there is at least a one inch air gap between the rim of the floor sink and the end of the drain lines to prevent back-flow contamination.			
K049: Permits Available	0.5	03/20/2024	02/25/2025
Facility has not paid all the 2024 Health Permit fees.			
K049: Permits Available	0.5	03/19/2024	02/25/2025
Facility has not paid the 2024 Health Permit fees. Facility has 5 business days to pay or will be closed.

K001: Demonstration of Knowledge Facility had numerous violations that could potentially cause food borne illness diseases. A lack of understanding of basic food safety principles was observed at the time of inspection. Staff did not have an understanding of proper cooling techniques or sanitation practices.	<u>5.0</u>	<u>08/02/2024</u>	<u>Uncorrected as of 5/2/2025</u>
K006: Adequate/Accessible Handwash Sinks, Supplies Repeat violation: Observed no paper towels at hand wash sink in the back and no soap or paper towels in bar area and kitchen hand wash stations.	<u>3.0</u>	<u>07/26/2024</u>	<u>Corrected On Site</u>
K009: Proper Cooling Methods Observed two large pots of refried beans and a pan of rice measuring 49F in walk in refrigeration unit. All products were made yesterday afternoon. Discontinue cooling PHF using unapproved methods. All PHF shall be rapidly cooled according to specified time temperature requirements, from 135 degrees to 70 degrees within 2 hours, and from 70 degrees to 41 degrees within four hours. All products were voluntarily discarded and all staff members on site educated on proper cooling methods.	<u>2.0</u>	<u>07/26/2024</u>	<u>Corrected On Site</u>
K014: Food Contact Surfaces: Clean and Sanitized REPEAT VIOLATION: Observed no sanitizer solution set up during active food preparation. Ensure all food contact surfaces are maintained clean and sanitized. Food facility needs to set up sanitizer solution/buckets during active food preparation and ensure sanitizer concentration is 100ppm bleach or 200ppm quaternary ammonium.	<u>3.0</u>	<u>07/26/2024</u>	<u>Corrected On Site</u>
K024: Person In Charge Present and Performs Duties; Valid Certification REPEAT VIOLATION: Unable to verify Food Manager/ Food Handler Cards at the time of the inspection. Ensure at least one employee obtains a valid Food Manager Certificate and all others have valid Food Handler Cards. STORE copies on site for inspector review.	<u>1.0</u>	<u>08/02/2024</u>	<u>Uncorrected as of 5/2/2025</u>
K029: Toxic Substances Properly Identified, Stored, Used REPEAT VIOLATION: Observed unlabeled spray bottles in bar area. Ensure toxic spray bottles are labeled as to the contents of the container.	<u>0.5</u>	<u>07/27/2024</u>	<u>Uncorrected as of 5/2/2025</u>
K030: Food Storage; Food Storage Containers Identified REPEAT VIOLATION: Observed a bag of flour on the floor in prep area. Properly elevate food items at least 6 inches above the floor.	<u>0.5</u>	<u>07/27/2024</u>	<u>Uncorrected as of 5/2/2025</u>
K035: Adequate/Approved Equipment/Utensils, Maintained REPEAT VIOLATION: Observed a build up of grime and food debris on refrigeration handles and gaskets throughout facility. Ensure equipment is maintained clean, functional, and in good repair.	<u>0.5</u>	<u>08/02/2024</u>	<u>Uncorrected as of 5/2/2025</u>

K027: Food Separated and Protected	<u>1.0</u>	<u>11/30/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Oysters today stored in the refrigeration unit outside. Read the previous inspection report. "The refrigeration unit added outside may be used to store unopened bottles only. Do NOT store oysters in that unit as it does not open into a food prep area". Ensure all food items are stored in approved areas and with sufficient protection to prevent cross contamination. The outdoor refrigeration unit will have to be removed. This was never approved for this type of use. If a food facility needs to accommodate different food service with additional equipment that has to be part of the actual food facility structure. Please remove the refrigeration unit as well as the freezer from outside.

Record ID: PR0012340

Program Description: LR15 - RETAIL MKT (UNDER 150 SF) - MINIMAL PREP

Inspection Date: 04/07/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 95.0

Overall Inspection Comments: Due to the advanced state of disrepair of the facility over the recent years and no imminent plans for a major remodel some of the outstanding construction violations will have to be addressed prior to the beginning of this season. Please contact this section with written plans for the repairs requested over the past years to be code compliant by April 30th 2025. Neither the snack bar, nor the outside adjacent BBQ area is equipped with a three compartment sink required for specific food operations. Please provide in writing which food operations are to occur at this site so the permit and equipment can reflect appropriately the needs to cover the activities proposed. A BBQ area is permitted only in conjunction with a permitted food facility that can support this activity. Please provide a detailed description of the food services proposed at the area and by whom.

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized	3.0		Uncorrected as of 5/2/2025
Due to the periods of non use the surfaces in the snack bar are not clean and sanitized for the inspection. Render so prior to any food service to occur.			
K033: Nonfood-Contact Surfaces Clean	0.5		Uncorrected as of 5/2/2025
Render the walls and ceiling in the snack bar non-absorbent, easily cleanable by filling holes and repainting all surfaces with a high gloss paint.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5		Uncorrected as of 5/2/2025
Clean out any broken counters and boards showing exposed pressboard, as it is no longer non-absorbent, easily cleanable. Render all counter surfaces so.			
K043: Approved Toilets: Maintained, Accessible, Clean	0.5	04/30/2025	Uncorrected as of 5/2/2025
A PERMANENT FOOD FACILITY shall provide clean toilet facilities in good repair for use by EMPLOYEES. The adjacent restrooms, (both womens and male) are in various states of advanced disrepair. The walls show signs of advanced deterioration and potential moisture intrusion damage. Render easily cleanable code compliant prior to the beginning of the season in May 2025.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	04/30/2025	Uncorrected as of 5/2/2025
The concrete floor in the snack bar has at some point been painted with an epoxy like paint which is peeling off and no longer code compliant. The required base cove (integral 3/8th inch radius) at the floor/wall junctures or floor/counter junctures are no longer intact. Render the floor approvable and code compliant prior to the season May 2025. Contact this section PRIOR to any repairs being performed to get approval for the materials and the manner of proposed installation.

Facility Name: SPANISH OAKS RANCH B&B

Facility ID: FA0008378

Site Address: 7200 VIA SPANISH OAKS, SANTA MARGARITA

Record ID: PR0014163

Program Description: MR81 - BED & BREAKFAST

Inspection Date: 02/04/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: IN COMPLIANCE

Department Action Description: NEXT REGULAR

Score: 97.0

Overall Inspection Comments: Currently, the Bed & Breakfast permit isn't being utilized. Since it is temporarily not in operation, a timeline to obtain a current Food Manager Certificate will be discussed with health inspector, once their services restart.

Violation Item	Points Lost	Comply By Date	Complied On Date
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	02/04/2026	Uncorrected as of 5/2/2025
All food facilities that handle, prepare, and/or store non-prepackaged potentially hazardous food, must ensure the food facility owner or an employee has a valid/current food manager certificate. This is to make sure staff is properly trained in food safety. Once the certification is complete, submit a copy to health department.			
** Due to the lack of activity (at the bed and breakfast) 60 days will be allotted for completion of certification, upon the initiation of serving food regularly.			
K054: Repeat Violations - Good Retail Practices (24 -51)	2.0		Uncorrected as of 5/2/2025
Repeat Violation: K024			

Inspection Date: 03/29/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 97.0

Overall Inspection Comments: Although the facility is currently not operating, it is being well maintained.

Refer to violation K043.			

Inspection Date: 10/13/2023

Type of Service Description: OPENING INSPECTION

Inspection Result Description: NOT APPLICABLE

Department Action Description: NOT APPLICABLE

Score: 100.0

Overall Inspection Comments: OPENING INSPECTION:

-Thermometer has been provided in refrigerated merchandising unit. Self closing device has been installed on restroom door. A wall mounted single service paper towel dispenser has been installed. Please post the Hand Washing sticker and Environmental Health placard (provided at the time of inspection).

-Facility has Health Department's approval to sell prepackaged foods. This is subject to the following conditions:

-Flooring and coved base material in restroom is an existing, non-conforming rubber topset base. Rubber topset cove base material in the restroom must be maintained clean and in good condition. If the flooring or coved base material is observed to be accumulating debris, appears unsanitary, or is not maintained easily cleanable, then the flooring and cove base material will be required to be replaced with an approved flooring material with an integral 3/8" minimum radius cove base. Failure to comply may result in Health Permit suspension or revocation.

-Health Permit will be delivered to facility via USPS. Please post on-site.

-The bathroom hand wash sink was not able to provide warm water (100F) at the time of inspection. Make necessary repairs immediately.

Inspection Date: 01/09/2025

Type of Service Description: REINSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 96.5

Overall Inspection Comments: Food facility has corrected all violations from previous report.

Violation Item	Points Lost	Comply By Date	Complied On Date
K023: No Rodents, Insects, Birds, or Animals Observed a few dead cockroaches around water heater (no eggs or live cockroaches seen). Facility has made major improvements on issue. Ensure all evidence of cockroaches are removed (e.g. egg capsules, dead cockroaches, fecal markings) from the facility by safe, legal and effective means at once. Facility has been proactively working on this issue and has professional pest management in place.	2.0	01/10/2025	Uncorrected as of 5/2/2025
K036: Equipment, Utensils and Linens: Storage and Use Observed utensils being stored in stagnant water. Ensure utensils are maintained in running water of sufficient velocity OR in a container of water that is maintained at a temperature of 135F and the container is cleaned at least every 24 hours.	0.5	01/10/2025	Uncorrected as of 5/2/2025
K039: Thermometers Provided and Accurate Ensure all refrigeration units have secondary thermometers.	0.5	01/10/2025	Uncorrected as of 5/2/2025
K044: Premises; Personal/Cleaning Items; Vermin-Proofing Observed front door propped open. Discontinue this practice. Ensure exterior doors are maintained closed when not in use. Facility can install a permanent screen door or an air curtain if they want to keep the door open.	0.5	01/13/2025	Uncorrected as of 5/2/2025

Inspection Date: 12/23/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 83.0

Overall Inspection Comments: A reinspection is required due to violations listed on this report which do not meet the requirements set forth in the California Retail Food Code commencing with §113700-114437. All violations must be corrected within the time specified. If violations noted on this report are not corrected by the "Next Inspection Date" indicated above; a chargeable reinspection fee may be assessed.

Violation Item	Points Lost	Comply By Date	Complied On Date
K001: Demonstration of Knowledge Employees were unable to demonstrate knowledge of the use of sanitizer (concentration/type) and general retail food safety. Ensure all food employees have adequate knowledge of, and are properly trained in food safety as it relates to their assigned duties.	5.0	12/30/2024	01/09/2025
K007: Proper Hot and Cold Holding Temperatures Observed prep top refrigeration unit at 52F. All potentially hazardous food was just placed into unit (cheese/cut vegetables/sauces). All PHF was moved to another unit. Ensure all refrigeration units are maintained at 41F or below.	3.0	12/23/2024	Corrected On Site
K014: Food Contact Surfaces: Clean and Sanitized Observed no sanitizer solution set up. Ensure all food contact surfaces are maintained clean and sanitized. Food facility needs to set up sanitizer solution/buckets during active food preparation and ensure sanitizer concentration is 100ppm bleach or 200ppm quaternary ammonium. Corrected on site.	3.0	12/23/2024	Corrected On Site
K023: No Rodents, Insects, Birds, or Animals Observed many dead cockroaches and a couple live cockroaches. Facility has professional pest management that was at the facility this morning, 12/23/2024 (receipt of pest management was provided). Ensure all cockroaches and all evidence of cockroaches are eliminated from the facility (e.g. egg capsules, dead cockroaches, fecal markings) by safe, legal and effective means at once.	2.0	01/06/2025	01/09/2025

K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	01/25/2025	Uncorrected as of 5/2/2025
Renew Food Manager Certification, and store copy of completion certificate on site for inspector review. 60 days have been granted by the health inspector for completion of course.			
K041: Plumbing; Proper Backflow Devices	0.5	11/25/2024	Corrected On Site
A minor leak was observed at the hand washing station in the back room, due to the pipes not being completely tightened/secured. Manager made the fixture. It was corrected on site.			
NOTE: If the pipes at the hand washing station loosen frequently, ensure that a certified plumber makes the appropriate fixture.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5		Uncorrected as of 5/2/2025
There are a couple of minor broken/loose tiles at the back of the facility. If cleanliness becomes an issue, the health inspector will ask for repairs to occur in a timely manner. All floors/walls/ceilings must render smooth and easily cleanable.

Facility ID: FA0000724

Site Address: 170 S THOMPSON AVE, NIPOMO

Record ID: PR0000724

Program Description: HR12 - RETAIL MKT (150 - 5,000 SF) - FULL PREP

Inspection Date: 01/21/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 88.5

Overall Inspection Comments: A reinspection is required due to violations listed on this report which do not meet the requirements set forth in the California Retail Food Code commencing with §113700-114437. All violations must be corrected within the time specified. If violations noted on this report are not corrected by the "Next Inspection Date" indicated above; a chargeable reinspection fee may be assessed.

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	3.0	01/21/2025	Uncorrected as of 5/2/2025
Observed no pump soap in dispenser at hand wash sink. Facility had dish soap next to hand wash sink, discontinue this practice. Ensure pump soap and paper towels are fully stocked at all times at hand wash sink.			
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	02/04/2025	Uncorrected as of 5/2/2025
Observed no valid/current food handler cards for staff. Ensure all employees obtain a food handler safety certification.			
K027: Food Separated and Protected	1.0	01/21/2025	Uncorrected as of 5/2/2025
Observed scoops submerged inside bulk food. Ensure handles of scoops are maintained out of contact with the food to prevent any cross contamination.			
K030: Food Storage; Food Storage Containers Identified	0.5	01/22/2025	Uncorrected as of 5/2/2025
- REPEAT VIOLATION: Observed open bag of dry food in back kitchen. Ensure bulk food is stored in a container with a lid. - Observed open bag of bulk food being stored under a table in back kitchen. Ensure all food is stored at least 6 inches above the ground.			
K034: Warewashing Facility/Test Strips: Adequate, Used	0.5	01/21/2025	Uncorrected as of 5/2/2025
Observed minimal bleach concentration in sanitizer bucket. Ensure bleach concentration is at least 100ppm in sanitizer bucket. Manager instructed to correct concentration.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	01/24/2025	Uncorrected as of 5/2/2025
- Observed raw wood being used in meat refrigeration unit. Raw wood is not approved for food facilities. Ensure all equipment is smooth, nonabsorbent, easily cleanable and commercial grade. - Observed burner not under appliance hood being used to cook pork. Ensure all cooking equipment releasing grease, heat, fumes is placed underneath the approved ventilation hood system, leaving 6 inches hood clearance. - Observed cheese refrigeration unit and walk in refrigeration unit at 45/46F during initial inspection. Units were able to go back down to 41F during inspection. Ensure all refrigeration units are able to maintain 41F or below at all times.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	01/24/2025	Uncorrected as of 5/2/2025
REPEAT VIOLATION: Observed grime/build-up on ice chute. Ensure equipment is maintained clean.			
K038: Approved Lighting/Ventilation: Adequate, Used	0.5	02/04/2025	Uncorrected as of 5/2/2025
Observed light out in hood system. Repair/replace.			
K041: Plumbing; Proper Backflow Devices	0.5	01/31/2025	Uncorrected as of 5/2/2025
REPEAT VIOLATION: Observed food debris/grime in floor sinks. Ensure all floor sinks are maintained clean and in good repair.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	02/04/2025	Uncorrected as of 5/2/2025
Observed many pieces of old equipment and personal items throughout facility. Ensure all items not necessary to the operation are removed from the facility.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	02/04/2025	Uncorrected as of 5/2/2025
- Observed water damage on ceiling in front kitchen. Repair/replace. Ensure ceiling is maintained in good repair. - Observed build up of grime/debris underneath equipment and throughout facility. Ensure food facility is deep cleaned. Ensure all floors/walls/ceilings are maintained clean. - REPEAT VIOLATION: Observed broken/missing tiles throughout food facility. Ensure all tiles are repaired/replaced with correct cove base.

Department Action Description: TO BE RE-INSPECTED

Score: 91.5

Overall Inspection Comments: **RE-INSPECTION WILL TAKE PLACE 12.2.2024 TO ENSURE ALL HAND WASHING STATIONS ARE IN GOOD REPAIR**

Violation Item	Points Lost	Comply By Date	Complied On Date
K018: HACCP/Variance Required: Approved/Records Kept	2.0	11/20/2024	Uncorrected as of 5/2/2025
The pH log for sushi rice is not being used regularly. Employees must document the pH of sushi rice each time a batch is made. Document the date, time, and pH of sushi rice to ensure it can be kept at room temperature and render it no longer potentially hazardous.			
K021: Hot and Cold Water Available	2.0	12/02/2024	11/18/2024
Provide and maintain an adequate supply of hot potable water (minimum 100°F) and cold potable water to all hand wash sinks. At the beginning of inspection, the hand washing station in the kitchen was not dispensing hot water. Owner turned on the hot water. Corrected on site.			
Shortly after, a large leak began originating from the hand washing station. Inspector designated the hand washing station (by sushi bar) as the primary hand washing station until repair is made. Ensure that a certified plumber makes necessary repairs.			
RE-INSPECTION WILL TAKE PLACE 12.2.2024 TO ENSURE ALL HAND WASHING STATIONS ARE IN GOOD REPAIR			
K033: Nonfood-Contact Surfaces Clean	0.5	12/18/2024	Uncorrected as of 5/2/2025
Need to clean equipment surfaces that have food debris on them. Emphasis on exterior/interior surfaces of refrigeration units. *REPEAT VIOLATION*			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	11/18/2024	Uncorrected as of 5/2/2025
- Properly secure the pressurized CO2 tank.			
- Store the ice scoop outside of ice bin or in a position in which handle is out of contact with ice. This is to prevent cross contamination. Corrected on site.			
K040: Wiping Cloths: Properly Used and Stored	0.5	11/20/2024	Uncorrected as of 5/2/2025
Store all wiping clothes in the sanitizing buckets. Do not store on food prep surfaces. REPEAT VIOLATION.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	12/18/2024	Uncorrected as of 5/2/2025
REPEAT VIOLATION: Grease and food debris accumulation is apparent throughout kitchen. Ensure that deep cleaning of floors, walls, and ceilings are added onto a cleaning schedule at least once per month.			
K049: Permits Available	0.5	11/20/2024	Uncorrected as of 5/2/2025
Maintain the current Public Health Permit on site and in a visible place.			
K054: Repeat Violations - Good Retail Practices (24 -51)	2.0		Uncorrected as of 5/2/2025
REPEAT VIOLATIONS: K033, K040, K045

Inspection Date: 02/11/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 82.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K001: Demonstration of Knowledge	<u>5.0</u>		<u>Uncorrected as of 5/2/2025</u>
At the time of the inspection, no person onsite could demonstrate knowledge of proper warewashing. Multi-use utensils shall be washed, rinsed, and sanitized. Utensils shall remain submerged in sanitizer for 30 seconds when using bleach as a sanitizer. After sanitization, utensils shall be allowed to air dry before being put away.			
K007: Proper Hot and Cold Holding Temperatures	<u>5.0</u>		<u>02/11/2025</u>
1) Measured the following temperatures in the cold top cooler: Yellow tail 46 F, Tuna 49 F, Albacore 48 F, Shrimp 54 F. This violation was corrected by the operator voluntarily discarding the food.			
2) Raw Chicken in the 3 door stand up cooler was measured at 47F. The cooler was holding at 45 F. This violation was corrected by an employee moving all the chicken to the reach in coolers to be rapidly cooled.			
3) Observed multiple soup bowls with tofu and without temperature control set up on a prep surface. Discontinue this practice. This violation was corrected by the operator voluntarily discarding the food.			
Maintain all potentially hazardous foods (PHF) at 41°F/45°F or below or at or above 135°F.			
K014: Food Contact Surfaces: Clean and Sanitized	<u>3.0</u>	<u>02/12/2025</u>	<u>Uncorrected as of 5/2/2025</u>
1) Sanitizer in the third compartment was measured below 25 ppm. Clean and sanitize multi-use utensils and equipment in the following manner after coming in contact with food or becoming contaminated; wash with detergent and water not less than 100°F; rinse with clear potable water; sanitize with 100 ppm chlorine for 30 seconds, 200 ppm quaternary ammonium for 1 minute, 25ppm iodine for 1 minute, complete immersion in water of at least 171° F for 30 seconds, or other methods as approved.			
2) No sanitizer buckets were set up during active food preparation. Food contact surfaces must be sanitized as needed during active food preparation.			
K023: No Rodents, Insects, Birds, or Animals	<u>2.0</u>	<u>02/12/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Observed evidence of rodent activity in the dry storage area. Clean and sanitize all affected areas. Seal all entrance points and remove harborage areas. Hire professional pest control.			
K024: Person In Charge Present and Performs Duties; Valid Certification	<u>1.0</u>		<u>Uncorrected as of 5/2/2025</u>
Not every employee was able to present food handler cards for review at the time of the inspection.			
Ensure all food employees have a valid/current food handler card/certificate.			
K036: Equipment, Utensils and Linens: Storage and Use	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
Observed unsecured CO2 cylinders. Properly secure the pressurized CO2 tank.			
K042: Proper Waste Disposal; Facilities Maintained	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
Dumpster lids were observed open at the time of the inspection. Maintain the dumpster lids closed to prevent vermin infestations.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
Observed evidence of deferred cleaning throughout the facility. Maintain the facility clean and in good repair.			
K047: Signs Posted; Last Inspection Report Available	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>

Inspection Date: 03/27/2025

Type of Service Description: CHARGEABLE REINSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: CLOSED UNTIL ABATED

Score: 96.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K023: No Rodents, Insects, Birds, or Animals	4.0		Uncorrected as of 5/2/2025
Observed evidence of rodent activity throughout the facility. Observed chew holes in a bag of rice. Observed rice grains on a shelf at the bar along with rodent droppings. Observed droppings on clean table ware. Observed rodent hairs on clean table ware, utensils and prep surfaces. Pursuant to California Health and Safety Code Section 114409, your permit is hereby suspended due to an immediate danger to the public's health and safety. The violation(s) you are charged with include [list violations and corresponding code section]:			
Section 114259.1: K023- vermin infestation			
You must close and remain closed until given written approval by the County of San Luis Obispo Environmental Health Services Division to reopen.			
If you so choose, you may submit a written request for a hearing within 15 calendar days of the date of this notice to show cause why your permit should not be suspended.			
K023: No Rodents, Insects, Birds, or Animals	4.0		03/28/2025
Observed limited evidence of rodent activity throughout the facility. All evidence was cleaned and sanitized onsite.			
Review of a pest control invoice dated 3/27/25 shows that progress has been made toward abating the rodent infestation.			
Continue to make progress toward abatement.			
A reinspection has been scheduled to evaluate progress.			
K051: Permit Suspension	0.0		Uncorrected as of 5/2/2025
Vermin Infestation - California Health and Safety Code Section 114259.1			
Prior to reopening the following must be completed:			
1) Have a professional pest control company service the facility.			
2) Seal all cracks and crevices that may provide entrance or harborage to rodents.			
3) Clean and sanitize all affected areas.			
4) Remove all sources of food			
5) Remove all sources of water.

Inspection Date: 02/21/2025

Type of Service Description: REINSPECTION

Inspection Result Description: IN COMPLIANCE

Department Action Description: NEXT REGULAR

Score: 96.0

Overall Inspection Comments: The purpose of this visit was to perform a reinspection after the permit suspension detailed on the report dated 2/20/25.

At the time of the inspection a pest control company was onsite. Numerous holes were patched and traps were set.

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	<u>3.0</u>		<u>Uncorrected as of 5/2/2025</u>
No paper towels were available from the wall mounted dispenser in the men's restroom. Provide approved handwashing cleanser and towels or drying device in dispensers at or adjacent to each hand washing facility.			
K007: Proper Hot and Cold Holding Temperatures	<u>3.0</u>		<u>02/20/2025</u>
1) Measured the following at the hot line without temperature and without being actively prepared: (a) Shrimp at 63F. A food employee stated that the shrimp had been removed from the walk in 1 hour prior to the inspection. This violation was corrected by rapidly cooling the food in the walk in cooler to 41F or below. After the employee moved the tray of shrimp, a rodent dropping was observed on the prep surface where the shrimp had been. Refer to violation 23 for additional details. (b) Par Cooked chicken at 52F. This violation was corrected by rapidly cooling the food to 41 F or below. (c) Garlic in oil measured at 70F. The oil mixture was held without temperature control overnight. Garlic in oil mixtures are potentially hazardous and must be maintained at approved holding temperatures. 2) Measured pot stockers in the cold top cooler at 48 F. Repair the cooler. 3) Measured the following in the walk in cooler: Crab meat 43F, raw chicken 44 F. Repair the cooler			
K013: Food in Good Condition, Safe and Unadulterated	<u>2.0</u>		<u>Uncorrected as of 5/2/2025</u>
Observed a 50 lb bag of rice with multiple rodent droppings on the bag. A chew hole through the bag was observed. The operator was directed to move all food in the dry storage area into chew resistant plastic containers.			
K014: Food Contact Surfaces: Clean and Sanitized	<u>5.0</u>		<u>Uncorrected as of 5/2/2025</u>
No sanitizer buckets were observed during active food preparation. A sanitizer bucket is required during active food preparation.			
K016: Shell Stock: Quality, Storage, Tags	<u>3.0</u>		<u>Uncorrected as of 5/2/2025</u>
Observed frozen mussels in the prep line freezer without shell stock tags. The required shell stock tag information is printed on the box of the frozen mussels. Maintain shellfish certification tags with the original container until empty, and then maintain tags in chronological order on the premises for a period of not less than 90 days from the date of harvest. Education and direction regarding shellstock tags were given at the time of the inspection.			
K021: Hot and Cold Water Available	<u>3.0</u>		<u>Uncorrected as of 5/2/2025</u>
Hot water was measured at a maximum of 90F. Maintain an adequate supply of hot potable water (minimum of 120°F) and cold potable water under pressure to all sinks (except hand washing sinks). Pursuant to California Health and Safety Code Section 114409, your permit is hereby suspended due to an immediate danger to the public's health and safety. Refer to the Permit Suspension section for more details.

1) Chew holes in bags of bulk ingredients including tempura bater mix.			
2) Chew holes and rub marks in walls and on shelves.			
These violations were corrected at the time of the inspection by cleaning and sanitizing all affected areas. All cracks and crevices were sealed and rodent traps were set. Contaminated food was voluntarily discarded and bulk ingredients were placed into chew resistant plastic containers.			
K023: No Rodents, Insects, Birds, or Animals	4.0		Uncorrected as of 5/2/2025
Observed evidence of rodent activity in multiple critical areas including contamination of clean tableware and contamination of food preparation surfaces.			
Observed evidence of food contamination by rodents. Refer to violation 13 for more details.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5		Uncorrected as of 5/2/2025
1) Observed numerous inoperable refrigeration units including the cold drawers under the charbroiler, the three door reach in cooler and a 2 door stand up cooler.			
Repair or remove all inoperable equipment.			
2) Observed a knife on a prep table with a broken handle. The knife handle was wrapped with plastic wrap.			
All utensils shall be made from materials that are smooth, durable, non-porous and easily cleanable.			
Discard the knife.			
K038: Approved Lighting/Ventilation: Adequate, Used	0.5		Uncorrected as of 5/2/2025
Observed an accumulation of grease on the ceiling and walls of the kitchen. The charbroiler was observed to be outside of the perimeter of the exhaust hood canopy.			
Operate the hood as designed to ensure that all vapors and excessive heat are removed from the facility.			
Cooking equipment shall be at least 6" within the perimeter of the exhaust hood canopy to ensure proper function.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5		Uncorrected as of 5/2/2025
1) Observed an accumulation of grease on the ceiling and walls of the kitchen.			
Clean the ceiling and walls. Refer to violation 38 for more details.			
2) Observed an accumulation of grime on the walk in cooler fans.			
Clean the fans.

<u>K051: Permit Suspension</u>	<u>0.0</u>	<u>Uncorrected as of 5/2/2025</u>	
Pursuant to California Health and Safety Code Section 114409, your permit is hereby suspended due to an immediate danger to the public's health and safety. The violation(s) you are charged with include [list violations and corresponding code section]:			
Section 114192: K021- no hot water, no water, or unsafe water supply			
Section 114259.1: K023- vermin infestation			
You must close and remain closed until given written approval by the County of San Luis Obispo Environmental Health Services Division to reopen. Please call Joel Schwartz, REHS at (805) 503-9277 when you are ready to schedule a reinspection.			
The following must be completed prior to calling for a reinspection:			
1) Clean and sanitize all affected areas.			
2) Have a professional pest control company service the facility and have the invoice available for review.			
3) Seal all cracks and crevices that may provide entrance to the facility or harborage.			
4) Remove sources of food that may support vermin populations.			
5) Remove sources of water that may support vermin populations.			
If you so choose, you may submit a written request for a hearing within 15 calendar days of the date of this notice to show cause why your permit should not be suspended by contacting:			
Leslie Terry at (805) 781-5544 .

Inspection Date: 04/09/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: IN COMPLIANCE

Department Action Description: NEXT REGULAR

Score: 92.5

Overall Inspection Comments: Education and direction regarding the Consumer Advisory for Raw and Undercooked Food were given at the time of the inspection.

114093. Consumer advisory, less than thoroughly cooked
Identification of the animal-derived FOODs marked by an
asterisk denoting a footnote that states that the items are served
raw or undercooked, or contain or may contain raw or
undercooked ingredients.

Statement:

Consuming raw or undercooked meats, POULTRY, seafood,
shellfish, or EGGS may increase your risk of foodborne illness,
especially if you have certain medical conditions.

Violation Item	Points Lost	Comply By Date	Complied On Date
K007: Proper Hot and Cold Holding Temperatures	3.0		Uncorrected as of 5/2/2025
Observed cut tomatoes on prepped lettuce, tomato, onion, pickle stacks held without temperature control. Measured cut tomatoes at 50F. The person in charge stated the food had been out of temperature for 2 hours. This violation was corrected by rapidly cooling the food to 41F or lower. Maintain all potentially hazardous foods (PHF) at 41°F or below or at or above 135°F.			
K023: No Rodents, Insects, Birds, or Animals	2.0		Uncorrected as of 5/2/2025
Observed evidence of rodent activity in 2 non-critical areas. Continue to work to maintain the facility free from rodent activity.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5		Uncorrected as of 5/2/2025
1) Observed a gate latch used to close the walk in cooler from the outside. A string to the inside allows the latch to be released while someone is inside. The replacement latch is not approved. Repair the original latch to manufacturer's specifications. The modification to the walk in cooler door voids the NSF listing. 2) Observed a bank of inoperable cold drawers below the hot line. Repair, remove, or replace the cold drawer unit. Alternatively, repairing the exhaust hood may allow the cold drawers to function more effortlessly. 3) Observed a single use cup used as a scoop. Only use approved scoops, stored in a manner that will not allow the handle to contact the food. 4) Observed a bucket of condensation beneath a drip in the walk in cooler. Repair the cooler to ensure that condensation drains and is disposed in an approved manner. 5) Observed an accumulation of ice build up on the door of the walk in freezer. Observed an accumulation of frost on the frozen items near the door inside the walk in freezer. Repair the freezer door.

Violation Item	Points Lost	Comply By Date	Complied On Date
K038: Approved Lighting/Ventilation: Adequate, Used	0.5		Uncorrected as of 5/2/2025
The exhaust hood was not performing in a manner that would remove heat and grease laden vapors. Even with the make up air on and the back door propped open, the hot line became uncomfortable. Ambient temperatures above normal working conditions will affect the performance of refrigeration equipment.			
K043: Approved Toilets: Maintained, Accessible, Clean	0.5		Uncorrected as of 5/2/2025
No self closer is installed on the restroom door. Ensure the toilet room has a self-closing door mechanism in working order.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5		Uncorrected as of 5/2/2025
Observed the back door propped open. Maintain all exterior doors closed except when in use.			

Inspection Date: 08/27/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 88.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	3.0	08/27/2024	04/10/2025
Observed hand wash sink blocked by a trash can. Ensure hand wash sink is easily accessible at all times.			
K007: Proper Hot and Cold Holding Temperatures	3.0	08/27/2024	Corrected On Site
- Observed prep top refrigeration unit at 47F. Food was probed and measured at 47/49F. Manager voluntarily discarded all food items. Ensure refrigeration units are maintained at 41F or below. - Observed prepped lettuce/tomato/onion/pickle stacks being stored on the counter. Manager stated that these stacks are prepped for the rush. Ensure all food is maintained at 41F or below OR use time as a public health control (TPHC) method. Ensure all food is discarded after four hours if TPHC is used. Corrected on site, food items were placed into refrigeration.			
K014: Food Contact Surfaces: Clean and Sanitized	3.0	08/27/2024	04/10/2025
Observed no sanitizer solution set up during active food preparation. Ensure all food contact surfaces are maintained clean and sanitized. Food facility needs to set up sanitizer solution/buckets during active food preparation and ensure sanitizer concentration is 100ppm bleach or 200ppm quaternary ammonium.

Violation Item	Points Lost	Comply By Date	Complied On Date
K011: Proper Reheating Procedures for Hot Holding	<u>4.0</u>	<u>01/23/2024</u>	<u>Corrected On Site</u>
Observed improper heating of potentially hazardous foods (chilli) inside the hot holding unit in the kitchen. Foods must be brought up to the proper temperature before placing in a hot holding unit. These types of equipment are meant to keep food hot, not heat them up. When reheating already cooked foods, the temperature must be brought to 165F before placing inside the unit. If heating foods for the first time, the temperature must be brought to 135F before placing in the unit. REPEAT VIOLATIONS. Corrective action: Employee placed chilli on the stove to heat to 165F.			
K014: Food Contact Surfaces: Clean and Sanitized	<u>3.0</u>	<u>01/23/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed no measurable sanitizer in the 3-compartment sink and in the sanitizer bucket. Ensure 100ppm chlorine sanitizer using the appropriate test strips. Ensure employees are trained on how to make the solution properly.			
K024: Person In Charge Present and Performs Duties; Valid Certification	<u>1.0</u>	<u>01/23/2024</u>	<u>01/14/2025</u>
Unable to locate or verify Food Manager Certificate and some of the Food Handler Cards for employees on site. Ensure at least one on-site employee has a valid Food Manager Certificate and all other employees have a valid Food Handlers card. REPEAT VIOLATION.			
K034: Warewashing Facility/Test Strips: Adequate, Used	<u>0.5</u>	<u>01/23/2024</u>	<u>01/14/2025</u>
Unable to locate test strips for chlorine sanitizer. Obtain chlorine test strips to ensure 100ppm sanitizer in solution. REPEAT VIOLATION.			
K036: Equipment, Utensils and Linens: Storage and Use	<u>0.5</u>	<u>01/23/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed pressurized cylinders in the mop closet without protective caps or chains to secure them in place. Properly secure all tanks.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	<u>0.5</u>	<u>01/23/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed front door open without a screen or air curtain. Ensure doors remain closed or are equipped with a screen or air curtain to prevent entrance of flies.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>	<u>01/23/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed the stainless steel paneling behind the cook line falling away from the wall and grease accumulating behind. This is a fire hazard. Wall should be repaired as soon as possible. REPEAT VIOLATION.			
K053: Repeat Violations - Critical (1 - 23)	<u>5.0</u>	<u>01/23/2024</u>	<u>Uncorrected as of 5/2/2025</u>
REPEAT VIOLATIONS: - Chilli below 135F and incorrectly reheated			
K054: Repeat Violations - Good Retail Practices (24 -51)	<u>2.0</u>	<u>01/23/2024</u>	<u>Uncorrected as of 5/2/2025</u>
REPEAT VIOLATIONS: - No Food Manager Cert & missing Food Handlers - No test strips for sanitizer - Stainless behind cook line needs to be repaired

Violation Item	Points Lost	Comply By Date	Complied On Date
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	11/08/2024	Uncorrected as of 5/2/2025

Ensure all floors and walls are smooth, durable, of approved materials, in good repair, and are free of any peeling paint. The following must be repaired by next inspection date:

- Vinyl flooring in the mop room and back storage room is extremely deteriorated and needs to be replaced. See "Approved flooring materials" document for flooring requirements
- Paint is peeling in multiple areas of kitchen. Re-seal/repaint or install FRP on walls (recommended)
- Replace deteriorated FRP throughout the kitchen areas where FRP has multiple holes and can no longer be easily cleaned
- Repair any damages to ceiling caused by water damage

Inspection Date: 01/08/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 93.0

Overall Inspection Comments: The facility has multiple construction inconsistencies that have been existing for some time and documented. Any re inspection subsequent to the first scheduled one is chargeable at an hourly rate of \$147. Any further action needed to bring about code compliance will result in an office hearing.

Violation Item	Points Lost	Comply By Date	Complied On Date
K000: STORMWATER POLLUTION	0.0	01/08/2024	

From previous report: OBSERVED GREASE BIN LID OPEN, GREASE ON THE BIN, AND GREASE SPILLED ON THE GROUND AROUND THE W GREASE BIN.

WIPE/SCRAPE/SCRUB THE BIN AND CLEAN THE GROUND AROUND THE BIN. THIS IS TO PREVENT POLLUTING THE ENVIRONMENT AND ELIMINATE A FOOD SOURCE FOR INSECTS OR VERMIN.

Observed open bucket full of grease like substance and standing water in outdoor trash enclosure littered with debris. Spoke to maintenance personal on site who reported being tasked with the clean up today. Take preventative steps so situations like that are not likely to occur in the future.

K009: Proper Cooling Methods **2.0** **01/08/2024**

Observed large stockpot containing soup sitting out in the food preparation area for cooling. Discontinue cooling PHF using unapproved methods. All PHF shall be rapidly cooled according to specified time temperature requirements, from 135 degrees to 70 degrees within 2 hours, and from 70 degrees to 41 degrees within four hours. Use ice paddles and shallow pans to facilitate more rapid cooling.

K024: Person In Charge Present and Performs Duties; Valid Certification **1.0** **01/31/2024** **Uncorrected as of 5/2/2025**

See previous inspection report. Observed the food safety manager/safety certification had been expired==>No certified person at a food facility may serve at any other food facility as the person required to be certified. Ensure the food facility owner or an employee has a valid/current food safety protection certificate or ensure all food employees have adequate knowledge of, and are properly trained in food safety as it relates to their assigned duties.

K027: Food Separated and Protected **1.0** **01/08/2024**

1.Observed surface wiping cloth in contact with corn dogs out on tray to cool. 2.Observed raw chicken in marinade and raw hamburger stored in refrigeration unit above ready to eat foods.

To protect food from cross-contamination during storage, always store cooked and ready to eat foods above raw foods or in the following order from top shelf to bottom shelf: ready-to-eat foods; cooked meats; raw meats. If raw foods cannot be stored on the bottom shelf, then store in the following order from top to bottom: seafood, pork/beef, chicken.

K029: Toxic Substances Properly Identified, Stored, Used **0.5** **01/08/2024**

Observed "Roundup Weed killer" stored in the food storage/refrigeration room. Provide a separate and approved area for the storage of janitorial supplies and equipment and ensure the room is maintained clean.

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 93.0

Overall Inspection Comments: The facility has multiple construction inconsistencies that have been existing for some time and documented. Any re inspection subsequent to the first scheduled one is chargeable at an hourly rate of \$147. Any further action needed to bring about code compliance will result in an office hearing.

Violation Item	Points Lost	Comply By Date	Complied On Date
K033: Nonfood-Contact Surfaces Clean Several construction inconsistencies noted in this and previous reports do not allow for easily cleanable surfaces which then can be maintained. Render the surfaces in your facility code compliant.	<u>0.5</u>	<u>01/31/2024</u>	<u>Uncorrected as of 5/2/2025</u>
K038: Approved Lighting/Ventilation: Adequate, Used Observed unprotected food prep/storage areas. Ensure all light bulbs are either shatter proof/coated/or shielded to prevent contamination of food/equipment/utensils. Maintain all light shields clean and in good repair.	<u>0.5</u>	<u>01/31/2024</u>	<u>Uncorrected as of 5/2/2025</u>
K039: Thermometers Provided and Accurate 1. Make sure to provide secondary thermometers in refrigeration units, as the integral ones are not reliable. Provide an accurate thermometer to all refrigeration units holding Potential Hazardous Foods (PHF).	<u>0.5</u>	<u>01/15/2024</u>	<u>Uncorrected as of 5/2/2025</u>
K044: Premises; Personal/Cleaning Items; Vermin-Proofing Observed gaps in and around doors and ceilings large enough to allow for entrance of vermin and insects. Properly rodent proof the exterior doors to eliminate gaps greater than 1/4 inch. Repair any inconsistencies in the ceiling of prep and storage rooms.	<u>0.5</u>	<u>01/31/2024</u>	<u>Uncorrected as of 5/2/2025</u>
K045: Floors/Walls/Ceilings: Built, Maintained, Clean Observed multiple construction inconsistencies evidently in existence for some time. The food preparation room has peeling paint, dust laden vent cover dangling loose from the ceiling, evidence of previous ceiling damage due to moisture intrusion fixed with plaster application and expansion foam. None of the above present as easily cleanable, nonabsorbent. Ensure all floors and walls are smooth, durable, of approved materials, in good repair, and are free of any peeling paint.	<u>0.5</u>	<u>01/31/2024</u>	<u>Uncorrected as of 5/2/2025</u>

Inspection Date: 12/03/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 81.0

Overall Inspection Comments: The purpose of this visit was to perform a routine inspection and to investigate complaint number CO0016906.

At the time of the inspection about 20 gallons of cooked beans were voluntarily discarded by the operator.

Violation Item	Points Lost	Comply By Date	Complied On Date
K001: Demonstration of Knowledge	2.0	Uncorrected as of 5/2/2025	
No person in the facility was able to demonstrate knowledge of the following topics. Education and direction were given at the time of the inspection.			
1) Warewashing. The facility has a 2 compartment sink that is not used in an approved manner. Utensil sanitization must still be accomplished. The 2 compartment sink may remain as long as it is used as follows: A two-compartment sink [may be used], if the PERMIT HOLDER limits the number of UTENSILS cleaned and sanitized in the two compartment sink, limits WAREWASHING to batch operations for cleaning and sanitizing UTENSILS, such as between cutting one type of raw MEAT and another or cleanup at the end of a shift, and makes up the cleaning and sanitizing solutions immediately before use and drains them immediately after use, as well as uses a detergent sanitizer to clean and sanitize in accordance with the manufacturer's label instructions where there is no distinct water rinse between the washing and sanitizing steps. The agent applied in the sanitizing step shall be the same detergent sanitizer that is used in the washing step.			
2) Cooling. Refer to the cooling violation for more details.			
K005: Proper Handwash Procedures and Glove Use	5.0	12/03/2024	
Observed a food preparation worker in the warewashing area. Water was heard being dumped into the 2 comp sink. The worker then returned to the hot line and made a plate of food without first washing his hands. The worker stated that he was washing dishes while in the warewashing area. This violation was corrected by the employee washing his hands before returning to food preparation.			
K009: Proper Cooling Methods	5.0	12/03/2024	Corrected On Site
Measured a large stock pot of beans on the flat top grill at 111F - 115F. An employee said they had been made at 8 AM. The violation was corrected by the employee voluntarily discarding the beans.			
K014: Food Contact Surfaces: Clean and Sanitized	5.0	12/03/2024	Corrected On Site
No sanitizer bucket was observed during active food preparation at the hot line 3 wet towels were observed on various preparation surfaces in the food preparation area. This violation was corrected by an employee setting up a sanitizer bucket with 100 ppm chlorine.			
K033: Nonfood-Contact Surfaces Clean	0.5	12/03/2024	Uncorrected as of 5/2/2025
Observed an accumulation of debris on the door pull of the 2 door prep cooler. Clean the cooler door pull.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	12/03/2024	Uncorrected as of 5/2/2025
1) Observed CO2 cylinders that were not secured to a fixture. Properly secure the pressurized CO2 tank.			
2) Observed a plumbing snake stored in the dry storage shed. Remove any equipment that can contaminate food or food storage containers from the dry storage shed.			
K040: Wiping Cloths: Properly Used and Stored	0.5	12/03/2024	Corrected On Site
Observed numerous wet wiping cloths on preparation surfaces in the food preparation area during active food preparation.

Violation Item	Points Lost	Comply By Date	Complied On Date
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	<u>0.5</u>	<u>03/31/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Facility has no janitorial/mop sink. The facility must have a janitorial sink with drain, or a curbed cleaning facility, that is conveniently located. Cleaning equipment and supplies must be stored in a specific room, area or cabinet that is away from food prep, storage and warewashing areas, and that allows mops to air dry after use without soiling walls, equipment or supplies.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>	<u>03/31/2025</u>	<u>Uncorrected as of 5/2/2025</u>
- The vinyl floors in kitchen (front and back) are not up to code and are deteriorating which makes them no longer easily cleanable. Flooring is required to be replaced so that it is smooth, non-absorbent, and easily cleanable. Floors shall have the required 4" base coving with 3/8 inch radius coving. See "Approved Flooring Materials" document for more information. Send specification sheets of chosen flooring to your inspector for approval prior to installation. - Flooring underneath the 2-door reach in fridge near the restroom has either been removed or fully deteriorated. Flooring below this unit shall be redone and also have proper coving. - Re-paint all areas of restroom and kitchen that has peeling and/or bubbling paint. Installation of FRP is recommended for walls.

Facility Name: TAQUERIA SAN MIGUEL

Facility ID: FA0014655

Site Address: 5 SANTA ROSA ST, SAN LUIS OBISPO

Record ID: PR0020114

Program Description: HR24 - RESTAURANT (SEATING 11 - 50) - FULL PREP

Inspection Date: 02/19/2025

Type of Service Description: REINSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 96.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date

K009: Proper Cooling Methods

4.0

02/19/2025

Observed a 40 quart stock pot on the floor of the walk in cooler. The bean in the stock pot measured 90F after cooling for 18 hours.
The violation was corrected by the operator voluntarily discarding the food in the trash.

Inspection Date: 02/10/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 84.5

Overall Inspection Comments: This facility does not have adequate sinks required to perform tasks properly.

The following issues are pre-existing non-conforming:

- 1) The three compartment sink does not have dual drain boards.
- 2) The prep sink does not have a drainboard and no table is adjacent to facility food prep.
- 3) The facility does not have a janitorial sink.

Violation Item	Points Lost	Comply By Date	Complied On Date

K000: STORMWATER POLLUTION

0.0

Uncorrected as of 5/2/2025

No janitorial sink is available in the restaurant. The person in charge stated that they dump mop water into a grate in the patio. The operator is directed to discard the mop water into the sewer.

K001: Demonstration of Knowledge

5.0

Uncorrected as of 5/2/2025

No person onsite at the time of the inspection had knowledge of sanitizer.

No sanitizer bucket was set up, no knowledge of proper warewashing, no test strips, no knowledge of sanitizer types.

K007: Proper Hot and Cold Holding Temperatures

5.0

02/10/2025

- 1) Observed the following temperatures in the reach in cooler:

Pico de gallo 50 F, Chile Verde 50F, House made salsa 50 F.

- 2) Observed the following temperatures in the walk in cooler

Chile Verde 44 F, Pico De Gallo 47 F

Maintain all potentially hazardous foods (PHF) at 41°F/45°F or below or at or above 135°F.

K009: Proper Cooling Methods

4.0

02/10/2025

- 1) Measured a pot of cooked potatoes on the prep table at 102F. The person in charge stated that the potatoes had been cooked 2.5 hours prior to the inspection.

- 2) Measured a large container of cooed rice in the walk cooler at 57F after cooling overnight.

- 3) Measured 20 quarts of cooked tomatillos at ambient temperature of 77F. The person in charge stated that the tomatillos had been cooked the night prior to the inspection.

- 4) Measured 30 quarts of cooked beans between 71F and 89F in the walk in cooler. The person in charge stated the beans had been cooked in the afternoon the day prior to the inspection.

This violation was corrected by an employee voluntarily discarding the food in the trash.

Violation Item	Points Lost	Comply By Date	Complied On Date
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	02/11/2025	Uncorrected as of 5/2/2025
1) No food safety manager's certificate was available for review at the time of the inspection. Ensure the food facility owner or an employee has a valid/current food safety protection certificate or ensure all food employees have adequate knowledge of, and are properly trained in food safety as it relates to their assigned duties. 2) Not every employee had food handler cards. Ensure all food employees have a valid/current food handler card/certificate.			
K038: Approved Lighting/Ventilation: Adequate, Used	0.5		Uncorrected as of 5/2/2025
Observed an excessive accumulation of grease in the exhaust hood. Observed gaps between the grease filters. Operate the exhaust hood as designed to remove smoke, odors, and grease laden vapors. Be sure that filters are tight fitting without gaps where grease can escape into the ducting.			

Inspection Date: 10/30/2023

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 93.5

Overall Inspection Comments: Multiple repeat violations were observed. Promptly and permanently correct noted violations. Hire a construction professional, or devise methods to close up all areas open to pests.

Violation Item	Points Lost	Comply By Date	Complied On Date
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	11/30/2023	Uncorrected as of 5/2/2025
No Food Safety Manager certificate on site. Our records show a valid certification for "Alberto" will expire on 10/16/24. If this person is still the Food Safety Manager for the facility, obtain a copy of the certificate to keep on site at the facility. Obtain a new current certification to keep on site if there is a new Food Manager.			
K030: Food Storage; Food Storage Containers Identified	0.5	10/31/2023	Uncorrected as of 5/2/2025
Maintain accurate labels on all bulk food containers and any food is removed from the original labeled packaging.			
K034: Warewashing Facility/Test Strips: Adequate, Used	0.5	10/31/2023	Uncorrected as of 5/2/2025
Provide chlorine test strips and train staff to use regularly to maintain 100 ppm sanitizer solutions.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	10/31/2023	Uncorrected as of 5/2/2025
The food preparation sink is lacking an adjacent work counter. Space limitations may interfere with installation. Speak with your inspector when you have devised a solution to attain compliance.			
K039: Thermometers Provided and Accurate	0.5	10/31/2023	Uncorrected as of 5/2/2025
Maintain accurate and visible thermometers at the front of refrigerators. If thermometers get pushed to the back of the unit, they cannot be monitored, and only measure the coldest part of the refrigerator. Train staff to maintain thermometers correctly, and to monitor regularly.			
K041: Plumbing; Proper Backflow Devices	0.5	10/31/2023	Uncorrected as of 5/2/2025
Correct the air gaps for equipment that have lines running into the floor sink.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	10/31/2023	Uncorrected as of 5/2/2025
The premises is not rodent/pest proof. Walls are in disrepair and baseboard areas have areas of possible entry or harborage. Large gaps at doors and other areas allow entry of pests. Repair and close up any gaps or holes greater than 1/4 inch.

Record ID: PR0022224

Program Description: HR15 - RETAIL MKT (UNDER 150 SF) - FULL PREP

Inspection Date: 01/08/2025

Type of Service Description: REINSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 96.5

Overall Inspection Comments: All major violations from the 12/4/2024 inspection have been corrected. Continue working on the remaining minor violations listed on this report.

Violation Item	Points Lost	Comply By Date	Complied On Date
K000: STORMWATER POLLUTION	0.0		Uncorrected as of 5/2/2025
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	01/08/2025	Uncorrected as of 5/2/2025
Unable to locate or verify food safety certifications for all employees. Ensure at least one employee has a valid Food Manager Certificate and all other employees have a valid Food Handlers Card. Keep copies on site and available for review during inspections.			
K027: Food Separated and Protected	1.0	01/08/2025	Uncorrected as of 5/2/2025
Install a 6 inch high metal splash guard between the food preparation sink and 3-compartment sink.			
K034: Warewashing Facility/Test Strips: Adequate, Used	0.5	01/08/2025	Uncorrected as of 5/2/2025
Obtain chlorine sanitizer test strips to ensure 100ppm chlorine sanitizer.			
K042: Proper Waste Disposal; Facilities Maintained	0.5	01/08/2025	Uncorrected as of 5/2/2025
Observed grease and waste water in the storm drain outside the facility. Immediately discontinue dumping or draining waste water into storm drains. Ensure waste water is disposed of in the sanitary sewer (toilet or floor drains). Facility does not have a mop sink. If waste water continues to be disposed of incorrectly, a mop sink will be required to be installed.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	01/08/2025	Uncorrected as of 5/2/2025

- Observed side doors propped open without screens. Either install tight fitting screens or keep doors closed to prevent entrance of vermin.
- Continue to work on installing a self closing pass through window or screen at the service window.

Inspection Date: 12/04/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 81.5

Overall Inspection Comments: A reinspection is required due to violations listed on this report which do not meet the requirements set forth in the California Retail Food Code commencing with §113700-114437. All violations must be corrected within the time specified. In the event that violations noted on this report are not corrected by the "Next Inspection Date" indicated above, a chargeable reinspection fee may be assessed.

Violation Item	Points Lost	Comply By Date	Complied On Date
K000: STORMWATER POLLUTION	0.0	12/04/2024	01/08/2025
K001: Demonstration of Knowledge	5.0	12/04/2024	01/08/2025
Employees lack knowledge of food safety practices in several areas as listed on this report. Immediately train employees and ensure all food employees have adequate knowledge of, and are properly trained in food safety as it relates to their assigned duties.			
K006: Adequate/Accessible Handwash Sinks, Supplies	3.0	12/04/2024	01/08/2025
Observed no paper towels inside the employee restroom. Ensure paper towels are available for hand washing at all times.			
K014: Food Contact Surfaces: Clean and Sanitized	3.0	12/04/2024	Corrected On Site
Facility had no sanitizer set up in the kitchen but was actively preparing foods. Ensure a sanitizer solution of 100ppm chlorine or 200ppm quaternary ammonium is prepared BEFORE beginning any type of food preparation. Sanitizer solution shall be changed every 4 hours or more often if needed. Check using the appropriate test strips. Corrected on site.			
K023: No Rodents, Insects, Birds, or Animals	2.0	12/04/2024	01/08/2025
Immediately discontinue using fly strips. These are not approved for food facilities. Contact a licensed pest control company for treatment.

Violation Item	Points Lost	Comply By	Date Complied On
K026: Approved Thawing Methods Used, Frozen Food	0.5	12/04/2024	01/08/2025
Immediately discontinue thawing meats in the 3-compartment sink. Utilize the food preparation sink for its intended purpose. Improper thawing method also observed. Thaw potentially hazardous foods by one of these methods:			
1. Under cool (below 70 degrees F) potable running water for a period not to exceed 2 hours. Water shall be of sufficient velocity to flush loose food particles into the sink drain.			
2. In refrigeration units (usually overnight).			
3. In a microwave oven.			
4. As part of the cooking process.			
K027: Food Separated and Protected	1.0	12/04/2024	01/08/2025
- Observed several containers of food inside refrigeration units without lids. Ensure food is covered to prevent cross contamination.			
- Install a 6 inch high metal splash guard between the food preparation sink and 3-compartment sink. This is a conditional approval that was not met.			
K030: Food Storage; Food Storage Containers Identified	0.5	12/04/2024	01/08/2025
Observed crates of produce directly on the floor in the back room. Ensure food is kept at least 6 inches off the floor at all times.			
K033: Nonfood-Contact Surfaces Clean	0.5	12/04/2024	01/08/2025
Observed excessive food debris and grime buildup on the inside and outside of equipment (fridges, cookline, shelving, etc). Ensure all surfaces are maintained clean.			
K034: Warewashing Facility/Test Strips: Adequate, Used	0.5	12/04/2024	01/08/2025
- Immediately discontinue thawing meats in the 3-compartment sink. The 3-compartment sink is to be used for washing dishes only. Discontinue washing dishes in the food preparation sink and stacking them on the sink to dry.			
- Obtain chlorine sanitizer test strips to ensure 100ppm chlorine sanitizer.			
K038: Approved Lighting/Ventilation: Adequate, Used	0.5	12/04/2024	01/08/2025
Observed excessive grease accumulation inside the ventilation hood. Clean more frequently to prevent fire risk.			
K040: Wiping Cloths: Properly Used and Stored	0.5	12/04/2024	01/08/2025
Discontinue using wiping cloths for multiple purposes that could promote cross contamination. Store in-use wiping cloths in a sanitizer solution between uses.			
K042: Proper Waste Disposal; Facilities Maintained	0.5	12/04/2024	01/08/2025
Observed grease and waste water in the storm drain outside the facility. Employee stated this is where they dump the mop water. Immediately discontinue dumping waste water into storm drains. Ensure waste water is disposed of in the sanitary sewer (toilet or floor drains). Facility does not have a mop sink. If waste water continues to be disposed of incorrectly, a mop sink will be required to be installed.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	12/04/2024	01/08/2025
- The pass through window does not have a screen and is allowing flies inside. Install the required screen on the pass through window. This was a conditional approval that was not met. Ensure the pass through window meets the following requirements:			
(114259.2) Passthrough window service openings shall be limited to 216 square inches each. The service openings shall not be closer together than 18 inches. Each opening shall be provided with a solid or screened window, equipped with a self-closing device. Screening shall be at least 16 mesh per square inch. Passthrough windows of up to 432 square inches are APPROVED if equipped with an air curtain device. The counter surface of the service openings shall be SMOOTH and EASILY CLEANABLE.			
- Observed side doors propped open without screens. Either install tight fitting screens or keep doors closed to prevent entrance of vermin.

K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	12/04/2024	01/08/2025

Floors throughout facility are in need of cleaning. Pay special attention to the hard to reach areas underneath sinks and equipment.

Inspection Date: 02/07/2024

Type of Service Description: OPENING INSPECTION

Inspection Result Description: IN COMPLIANCE

Department Action Description: NEXT REGULAR

Score: 100.0

Overall Inspection Comments: Facility is conditionally approved to operate. Ensure the following is corrected by the next inspection date:

- Install a 6 inch high metal splash guard between the food preparation sink and the 3-compartment sink
- Ensure the pass through window meets the following requirements:
(114259.2) Passthrough window service openings shall be limited to 216 square inches each. The service openings shall not be closer together than 18 inches. Each opening shall be provided with a solid or screened window, equipped with a self-closing device. Screening shall be at least 16 mesh per square inch. Passthrough windows of up to 432 square inches are APPROVED if equipped with an air curtain device. The counter surface of the service openings shall be SMOOTH and EASILY CLEANABLE.
- Repair the stainless steel paneling inside the hood that is pulling away from the wall
- Facility does not have access to a mop sink or space to install one. Ensure waste water is disposed of in the sanitary sewer via a floor drain or toilet.
- Within 60 days ensure at least one employee has a valid Food Manager Certificate and all other employees have a valid Food Handlers Card within 30 days. Keep copies on site.
- Once received, post the 2024 Health Permit in an easily visible location

Score: 91.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	3.0	04/24/2025	Uncorrected as of 5/2/2025
- Observed bar hand wash sink being used as a filtered water refill station. DISCONTINUE THIS PRACTICE. IMMEDIATELY. Ensure all hand wash sinks are ONLY USED FOR HAND WASHING PURPOSES. Facility can install a filtered water dispenser separate from the hand wash sink. - Observed paper towels being stored next to hand wash sink. Ensure paper towels are maintained in a dispenser.			
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	05/01/2025	Uncorrected as of 5/2/2025
Observed no food handler cards for employees working. Ensure every employee has a food handler card and ensure copies are stored on site.			
K030: Food Storage; Food Storage Containers Identified	0.5	04/24/2025	Corrected On Site
Observed trays of food being stored on floor of walk in refrigeration unit. Ensure all food items are stored 6 inches above the ground. Corrected on site.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	04/26/2025	Uncorrected as of 5/2/2025
REPEAT VIOLATION: Observed cardboard being used to line shelving throughout kitchen. Discontinue this practice. Cardboard can harbor vermin. Ensure all equipment is commercial grade, smooth, non-absorbent and easily cleanable.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	04/25/2025	Uncorrected as of 5/2/2025
REPEAT VIOLATION: Observed CO2 tank standing freely in bar area. Ensure all CO2 tanks (pressurized cylinders) are affixed to a rigid structure.			
Note (not a violation): Observed water next to rice pot intended for utensil holding; it was not currently in use. Ensure utensils are maintained in running water of sufficient velocity OR changed out every four hours (with records maintained) OR in a container of water that is maintained at a temperature of 135F and the container is cleaned at least every 24 hours.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	04/26/2025	Uncorrected as of 5/2/2025
REPEAT VIOLATIONS: - Observed mops being stored around mop sink. Ensure mops are hung up to dry without soiling walls or equipment. Facility can install a mop rack. - Observed personal items near prep line. Ensure personal items have a designated space and are stored away from food preparation.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	04/28/2025	Uncorrected as of 5/2/2025
REPEAT VIOLATIONS: - Observed build up of food debris/grime underneath three compartment sink. Ensure floors/walls/ceilings are maintained clean and in good repair. - Observed dust/grime built up on ceiling in kitchen. Ensure ceiling is maintained clean. - Observed food debris built up underneath equipment on prep line. Ensure all flooring is maintained clean; facility needs to move equipment around to clean underneath. - Observed degrading cove tiles near walk-in refrigeration unit and under three compartment sink. Repair/replace.			
K047: Signs Posted; Last Inspection Report Available	0.5	04/24/2025	Uncorrected as of 5/2/2025
Ensure copy of last health inspection report is maintained on site.			
K054: Repeat Violations - Good Retail Practices (24 -51)	2.0	04/24/2025	Uncorrected as of 5/2/2025

Score: 91.5

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	3.0	07/25/2024	Uncorrected as of 5/2/2025
- Observed bar hand wash sink with no water. Repair/replace IMMEDIATELY. Ensure all hand wash sinks are maintained in good repair. Facility was told not to use the bar station until it is repaired (they have an alternate beverage prep area with a hand wash sink). - Observed beverage station hand wash sink blocked by a sanitizer bucket. Ensure hand wash sink is easily accessible at all times.			
K030: Food Storage; Food Storage Containers Identified	0.5	07/25/2024	Corrected On Site
Observed open bag of flour on shelf. Ensure all open bags of bulk food are stored in a container with a lid to prevent any cross contamination. Corrected on site.			
K033: Nonfood-Contact Surfaces Clean	0.5	07/27/2024	Uncorrected as of 5/2/2025
Observed grime/dust built up on walk-in refrigeration fans. Ensure all nonfood contact surfaces are maintained clean.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	07/27/2024	Uncorrected as of 5/2/2025
REPEAT VIOLATION: Observed cardboard being used to line shelving throughout kitchen. Discontinue this practice. Cardboard can harbor vermin. Ensure all equipment is commercial grade, smooth, non-absorbent and easily cleanable.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	07/25/2024	Uncorrected as of 5/2/2025
- Observed utensils being stored in stagnant water. Ensure utensils are maintained in running water of sufficient velocity OR in a container of water that is maintained at a temperature of 135F and the container is cleaned at least every 24 hours. - REPEAT VIOLATION: Observed CO2 tanks standing freely next to soda boxes in main kitchen and additional CO2 tanks standing freely in bar area. Ensure all CO2 tanks are affixed to a rigid structure.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	07/27/2024	Uncorrected as of 5/2/2025
- Observed personal items near prep line. Ensure personal items have a designated space and are stored away from food preparation. - REPEAT VIOLATION: Observed mops being stored around mop sink. Ensure mops are hung up to air dry without soiling walls or equipment. Facility can install a mop rack.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	07/28/2024	Uncorrected as of 5/2/2025
- Observed multiple particle board ceiling tiles near beverage station. Ensure all ceiling tiles are smooth, nonabsorbent and easily cleanable. - Observed dust/grime built up on ceiling in kitchen. Ensure ceiling is maintained clean. - Observed food debris built up underneath equipment on prep line. Ensure all flooring is maintained clean; facility needs to move equipment around to clean underneath. - Observed degrading cove tiles near walk-in refrigeration unit and under three compartment sink. Repair/replace.			
REPEAT VIOLATIONS:			
- Observed missing ceiling tiles near water heater in kitchen and above beverage station. Repair/replace. - Observed build up of food debris/grime underneath three compartment sink. Ensure floors/walls/ceilings are maintained clean and in good repair.			
K047: Signs Posted; Last Inspection Report Available	0.5	07/26/2024	Uncorrected as of 5/2/2025
Observed no hand wash signs at hand wash sinks. Ensure every hand wash sink has a hand wash sign posted.			
K054: Repeat Violations - Good Retail Practices (24 -51)	2.0	07/25/2024	04/24/2025
See comments in sections 35, 36, 44 and 45.

K029: Toxic Substances Properly Identified, Stored, Used Properly label all chemicals and cleaning supplies to easily identify the products. Corrected on site.	<u>0.5</u>	<u>08/21/2024</u>	<u>02/07/2025</u>
K054: Repeat Violations - Good Retail Practices (24 -51)	<u>2.0</u>		Uncorrected as of 5/2/2025

Inspection Date: 07/18/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 92.0

Overall Inspection Comments: Facility is to be re-inspected, due to the finding of rodent dropping in the storage room. Re-inspection will take place August 19, 2024. Violations must be corrected by this date. If subsequent re-inspections are to occur after this, facility will be charged at an hourly rate.

Violation Item	Points Lost	Comply By Date	Complied On Date
K023: No Rodents, Insects, Birds, or Animals Observed rodent droppings throughout the entire storage room (located downstairs of facility). Professional pest control, services the facility, once a month. Implement more frequent pest control services to combat rodent activity.	<u>2.0</u>	<u>08/19/2024</u>	<u>02/07/2025</u>
K029: Toxic Substances Properly Identified, Stored, Used 1. Ensure that all spray bottles with chemicals, such as your cleaning products, are labeled. 2. All carbon dioxide tanks must be chained/secured.	<u>0.5</u>	<u>07/19/2024</u>	<u>02/07/2025</u>
K033: Nonfood-Contact Surfaces Clean Shelving in various locations have debris accumulation. Ensure that the aluminum foil used as lining, on a couple shelves/tables, are swapped out as necessary.	<u>0.5</u>	<u>08/19/2024</u>	<u>02/07/2025</u>
K034: Warewashing Facility/Test Strips: Adequate, Used Ensure that all test strips are up to date and not expired.	<u>0.5</u>	<u>08/19/2024</u>	<u>02/07/2025</u>
K035: Adequate/Approved Equipment/Utensils, Maintained 1. Observed a piece of wood, keeping the door to a walk-in freezer closed. Ensure that the walk-in freezer is repaired and stays completely shut. 2. Gaskets in one of the "true fridge" units (near the baking room) aren't secure and shall be replaced. 3. All equipment that is not operative/ being used , should be removed from the facility to prevent shelter for unwanted vermin.	<u>0.5</u>	<u>08/19/2024</u>	<u>08/21/2024</u>
K038: Approved Lighting/Ventilation: Adequate, Used Observed a couple light bulbs out, under hood system. Replace.	<u>0.5</u>	<u>07/25/2024</u>	<u>02/07/2025</u>
K041: Plumbing: Proper Backflow Devices Behind the hot holding table, is an abandoned/ non-functioning pipeline. Ensure that it is removed so that any unnecessary grease/debris accumulates within it. This may harbor unwanted vermin.	<u>0.5</u>	<u>08/19/2024</u>	<u>08/21/2024</u>
K044: Premises; Personal/Cleaning Items; Vermin-Proofing Ensure that the exterior of the facility is maintained and continues to have pest control management. Have pest control visit at least once per week to keep close attention on possible rodent activity.	<u>0.5</u>	<u>08/19/2024</u>	<u>02/07/2025</u>
K045: Floors/Walls/Ceilings: Built, Maintained, Clean Accumulation of food debris and grease was evident throughout the facility on floors/walls/ceilings. Deep cleaning throughout the kitchen, food storage rooms, and behind all equipment must take place.	<u>0.5</u>	<u>08/19/2024</u>	<u>02/07/2025</u>
K054: Repeat Violations - Good Retail Practices (24 -51)	<u>2.0</u>		Uncorrected as of 5/2/2025

Violation Item	Points Lost	Comply By Date	Complied On Date
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0		Uncorrected as of 5/2/2025
No food safety manager's certificate was available for review at the time of the inspection. Not all employees have food handler cards.			
Ensure the food facility owner or an employee has a valid/current food safety protection certificate or ensure all food employees have adequate knowledge of, and are properly trained in food safety as it relates to their assigned duties. Ensure all food employees have a valid/current food handler card/certificate.			
K026: Approved Thawing Methods Used, Frozen Food	0.5	12/23/2024	Uncorrected as of 5/2/2025
Observed raw meat in the three compartment sink thawing improperly. Thaw PHF by one of the approved methods; completely submerged under running water (70°F or below) inside a food preparation sink (not to exceed two hours); in a refrigeration unit, as part of the cooking process, or by use of a microwave.			
K027: Food Separated and Protected	1.0		Uncorrected as of 5/2/2025
Observed simple syrup stored next to the hand sink in a way that may cause contamination from splashing hand wash water. Observed the ice bin installed in a location that may be contaminated by hand wash water.			
Install a splash guard on the hand sink.			
K038: Approved Lighting/Ventilation: Adequate, Used	0.5	12/23/2024	Uncorrected as of 5/2/2025
The facility has at least 4 heat producing pieces of equipment. The provided ventilation is inadequate.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	12/23/2024	Uncorrected as of 5/2/2025
Observed an accumulation of grease on the wall behind the fryer. Clean the wall. Clean the fryer filter more often.			

Inspection Date: 02/05/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 99.0 Award of Excellence Issued

Overall Inspection Comments: The facility was observed to be clean, and appears well managed.

Site Address: 250 HOWARD AVE, LOS OSOS

Record ID: PR0000079

Program Description: HR24 - RESTAURANT (SEATING 11 - 50) - FULL PREP

Inspection Date: 12/20/2024

Type of Service Description: REINSPECTION

Inspection Result Description: IN COMPLIANCE

Department Action Description: NEXT REGULAR

Score: 100.0

Overall Inspection Comments: The purpose of this visit was to perform a reinspection after the routine inspection performed 12/19/2024.

On this date, all violations checked were observed corrected.

At the time of the inspection the operator stated that they may change the flooring at the hot line.

At the time of the inspection the operator stated that they may install new finishes in the exterior storage area.

The operator is directed to submit plans prior to commencing any change of finishes.

K009: Proper Cooling Methods

2.0

12/19/2024

Measured the baked potatoes between 76F and 112F after cooling for more than 4 hours.

An employee voluntarily discarded the potatoes in the trash.

All PHF shall be rapidly cooled according to specified time temperature requirements, from 135 degrees to 70 degrees within 2 hours, and from 70 degrees to 41 degrees within four hours.

K023: No Rodents, Insects, Birds, or Animals

2.0

12/19/2024

Observed evidence of a rodent infestation throughout the facility. Observed rodent droppings in numerous critical areas including the following:

- 1) On top of the dish machine.
- 2) On the floor of the hot line area.
- 3) In the food contact utensil storage room beyond the bbq.
- 4) A rat carcass in a spring trap behind a cooler in the hot line area.

Also observed chew marks on sugar packets on the floor of the storage room beyond the bbq..

K033: Nonfood-Contact Surfaces Clean

0.5

Uncorrected as of 5/2/2025

Observed an accumulation of spilled soda syrup under the bag-in-a-box rack. Clean the spill.

K035: Adequate/Approved Equipment/Utensils, Maintained

0.5

Uncorrected as of 5/2/2025

- 1) Observed unused or inoperable equipment stored outside the facility in the outdoor bar area.

Ensure equipment is maintained clean, functional, and in good repair.

- 2) Observed an accumulation of condensation in the bottom of the bar back cooler. Repair the cooler.

K036: Equipment, Utensils and Linens: Storage and Use

0.5

Uncorrected as of 5/2/2025

- 1) Observed food contact utensils stored on a rack outside the facility.

Properly store all equipment /utensils/linens in an approved and clean area.

- 2) Observed unsecured CO2 cylinders in the storage area beyond the bbq.

Properly secure the pressurized CO2 tank.

- 3) Observed the cooler gasket in the server's station milk reach-in to be in disrepair.

Repair the gasket.

- 4) Observed a single use cup used as a scoop in the cheese at the hot line.

Replace the cup with a scoop that has a handle. Store the scoop in a manner that does not contaminate the food.

K040: Wiping Cloths: Properly Used and Stored

0.5

Uncorrected as of 5/2/2025

Observed wet wiping towels stored outside the sanitizer bucket.

Wet towels must be stored in sanitizer buckets when not in use.

K044: Premises; Personal/Cleaning Items; Vermin-Proofing

0.5

Uncorrected as of 5/2/2025

Evidence of deferred cleaning was observed throughout the facility. Observed an accumulation of grime and debris along the wall of much of the facility.

Maintain the facility clean and free from grime and debris.

Score: 100.0 Award of Excellence Issued

Overall Inspection Comments: Facility is well maintained, clean and organized. Manager informed me that Corporate had automatic faucets installed in all hand wash sinks during Covid. While it was beneficial at the time, the automatic sensors are easily blocked from grease and are more difficult to get hot water flowing. Consider replacing the faucets back to normal valves.

Overall Inspection Comments: Education and direction regarding the following topics were given at the time of the inspection:

- 1) Proper cooling.
- 2) Warewashing sanitizer testing
- 3) Manual warewashing in the 2 compartment sink.
- 4) Food in ROP.

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	3.0		Uncorrected as of 5/2/2025
No paper towels were available from a wall mounted dispenser at the bar hand sink. Provide approved handwashing cleanser and towels or drying device in dispensers at or adjacent to each hand washing facility.			
K018: HACCP/Variance Required: Approved/Records Kept	2.0		01/14/2025
Observed various types of frozen food stored in reduced oxygen packaging that was produced in the facility. The packages were not labeled with the date and time of packaging. Education and direction regarding reduced oxygen packaging were given at the time of the inspection. This violation was corrected by opening all packages to allow oxygen to come into contact with the food. All fish in reduced oxygen packaging was voluntarily discarded at the time of the inspection. Refer to the VC&D form for more details. Discontinue preparing or processing foods using reduced oxygen packaging at the facility unless it complies with the following requirements or until an approved HACCP plan is obtained from the CA Department of Public Health. Reduced Oxygen Packaging may be used without a HACCP plan if the package complies with all of the following: 1) The package is labeled with the date and time of production. 2) The package is kept at 41 F or below. 3) The food is removed from the package inside the facility within 48 hours of package production.			
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0		Uncorrected as of 5/2/2025
No valid Food Safety Manager's certification was available for review at the time of the inspection. Ensure the food facility owner or an employee has a valid/current food safety protection certificate or ensure all food employees have adequate knowledge of, and are properly trained in food safety as it relates to their assigned duties.			
K041: Plumbing; Proper Backflow Devices	0.5		Uncorrected as of 5/2/2025
Observed a container catching condensation from the refrigeration unit in the walk in cooler. Maintain all plumbing fixtures fully operative, clean and in good repair so as to prevent any contamination of food or utensils.			
K047: Signs Posted; Last Inspection Report Available	0.5		Uncorrected as of 5/2/2025
No hand washing sign was posted at the bar hand sink. Ensure all required signs (hand washing, no smoking, no public restroom available) are posted.

Site Address: 60 STATE PARK RD, MORRO BAY

Record ID: PR0000024

Program Description: HR25 - RESTAURANT (SEATING 51 +) - FULL PREP

Inspection Date: 01/31/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 94.5

Overall Inspection Comments: The overall cleanliness of the facility was observed to be greatly improved and staff had followed inspector directions for detailed cleaning of the facility, with special attention to pest activity and monitoring areas (such as floor perimeters). Staff were directed to frequently monitor the newly cleaned areas for signs of new pest activity. The facility had been closed for an extended time, and has been receiving frequent professional pest treatments since re-opening (records provided for review).

The construction activities observed in dining and lobby areas during the initial investigation were still ongoing, and the operator was informed to be diligent during construction since activity may increase during this time.

The entry point revealed during the complaint investigation had been adequately repaired to prevent pest entry. It was observed that the pest company had increased placement of pest control equipment to help accelerate correction of the problem.

The hard work of staff is evident greatly and appreciated.

Inspectors determined that the pest issue was being handled adequate by facility staff and professional pest services. Verification that the facility is no longer having pest issues will be evaluated during the next routine inspection in about 6 months.

Please reach out at any time if you need further assistance from your inspector.

Violation Item	Points Lost	Comply By Date	Complied On Date
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	01/31/2024	01/14/2025
No Food manager certificate on-site. The manager certificate on file with our department has expired. Obtain current Food Safety Manager certification for at least one owner or employee, and maintain the original certificate on site. Additionally, maintain copies on file for current Food Handler Cards for all remaining staff.			
K029: Toxic Substances Properly Identified, Stored, Used	0.5	01/31/2024	01/14/2025
Spray bottles observed without labels. Maintain accurate labels on all cleaning chemicals.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	02/09/2024	01/14/2025
Foil observed being used to line the shelf below prep table. Discontinue the use of foil, and restore the shelf to a smooth, impermeable and cleanable condition. Contact paper or a similar product may be used as a temporary repair. Professionally resurface the shelf or replace it as soon as possible.			
K039: Thermometers Provided and Accurate	0.5	01/31/2024	Corrected On Site
The factory installed thermometer in a reach-in refrigerator was observed to be missing, and no replacement thermometer was in use in the refrigerator (temperatures were measured in compliance). Maintain accurately functioning thermometers for all refrigerators. It is recommended to affix the thermometer near the front door on the top shelf to facilitate frequent staff monitoring and to provide more accurate temperature readings.			
K041: Plumbing; Proper Backflow Devices	0.5	02/14/2024	01/14/2025
Multiple floor sinks were observed with wastewater lines entering into the floor sink and lacking the required air gaps. Modify waste lines so as to restore the required air gaps;			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	02/03/2024	01/14/2025
Excessive mold and dirt observed on floors and walls behind dish machine. Thoroughly clean and maintain the area.			
K054: Repeat Violations - Good Retail Practices (24 -51)	2.0	01/31/2024	01/14/2025
#24,40, 41, 45 were repeat violations.

Inspection Date: 04/25/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 95.0

Overall Inspection Comments: Permit fees paid today.

Inspection today following SLO building and planning dept sign-off of the kitchen addition that is now partly enclosed to be used for full food prep. Any food prep and other, as per code required tasks to be completed in a fully enclosed area must be completed in the enclosed kitchen addition and NOT outside in the open areas of this facility. Any food items prepared in the Higuera facility (Kreuzberg Cafe) and offered for sale in this facility shall 1. show temperature controlled, approved way of transportation from one facility to the other and 2. have ingredients noted either on the food product packaging or on the menu on site.

Follow existing code requirements as per discussion regarding any future BBQ on site.

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies Mount single service soap dispenser and hand towel dispenser in the food prep room. (alternate methods as discussed in the meantime)	3.0	04/28/2025	Uncorrected as of 5/2/2025

Inspection Date: 02/20/2024

Type of Service Description: OPENING INSPECTION

Inspection Result Description: IN COMPLIANCE

Department Action Description: NEXT REGULAR

Score: 100.0

Overall Inspection Comments: Memorandum of understanding left and signed regarding only limited food preparation due to garage door set up. If the food prep grows beyond reheating baked goods for the retail coffee service to entail making sandwiches and such which does NOT fall under "limited food prep" the three compartment sink area will have to be enclosed along with the food prep area.

There is no clear delineation (no walls) between the different areas of use in this facility. There is equipment put in place to mark where one area starts and the next begins. Do NOT mix the different uses. Refrigeration units will have to very clearly designated for the use of the retail operation. The ice cream area is NOT under the permit of this section currently. It is approved for the whole sale ice cream production ONLY.

Keep the back garage door closed as to make vermin infestation less likely.

The operation of this facility is on a performance basis. Any change in menu or procedure may result in the permit conditions no longer being met.

Any expansion to the menu resulting in further equipment placement for the retail operation will have to be approved by this section following a remodel application.

Type of Service Description: REINSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 97.5

Overall Inspection Comments: The purpose of this visit was to perform a reinspection after rodent activity was noted in the facility on 12/30/24. Refer to that report for further details.

As part of each regular inspection, a free reinspection is included as needed. Additional reinspections beyond the first will be billed at the standard rate of \$157/hour. A billable reinspection has been scheduled for 1/28/25.

Violation Item	Points Lost	Comply By Date	Complied On Date
K023: No Rodents, Insects, Birds, or Animals	<u>2.0</u>		<u>Uncorrected as of 5/2/2025</u>
Observed rodent droppings and chew marks in a non critical area near the POS. Observed a live mouse stuck in a sticky trap. Rodents in traps are a good sign that abatement efforts are affective. A pest control invoice dated about 3 weeks prior to the inspection was available for review at the time of the inspection.			
Continue to make progress toward elimination of all rodent activity.			
K049: Permits Available	<u>0.5</u>	<u>02/28/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Obtain an valid/current Public Health Permit.			

Inspection Date: 12/30/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 89.0

Overall Inspection Comments: Education and direction regarding the following were given at the time of the inspection:

- 1) Manual warewashing
- 2) Sanitizer concentrations
- 3) Cooking temperatures for roasts.
- 4) Handwashing
- 5) Reheating

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	<u>3.0</u>		<u>12/30/2024</u>
No paper towels were available from the wall mounted dispenser at the warewashing hand sink. This violation was corrected by providing paper towels in the dispenser.			
K007: Proper Hot and Cold Holding Temperatures	<u>3.0</u>		<u>Uncorrected as of 5/2/2025</u>
Observed the following temperatures in the walk in cooler: Mashed potatoes 46F, Pulled Pork 45F, Chili 45F, House made BBQ sauce 45F.			
Repair the cooler to maintain food at 41 F or below at all times.			
K023: No Rodents, Insects, Birds, or Animals	<u>2.0</u>		<u>12/30/2024</u>
Observed evidence of rodent activity in the facility. This violation was corrected by cleaning and sanitizing all affected areas.

Violation Item	Points Lost	Comply By Date	Complied On Date
K032: Food Properly Labeled & Honestly Presented Observed prepackaged brownies and cookies available for customer self service without proper labels. 114089. Labeling (a) FOOD prepackaged in a FOOD FACILITY shall bear a label that complies with the labeling requirements prescribed by the Sherman Food, Drug, and Cosmetic Law (Part 5 (commencing with Section 109875)), 21 C.F.R. 101-Food Labeling, 9 C.F.R. 317-Labeling, Marking Devices, and Containers, and 9 C.F.R. 381-Subpart N Labeling and Containers, and as specified under Sections 114039 and 114039.1. (b) Label information shall include the following: (1) The common name of the FOOD, or absent a common name, an adequately descriptive identity statement. (2) If made from two or more ingredients, a list of ingredients in descending order of predominance by weight, including a declaration of artificial color or flavor and chemical preservatives, if contained in the FOOD. (3) An accurate declaration of the quantity of contents. (4) The name and place of business of the manufacturer, packer, or distributor. (5) Except as exempted in the Federal Food, Drug, and Cosmetic Act Section 403(Q)(3)-(5) (21 U.S.C. Sec. 343(q)(3)-(5), incl.), nutrition labeling as specified in 21 C.F.R. 101-Food Labeling and 9 C.F.R. 317 Subpart B Nutrition Labeling.	0.5		<u>Uncorrected as of 5/2/2025</u>
K035: Adequate/Approved Equipment/Utensils, Maintained 1) Observed an inoperable 2 door stand up cooler. 2) Observed an inoperable cold drawer. Ensure equipment is maintained clean, functional, and in good repair. This violation was partially corrected by removing the 2 door stand up cooler from the facility. Repair or remove the cold drawer. 3) Observed the ice scoop handle stored in contact with the ice. Properly store the ice scoop in a manner that cannot contaminate food.	0.5		<u>Uncorrected as of 5/2/2025</u>
K038: Approved Lighting/Ventilation: Adequate, Used Observed gaps between grease filters in the exhaust hood. Operate the exhaust hood as designed. Maintain the filters installed in a manner that prevents grease from entering the ducting. 2) Observed smoke escaping the canopy of the exhaust hood. Observed the ceiling tiles near the hood to be discolored. Ensure that the exhaust hood is operating as designed. An air balance report may be required.	0.5		<u>Uncorrected as of 5/2/2025</u>

Facility Name: THE SWITCH SLO

Facility ID: FA0015066

Site Address: 12304 LOS OSOS VALLEY RD, SAN LUIS OBISPO

Record ID: PR0020469

Program Description: HR25 - RESTAURANT (SEATING 51 +) - FULL PREP

Inspection Date: 02/18/2025

Type of Service Description: CHARGEABLE REINSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 95.5

Overall Inspection Comments: The purpose of this visit was to perform a chargeable reinspection after evidence of rodent activity was observed at the last inspection.

Violation Item	Points Lost	Comply By Date	Complied On Date
K023: No Rodents, Insects, Birds, or Animals	<u>4.0</u>		<u>02/18/2025</u>
Observed evidence of rodent activity in multiple areas including the dry storage area near the hot line and the employee restroom. A dead mouse was observed in a sticky trap in the employee restroom. The operator is directed to clean and sanitize all affected areas. A chargeable reinspection has been scheduled for one week from this date.			
K049: Permits Available	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
Obtain an valid/current Public Health Permit.			

Inspection Date: 01/30/2025

Type of Service Description: CHARGEABLE REINSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 97.5

Overall Inspection Comments: The purpose of this visit was to perform a reinspection after the observations noted on the report dated 12/30/24 and 1/21/25. Refer to those reports for more details.

Violation Item	Points Lost	Comply By Date	Complied On Date
K023: No Rodents, Insects, Birds, or Animals	<u>2.0</u>		<u>Uncorrected as of 5/2/2025</u>
Observed rodent droppings in multiple critical areas including the following: 1) On a lower shelf at the hot line 2) Inside a clean pan on the lower shelf at the hot line. 3) In the dining room bar. Droppings were also observed in the following non-critical areas: 1) In the alcove outside behind the employee restroom. 2) Inside the employee restroom. 3) At the POS station. 4) On the floor throughout the facility.			
Observed a chew hole where cables penetrate the wall at the POS. The area around the chew hole shows rodent scuff marks.			
The operator is directed to clean and sanitize all affected areas as well as take the following steps: 1) Continue to take measures to exclude rodents from the facility and seal all areas that may provide harborage. 2) Continue to eliminate sources of water that may support a rodent population. 3) Continue to eliminate sources of food that may support a rodent population. 4) Continue to have regular pest control service.			
K049: Permits Available	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
Obtain an valid/current Public Health Permit.

Department Action Description: TO BE RE-INSPECTED

Score: 97.5

Overall Inspection Comments: The purpose of this visit was to perform a reinspection after rodent activity was noted in the facility on 12/30/24. Refer to that report for further details.

As part of each regular inspection, a free reinspection is included as needed. Additional reinspections beyond the first will be billed at the standard rate of \$157/hour. A billable reinspection has been scheduled for 1/28/25.

Violation Item	Points Lost	Comply By Date	Complied On Date
K023: No Rodents, Insects, Birds, or Animals	<u>2.0</u>		<u>Uncorrected as of 5/2/2025</u>
Observed rodent droppings in a non critical area. A pest control invoice dated about 3 weeks prior to the inspection was available for review at the time of the inspection.			
Continue to make progress toward elimination of all rodent activity.			
K049: Permits Available	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
Obtain an valid/current Public Health Permit.			

Inspection Date: 12/30/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 94.5

Overall Inspection Comments: Education and direction regarding the following were given at the time of the inspection:

- 1) Manual warewashing
- 2) Sanitizer concentrations
- 3) Food in Reduced Oxygen Packaging
- 4) Cooling

Violation Item	Points Lost	Comply By Date	Complied On Date
K013: Food in Good Condition, Safe and Unadulterated	<u>2.0</u>	<u>12/31/2024</u>	<u>12/30/2024</u>
Observed food that was placed in Reduced Oxygen Packaging (ROP) in the facility without an approved HACCP plan from CDPH. No label was observed on the food in ROP. This violation was corrected by the operator voluntarily discarding unlabeled food in ROP.			
114419. When a HACCP plan is required (b) FOOD FACILITIES may engage in the following only pursuant to an HACCP PLAN that has been APPROVED by the DEPARTMENT: (2) Packaging POTENTIALLY HAZARDOUS FOOD using a REDUCED-OXYGEN PACKAGING method as specified in Section 114057.1, except if the FOOD FACILITY uses a REDUCED-OXYGEN PACKAGING method to package hazardous FOOD that always complies with the following standards with respect to packaging the hazardous FOOD: (A) The FOOD is labeled with the production time and date. (B) The FOOD is held at 41 degrees Fahrenheit or lower during refrigerated storage. (C) The FOOD is removed from its package in the FOOD FACILITY within 48 hours after packaging.			
K023: No Rodents, Insects, Birds, or Animals	<u>2.0</u>		<u>12/30/2024</u>
Observed evidence of rodent activity in the facility. This violation was corrected at the time of the inspection by cleaning and sanitizing all affected areas.

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	3.0	05/07/2024	03/19/2025
Plastic splash guards were installed on the hand sink. However, per California Retail Food code, METAL splash guards of at least 6 inches high are required. Once plastic guards begin to break or deteriorate, they shall be replaced with approved metal splash guards.			

Two Years of Retail Food Facility Inspection Results

as of 5/2/2025

For results of inspections performed on or after May 5th, 2025, go to

<https://inspections.myhealthdepartment.com/ca-san-luis-county>

Facility Name: TITO'S RED TACOS

Facility ID: FA0015890

Site Address: 690 DOLLIVER, PISMO BEACH

Record ID: PR0021419

Program Description: HR23 - RESTAURANT (SEATING UNDER 10) - FULL PREP

Inspection Date: 04/08/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 88.0

Overall Inspection Comments: A reinspection is required due to violations listed on this report which do not meet the requirements set forth in the California Retail Food Code commencing with §113700-114437. All violations must be corrected within the time specified. In the event that violations noted on this report are not corrected by the "Next Inspection Date" indicated above, a chargeable reinspection fee may be assessed.

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	<u>3.0</u>	<u>04/08/2024</u>	<u>05/08/2024</u>
1) Observed no soap at the hand washing sink near the front counter. Ensure all hand sinks are stocked with soap and paper towels at all times. Corrected on site. 2) Observed water pitcher inside the hand wash sink in the back prep room. Discontinue using the hand sinks for any purpose other than hand washing. 3) Install a 6 inch high metal splash guards on both sides of the hand washing sink in the prep room. This was requested on the last inspection report. The plastic splash guard is not approved.			
K011: Proper Reheating Procedures for Hot Holding	<u>4.0</u>	<u>04/08/2024</u>	<u>Corrected On Site</u>
Observed improper reheating of potentially hazardous foods. Foods in the hot holding unit measure 75-110F. Previously cooked foods must be brought up to 165F BEFORE being placed in the hot holding unit. These units are not meant to heat foods, only to keep them warm. After food is placed in the hot holding unit it shall remain at 135F. Corrective action: employee immediately reheated foods on the flat top grill to 165F before putting back in the hot holding unit.			
K014: Food Contact Surfaces: Clean and Sanitized	<u>3.0</u>	<u>04/08/2024</u>	<u>05/08/2024</u>
1) Facility had no sanitizer buckets set up in the kitchen but was actively preparing foods. Ensure a sanitizer solution of 100ppm chlorine or 200ppm quaternary ammonium is prepared BEFORE beginning any type of food preparation. Sanitizer solution shall be changed every 4 hours or more often if needed. Check using the appropriate test strips. Corrected on site. 2) Observed mildew on the panel inside the ice machine. Ice machines and ice dispensers should be cleaned as often as necessary to prevent buildup of mold, bacteria, or other factors that may affect the ice being produced.			
K024: Person In Charge Present and Performs Duties; Valid Certification	<u>1.0</u>	<u>04/08/2024</u>	<u>05/08/2024</u>
Unable to locate or verify food safety certifications. Ensure at least one employee has a valid Food Manager Certificate and all other employees have a valid Food Handlers Card. Keep copies on site and available for review during inspections.			
K034: Warewashing Facility/Test Strips: Adequate, Used	<u>0.5</u>	<u>04/08/2024</u>	<u>05/08/2024</u>
Obtain chlorine sanitizer test strips to ensure 50ppm in the dish machine and 100ppm in the sanitizer buckets.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	<u>0.5</u>	<u>04/08/2024</u>	<u>05/08/2024</u>
Observed the front door propped open. Facility has an unenclosed kitchen and therefore the doors need to remain closed, have tight fitting screens, or an air curtain to prevent entrance of vermin.

Type of Service Description: OPENING INSPECTION

Inspection Result Description: IN COMPLIANCE

Department Action Description: NEXT REGULAR

Score: 100.0

Overall Inspection Comments: Facility is conditionally approved to operate. The following must be corrected before opening to the public:

- Splash guards constructed of metal and at least six inches tall must be installed on both sides of the hand washing sink next to the food preparation sink
- Obtain chlorine test strips for the dish machine to ensure it is dispensing 50ppm sanitizer
- Seal the hole in the wall above the mop sink to protect from water damage in the walls
- Ensure only unopened foods in original packaging are stored in the office/store room. The flooring does not meet requirements for open food storage
- Within 60 days of opening ensure at least one employee is Food Manager Certified and all other have a valid Food Handlers Card

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K004: Proper Eating, Tasting, Drinking or Tobacco Use	2.0	09/21/2023	Corrected On Site
Observed employee eating a scoop of icecream in the kitchen while chocolates/candies were being prepared. Discontinue allowing employees to eat inside the kitchen. This can lead to cross contamination and spread of disease. Employees shall have a designated area for eating outside of any food prep area or work area. Violation was not corrected on site. Employee was told they are not supposed to eat in the kitchen, but continued doing so anyway.			
K006: Adequate/Accessible Handwash Sinks, Supplies	3.0	09/21/2023	Corrected On Site
1) Observed paper towels on the rack next to the hand sink instead of inside the paper towel dispenser. Ensure paper towels are kept inside the dispenser. REPEAT VIOLATION. 2) No paper towels available inside the restroom. Ensure paper towels are available at all times for hand washing.			
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	09/21/2023	09/26/2023
Unable to locate or verify Food Manager Certificate. Ensure at least one employee has a valid Food Manager Certificate and all other employees have a valid Food Handlers Card. Keep copies on site and available for review during inspections. REPEAT VIOLATION.			
K027: Food Separated and Protected	1.0	09/21/2023	09/26/2023
Observed box of open ice cream cones sitting directly under the soap dispenser near the hand sink. Ensure food is kept protected from contamination at all times. Discontinue storing food under the soap dispenser.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	09/21/2023	Corrected On Site
Observed employee eating icecream set their spoon on a knife being used to cut chocolates. Immediately discontinue cross contaminating utensils. Corrective action: Employee put knife in the sink after inspector pointed out the potential for contamination.			
K053: Repeat Violations - Critical (1 - 23)	5.0	09/21/2023	09/26/2023
REPEAT VIOLATION: - Paper towel violation			
K054: Repeat Violations - Good Retail Practices (24 -51)	2.0	09/21/2023	09/26/2023
REPEAT VIOLATION: - No Food Manager Certificate

Program Description: HR24 - RESTAURANT (SEATING 11 - 50) - FULL PREP

Inspection Date: 12/26/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 94.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized	<u>3.0</u>	<u>12/26/2024</u>	<u>Corrected On Site</u>
Observed an employee washing blenders in the prep sink without a sanitizing step. This violation was corrected by the employee washing the blenders in the dish machine and verifying the sanitizer concentration. Education and direction regarding warewashing and sanitizer concentrations were given at the time of the inspection.			
K026: Approved Thawing Methods Used, Frozen Food	<u>0.5</u>	<u>12/26/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed raw chicken and pork being thawed at ambient temperature without being submerged in water. Thaw PHF by one of the approved methods; completely submerged under running water (70°F or below) inside a food preparation sink (not to exceed two hours); in a refrigeration unit, as part of the cooking process, or by use of a microwave. Discontinue thawing potentially hazardous foods at room temperature immediately.			
K027: Food Separated and Protected	<u>1.0</u>		<u>Uncorrected as of 5/2/2025</u>
Observed raw pork stored over ready to eat food in the walk in cooler. To protect food from cross-contamination during storage, always store cooked and ready to eat foods above raw foods or in the following order from top shelf to bottom shelf: ready-to-eat foods; cooked meats; raw meats. If raw foods cannot be stored on the bottom shelf, then store in the following order from top to bottom: seafood, pork/beef, chicken.			
K035: Adequate/Approved Equipment/Utensils, Maintained	<u>0.5</u>	<u>12/26/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed a carpet blower on the roof of the walk in cooler. Repair the cooler so that it functions as manufactured, without the aid of the carpet blower.			
K036: Equipment, Utensils and Linens: Storage and Use	<u>0.5</u>	<u>12/26/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed in-use ice cream scoops stored in a container of ice water. Observed in-use wok utensils stored in a container of water at ambient temperature at the hot line. In-use utensils must be stored in a container of hot water measuring 135F or higher, or else washed at least every 4 hours.			
K040: Wiping Cloths: Properly Used and Stored	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
Observed wet wiping clothes stored outside the sanitizer bucket during active prep. Discontinue using wiping cloths for multiple uses without storing in sanitizing solution.

Record ID: PR0000016

Program Description: HR24 - RESTAURANT (SEATING 11 - 50) - FULL PREP

Inspection Date: 02/27/2025

Type of Service Description: CHARGEABLE REINSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 95.0

Overall Inspection Comments: The purpose of this visit was to perform a reinspection after the repeat violations noted on the report dated 1/24/25.

Violation Item	Points Lost	Comply By Date	Complied On Date

K007: Proper Hot and Cold Holding Temperatures

5.0

02/27/2025

Observed cooked shrimp and a cooked crab in a tray by the hot line at 75F. A food employee stated they were cooked and held to be used in sushi rolls when ordered.

The violation was corrected by an employee moving the food to the refrigerator.

Education and direction regarding proper holding temperatures were given at the time of the inspection.

A chargeable reinspection has been scheduled to verify compliance.

Inspection Date: 01/23/2025

Type of Service Description: REINSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 94.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date

K007: Proper Hot and Cold Holding Temperatures

3.0

Uncorrected as of 5/2/2025

Observed par cooked chicken stored in a container on the grill. The chicken measured 91F and had been marked on the grill 20 minutes prior to the inspection.

Maintain all potentially hazardous foods (PHF) at 41°F or below or at or above 135°F.

K016: Shell Stock: Quality, Storage, Tags

2.0

01/23/2025

Observed previously frozen mussels without the proper shellstock tag.

This violation was corrected by an employee finding the tag that was printed on the box and placing the tag with the shellstock.

Maintain shellfish certification tags shellstock until all shells are gone, and then maintain tags in chronological order on the premises for a period of not less than 90 days from the date of harvest.

K034: Warewashing Facility/Test Strips: Adequate, Used

0.5

Uncorrected as of 5/2/2025

Measured the sanitizer in the sanitizer bucket above 500 PPM quaternary ammonium.

No test strips were available in the facility at the time of the inspection.

Test sanitizer concentrations using test strips to ensure that solutions are not too strong.

K036: Equipment, Utensils and Linens: Storage and Use

0.5

Uncorrected as of 5/2/2025

Observed an unsecured CO2 cylinder.

Properly secure the pressurized CO2 tank.

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	<u>3.0</u>		<u>Uncorrected as of 5/2/2025</u>
Observed a soiled pan in the hot line hand sink. A food handler stated that because there was no dishwasher at the time of the inspection, he had to wash the pan as needed.			
Discontinue washing utensils in the hand sink. Discontinue washing utensils without a sanitizing step.			
K007: Proper Hot and Cold Holding Temperatures	<u>3.0</u>		<u>01/14/2025</u>
Observed the following temperatures:			
1) Raw beef on the sink drain board measuring between 43F and 55F. A food employee stated that the beef is defrosted on a shelf overnight then was being portioned at the time of the inspection. This violation was corrected by an employee portioning the food and returning the portions to refrigeration within 2 hours.			
2) Par cooked chicken in a metal container on the grill measuring 87F. A food employee stated that the chicken had been par cooked 1 hour prior to the inspection. This violation was corrected by the employee reheating the food to 165F or higher prior to serving the food.			
3) Par cooked shrimp tempura measuring 90F. A food employee stated that the shrimp had been cooked 30 minutes prior to the inspection. This violation was corrected by reheating the food to 165F or higher prior to serving the food.			
4) Observed raw shell eggs stored without temperature control on a shelf in the kitchen.			
5) Observed tempura shrimp stored without temperature control at the sushi bar measuring 103F. A food employee stated that they were brought from the kitchen to make a shrimp roll and the extra were to be brought back to the kitchen.			
Maintain all potentially hazardous foods (PHF) at 41°F or below or at or above 135°F.			
K014: Food Contact Surfaces: Clean and Sanitized	<u>3.0</u>		<u>01/14/2025</u>
No sanitizer buckets were set up during active food preparation.			
A food employee was directed to set up a sanitizer bucket but did not know what to do. Another employee came to set up the sanitizer bucket and filled a container from the sanitizer dispenser. No sanitizer was measured in the solution. No chemical container was observed connected to the sanitizer container.			
A sanitizer bucket was set up using bleach and was measured to 100 ppm.			
Education and direction regarding sanitizer, sanitizer testing and sanitizer concentrations were given at the time of the inspection.			
K024: Person In Charge Present and Performs Duties; Valid Certification	<u>1.0</u>		<u>Uncorrected as of 5/2/2025</u>
1) No food safety manager's certificate was available for review at the time of the inspection.			
Ensure the food facility owner or an employee has a valid/current food safety protection certificate and ensure all food employees have adequate knowledge of, and are properly trained in food safety as it relates to their assigned duties.			
Prior to the reinspection on 1/21/25, please have a valid food safety manager's certificate for someone who works in the facility or else have verification that an employee has paid for and enrolled in the Food Safety Manager's Certification course.			
2) Ensure all food employees have a valid/current food handler card/certificate.			
K029: Toxic Substances Properly Identified, Stored, Used	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
Observed an unapproved container of Raid pesticide in the facility.			
Discontinue the use of all "household use only" insecticides in the food facility.			
K034: Warewashing Facility/Test Strips: Adequate, Used	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
No test strips were available in the facility at the time of the inspection.			
Provide approved and correct testing equipment to test for sanitizer concentration and/or hot water temperature.

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K035: Adequate/Approved Equipment/Utensils, Maintained	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
Observed the following:			
1) A door gasket in the hot line reach in cooler in disrepair. Repair the gasket.			
2) A reach in cooler at the hot line holding 45F. Repair the cooler to maintain food temperatures at or below 41F.			
3) An inoperable freezer at the sushi bar. Repair or remove all inoperable equipment.			
4) An accumulation of condensation in the bottom of a reach in cooler at the hot line.			
5) Observed a cold top cooler on top of the reach in cooler at the hot line holding 49F.			
Ensure equipment is maintained clean, functional, and in good repair.			
K036: Equipment, Utensils and Linens: Storage and Use	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
1) Observed unsecured CO2 cylinders.			
Properly secure the pressurized CO2 tank.			
2) Observed an ice scoop stored inside the ice bin with the handle in contact with the ice.			
Store the scoop in a manner that will not contaminate the ice.			
Properly store all equipment /utensils/linens in an approved and clean area.			
K040: Wiping Cloths: Properly Used and Stored	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
Observed wet towels stored on a prep surface.			
Discontinue using wiping cloths for multiple uses without storing in sanitizing solution.			
K041: Plumbing: Proper Backflow Devices	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
No air gap was observed at the dish machine floor sink.			
Ensure preparation and warewashing sinks and other equipment with drain lines drain via indirect connection to an approved receptacle.			
K049: Permits Available	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
Maintain the Public Health Permit in a conspicuous place.

Facility Name: VALLEY LIQUOR

Facility ID: FA0002744

Site Address: 2199 10TH ST, LOS OSOS

Record ID: PR0000080

Program Description: MR12 - RETAIL MKT (150 - 5,000 SF) - MODERATE PREP

Inspection Date: 12/09/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 86.0

Overall Inspection Comments: Education and direction regarding the following topics were given at the time of the inspection:

- 1) Warewashing
- 2) Sanitizer concentrations.
- 3) Cooling.

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	3.0	12/09/2024	Corrected On Site
No soap was available from the wall mounted dispenser at the deli hand sink.			
Provide approved handwashing cleanser and towels or drying device in dispensers at or adjacent to each hand washing facility.			
The violation was corrected by replacing the soap reservoir.			
K007: Proper Hot and Cold Holding Temperatures	3.0	12/09/2024	Corrected On Site
1) Observed multiple packages of raw beef, cooked beef, and cooked turkey, stored in the beverage walk in cooler at 46F-48F. The operator stated that the food had been stored there overnight.			
Maintain all potentially hazardous foods (PHF) at 41°F/45°F or below or at or above 135°F.			
This violation was corrected by moving the food into an area of the cooler that receives more air flow and is holding lower than 41F. The operator stated that the food would be thoroughly cooked and would not be cooled or reheated for future use.			
2) Observed single service containers of salsa, ranch dressing, and other sauces between 44F- 49F.			
Maintain all potentially hazardous foods (PHF) at 41°F/45°F or below or at or above 135°F.			
K023: No Rodents, Insects, Birds, or Animals	2.0	12/09/2024	Uncorrected as of 5/2/2025
Observed evidence of rodent activity in various places including under the customer self service soda fountain and in the beer storage room.			
Eliminate rodents and evidence of rodents (e.g. droppings, dead rodents, nesting material, rub marks) from the facility by safe, legal, and effective means at once.			
K027: Food Separated and Protected	1.0		Uncorrected as of 5/2/2025
1) Observed raw shell eggs in the deli stand up cooler and raw meat in the beverage walk in cooler stored over ready to eat food.			
To protect food from cross-contamination during storage, always store cooked and ready to eat foods above raw foods or in the following order from top shelf to bottom shelf: ready-to-eat foods; cooked meats; raw meats. If raw foods cannot be stored on the bottom shelf, then store in the following order from top to bottom: seafood, pork/beef, chicken.			
K030: Food Storage: Food Storage Containers Identified	0.5	12/09/2024	Uncorrected as of 5/2/2025
1) Observed numerous beer bottles stored under a refrigeration line inside the walk in cooler. Condensation was dripping onto the beer bottles and an accumulation of grime was observed on the beer bottles.			
The operator was directed to discard the beer bottles.			
Ensure all food items are stored in approved areas and with sufficient protection to prevent cross contamination.			
2) Observed raw shell eggs and a bag of onions stored on the floor of the walk in cooler.			
All food must be elevated off the floor.			
K033: Nonfood-Contact Surfaces Clean	0.5	12/09/2024	Uncorrected as of 5/2/2025
Observed an accumulation of grime on the fans and ceiling of the beverage walk in cooler.			
Ensure all nonfood-contact surfaces are maintained clean.

Facility Name: VALLEY LIQUOR

Facility ID: FA0002744

Site Address: 2199 10TH ST, LOS OSOS

Record ID: PR0000080

Program Description: MR12 - RETAIL MKT (150 - 5,000 SF) - MODERATE PREP

Inspection Date: 01/11/2024

Type of Service Description: REINSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 98.5

Overall Inspection Comments: The owner was able to correct or partially correct most of the noted violations from the inspection on 1/9/24. The critical violation was promptly corrected and is now in full compliance. The owner indicated that staff would be trained to maintain the slicer clean and sanitary as required. The leak under the prep sink was located and repaired. FRP was secured to the wall with a washable tape as a temporary repair to prevent water damage. The owner indicated that he intends to replace the FRP as soon as possible. All food storage was observed in compliance. Personal belongings were not observed in work areas. The soil/mold above the retail freezer has been significantly reduced by cleaning, but embedded soil and mold will not be fully removed until sealant is replaced.

The facility owner attempted to correct or improve all noted violations, but the few remaining non-critical violations will require more time to fully correct. The owner indicated his intent and methods to return them to compliance.

Thank you for your prompt attention and corrections. Please refer to your 1/9/24 inspection report to review correction comments as needed. Remaining violations will be evaluated at the next routine inspection.

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized	3.0	01/09/2024	12/09/2024
Dried food residue was observed on food contact areas of the slicer. Train staff to break down the slicer and thoroughly clean and sanitize after each use. If the slicer is to be used continually throughout the day clean and sanitize at least every four hours or between different food products.			
K030: Food Storage; Food Storage Containers Identified	0.5	01/09/2024	12/09/2024
Bagged onions were observed stored on the floor. Maintain all food storage at least six inches off of the floor.			
K033: Nonfood-Contact Surfaces Clean	0.5	02/11/2024	12/09/2024
K033: Nonfood-Contact Surfaces Clean	0.5	01/09/2024	12/09/2024
Observed an excessive amount of mold growth above the reach in freezer in the retail area. Thoroughly clean and maintain.			
K034: Warewashing Facility/Test Strips: Adequate, Used	0.5	01/09/2024	12/09/2024
Obtain a supply of sanitizer test strips and store in a location convenient for staff use.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	02/11/2024	12/09/2024
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	01/16/2024	12/09/2024
1) In the reach in freezer a soiled and deteriorated piece of cardboard was observed as a barrier between ice bags and food products. Replace the barrier with a solid, impermeable, and washable material.			
2) Cutting board at the prep top refrigerator was observed deeply cut and stained. Food contact surfaces must be maintained smooth and cleanable. Replace or resurface cutting boards when they are showing deep cuts and stains.			
3) An excessive amount of ice accumulation was observed in the retail area freezer. Maintain all equipment in good repair and fully functional. Service the freezer to function properly.			
K039: Thermometers Provided and Accurate	0.5	01/11/2024	12/09/2024
Multiple refrigerators were observed with missing or not easily visible thermometers. Maintain functioning thermometers in a visible location near the front of the refrigerator. Since a few of the thermometers had been pushed to the back of the unit and were not visible to staff, it is recommended to affix the thermometers in the warmest part of the refrigerator and in a visible area. Train staff to monitor refrigerator temperatures regularly.			
K041: Plumbing; Proper Backflow Devices	0.5	01/16/2024	12/09/2024
Observed pooled water under the prep sink. Investigate the source of the leak and make the proper repairs.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	01/16/2024	12/09/2024
Employee jacket was observed hanging on a food storage shelf. Provide a designated area, separate from food prep or food storage areas, for employees to store personal belongings.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	02/11/2024	12/09/2024

Score: 90.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized	3.0	12/18/2024	Uncorrected as of 5/2/2025
Observed no sanitizer solution set up during active food preparation. Ensure all food contact surfaces are maintained clean and sanitized. Food facility needs to set up sanitizer solution/buckets during active food preparation and ensure sanitizer concentration is 100ppm bleach or 200ppm quaternary ammonium. Manager and employees instructed to make up sanitizer solution immediately.			
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	01/20/2025	Uncorrected as of 5/2/2025
Observed no valid/current food manager safety certification. Ensure at least one person/employee obtains a food manager safety certification.			
K027: Food Separated and Protected	1.0	12/19/2024	Uncorrected as of 5/2/2025
Observed multiple scoops with handles submerged in food. Ensure handles of scoops are maintained out of contact with food to prevent any cross contamination.			
K029: Toxic Substances Properly Identified, Stored, Used	0.5	12/19/2024	Uncorrected as of 5/2/2025
Observed unlabeled spray bottles. Ensure all toxic spray bottles are labeled as to the contents of the container.			
K034: Warewashing Facility/Test Strips: Adequate, Used	0.5	12/20/2024	Uncorrected as of 5/2/2025
- Observed food preparation sink being used for warewashing. Discontinue this practice. Ensure warewashing facilities are used for warewashing utensils/dishes and the food preparation sink is ONLY used for washing fruits/vegetables and defrosting food items. - Observed no sanitizer test strips. Ensure correct testing strips are obtained in order to properly measure sanitizer concentration.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	12/19/2024	Uncorrected as of 5/2/2025
Observed raw wood drawers on shelving. Raw wood is not approved in food facilities. Ensure all equipment is smooth, nonabsorbent, easily cleanable and commercial grade. Facility can seal the raw wood.			
K040: Wiping Cloths: Properly Used and Stored	0.5	12/18/2024	Uncorrected as of 5/2/2025
Discontinue the use of sponges on food contact surfaces.			
K047: Signs Posted; Last Inspection Report Available	0.5	12/19/2024	Uncorrected as of 5/2/2025
Ensure copy of last health inspection report is available during time of inspection.			
K049: Permits Available	0.5	12/18/2024	Uncorrected as of 5/2/2025
REPEAT VIOLATION: Ensure 2024 Health Permit is posted in a conspicuous place.			
K054: Repeat Violations - Good Retail Practices (24 -51)	2.0	12/18/2024	Uncorrected as of 5/2/2025
See comments in section 49.

Program Description: MR23 - RESTAURANT (SEATING UNDER 10) - MODERATE PREP

Inspection Date: 05/02/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 89.5

Overall Inspection Comments: Education and direction regarding the following topics were given at the time of the inspection:

- 1) Vermin exclusion. Flies, cockroaches and rodents as vectors of disease.
- 2) Enclosed facility.
- 3) Sanitizer concentration.
- 4) Manual Warewashing.

Violation Item	Points Lost	Comply By Date	Complied On Date

K007: Proper Hot and Cold Holding Temperatures

5.0

05/02/2025

Measured the following temperatures:

- 1) In the Hot Line Cold Top cooler: Cream cheese 50° F, Shelled Boiled Egg 52° F, Tuna 52° F, Portioned Lox 50° F.

This violation was corrected by rapidly cooling the food in the working display cooler.

Repair, replace or remove the cooler. Maintain all PHF at 41° F or lower.

- 2) Measured the In-Service Fridge at 43° F Maintain all PHF at 41° F or lower.

- 3) In the Diary Fridge: Sandwiches with cooked ham at 47° F, Pecorino Cheese at 45° F. Maintain all PHF at 41° F or lower.

K014: Food Contact Surfaces: Clean and Sanitized

5.0

05/02/2025

Observed the following:

- 1) No sanitizer was measured in the sanitizer buckets during active food preparation.
- 2) No sanitizer was measured in the third compartment during active manual warewashing.

This violation was corrected by setting up sanitizer buckets and the third compartment sink with 200 ppm quaternary ammonium.

Education and direction regarding manual warewashing, sanitizer concentration, and test strip use.

Clean and sanitize multi-use utensils and equipment in the following manner after coming in contact with food or becoming contaminated; wash with detergent and water not less than 100°F; rinse with clear potable water; sanitize with 100 ppm chlorine for 30 seconds, 200 ppm quaternary ammonium for 1 minute, 25ppm iodine for 1 minute, complete immersion in water of at least 171° F for 30 seconds, or other methods as approved.

Discontinue allowing food to contact unclean/unsanitized surfaces and equipment. Ensure all food contact surfaces are cleaned and sanitized.

Food facilities must set up sanitizer buckets during active food preparation and measure sanitizer concentration to either 100 ppm chlorine or 200 ppm quaternary ammonium.

K044: Premises; Personal/Cleaning Items; Vermin-Proofing

0.5

Uncorrected as of 5/2/2025

- 1) Observed the front doors propped open. Observed multiple open, unscreened windows. Maintain the facility fully enclosed to prevent vermin entrance and harborage.

- 2) Observed an electric fly swatter in the facility. Pest control is only permissible using approved methods. Fly swatters are not permitted.

Overall Inspection Comments: Manager discussed minor construction/alterations to the facility that they are planning for such as new Ansel system, removal of soda fountain station, and new counter tops throughout front counter/display area. Please file a plan check with our department to ensure proper construction and installation. We recommend using this construction time to deep clean floors, walls, ceiling, and equipment. Please reach out to the Fire Department with any Ansel system questions.

Violation Item	Points Lost	Comply By Date	Complied On Date
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	03/04/2025	Uncorrected as of 5/2/2025
Unable to verify Food Manager/ Food Handler Cards at the time of the inspection. Ensure at least one employee obtains a valid Food Manager Certificate and all others have valid Food Handler Cards. Store copies on site for inspector review.

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 93.5

Overall Inspection Comments: Facility to be reinspected on 3/20/25 to ensure the dish machine has been repaired.

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized	3.0	03/19/2025	Uncorrected as of 5/2/2025
Dish machine is not dispensing sanitizer. Ensure dish machine is dispensing 50ppm at all times using appropriate test strips. Dishes are to be washed upstairs in the Oyster Loft kitchen until machine is repaired. Re-inspection for machine to occur on 3/20/25.			
K023: No Rodents, Insects, Birds, or Animals	2.0	03/19/2025	Uncorrected as of 5/2/2025
Observed birds from outside in the facility. The facility does not have an enclosed kitchen and therefore needs to protect from entrance of vermin (flies, birds, rodents, cockroaches). Facility has large roll-up doors for the bar and multiple exits that remain open during business hours. This allows vermin and outside contamination into the kitchen area. Facility shall make a plan to enclose the kitchen. This can be installation of a wall with a door or some sort of screen. Consult directly with your inspector for approval.			
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	03/19/2025	Uncorrected as of 5/2/2025
Facility is in need of a Certified Food Manager. Ensure at least one employee has a valid Food Manager Certificate and all others have a valid Food Handlers Card. Keep copies on site at all times. Food Manager shall be different than Oyster Loft.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	03/20/2025	Uncorrected as of 5/2/2025
The facility does not have an enclosed kitchen and therefore needs to protect from entrance of vermin (flies, birds, rodents, cockroaches). Violation Item	Points Lost	Comply By Date	Complied On Date
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	04/24/2024	Uncorrected as of 5/2/2025
Ensure all employees are food handler certified. All food facilities that handle, prepare, or store non-prepackaged potentially hazardous food, must have food employees that have completed food safety training. Food employees are those that work with food, food equipment, utensils, and food contact surfaces. This includes tasks such as, preparing food, serving food, washing dishes and equipment, stocking food and putting away deliveries, and other activities involving food. 1. At least one food employee must have an up-to-date Food Manager Certificate. 2. All other food employees must have either a Food Handler Card or Food Safety Certificate. Keep copies of all Food Handler cards and the certificate at the restaurant for review during inspections.			
K027: Food Separated and Protected	1.0	04/24/2024	Uncorrected as of 5/2/2025
Install a six inch high metal splash guard on both sides of the hand washing sink near the cook line. The sink is in very close proximity to the cooking equipment and the prep top unit.			
K033: Nonfood-Contact Surfaces Clean	0.5	04/24/2024	Uncorrected as of 5/2/2025
Ensure the outside of equipment is cleaned and sanitized regularly, especially the handles of fridges, doors, equipment, etc.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	04/24/2024	Uncorrected as of 5/2/2025
Observed slight mildew growth inside the ice machine on the deflector panel. Clean and sanitize regularly.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	04/24/2024	Uncorrected as of 5/2/2025
Floors throughout kitchen are in need of cleaning, especially inside the walk-in refrigerator and freezer. Ensure floors are maintained clean.

Violation Item	Points Lost	Comply By Date	Complied On Date
K005: Proper Handwash Procedures and Glove Use	5.0	12/23/2024	Corrected On Site
Observed an employee clean the three compartment sink then touch a container of raw kale without first washing their hands. The violation was corrected by providing education and directing the employee to wash their hands before returning to food prep. Ensure all employees properly wash their hands with soap and warm water prior to engaging in food preparation or handling food contact surfaces, equipment, utensils, or linen.			
K021: Hot and Cold Water Available	2.0	12/23/2024	Uncorrected as of 5/2/2025
No hot water was available from the restroom hand sink. Provide and maintain an adequate supply of hot potable water (minimum 100°F) and cold potable water to all hand wash sinks.			
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	12/23/2024	Uncorrected as of 5/2/2025
Not every employee had a food handler card available for review at the time of the inspection. Ensure all food employees have a valid/current food handler card/certificate.			
No CDFA Dairy License was available for review at the time of the inspection. A soft-serve license is required for anyone selling soft-serve ice cream, frozen yogurt or nondairy frozen dessert. Obtain a required State Dairy Service approval for the manufacturing of yogurt/ice cream.			
K032: Food Properly Labeled & Honestly Presented	0.5	12/23/2024	Uncorrected as of 5/2/2025
Observed a prepackaged cookie available for customer self service without proper labeling. Discontinue serving/providing/displaying foods that are not properly labeled. 114089. Labeling (a) FOOD prepackaged in a FOOD FACILITY shall bear a label that complies with the labeling requirements prescribed by the Sherman Food, Drug, and Cosmetic Law (Part 5 (commencing with Section 109875)), 21 C.F.R. 101-Food Labeling, 9 C.F.R. 317-Labeling, Marking Devices, and Containers, and 9 C.F.R. 381-Subpart N Labeling and Containers, and as specified under Sections 114039 and 114039.1. (b) Label information shall include the following: (1) The common name of the FOOD, or absent a common name, an adequately descriptive identity statement. (2) If made from two or more ingredients, a list of ingredients in descending order of predominance by weight, including a declaration of artificial color or flavor and chemical preservatives, if contained in the FOOD. (3) An accurate declaration of the quantity of contents. (4) The name and place of business of the manufacturer, packer, or distributor. (5) Except as exempted in the Federal Food, Drug, and Cosmetic Act Section 403(Q)(3)-(5) (21 U.S.C. Sec. 343(q)(3)-(5), incl.), nutrition labeling as specified in 21 C.F.R. 101-Food Labeling and 9 C.F.R. 317 Subpart B Nutrition Labeling.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	12/23/2024	Uncorrected as of 5/2/2025
Observed the front door propped open. Maintain all exterior doors closed except when in use.

Points Lost**Comply By Date****Complied On Date**

K014: Food Contact Surfaces: Clean and Sanitized

3.0

08/13/2024

Corrected On Site

Observed no sanitizer solution set up during active food preparation. Ensure all food contact surfaces are maintained clean and sanitized. Food facility needs to set up sanitizer solution/buckets during active food preparation and ensure sanitizer concentration is 100ppm bleach or 200ppm quaternary ammonium.

K018: HACCP/Variance Required: Approved/Records Kept

2.0

08/16/2024

Uncorrected as of 5/2/2025

Observed facility packaging food using reduced oxygen packaging. Unable to verify HACCP plan at the time of the inspection. Provide and maintain proof of documentation to support the use of a HACCP plan. If the facility does not have a HACCP plan discontinue preparing or processing foods using reduced oxygen packaging at the facility until an approved HACCP plan is obtained from the CA Department of Public Health.

Department Action Description: NEXT REGULAR

Score: 98.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K024: Person In Charge Present and Performs Duties; Valid Certification Unable to verify Food Handler Cards for all employees. Ensure copies of all employees certifications are kept on site at all times and that employees are aware of their location.	1.0	12/18/2024	Uncorrected as of 5/2/2025
K035: Adequate/Approved Equipment/Utensils, Maintained Observed small amount of mildew growth on the panel inside the outside ice machine. Clean and sanitize regularly.	0.5	12/18/2024	Uncorrected as of 5/2/2025
K043: Approved Toilets: Maintained, Accessible, Clean Ensure the restrooms have a self-closing door mechanism in working order.	0.5	12/18/2024	Uncorrected as of 5/2/2025

Inspection Date: 10/05/2023

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 94.5

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized Dish machine was not dispensing any sanitizer at start of inspection. Ensure the dish machine is dispensing 50ppm chlorine sanitizer at all times using the appropriate test strips. Discontinue use of the dish machine until it has been repaired. Use the 3-compartment sink to wash, rinse, sanitize in the meantime. Corrective action: Manager called a service technician during inspection. Technician came immediately and repaired the machine. Corrected on site.	3.0	10/05/2023	Corrected On Site
K023: No Rodents, Insects, Birds, or Animals 1) Observed a significant amount of flies inside all areas of the kitchen. Eliminate flies from the facility by safe, legal, and effective means at once. If needed contact a licensed pest control company for service. 2) Observed several sticky traps hanging from the ceiling in different areas of the kitchen with significant amounts of flies on them. Immediately discontinue using these types of traps in any area of the kitchen where food, food equipments, or food contact surfaces can be contaminated. The hanging sticky traps are not an approved pest control method in food facilities.	2.0	10/05/2023	12/18/2024
K044: Premises; Personal/Cleaning Items; Vermin-Proofing Observed the front door, back door to kitchen, and doors to the outdoor food storage sheds open. Because the facility has an unenclosed kitchen, doors must remain closed or be equipped with a tight fitting screen to prevent entrance of vermin (flies, cockroaches, etc).	0.5	10/05/2023	12/18/2024
