Facility Name: @ BITES

Facility ID: FA0014466

Site Address: 195 N SANTA ROSA, SAN LUIS OBISPO

Record ID: PR0019947

Program Description: HR25 - RESTAURANT (SEATING 51 +) - FULL PREP

Inspection Date: 04/02/2025

Type of Service Description: REINSPECTION

Inspection Result Description: IN COMPLIANCE

Department Action Description: NEXT REGULAR

Score: 100.0

Overall Inspection Comments: The purpose of this visit was to perform a reinspection after the violations noted on the report dated 3/13/25 and 3/26/25.

On this date, all violations checked were observed corrected.

Inspection Date: 03/26/2025

Type of Service Description: CHARGEABLE REINSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 94.5

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K001: Demonstration of Knowledge The person in charge was not able to demonstrate knowledge of proper cooling requirements. Education and direction regarding proper cooling was given at the time of the inspection.	5.0	04/02/2025	Uncorrected as of 5/2/2025
K038: Approved Lighting/Ventilation: Adequate, Used The exhaust hood was not in use at the time of the inspection. An accumulation of heat was observed in near the charbroiler. Education and direction regarding proper ventilation were given at the time of the inspection.	0.5	03/26/2025	Uncorrected as of 5/2/2025

Inspection Date: 03/13/2025

Type of Service Description: REINSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 79.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K001: Demonstration of Knowledge Observed improper cooling methods being used for a second time. No one in the facility at the time of the inspection could demonstrate knowledge of proper cooling expectations. Refer to violation 009 for more details.	5.0	03/20/2025	Uncorrected as of 5/2/2025
K007: Proper Hot and Cold Holding Temperatures 1) Observed cooked ground beef without temperature control on a table at the hot line. Measured the ground beef at 71F. This violation was corrected by moving the food to a cooler. 2) Observed cooked cabbage at the hot line without temperature control. Measured the cooked cabbage at 115F. This violation was corrected by moving the food to a cooler.	5.0	03/14/2025	03/13/2025

Maintain all potentially hazardous foods (PHF) at 41°F/45°F or below or at or above 135°F.

Inspection Date: 03/13/2025

Type of Service Description: REINSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 79.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K009: Proper Cooling Methods	4.0	03/20/2025	03/13/2025
Measured broth in 5 gallon buckets stored without temperature control between 105F and 112 F. The person in charge stated that the broth had been passively cooling for 2 hours. This violation was corrected by rapidly cooling the broth to 41 or lower within 2 hours in the walk in cooler. Discontinue cooling PHF using unapproved methods. All PHF shall be rapidly cooled according to specified time temperature requirements, from 135 degrees to 70 degrees within 2 hours, and from 70 degrees to 41 degrees within four hours.			
K015: Food Obtained From Approved Source	5.0	03/20/2025	03/13/2025
Observed pork in reduced oxygen packaging in the walk in cooler. The person in charge stated that they were purchased at a grocery store in Garden Grove. A phone call to the Environmental Health Specialist who previously inspected the facility in Orange County reveals that they do not have an approved HACCP plan. Discontinue the sale, display and use of all foods obtained from an unapproved source at once. All food shall be obtained from an approved source.			
K026: Approved Thawing Methods Used, Frozen Food	0.5	03/20/2025	03/26/2025
Observed several beef roasts thawing on a rack near the walk in freezer. Discontinue thawing potentially hazardous foods at room temperature immediately. Thaw PHF by one of the approved methods; completely submerged under running water (70°F or below) inside a food preparation sink (not to exceed two hours); in a refrigeration unit, as part of the cooking process, or by use of a microwave.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	03/20/2025	03/26/2025
Observed an inoperable cooler holding non potentially hazardous food. Ensure equipment is maintained clean, functional, and in good repair.			
K038: Approved Lighting/Ventilation: Adequate, Used	0.5	03/20/2025	03/26/2025
Did not observe the exhaust hood to be operating at the beginning of the inspection. Observed an accumulation of grease on walls and ceilings. Observed an accumulation of heat near the hot line. Operate the exhaust hood as designed heat producing units are in use.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	03/20/2025	03/26/2025
Observed an accumulation of grease on the walls and ceiling. Clean the walls and ceiling.			

Inspection Date: 02/20/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 89.5

Overall Inspection Comments: Observed prepared meat products in reduced oxygen packaging that had been purchased from a supplier. The operator is directed to provide this agency with invoices for the meat in reduced oxygen packaging within 7 days.

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	3.0		Uncorrected as of 5/2/2025
No paper towels were available from the wall mounted dispenser at the hot line hand sink, or the restroom hand sink. Provide approved handwashing cleanser and towels or drying device in dispensers at or adjacent to each hand washing facility.

Overall Inspection Comments: Observed prepared meat products in reduced oxygen packaging that had been purchased from a supplier. The operator is directed to provide this agency with invoices for the meat in reduced oxygen packaging within 7 days.

Violation Item	Points Lost	Comply By Date	Complied On Date
K007: Proper Hot and Cold Holding Temperatures	5.0		02/20/2025
1) Measured garlic in oil mixture at the hot line at ambient temperature of 80F. This violation was corrected by moving the mixture to the cooler.			
2) Measured raw beef in the cold drawers below the charbroiler at 45F. Repair the cooler. Operate the exhaust hood as designed to remove heat.			
3) Egg rolls on a prep surface without temperature control at 67F. This violation was corrected by rapidly cooling the food to 41F or below.			
4) Meat balls in the cold top prep cooler at 52 F. This Violation was corrected by moving all the food to the walk in cooler until the operation of the cooler could be verified. Repair the cooler. Operated the exhaust hood as designed to remove heat.			
5) A large plastic container of beef broth on the floor near the range burners at 117F. This violation was corrected by reheating the broth to 165F.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5		Uncorrected as of 5/2/2025
Observed an ice scoop stored in the ice in a manner that allowed the handle to contaminate the ice. Store the ice scoop in a manner that does not allow the contamination of the ice.			
K038: Approved Lighting/Ventilation: Adequate, Used	0.5		Uncorrected as of 5/2/2025
The exhaust system was not being operated at the time of the inspection. Observed an accumulation of grease on the ceiling. The area near the charbroilers was observed to be uncomfortably hot. Operate the exhaust hoods as designed to remove heat, smoke, odors, and grease laden vapors. Ensure the exhaust hood is fully operational and in good condition.			
K043: Approved Toilets: Maintained, Accessible, Clean	0.5		Uncorrected as of 5/2/2025
No door closer was installed on the employee restroom door. Ensure the toilet room has a self-closing door mechanism in working order.			
K044: Premises: Personal/Cleaning Items; Vermin-Proofing	0.5		Uncorrected as of 5/2/2025
Observed the front doors propped open. Maintain all exterior doors closed except when in use.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5		Uncorrected as of 5/2/2025
Observed an accumulation of grease on the ceiling. This is a repeat violation. Refer to violation 38 for more details. Clean the ceiling.

Inspection Date: 12/30/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 94.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized	3.0	12/30/2024	Corrected On Site
Observed no sanitizer solution set up during active food preparation in bakery and Starbucks. Ensure all food contact surfaces are maintained clean and sanitized. Food facility needs to set up sanitizer solution/buckets during active food preparation and ensure sanitizer concentration is 100ppm bleach or 200ppm quaternary ammonium. Facility prefers to use sanitizer spray bottles and single use wiping cloths, this is approved but EVERY prep station needs to have access to a spray bottle at all times. Corrected on site.			
K029: Toxic Substances Properly Identified, Stored, Used	0.5	12/31/2024	Uncorrected as of 5/2/2025
Observed unlabeled spray bottles. Ensure all toxic spray bottles are labeled as to the contents of the container.			
K033: Nonfood-Contact Surfaces Clean	0.5	01/01/2025	Uncorrected as of 5/2/2025
Observed dust in vents of multiple refrigeration display cases. Ensure all non food contact surfaces are maintained clean.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	12/31/2024	Uncorrected as of 5/2/2025
- Observed raw wood shelf in produce prep area. Raw wood is not approved in food facilities. Ensure all equipment is smooth, nonabsorbent, easily cleanable and commercial grade. Facility can seal the raw wood. - Observed hand wash sink soap dispenser not properly affixed to wall. Repair/replace. Ensure all equipment is maintained in good repair. - Observed bricks being used to raise prep tables in produce prep station. Discontinue this practice. Ensure all equipment is smooth, nonabsorbent, easily cleanable and commercial grade.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	12/31/2024	Uncorrected as of 5/2/2025
- Observed debris on fan vents in meat and produce prep areas. Ensure all equipment is maintained clean. - Observed food debris/grime in multiple refrigeration units. Ensure all equipment and non food contact surfaces are maintained clean.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	12/30/2024	Corrected On Site
Observed mop propped against wall in mop sink. Ensure mops are hung up to air dry without soiling walls or equipment. Manager placed mop in mop rack.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	01/03/2025	Uncorrected as of 5/2/2025
- Observed particle board ceiling tile in bakery. Ensure all ceiling tiles are smooth, nonabsorbent and easily cleanable. - Observed food debris and grime underneath equipment. Ensure all floors/walls/ceilings are maintained clean. Facility can implement a deep cleaning schedule for whole facility.			

Inspection Date: 02/16/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 96.0

Overall Inspection Comments: Food facility presented clean and well maintained during time of inspection.

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	3.0	02/16/2024	12/30/2024
Observed two hand wash sinks that need to be repaired (one in meat department, one in bakery department). Each facility (meat and bakery) has a secondary hand wash sink available. Ensure all hand wash sinks are maintained in good repair. Manager has contacted company to repair the sinks.

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	<u>3.0</u>	<u>03/04/2025</u>	<u>Uncorrected as of 5/2/2025</u>
- Repair or replace the broken soap dispenser in the women's restroom at the front of store. - Observed pair of tongs inside the hand washing sink at the deli department. Ensure hand sinks are used for hand washing purposes only.			
K027: Food Separated and Protected	<u>1.0</u>	<u>03/04/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Bakery department is not utilizing the food preparation sink for it's intended purpose and is washing produce in the 3-compartment sink. Immediately discontinue this practice. Wash produce in the food preparation sink only.			
K039: Thermometers Provided and Accurate	<u>0.5</u>	<u>03/04/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Thermometers inside the meat/seafood case are not accurate (off by 20F). Repair or replace thermometers.			
K041: Plumbing; Proper Backflow Devices	<u>0.5</u>	<u>03/04/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Observed leak below the hand washing sink in the deli area. Repair.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>	<u>03/04/2025</u>	<u>Uncorrected as of 5/2/2025</u>
- Continue to work on replacing missing/broken cove tiles as needed. Some walk-ins still have missing cove tiles. - Flooring of Starbucks is very textured and not easily cleanable. Plan for future repairs. - Epoxy floors in the bakery department need to be cleaned more frequently. - Repair/replace the broken ceiling tile in the floral supply room.			

Inspection Date: 12/27/2023

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 86.5

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K001: Demonstration of Knowledge	<u>5.0</u>	<u>12/27/2023</u>	<u>03/05/2025</u>
Observed several employees in multiple departments continue to prepare food, serve food, sanitize equipment, and wash dishes while the facility had no hot water available. Ensure all food employees have adequate knowledge of, and are properly trained in food safety as it relates to their assigned duties. Employees should be knowledgeable in the importance of hot water for food safety and need to be trained to discontinue food prep, food service, and warewashing if hot water is not available. The Certified Food Safety Manager is responsible for training employees on food safety practices and ensuring protocols are being followed.			
K014: Food Contact Surfaces: Clean and Sanitized	<u>3.0</u>	<u>12/27/2023</u>	<u>03/05/2025</u>
The designated produce washing sink needs to be kept clean and sanitary. Observed dust and debris in and around the sink. Ensure it is being cleaned and sanitized daily to prevent contamination of produce.			
K021: Hot and Cold Water Available	<u>2.0</u>	<u>12/27/2023</u>	<u>03/05/2025</u>
Facility did not have hot water in any department (except Starbucks) at the start of the inspection. Ensure that hot water of 120F is available at food prep sinks, warewashing sinks, janitorial sinks, and dishmachines at all times. Warm water of 100F is required at hand washing sinks at all times. Discontinue food preparation, food service, warewashing, etc until hot water is available. Corrective action: Facility had a plumber on site who was able to get the hot water turned back on within 30 minutes. Corrected on site.

Facility Name: A J SPURS

Facility ID: FA0000816

Site Address: 777 OAK PARK BLVD, GROVER BEACH

Record ID: PR0000816

Program Description: HR25 - RESTAURANT (SEATING 51 +) - FULL PREP

Inspection Date: 04/15/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 93.5

Overall Inspection Comments: A reinspection is required due to violations listed on this report which do not meet the requirements set forth in the California Retail Food Code commencing with §113700-114437. All violations must be corrected within the time specified. In the event that violations noted on this report are not corrected by the "Next Inspection Date" indicated above, a chargeable reinspection fee may be assessed.

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized	<u>3.0</u>	<u>04/15/2025</u>	<u>Corrected On Site</u>
Facility had no sanitizer solution set up in the kitchen but was actively handling foods. Ensure a sanitizer solution of 100ppm chlorine or 200ppm quaternary ammonium is prepared BEFORE beginning any type of food preparation. Sanitizer solution shall be changed every 4 hours or more often if needed. Check using the appropriate test strips. Corrected on site.			
K024: Person In Charge Present and Performs Duties; Valid Certification	<u>1.0</u>	<u>06/16/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Facility does not have a Certified Food Manager. Ensure at least one employee has a valid Food Manager Certificate and all others have a valid Food Handlers Card. Keep copies on site at all times.			
K034: Warewashing Facility/Test Strips: Adequate, Used	<u>0.5</u>	<u>06/16/2025</u>	<u>Uncorrected as of 5/2/2025</u>
- Obtain chlorine sanitizer test strips for the dish machine to ensure 50ppm sanitizer concentration - Obtain quat sanitizer test strips for the 3-compartment sink to ensure 200ppm sanitizer concentration			
K035: Adequate/Approved Equipment/Utensils, Maintained	<u>0.5</u>	<u>06/16/2025</u>	<u>Uncorrected as of 5/2/2025</u>
- Both of the prep top refrigeration units at the cook line area are in poor condition. The drawers do not properly close and the lids are falling apart. Repair or replace both units. All equipment shall be in good functioning condition. - The doors to the walk-in units are rusting and deteriorating. Doors need to be repaired or replaced so that they are smooth, non-absorbent, and easily cleanable.			
K038: Approved Lighting/Ventilation: Adequate, Used	<u>0.5</u>	<u>06/16/2025</u>	<u>Uncorrected as of 5/2/2025</u>
- Observed heavy dust accumulation on the ventilation hood above the sous vide machines. Clean more regularly. - Observed grease accumulation on the ventilation hood above the cook line. Clean more regularly.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	<u>0.5</u>	<u>06/16/2025</u>	<u>Uncorrected as of 5/2/2025</u>
- Observed several pieces of old equipment at back of facility. Remove all unused equipment to prevent harborage of vermin. - Ensure mops are hung to dry after each use.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>	<u>06/16/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Walls throughout kitchen and food prep areas are in need of cleaning, especially near the salad prep/coffee area and near the mop sink. Ensure walls are being cleaned regularly.

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 93.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K001: Demonstration of Knowledge	5.0	12/27/2023	Uncorrected as of 5/2/2025
Observed employee continue to prepare food while the facility had no hot water available. Ensure all food employees have adequate knowledge of, and are properly trained in food safety as it relates to their assigned duties. Employees should be knowledgeable in the importance of hot water for food safety and need to be trained to discontinue food prep, food service, and warewashing if hot water is not available. The Certified Food Safety Manager is responsible for training employees on food safety practices and ensuring protocols are being followed.			
K021: Hot and Cold Water Available	2.0	12/27/2023	Corrected On Site
Facility did not have hot water at the start of the inspection but was actively preparing food. Ensure that hot water of 120F is available at food prep sinks, warewashing sinks, janitorial sinks, and dishmachines at all times. Warm water of 100F is required at hand washing sinks at all times. Discontinue food preparation, food service, warewashing, etc until hot water is available. Corrective action: Facility had a plumber on site who was able to get the hot water turned back on within 30 minutes. Corrected on site.

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 75.5

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K005: Proper Handwash Procedures and Glove Use	<u>5.0</u>	<u>11/26/2024</u>	<u>Corrected On Site</u>
Observed cook touching hair and changing tasks without switching gloves or washing hands. Ensure gloves are changed between tasks or when cross contaminated. Ensure hands are washed every time gloves are changed. Upon observation, cook was instructed to immediately wash his hands and change gloves.			
K006: Adequate/Accessible Handwash Sinks, Supplies	<u>3.0</u>	<u>11/26/2024</u>	<u>Corrected On Site</u>
- Observed bags of produce in hand wash sink. DISCONTINUE THIS PRACTICE. Ensure hand wash sink is ONLY USED FOR HAND WASHING PURPOSES. Corrected on site. - REPEAT VIOLATION: Observed no paper towels stocked at hand wash sink near prep line. Ensure hand wash sinks are stocked with pump soap and paper towels at all times. Corrected on site.			
K009: Proper Cooling Methods	<u>2.0</u>	<u>11/26/2024</u>	<u>Corrected On Site</u>
Observed cooked beans placed into large bucket for cooling. Discontinue cooling PHF using unapproved methods. All PHF shall be rapidly cooled according to specified time temperature requirements, from 135 degrees to 70 degrees within 2 hours, and from 70 degrees to 41 degrees within four hours. Manager instructed to place beans into shallow pan for cooling. Ensure time/temperature requirements are met during cooling process.			
K014: Food Contact Surfaces: Clean and Sanitized	<u>3.0</u>	<u>11/26/2024</u>	<u>Corrected On Site</u>
Observed no sanitizer solution set up during active food preparation in back kitchen (sanitizer was set up in the front prep station). Ensure all food contact surfaces are maintained clean and sanitized. Food facility needs to set up sanitizer solution/buckets during active food preparation and ensure sanitizer concentration is 100ppm bleach or 200ppm quaternary ammonium. Corrected on site.			
K027: Food Separated and Protected	<u>1.0</u>	<u>11/27/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed cups being used to scoop bulk food. Ensure scoops with handles are used with bulk food and handles are maintained out of contact with food to prevent cross contamination.			
K030: Food Storage: Food Storage Containers Identified	<u>0.5</u>	<u>11/27/2024</u>	<u>Uncorrected as of 5/2/2025</u>
- Observed bulk food storage without lids. Ensure bulk food is stored in a container with a lid to prevent any cross contamination. - Observed bucket of beans on the floor of kitchen. DISCONTINUE THIS PRACTICE. Ensure all food is elevated at least six inches above the ground. Corrected on site.			
K035: Adequate/Approved Equipment/Utensils, Maintained	<u>0.5</u>	<u>11/30/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed raw wood being used for mop rack. Raw wood is not approved in food facilities. Ensure all equipment is smooth, nonabsorbent, easily cleanable and commercial grade. Facility can replace the wood or seal it.			
K036: Equipment, Utensils and Linens: Storage and Use	<u>0.5</u>	<u>11/28/2024</u>	<u>Uncorrected as of 5/2/2025</u>
REPEAT VIOLATIONS: - Observed food debris inside refrigeration units. Ensure all equipment is maintained clean. - Observed soiled dishware being stored in food prep sink. Discontinue this practice. Ensure food prep sink is sanitized and dishes are placed in the warewash sink.			
K038: Approved Lighting/Ventilation: Adequate, Used	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
REPEAT VIOLATION: Observed light out in hood system. Repair or replace.			
K041: Plumbing: Proper Backflow Devices	<u>0.5</u>	<u>11/28/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed build up of food debris in floor sinks on prep line. Ensure all floor sinks are maintained clean.

Violation Item	Points Lost	Comply By Date	Complied On Date
K044: Premises; Personal/Cleaning Items; Vermin-Proofing Observed front door propped open. Facility has an unenclosed kitchen and therefore needs to protect from entrance of vermin (flies, cockroaches, birds, rodents). Include plans to enclose kitchen during the pizza oven remodel OR install tight fitting screens on all doors.	0.5	10/03/2025	Uncorrected as of 5/2/2025
K045: Floors/Walls/Ceilings: Built, Maintained, Clean Flooring of walk-in is degrading. Plan to repair/replace flooring during remodel of pizza area.	0.5	10/03/2025	Uncorrected as of 5/2/2025

Inspection Date: 03/25/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 78.0

Overall Inspection Comments: A reinspection is required due to violations listed on this report which do not meet the requirements set forth in the California Retail Food Code commencing with §113700-114437. All violations must be corrected within the time specified. In the event that violations noted on this report are not corrected by the "Next Inspection Date" indicated above, a chargeable reinspection fee may be assessed.

Violation Item	Points Lost	Comply By Date	Complied On Date
K001: Demonstration of Knowledge Employees lack knowledge of general food safety practices such as hand washing and sanitizing food contact surfaces. Immediately train employees and ensure all food employees have adequate knowledge of, and are properly trained in food safety as it relates to their assigned duties. The Certified Food Manager is responsible for training food employees on proper food safety practices.	5.0	03/25/2025	04/04/2025
K005: Proper Handwash Procedures and Glove Use Employees are not properly washing hands. Both hand sinks were completely blocked at time of inspection and not accessible for hand washing. Active food preparation was occurring in the kitchen without proper hand washing. Ensure all employees properly wash their hands with soap and warm water prior to engaging in food preparation or handling food contact surfaces, equipment, utensils, or linen. Corrective action: employees asked to wash hands immediately.	5.0	03/25/2025	Corrected On Site
K006: Adequate/Accessible Handwash Sinks, Supplies Multiple hand washing violations observed. Immediately train employees on hand wash practices. - Hand wash sink in main kitchen was not accessible, blocked by boxes and equipment, and stacked full with clean dishes. Hand sinks are to be used for hand washing purposes only. - Hand wash sink near the pizza oven was not accessible and blocked by equipment and carts. Discontinue storing anything in front of hand sink. - No paper towels available at the hand sink in kitchen. Paper towels shall be available at all times. Corrected on site. - No paper towels available at the bar hand sink. Install a wall mounted paper towel dispenser.	3.0	03/25/2025	04/04/2025
K007: Proper Hot and Cold Holding Temperatures Observed several types of cut produce on ice at the bar holding at 51F. Ensure potentially hazardous foods are maintained at or below 41F. Corrective action: employee added additional ice to the containers. Mechanical refrigeration for cut produce is highly recommended.	3.0	03/25/2025	Corrected On Site

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized	3.0	03/25/2025	Corrected On Site
Facility had no sanitizer solution set up in the kitchen but was actively preparing foods. Ensure a sanitizer solution of 100ppm chlorine or 200ppm quaternary ammonium is prepared BEFORE beginning any type of food preparation. Sanitizer solution shall be changed every 4 hours or more often if needed. Check using the appropriate test strips. Corrected on site. *Facility is using a Lactic Acid sanitizer. It is recommended to switch to a chlorine or quat based sanitizer*			
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	04/04/2025	Corrected On Site
Unable to locate or verify Food Manager Certificate. Ensure at least one employee has a valid Food Manager Certificate and all other employees have a valid Food Handlers Card. Keep copies on site and available for review during inspections.			
K034: Warewashing Facility/Test Strips: Adequate, Used	0.5	04/04/2025	Corrected On Site
Obtain lactic acid sanitizer test strips or appropriate test strips for chosen sanitizer.			
K042: Proper Waste Disposal; Facilities Maintained	0.5	04/04/2025	Corrected On Site
Observed grease container by the dumpsters sitting in soil/dirt area. This is a potential storm water and ground water pollutant. Move the container so that it is on the pavement where grease spills can easily be cleaned up.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	04/04/2025	Corrected On Site
Observed front and back doors propped open as well as large patio door open. Facility has an unenclosed kitchen and therefore needs to protect from entrance of vermin (flies, cockroaches, birds, rodents). Include plans to enclose kitchen during the pizza oven remodel OR install tight fitting screens on all doors.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	06/04/2025	04/04/2025
Flooring of walk-in is degrading. Plan to repair/replace flooring during remodel of pizza area. See "Approved Flooring Materials" document.			

Inspection Date: 11/07/2024

Type of Service Description: OPENING INSPECTION

Inspection Result Description: IN COMPLIANCE

Department Action Description: NEXT REGULAR

Score: 100.0

Overall Inspection Comments: Facility is approved to open. The following needs to be addressed:

- Reseal the floor in the walk-in refrigeration unit.
- Relocate the drain line that is extending into the hand sink at the bar. Ensure all drain lines drain to a floor sink.
- Within 60 days of opening ensure at least one employee has a valid Food Manager Certificate.
- Within 30 days of hire ensure all other employees have a valid Food Handlers Card.
- Submit a minor remodel plan check to this department for the installation of the new bar and the bbq pit.

The following is highly recommended:

- Install a dump sink at the bar area.
- Install screens on the sliding doors to allow air flow and open air dining, or enclose the kitchen.

03/18/2025

Uncorrected as of 5/2/2025

Observed small beetle like insect in the corn flour in bulk storage area. Flour was voluntarily discarded. Ensure all pests are removed by safe legal and effective means.

K024: Person In Charge Present and Performs Duties; Valid Certification

1.0

03/28/2025

Uncorrected as of 5/2/2025

REPEAT VIOLATION: Unable to verify Food Manager/ Food Handler Cards at the time of the inspection. Ensure at least one employee obtains a valid Food Manager Certificate and all others have valid Food Handler Cards. Store copies on site for inspector review.

K026: Approved Thawing Methods Used, Frozen Food

0.5

03/17/2025

Corrected On Site

Observed frozen fish thawing on the sink. During inspection staff placed meat into sink under running water. Thaw potentially hazardous foods by one of these methods: 1. Under cool (below 70 degrees F) potable running water for a period not to exceed 2 hours. Water shall be of sufficient velocity to flush loose food particles into the sink drain. 2. In refrigeration units (usually overnight). 3. In a microwave oven. 4. As part of the cooking process.

K027: Food Separated and Protected

1.0

03/18/2025

Uncorrected as of 5/2/2025

Observed chicken being stored above ready to eat foods in the walk in. To protect food from cross-contamination during storage, always store cooked and ready to eat foods above raw foods or in the following order from top shelf to bottom shelf: ready-to-eat foods; cooked meats; raw meats. If raw foods cannot be stored on the bottom shelf, then store in the following order from top to bottom: seafood, pork/beef, chicken.

K030: Food Storage; Food Storage Containers Identified

0.5

03/19/2025

Uncorrected as of 5/2/2025

Observed large bags of bulk food items on the floor in back storage area. Properly elevate food items at least 6 inches above the floor.

K044: Premises; Personal/Cleaning Items; Vermin-Proofing

0.5

03/28/2025

Uncorrected as of 5/2/2025

REPEAT VIOLATION: Observed a large accumulation of empty bottles and extra equipment in the back of the facility. Ensure the premises is kept free of litter and items that are unnecessary to operation. Ensure all equipment in the back storage area is maintained clean, functional, and in good repair, if it is not, remove it from the premises.

K047: Signs Posted; Last Inspection Report Available

0.5

03/21/2025

Uncorrected as of 5/2/2025

Maintain a copy of the most recent routine inspection report at the facility.

K053: Repeat Violations - Critical (1 - 23)

5.0

Uncorrected as of 5/2/2025

See comments in sections 14 and 16.

K054: Repeat Violations - Good Retail Practices (24 -51)

2.0

Uncorrected as of 5/2/2025

See comments in section 24 and 30.

Score: 99.5

Overall Inspection Comments: Facility has preexisting, non-compliant flooring in the bathroom and walls that do not render smooth, easily cleanable. If cleanliness in the area becomes problematic; corrective measures will be required.

Violation Item	Points Lost	Comply By Date	Complied On Date
K043: Approved Toilets: Maintained, Accessible, Clean	0.5	11/01/2024	Uncorrected as of 5/2/2025
1. Ensure the toilet room has a self-closing door mechanism in working order.			
2. Provide permanently installed dispensers for toilet paper/hand soap/paper towels.			

Inspection Date: 08/21/2023

Type of Service Description: OPENING INSPECTION

Inspection Result Description: IN COMPLIANCE

Department Action Description: NEXT REGULAR

Score: 100.0

Overall Inspection Comments: Facility has Health Department's conditional approval to operate when the following items are complete:

- Provide commercial grade freezer for prepackaged meat products. Freezer must be NSF approved or equivalent.
- Provide wall mounted single service soap and paper towel dispenser at hand washing sink in restroom.
- Install self closing device on restroom door.

Conditions of Approval:

- Existing Conditions: Existing restroom does not meet current requirements for floor and wall finishes. Flooring is not coved. More durable wall covering is not provided behind hand washing sink.
- Facility is approved to operate provided restroom floors remain clean. If facility is unable to maintain existing flooring clean, facility will be required to install flooring that meets current code requirements.
- Facility is approved to operate provided wall areas behind hand washing sink are maintained smooth, nonabsorbent, and easily cleanable. Should durability or cleanability of wall behind hand washing sink in restroom become a concern, facility will be required to provide a more durable surface behind the restroom hand washing sink.
- Beef products must be from an approved source.

Health permit will be sent to facility via USPS. Please post in a on-site in a location that is visible by the public when it is received.

K045: Floors/Walls/Ceilings: Built, Maintained, Clean

0.5

11/01/2024

Uncorrected as of 5/2/2025

Ensure all floors and walls are smooth, durable, of approved materials, in good repair, and are free of any peeling paint. There's preexisting, non-compliant flooring in a few areas including the cashier area, dry storage, and the bathroom.

1. Currently there's no open containers or serving happening in the cashier area & dry storage room. If that is initiated or cleanliness becomes a concern, the flooring shall be repaired or replaced with approved materials.
2. Provide the required 4" base coving with 3/8 inch radius coving with approved materials, in the bathroom.
3. Repair the walls in the bathroom and cover the exposed pieces of wood.

Score: 86.5

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K001: Demonstration of Knowledge	5.0	Uncorrected as of 5/2/2025	
At the time of the inspection, no employee was able to demonstrate knowledge of proper cooling. Refer to violation 9 for more details. Education and direction regarding proper cooling was given at the time of the inspection.			
K009: Proper Cooling Methods	2.0	04/25/2025	
Observed a large plastic container of clam chowder cooling at ambient temperature in a plastic pan. The chowder measured 139F at the time of the inspection. The chowder had been cooling for 2 hours. Upon questioning, no person was able to demonstrate knowledge of proper cooling. An intervention into the cooling process was made to ensure that the food met cooling requirements. This violation was corrected by splitting the large container in to smaller containers and moving to the walk in cooler.			
K014: Food Contact Surfaces: Clean and Sanitized	5.0	04/25/2025	
No sanitizer bucket was set up during active prep. This violation was corrected by an employee setting up a sanitizer bucket.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	Uncorrected as of 5/2/2025	
1) Measured the prep area cold top cooler at 44 F. Repair the cooler. 2) Measured potentially hazardous food in the hot line cold top cooler at 51 F. The person in charge stated that the food was brought from the walk in cooler 1.5 hours prior to the inspection. This violation was corrected by rapidly cooling the food to 41 F. Maintain PHF in the cooler at 41 F or lower. Repair the cooler if needed. Repair the exhaust hood if needed. 3) Measured the reach in cooler opposite the hot line at 44 F. Repair the cooler if needed. Repair the exhaust hood if needed.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	Uncorrected as of 5/2/2025	
Observed an unsecured CO2 cylinder. Secure the cylinder.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	Uncorrected as of 5/2/2025	
Observed evidence of deferred cleaning under the prep table. Maintain the floors walls and ceiling clean.

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 93.0

Overall Inspection Comments: **** This report supersedes the previous report that was sent 12/10/24****

This facility is not currently under a permit that includes cooling food for service on a future date. Cooling is a high risk process and facilities that cool food require more frequent health inspections. This permit tier will be modified to include cooling and will be subject to inspection twice per year.

Education and direction regarding the following topics were given at the time of the inspection:

- 1) Cooling
- 2) Sanitizer
- 3) Ventilation
- 4) EatSafeSLO

Please send Alice's Food Handler Card by email as soon as possible.

An informational bulletin regarding Mexican Lead Glazed Pottery was sent along with this email.

Violation Item	Points Lost	Comply By Date	Complied On Date
K007: Proper Hot and Cold Holding Temperatures	3.0	12/10/2024	Corrected On Site
The following measurements were taken at the time of the inspection: 1) In the farthest right reach in cooler: Edamame 44F, Cut Tomatoes 49F, Beets 45F, Cooked Noodles 45F, Shredded Cabbage 49F. 2) in the center reach in cooler: Cooked Sausage 54. The operator stated it had been on the counter for prep just prior to the inspection, Cut Tomato 51F, Tofu 50F 3) In the farthest left cooler: Cut Tomatoes 51 F, Cut Melon 45F.			
Education and direction regarding cut melons, temperature control and ambient temperature were given at the time of the inspection. The operator is directed to remove the accumulation of heat and grease laden vapors by approved means. Maintain all potentially hazardous foods (PHF) at 41°F/45°F or below or at or above 135°F.			
K009: Proper Cooling Methods	2.0	12/10/2024	Corrected On Site
Measured a large plastic bucket of beans in the walk in cooler at 50F after being cooled overnight. Education and direction regarding proper cooling was given at the time of the inspection. This violation was corrected by the operator voluntarily discarding the beans in the trash.			
All PHF shall be rapidly cooled according to specified time temperature requirements, from 135 degrees to 70 degrees within 2 hours, and from 70 degrees to 41 degrees within four hours.			
K029: Toxic Substances Properly Identified, Stored, Used	0.5	12/10/2024	Uncorrected as of 5/2/2025
Observed a traditional mexican olla in the storage unit. The operator was not able to confirm that the olla was glazed with lead free glaze. An informational bulletin regarding lead glazed pottery was sent along with this report. Remove the unapproved utensil.

Violation Item	Points Lost	Comply By Date	Complied On Date
K048: Plan Review	0.5		Uncorrected as of 5/2/2025
The facility was found to be operating significantly outside of the approved plan. Several pieces of equipment were observed in use without prior approval including:			
The flat top grill			
The electric 4 burner range			
The soup well			
The residential exhaust hood			
The walk in cooler.			
A thorough review of the facility's history reveals an unapproved plan check application from 2020 as well as a comment from a previous inspector in 2015 stating that the facility is operating without adequate mechanical ventilation.			
Submit approved plans prior to building and/or remodeling a food facility to Environmental Health Services. A copy of the incomplete plan check application and the inspection report were sent along with this report.			
K050: Impoundment	0.0	12/10/2024	Corrected On Site
At the time of the inspection, cooked beans were measured at 50F after cooling overnight in the walk in cooler. Refer to the cooling violation for more details.			
The operator corrected the violation by voluntarily discarding 3 gallons of cooked beans in the trash.

Site Address: 1125 24TH ST, PASO ROBLES

Record ID: PR0008552

Program Description: HR25 - RESTAURANT (SEATING 51 +) - FULL PREP

Inspection Date: 03/18/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 85.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K004: Proper Eating, Tasting, Drinking or Tobacco Use	2.0	03/18/2025	
Observed several employees with plastic cups with no lids on food prep areas and one carrying around smoothie container in the kitchen. Discontinue allowing employees to drink beverages in any area of the food facility which may contaminate foods or food-contact surfaces. Designate an area for employee eating and drinking to prevent potential contamination of food. Store employee beverages with lids in food prep areas to prevent potential cross contamination. All employee drinks were removed from food prep areas.			
K005: Proper Handwash Procedures and Glove Use	5.0	03/18/2025	Corrected On Site
Observed staff not following proper glove use. Several staff members put on gloves without washing hands prior. Hands must be washed each time gloves are donned and when they are removed after changing tasks. Reviewed proper glove use with staff.			
K014: Food Contact Surfaces: Clean and Sanitized	3.0	03/18/2025	Corrected On Site
1. Observed no sanitizer solution set up during active food preparation. Ensure all food contact surfaces are maintained clean and sanitized. Food facility needs to set up sanitizer solution/buckets during active food preparation and ensure sanitizer concentration is 100ppm bleach or 200ppm quaternary ammonium. Corrected on site.			
2. Observed staff not manually warewashing properly. Observed staff washing and rinsing equipment without sanitizing. Sanitizer solution was not made up and a large chunk of meat was defrosting in the third sink basin. Discontinue this practice. Ensure prep sink is used to defrost meat. Clean and sanitize utensils and equipment in the following manner after coming in contact with food or becoming contaminated; wash with detergent and water not less than 100°F; rinse with clear potable water; SANITIZE with 100 ppm chlorine for 30 seconds or 200 ppm quaternary ammonium for 1 minute.			
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	03/21/2025	Uncorrected as of 5/2/2025
REPEAT VIOLATION: Staff members advised they do NOT have food manager/ food handler cards. Ensure at least one employee obtains a valid Food Manager Certificate and all others have valid Food Handler Cards. Store copies on site for inspector review.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	04/04/2025	Uncorrected as of 5/2/2025
Observed small wood table with plastic legs near prep area. Raw wood is not approved for use in food facilities as it is absorbent and not easily cleanable. Replace with NSF/ANSI approved equipment.			
K039: Thermometers Provided and Accurate	0.5	03/21/2025	Uncorrected as of 5/2/2025
Provide thermometers in all refrigeration units (missing thermometers in all new units). Monitor thermometers frequently to ensure all refrigeration units are maintaining temperature.			
K040: Wiping Cloths: Properly Used and Stored	0.5	03/19/2025	Uncorrected as of 5/2/2025
Observed soiled wiping cloths sitting on prep areas. Wiping cloths should be held in a solution of sanitizer between uses.			
K047: Signs Posted; Last Inspection Report Available	0.5	03/19/2025	Uncorrected as of 5/2/2025
REPEAT VIOLATION: Maintain a copy of the most recent routine inspection report at the facility.			
K054: Repeat Violations - Good Retail Practices (24 -51)	2.0	03/21/2025	Uncorrected as of 5/2/2025
See comments in sections 24 and 47.

Manager has been putting individual lids on food to help with this issue. - Ice machine has tape being used on the top of it. - Bathroom hand washing faucet has tape and other material holding it together. Ensure all equipment is maintained in good repair. All surfaces should be smooth, easily cleanable and non-absorbent.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>	<u>08/17/2023</u>	<u>Uncorrected as of 5/2/2025</u>
1. Observed food debris/grime build up throughout food facility. Ensure all floors/walls/ceilings are cleaned and sanitized on a regular basis. Ensure equipment is moved in order to thoroughly clean food facility. 2. Observed degrading cove base (flooring) at multiple places throughout food facility. Repair/replace. 3. Observed raw wood in multiple places in food facility (under bar counter, in storage space by bathroom). Ensure all surfaces are easily cleanable, smooth and non-absorbent. Raw wood may be sealed in order to meet these requirements.			
K047: Signs Posted; Last Inspection Report Available	<u>0.5</u>	<u>08/15/2023</u>	<u>01/21/2025</u>
Observed no hand wash sign at hand wash sink in prep area. Ensure every hand wash sink has a sign posted. Signs provided to manager.

Inspection Date: 01/09/2025
Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 92.5

Overall Inspection Comments: Screens on the roll up doors have now been installed. Ensure screens remain closed to prevent entrance of vermin.

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	<u>3.0</u>	<u>01/09/2025</u>	<u>Corrected On Site</u>
1) Observed no soap at the hand sink in the food preparation area. Ensure all hand sinks are stocked with soap at all times. Corrected on site. 2) The bar does not have a designated hand washing sink. Employee stated they wash their hands in the 3-compartment sink. Immediately discontinue this practice and designate one of the single compartment sinks as a hand washing sink. Ensure soap and paper towels are available directly next to the chosen sink.			
K007: Proper Hot and Cold Holding Temperatures	<u>3.0</u>	<u>01/09/2025</u>	<u>Corrected On Site</u>
Observed the salad prep top unit holding at 51F. All cold held potentially hazardous foods shall be kept at 41F or below at all times. Discontinue use of this unit until it has been serviced and is holding proper temperature. Corrective action: employee stated food had been in unit approximately 2 hours. Food was moved to a functioning unit. Corrected on site.			
K026: Approved Thawing Methods Used, Frozen Food	<u>0.5</u>	<u>01/09/2025</u>	<u>Corrected On Site</u>
Observed improper thawing of frozen shrimp at the prep sink. Thaw potentially hazardous foods by one of these methods:			
1. Under cool (below 70 degrees F) potable running water for a period not to exceed 2 hours. Water shall be of sufficient velocity to flush loose food particles into the sink drain. 2. In refrigeration units (usually overnight). 3. In a microwave oven. 4. As part of the cooking process.			
K035: Adequate/Approved Equipment/Utensils, Maintained	<u>0.5</u>	<u>01/09/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Observed water damage on the floor where the mop sink is that is leaking under the fridge next to the sink. All equipment shall be on wheels or casters so that floors can be cleaned underneath. Ensure the fridge is put on wheels or casters.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>	<u>01/09/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Flooring of the beer cooler at the bar is deteriorating and can no longer be easily cleaned. Plan for future repairs. See attachment on approved flooring materials.			

Inspection Date: 03/29/2024
Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 91.0

Overall Inspection Comments: Routine inspection included consultation with contractor for the installation of screening to protect the kitchen. Facility installed roll-up garage doors on the front patio that were approved WITH the use of screens. However the screens were never installed and the doors are open during business hours. The kitchen is not enclosed and therefore needs to be protected from entrance of vermin (flies, cockroaches, rodents, etc.). Facility has the following options in order to be in compliance:

- Install tight fitting screens on the roll-up doors and install an air curtain or screen on the double front door if it is to remain open during business hours.
- Keep all doors closed.
- Install screening and/or doors across the areas of the kitchen that are not enclosed as discussed with contractor. This will allow the front door and roll up doors to be open at any time.

Once a decision has been made, update your inspector with the actions to be taken.

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 81.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K007: Proper Hot and Cold Holding Temperatures Observed prep top unit out of temperature compliance. Food was probed at 45F. All potentially hazardous food items were voluntarily discarded. Ensure refrigeration unit can maintain 41F or below.	3.0	11/25/2024	Corrected On Site
K014: Food Contact Surfaces: Clean and Sanitized - REPEAT VIOLATION: Observed bar mechanical warewasher with no sanitizer dispensing. Discontinue use of equipment until repaired. Food facility can utilize three compartment sink at the bar until equipment is repaired. All glasses are to be re-sanitized. Manager is going to order a new machine due to ongoing issue. - Observed grime built up in bar soda nozzles and their holders. Ensure all food contact surfaces are maintained clean and sanitized.	3.0	11/25/2024	Uncorrected as of 5/2/2025
K023: No Rodents, Insects, Birds, or Animals Observed a few fruit flies in bar area. Ensure all fruit flies are removed by safe, legal and effective means. There are currently fruit fly traps in place at bar.	2.0	11/26/2024	Uncorrected as of 5/2/2025
K027: Food Separated and Protected Observed raw shell eggs being stored above ready to eat foods. Ensure food items are stored in a manner to prevent any cross contamination. To protect food from cross-contamination during storage, always store cooked and ready to eat foods above raw foods or in the following order from top shelf to bottom shelf: ready-to-eat foods; cooked meats; raw meats. If raw foods cannot be stored on the bottom shelf, then store in the following order from top to bottom: seafood, pork/beef, chicken. Corrected on site.	1.0	11/25/2024	Corrected On Site
K030: Food Storage; Food Storage Containers Identified Observed open bags of bulk food in dry storage. Ensure all bulk food is containerized and labeled as to its contents.	0.5	11/27/2024	Uncorrected as of 5/2/2025
K035: Adequate/Approved Equipment/Utensils, Maintained - REPEAT VIOLATION: Observed two prep top refrigeration units without lids. Prep top refrigeration units need to have lids present to maintain temperature (41F or below). Repair/replace units. - Observed cardboard being used to line shelving. Discontinue this practice. Cardboard can harbor vermin. Ensure all equipment is smooth, nonabsorbent, easily cleanable and commercial grade.	0.5	11/28/2024	Uncorrected as of 5/2/2025
K036: Equipment, Utensils and Linens: Storage and Use - Observed knives being stored between units. Discontinue this practice. Ensure utensils are stored in a manner to prevent any contamination. - Observed free standing CO2 tanks near walk in refrigeration unit. Ensure CO2 tanks are affixed to a rigid structure.	0.5	11/25/2024	Uncorrected as of 5/2/2025
K041: Plumbing; Proper Backflow Devices Observed grime/debris in floor sink at bar. Ensure all floor sinks are maintained clean.	0.5	11/27/2024	Uncorrected as of 5/2/2025
K044: Premises; Personal/Cleaning Items; Vermin-Proofing Observed back door propped open. Ensure all exterior doors are maintained closed when not in use. Facility does have an air curtain. Ensure air curtain is on when door is open.	0.5		Uncorrected as of 5/2/2025
K045: Floors/Walls/Ceilings: Built, Maintained, Clean - Observed several broken/missing tiles throughout kitchen. Ensure all floors are maintained in good repair. - Observed dust around vent on ceiling by walk-in. Ensure ceiling is maintained clean. - Observed raw wood behind shelf in dry storage room. Raw wood is not approved for food facilities. Ensure walls are smooth, nonabsorbent and easily cleanable. Facility can replace the wood or seal it. - Observed broken FRP on wall near office. Repair/replace. - REPEAT VIOLATION: Observed build up/grime underneath equipment in bar area. Ensure floors are cleaned and sanitized on a regular basis.	0.5	11/28/2024	Uncorrected as of 5/2/2025
K053: Repeat Violations - Critical (1 - 23)	5.0		Uncorrected as of 5/2/2025

Discontinue rinsing and washing produce in the 3-compartment sink. Utilize the food preparation sink for washing and rinsing produce and thawing of meats. Corrected on site.			

Inspection Date: 11/16/2023

Type of Service Description: OPENING INSPECTION

Inspection Result Description: IN COMPLIANCE

Department Action Description: NEXT REGULAR

Score: 100.0

Overall Inspection Comments: Facility is conditionally approved to open. Ensure the following is completed before opening:

- Approval from the Fire Department. Caps are needed on the fire suppression system.
- Approval from City of Pismo.
- Facility has an unenclosed kitchen. The back door and roll up doors must be equipped with screens or remain closed.
- Install a wall mounted soap dispenser in the employee restroom.
- Provide hand wash signs in the customer restrooms.
- Within 60 days of opening, ensure at least one employee is Food Manager Certified and all other food employees have a valid Food Handlers card.
- Once received, post the Health Permit in an easily visible location.

Facility Name: BREAKFAST BUZZ

Facility ID: FA0000234

Site Address: 295 SANTA ROSA ST, SAN LUIS OBISPO

Record ID: PR0000234

Program Description: HR24 - RESTAURANT (SEATING 11 - 50) - FULL PREP

Inspection Date: 02/04/2025

Type of Service Description: REINSPECTION

Inspection Result Description: IN COMPLIANCE

Department Action Description: NEXT REGULAR

Score: 100.0

Overall Inspection Comments: The purpose of this visit was to reinspect the facility after the routine inspection from 2/3/25. Refer to that report for details.

On this date, all violations checked were observed corrected.

K001: Demonstration of Knowledge

5.0

02/03/2025

At the time of the inspection, no employee could demonstrate knowledge of proper manual warewashing.
This violation was corrected by providing warewashing education and sanitizer concentration education.

K006: Adequate/Accessible Handwash Sinks, Supplies

3.0

Uncorrected as of 5/2/2025

No paper towels were available from the dispenser in the employee restroom.
Provide approved handwashing cleanser and towels or drying device in dispensers at or adjacent to each hand washing facility.

K007: Proper Hot and Cold Holding Temperatures

5.0

02/03/2025

Observed the following:

Chorizo without temperature control at 77F, Sausage without temperature control at 72F, sliced breakfast links without temperature control at 71F, poached eggs in a container of water without temperature control, pooled eggs without temperature control.

Maintain all potentially hazardous foods (PHF) at 41°F or below or at or above 135°F.

K014: Food Contact Surfaces: Clean and Sanitized

5.0

02/03/2025

1) Observed an employee actively washing utensils without a sanitizing step.

This violation was corrected by properly setting up a sanitizer solution and sanitizing all the utensils that were washed without a sanitizing step.

2) No sanitizer bucket was set up at the hot line during active prep.

This violation was corrected by setting up a sanitizer bucket and wiping down food contact surfaces.

K023: No Rodents, Insects, Birds, or Animals

4.0

02/03/2025

Observed live cockroaches in various stages of the lifecycle on the wheels of the hot line equipment.

The operator is directed to do all of the following prior to the reinspection scheduled for 2/4/25.

1) Have a professional pest control operator treat the facility. The invoice shall be presented for review at the reinspection.

2) Seal all cracks and crevices that may provide harborage for vermin.

3) Remove sources of food.

4) Remove sources of water.

5) Clean and sanitize all affected areas.

K024: Person In Charge Present and Performs Duties: Valid Certification

1.0

Uncorrected as of 5/2/2025

No Food Safety Manager's certificate was available for review at the time of the inspection.

Not all employees had food handler cards for review at the time of the inspection.

Ensure the food facility owner or an employee has a valid/current food safety protection certificate or ensure all food employees have adequate knowledge of, and are properly trained in food safety as it relates to their assigned duties.

Ensure all food employees have a valid/current food handler card/certificate.

K026: Approved Thawing Methods Used, Frozen Food

0.5

Uncorrected as of 5/2/2025

Observed frozen hamburger patties improperly thawing on a prep table.

Thaw PHF by one of the approved methods; completely submerged under running water (70°F or below) inside a food preparation sink (not to exceed two hours); in a refrigeration unit, as part of the cooking process, or by use of a microwave.

K030: Food Storage; Food Storage Containers Identified

0.5

Uncorrected as of 5/2/2025

Observed a container of cooked potatoes stored on the floor of the walk in cooler.

Properly elevate food items/packages/container at least 6 inches above the floor.

- 1) Observed all doors of the facility propped open and several open windows without screens. Facility does not have an enclosed kitchen and therefore needs to either keep doors and windows closed or install tight fitting screens and/or air curtains. This is to prevent entrance of vermin (flies, rodents, cockroaches, etc.)
- 2) Observed more than one employee phone in the kitchen on top of food equipment and near prep areas. Discontinue allowing employees to store personal belongings in the kitchen. Ensure they have a designated area for belongings away from the food prep and food equipment areas to prevent cross contamination.

K008: Procedures/Records for Time as PH Control Method	<u>2.0</u>	<u>08/09/2023</u>	<u>08/08/2023</u>
Observed the facility using time as a public health control (TPHC) to keep track of their potentially hazardous foods (ie cut tomatoes, cheese, lettuce) at the cook line. However, foods at the cook line were not labeled with a time sticker. Either maintain all potentially hazardous foods at or below 41F or follow the Time as Public Health Control plan as follows: (1) The food shall be cooked and served, served if ready-to-eat, or discarded within four hours from the point in time when the food is removed from temperature control. (2) The food shall be marked or otherwise identified to indicate the time that is four hours past the point in time when the food is removed from temperature control. (3) The food in unmarked containers or packages or marked to exceed four-hour limit shall be discarded. (4) Written procedures shall be maintained in the food facility and made available to the enforcement agency upon Corrective Action: The person in charge corrected the labels during this inspection. **This is an ongoing repeat violation. Employees must be trained properly to ensure TPHC is utilized correctly. If at the next inspection this violation is found again, all foods will immediately be discarded.**

Violation Item	Points Lost	Comply By Date	Complied On Date
K001: Demonstration of Knowledge	<u>5.0</u>	<u>09/26/2023</u>	<u>05/16/2024</u>
Employees lack knowledge of food safety practices such as proper sanitation of dishes, proper concentration of sanitizer solutions, and proper cold holding temperatures. Immediately re-train employees on food safety practices. Ensure all employees are up to date on food safety training.			
K007: Proper Hot and Cold Holding Temperatures	<u>3.0</u>	<u>09/26/2023</u>	<u>Corrected On Site</u>
Observed the prep top unit at the cook line measuring 70F and the 3-door reach in refrigeration unit at 51F. All cold held potentially hazardous foods must be kept at or below 41F at all times. Corrective action: employees stated all food in the units had been there less than 4 hours and prepared that day. Food was moved to another unit holding proper temperature. Discontinue use of the units until it they been repaired and a reinspection to confirm they are working has been performed.			
K014: Food Contact Surfaces: Clean and Sanitized	<u>3.0</u>	<u>09/26/2023</u>	<u>05/16/2024</u>
- Observed no sanitizer in the 3-compartment sink sanitizing compartment and no sanitizer in the sanitizer buckets used at the cook line. Ensure sanitizer solution measures 100ppm chlorine or 200ppm quaternary ammonium. Use test strips to ensure proper concentration. Change sanitizer solution every 4 hours or more often if needed. Corrected on site. - Observed heavy accumulation of mildew inside the ice machine. Clean and sanitize the ice machine regularly to prevent contamination of the ice.			
K024: Person In Charge Present and Performs Duties; Valid Certification	<u>1.0</u>	<u>09/26/2023</u>	<u>05/16/2024</u>
Unable to locate or verify food safety certifications. Ensure at least one employee has a valid Food Manager Certificate and all other employees have a valid Food Handlers Card. Keep copies on site and available for review during inspections.			
K036: Equipment, Utensils and Linens: Storage and Use	<u>0.5</u>	<u>09/26/2023</u>	<u>05/16/2024</u>
Discontinue storing clean blenders directly next to the hand washing sink. Either install 6 inch high metal splashguards on both sides of the hand sink or move equipment at least 24 inches away from sink.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	<u>0.5</u>	<u>09/26/2023</u>	<u>05/16/2024</u>
Observed a few flies inside facility. Front door was propped open and the drive thru window was open. Ensure doors and windows remain closed or are equipped with a tight fitting screen to prevent entrance of vermin.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>	<u>09/26/2023</u>	<u>05/16/2024</u>
Observed several missing coving tiles in kitchen. Provide the required 4" base coving with 3/8 inch radius coving. See approved flooring materials attachment for more information.

Score: 92.5

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K007: Proper Hot and Cold Holding Temperatures	3.0	11/30/2023	Corrected On Site
- Observed refrigeration unit at 48F. Ensure all refrigeration units are maintained at 41F or below. All potentially hazardous food was to be removed from the unit into another refrigeration unit. Repair/replace unit. - Observed hot holding foods at 100F. Ensure all hot holding is maintained at 135F or above. Facility decided to use time as a public health control for current food in hot holding equipment (to be discarded at 11AM since it was made at 7AM). Manager will increase temperature on hot holding unit when fresh food is made and ensure it is maintained at 135F (or higher); if the unit fails to do so, use time as a public health control method and maintain written records.			
K023: No Rodents, Insects, Birds, or Animals	2.0	12/01/2023	02/10/2025
Observed flies in back kitchen. Ensure all flies are eradicated from food facility by safe, legal methods.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	12/04/2023	02/10/2025
- Observed 0 ppm of sanitizer dispensing from mechanical warewasher. Discontinue use of unit until repaired/replaced. Ensure mechanical warewasher dispenses at least 50 ppm of chlorine/bleach solution. - Observed grime on ice chute. Ensure unit is maintained clean.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	12/01/2023	02/10/2025
- Observed free standing CO2 tanks in back kitchen. Ensure all CO2 tanks are affixed to a rigid structure. - Observed plastic bowl being used as a scoop in bulk food. Ensure scoops with handles are used to dispense bulk food with the handles being stored above the top of the food to prevent cross contamination.			
K040: Wiping Cloths: Properly Used and Stored	0.5	12/01/2023	02/10/2025
- Discontinue using sponges for cleaning food contact surfaces. - Observed wiping cloths being kept on prep line. Ensure wiping cloths, when not in use, are stored in sanitizer solution.			
K041: Plumbing: Proper Backflow Devices	0.5	12/07/2023	02/10/2025
Observed pipe going into floor sink under three compartment sink. Ensure there is an air gap (at least one inch) from the pipe inlet to the rim of the floor sink.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	12/28/2023	02/10/2025
- Observed degrading cove base/ flooring throughout food facility. Ensure all flooring is maintained in good repair, smooth, nonabsorbent and easily cleanable. - Observed food debris/grime build up on flooring/walls. Ensure all floors/walls/ceilings are maintained clean. Facility can implement a deep cleaning/sanitizing schedule.

Inspection Date: 01/29/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 91.5

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized	<u>3.0</u>	<u>01/29/2025</u>	<u>Corrected On Site</u>
Observed 0ppm sanitizer in the 3-compartment sink and the sanitizer buckets at the coffee bar. Ensure 100ppm chlorine or 200ppm quat sanitizer in solution. Test using the appropriate test strips. Corrected on site.			
K021: Hot and Cold Water Available	<u>2.0</u>	<u>01/29/2025</u>	<u>Uncorrected as of 5/2/2025</u>
The 3-compartment sink and food preparation sink in the produce room do not reach proper temperature (measured 105F) and take far too long to heat up. Sinks should reach a temperature of 120F within a reasonable amount time.			
K035: Adequate/Approved Equipment/Utensils, Maintained	<u>0.5</u>	<u>02/28/2025</u>	<u>Uncorrected as of 5/2/2025</u>
- Observed broken gaskets on the 3-door True refrigerator in the deli department. Replace with new gaskets. - Clean the floor of the del walk-in freezer. Observed excessive grime buildup.			
K036: Equipment, Utensils and Linens: Storage and Use	<u>0.5</u>	<u>01/29/2025</u>	<u>Uncorrected as of 5/2/2025</u>
Observed handles of scoops for bulk food products in contact with the food. Ensure handles do not make contact with food product.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>	<u>01/29/2026</u>	<u>Uncorrected as of 5/2/2025</u>
Observed several areas throughout the facility where the concrete flooring or epoxy flooring is deteriorating and in need of repair/replacement. This has been an ongoing repeat violation for years. Facility has one year to repair flooring. Ensure specification sheets of flooring materials are approved by your inspector before beginning. The following areas need to be repaired so that they are smooth, non-absorbent, and easily cleanable: - Floor in the meat department area (front, back, and walk-ins) *prioritize this area* - Floor in the deli department (including walk-in) - Floor of produce room - Floor of sushi and coffee bar area *Note that sealed concrete is no longer an approved flooring material. See "Approved Flooring Materials" attachment. Epoxy or tile flooring is recommended in these areas*			
K054: Repeat Violations - Good Retail Practices (24 -51)	<u>2.0</u>	<u>01/29/2025</u>	<u>Uncorrected as of 5/2/2025</u>
REPEAT VIOLATION: - Flooring deteriorating in several areas			

Inspection Date: 10/19/2023

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 93.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K007: Proper Hot and Cold Holding Temperatures	<u>3.0</u>	<u>10/19/2023</u>	<u>Corrected On Site</u>
The produce walk-in refrigeration unit measured 50F at time of inspection. Ensure units are maintaining 41F or below at all times. Corrective action: most produce in the unit is whole uncut, which can remain. Bowls of cut fruit were voluntarily discarded. Discontinue storing any cut produce in the unit until it can maintain proper temperature.

Inspection Date: 01/17/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 87.0

Overall Inspection Comments: Education and direction regarding the following topics were given at the time of the inspection:

- 1) Maintenance of shellstock tags were given at the time of the inspection.
- 2) Sanitizer testing, sanitizer concentration, and manual warewashing were given at the time of the inspection.
- 3) Cooling
- 4) Reduced Oxygen Packaging
- 5) Juice Labeling

Violation Item	Points Lost	Comply By Date	Complied On Date
K007: Proper Hot and Cold Holding Temperatures	5.0		01/17/2025
Measured the following in the Deli hot holding case: Cooked Vegetables 105F, mashed potatoes 125F, meat loaf 128F, tri tip 128F This violation was corrected on site by an employee voluntarily discarding the food. Maintain all potentially hazardous foods (PHF) at 41°F or below or at or above 135°F.			
K009: Proper Cooling Methods	2.0		01/17/2025
Measured a large, covered, plastic container of meat sauce in the deli walk in cooler between 47F and 51F after cooling for about 10 hours. Discontinue cooling PHF using unapproved methods. All PHF shall be rapidly cooled according to specified time temperature requirements, from 135 degrees to 70 degrees within 2 hours, and from 70 degrees to 41 degrees within four hours.			
K014: Food Contact Surfaces: Clean and Sanitized	3.0	01/21/2025	Uncorrected as of 5/2/2025
No sanitizer was measured in the third compartment of the butcher three compartment sink. No sanitizer was measured in sanitizer buckets in the butcher area. The operator was directed not to wash utensils in the butcher shop three compartment sink until the issue is resolved. Education and direction regarding sanitizer testing, sanitizer concentration, and manual warewashing were given at the time of the inspection.			
K016: Shell Stock: Quality, Storage, Tags	2.0		01/17/2025
Shellstock tags were not maintained with the associated oysters or mussels in the display case. The tags were found and replaced with the shellstock, but it was observed that multiple containers of oysters had been commingled in the display case. This violation was corrected by the operator voluntarily discarding 87 oysters. Discontinue the practice of co-mingling shellfish at once. Maintain shellfish certification tags with the original container until empty, and then maintain tags in chronological order on the premises for a period of not less than 90 days from the date of harvest. Education and direction regarding maintenance of shellstock tags were given at the time of the inspection.			
K032: Food Properly Labeled & Honestly Presented	0.5		Uncorrected as of 5/2/2025
Observed unpasteurized juice made and packaged for cold holding in the facility without proper labeling. Refer to the FDA juice requirements previously sent for more details. Discontinue serving/providing/displaying foods that are incorrectly advertised or offered for sale.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	01/21/2025	Uncorrected as of 5/2/2025
Observed the hot line pizza cooler door gasket in disrepair. Replace the gasket.			
K050: Impoundment/Voluntary Condemnation and Destruction	0.0		Uncorrected as of 5/2/2025

Inspection Date: 02/25/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 83.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K005: Proper Handwash Procedures and Glove Use	<u>5.0</u>		<u>02/25/2025</u>
K006: Adequate/Accessible Handwash Sinks, Supplies	<u>3.0</u>		<u>Uncorrected as of 5/2/2025</u>
No hand soap was available from either the cashier area hand sink or the scullery area hand sink. Provide approved handwashing cleanser and towels or drying device in dispensers at or adjacent to each hand washing facility.			
K007: Proper Hot and Cold Holding Temperatures	<u>3.0</u>		<u>02/25/2025</u>
1) The following temperatures were measured in the soup line cold top cooler: Cut tomatoes at 45 F, Cooked chicken at 47 F. The tomatoes were labeled 2/24/25. The reach in cooler below the cold top measured 47F. The thermometer on the unit read 47F. This violation was corrected by the operator voluntarily discarding the potentially hazardous food in the trash. Refer to the list attached to this report.			
2) Measured the following in the cold top cooler near the oven. Stuffing 45F, Salami 45F. This violation was corrected by rapidly cooling the food to 41 F.			
K014: Food Contact Surfaces: Clean and Sanitized	<u>3.0</u>		<u>02/25/2025</u>
No sanitizer buckets were set up at the time the inspection began, however, no active food preparation was observed. No sanitizer was measured in the sanitizer bucket after it was made from the dispenser in the scullery. These violations were corrected by the operator correctly setting up a sanitizer bucket with 200 ppm quaternary ammonium.			
K024: Person In Charge Present and Performs Duties: Valid Certification	<u>1.0</u>		<u>Uncorrected as of 5/2/2025</u>
No food safety manager's certificate was available for review at the time of the inspection. Not every person was able to present a food handler card for review at the time of the inspection. Ensure all food employees have a valid/current food handler card/certificate. Ensure the food facility owner or an employee has a valid/current food safety protection certificate or ensure all food employees have adequate knowledge of, and are properly trained in food safety as it relates to their assigned duties.			
K029: Toxic Substances Properly Identified, Stored, Used	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
Observed a container of unapproved pesticide in the facility. Only pesticide that is specifically approved for use in a food facility may be applied. Application of pesticide in a food facility is only authorized by a licensed pest control professional.			
K034: Warewashing Facility/Test Strips: Adequate, Used	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
The test strips that were available at the facility were discolored and not able to measure sanitizer concentration. Provide approved and correct testing equipment to test for sanitizer concentration and/or hot water temperature.			
K035: Adequate/Approved Equipment/Utensils, Maintained	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
Observed a prep self approximately 1.5 inches off the ground. Elevate all equipment at least 6" or install wheels to facilitate cleaning.			
K049: Permits Available	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
Maintain the Public Health Permit in a conspicuous place.

Violation Item	Points Lost	Comply By Date	Complied On Date
K023: No Rodents, Insects, Birds, or Animals	2.0	12/06/2024	Uncorrected as of 5/2/2025
1) Observed an accumulation of rodent droppings on 2 shelves in the dry storage area behind the fryer. Eliminate rodents and evidence of rodents (e.g. droppings, dead rodents, nesting material, rub marks) from the facility by safe, legal, and effective means at once.			
2) Observed a fly in the facility. Eliminate flies from the facility by safe, legal, and effective means at once.			
K029: Toxic Substances Properly Identified, Stored, Used	0.5	12/06/2024	Uncorrected as of 5/2/2025
Observed numerous containers of unapproved pesticide in the facility. Only those insecticides, rodenticides, and other pesticides that are necessary and specifically APPROVED for use in a FOOD FACILITY may be used. The use shall be in accordance with the manufacturer's instructions.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5		Uncorrected as of 5/2/2025
Measured the 2 door Traulsen stand up cooler holding between 44F-45F. Repair the cooler.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5		Uncorrected as of 5/2/2025
Observed an accumulation of solidified grease on a fry rack near the deep fryer. Maintain the equipment clean.			
K040: Wiping Cloths: Properly Used and Stored	0.5		Uncorrected as of 5/2/2025
Observed a wet towel stored outside the sanitizer bucket. Store all wet towels inside the sanitizer bucket when not in use.			
K042: Proper Waste Disposal; Facilities Maintained	0.5		Uncorrected as of 5/2/2025
1) This facility does not have a mop sink but is preexisting non conforming. Mop water is to be discarded into the sewer through a floor sink or the toilet.			
2) Observed the ice machine draining through a flex host to a bucket on the lower shelf. No floor sink is available in reasonable proximity to the coffee service counter. Eliminate the flex hose.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5		Uncorrected as of 5/2/2025
Observed the front doors propped open. Maintain all exterior doors closed except when in use.

Inspection Date: 02/18/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 95.5

Overall Inspection Comments: Education and direction regarding proper cooling were given at the time of the inspection. Two plastic five gallon buckets full of beans were measured at 65 F after cooling for 2 hours. Continue to cool potentially hazardous food from 135F to 41 within 6 hours.

Education and direction regarding sanitizer bucket set up and chemical concentration were given at the time of the inspection.

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized	3.0		02/18/2025
No sanitizer buckets were available at the hot line during active prep. Education and direction regarding sanitizer set up were given at the time of the inspection. This violation was corrected at the time of the inspection.			
K038: Approved Lighting/Ventilation: Adequate, Used	0.5		Uncorrected as of 5/2/2025
Observed a gap between the grease filters in the exhaust hood. Maintain the filters so they do not allow grease laden vapors to enter the exhaust hood ducting.			
K040: Wiping Cloths: Properly Used and Stored	0.5		Uncorrected as of 5/2/2025
Soiled wiping clothes were observed stored on prep surfaces. Discontinue using wiping cloths for multiple uses without storing in sanitizing solution.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5		Uncorrected as of 5/2/2025
Observed pieces of wood under the legs of a storage rack near the walk in freezer. Observed an accumulation of grime on and around the wood under the legs of the storage rack near the walk in freezer. Observed an accumulation of grime on the electrical components mounted to the storage rack behind the prep line.			
Ensure all floors and walls are smooth, durable, of approved materials, in good repair, and are free of any peeling paint.

Inspection Date: 03/27/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 78.0

Overall Inspection Comments: Education and direction regarding garlic in oil were given at the time of the inspection.

Violation Item	Points Lost	Comply By Date	Complied On Date
K001: Demonstration of Knowledge At the time of the inspection, no employee was able to adequately demonstrate knowledge of the following topics: 1) Manual warewashing 2) Cooling Ensure all food employees have adequate knowledge of, and are properly trained in food safety as it relates to their assigned duties.	<u>5.0</u>		<u>Uncorrected as of 5/2/2025</u>
K007: Proper Hot and Cold Holding Temperatures 1) Measured the following in the walk in cooler: Salsa 43F, Mole Sauce 43F, Sour Cream 42F. 2) Measured fish in the hot line reach in cooler at 47F. Maintain all potentially hazardous foods (PHF) at 41°F or below or at or above 135°F.	<u>3.0</u>		<u>Uncorrected as of 5/2/2025</u>
K009: Proper Cooling Methods 1) Observed a large stock pot of beans in the walk in cooler measuring between 72F and 76F. The person in charge stated that the beans had been cooked the evening prior to the inspection. 2) Observed a sealed, 5 gallon plastic bucket of cooked salsa measuring at 75F. The person in charge stated that the salsa had been cooked the evening prior to the inspection. Education and direction regarding proper cooler were given at the time of the inspection. This violation was corrected by an employee voluntarily destroying the food by denaturing it with bleach. All PHF shall be rapidly cooled according to specified time temperature requirements, from 135 degrees to 70 degrees within 2 hours, and from 70 degrees to 41 degrees within four hours.	<u>4.0</u>		<u>03/27/2025</u>
K014: Food Contact Surfaces: Clean and Sanitized Observed an employee actively washing dishes without a sanitization step. The employee was not able to demonstrate knowledge of proper sanitization. This violation was corrected by the employee setting up a sanitizer solution of 100 PPM chlorine in the third compartment of the sink and sanitizing all utensils. Clean and sanitize multi-use utensils and equipment in the following manner after coming in contact with food or becoming contaminated; wash with detergent and water not less than 100°F; rinse with clear potable water; sanitize with 100 ppm chlorine for 30 seconds, 200 ppm quaternary ammonium for 1 minute, 25ppm iodine for 1 minute, complete immersion in water of at least 171° F for 30 seconds, or other methods as approved.	<u>5.0</u>		<u>03/27/2025</u>
K024: Person In Charge Present and Performs Duties: Valid Certification No valid food safety manager's certificate was available for review at the time of the inspection. This is a repeat violation. Ensure the food facility owner or an employee has a valid/current food safety protection certificate or ensure all food employees have adequate knowledge of, and are properly trained in food safety as it relates to their assigned duties.	<u>1.0</u>		<u>Uncorrected as of 5/2/2025</u>
K026: Approved Thawing Methods Used, Frozen Food Observed frozen food in a sink without an approved thawing method. Thaw PHF by one of the approved methods; completely submerged under running water (70°F or below) inside a food preparation sink (not to exceed two hours); in a refrigeration unit, as part of the cooking process, or by use of a microwave.	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>

Violation Item	Points Lost	Comply By Date	Complied On Date
K027: Food Separated and Protected	1.0		Uncorrected as of 5/2/2025
Observed large containers of raw pork stored over a sealed container of ready to eat cheese and a large stock pot of beans.			
To protect food from cross-contamination during storage, always store cooked and ready to eat foods above raw foods or in the following order from top shelf to bottom shelf: ready-to-eat foods; cooked meats; raw meats. If raw foods cannot be stored on the bottom shelf, then store in the following order from top to bottom: seafood, pork/beef, chicken.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5		Uncorrected as of 5/2/2025
Observed the hot line prep cooler door gaskets in disrepair. This is a repeat violation. Repair the gaskets.			
K038: Approved Lighting/Ventilation: Adequate, Used	0.5		Uncorrected as of 5/2/2025
1) Observed a broken grease filter that allows grease laden vapors to pass into the duct. 2) Observed an accumulation of heat near the hot line. Operate the exhaust hood as designed to remove grease laden vapors and heat from the facility			
K040: Wiping Cloths: Properly Used and Stored	0.5		Uncorrected as of 5/2/2025
Observed several wet cloth towels stored on prep surfaces. This is a repeat violation. Discontinue using wiping cloths for multiple uses without storing in sanitizing solution. Wiping cloths are to be stored completely submerged in sanitizer between uses. Sanitizer must be changed when it becomes turbid and when changing from use with raw animal products to use with other products.			
K042: Proper Waste Disposal; Facilities Maintained	0.5		Uncorrected as of 5/2/2025
Observed the bag-in-a-box set up inside the mop sink. The operator said that they don't use a mop bucket and they dispose of wastewater into the floor sink in the kitchen.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5		Uncorrected as of 5/2/2025
Observed soiled wood blocks in contact with the floor, used to prop up the prep table and the hot line table. All finishes must be smooth, durable, non-porous, and easily cleanable. Replace the wood blocks with a approved substitute.			
K050: Impoundment/Voluntary Condemnation and Destruction	0.0		Uncorrected as of 5/2/2025

This shed contains equipment for catering. -Ensure all rodent dropping and urine are cleaned and sanitized throughout facility. -Ensure all food contact surfaces are cleaned and sanitized every morning. -It is recommended to increase the frequency of pest control services until the problem is under control. Currently pest control comes once a month.	2.0	04/07/2025	Uncorrected as of 5/2/2025
K024: Person In Charge Present and Performs Duties; Valid Certification Ensure food manager card is obtained as soon as possible. Please send a copy of the certification once it has been completed.	1.0	04/07/2025	Uncorrected as of 5/2/2025
K030: Food Storage; Food Storage Containers Identified Observed onions and potatoes being stored outside in an unsealed container. Ensure all food properly stored inside the facility.	0.5	04/07/2025	Uncorrected as of 5/2/2025
K054: Repeat Violations - Good Retail Practices (24 -51)	2.0		Uncorrected as of 5/2/2025

Inspection Date: 03/19/2025

Type of Service Description: CHANGE OF OWNERSHIP INSPECTION

Inspection Result Description: PERMIT VIOLATION

Department Action Description: CLOSED UNTIL ABATED

Score: 96.5

Overall Inspection Comments: Ensure one employee obtains a Food Managers Card, and all other employees obtain food handlers cards. One person who is regularly working at the facility is required to have a food managers card. Facility has 60 days from the change of ownership inspection to obtain certifications.

Violation Item	Points Lost	Comply By Date	Complied On Date
K023: No Rodents, Insects, Birds, or Animals 1) Observed several live German cockroaches in various stages of their life cycle. 2) Observed evidence of rodent activity throughout the facility including evidence of droppings and strong urine smell in multiple critical areas. Prior to re-opening; a) Have an invoice available for review following work done by a professional pest management company. Ensure professionals eliminate all cockroaches and rodents from the facility and identify all possible points of entry into the building. b) Ensure all points of entry are sealed and repaired. c) Clean and sanitize all affected areas. d) Eliminate all sources of food and water.	2.0	03/19/2025	Uncorrected as of 5/2/2025
K035: Adequate/Approved Equipment/Utensils, Maintained -Observed unused equipment behind the facility. Remove unused equipment from the property to eliminate harborage for vermin.	0.5	03/19/2025	Uncorrected as of 5/2/2025
K036: Equipment, Utensils and Linens: Storage and Use Observed several refrigeration and freezer units outside of the facility in unsealed sheds. All food and food contact surfaces must be maintained stored in a manner that inhibits contamination. Move refrigeration units inside.	0.5		Uncorrected as of 5/2/2025

Record ID: PR0014895

Program Description: HR25 - RESTAURANT (SEATING 51 +) - FULL PREP

Inspection Date: 02/14/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: IN COMPLIANCE

Department Action Description: NEXT REGULAR

Score: 100.0 **Award of Excellence Issued**

Overall Inspection Comments: Education and direction regarding the following topics were given at the time of the inspection:

- 1) Warewashing
- 2) Major Food Allergens
- 3) Cooling
- 4) Sanitizer bucket set up and concentration.

At the time of the inspection two floor drain covers were not observed in place. Turbid water was filling the pipe almost to the level of the floor. Upon questioning, the person in charge stated that the traps needed to be cleaned. The traps were cleaned and the drain flowed. No evidence of wastewater discharge was observed at the time of the inspection. The operator is directed to repair the issue so the floor drain covers can be permanently attached as designed.

Facility Name: CJ'S RESTAURANT

Facility ID: FA0016849

Site Address: 611 E GRAND AVE, ARROYO GRANDE

Record ID: PR0022470

Program Description: HR25 - RESTAURANT (SEATING 51 +) - FULL PREP

Inspection Date: 06/17/2024

Type of Service Description: CHANGE OF OWNERSHIP INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 92.0

Overall Inspection Comments: Change of ownership inspection for food facility. Facility is conditionally approved to open (in July); see comments above for changes that need to be made in order to bring facility up to current code requirements. Ensure all new equipment/flooring is approved prior to installation.

Violation Item	Points Lost	Comply By Date	Complied On Date
K041: Plumbing; Proper Backflow Devices	0.5	07/08/2024	01/23/2025
-Observed two grease traps underneath warewashing station. Ensure grease traps are moved out of food preparation/utensil storage areas. Per CA Retail Food Code, "a grease trap or grease interceptor shall not be located in a FOOD or UTENSIL handling area unless specifically APPROVED by the ENFORCEMENT AGENCY." If Building and Planning department approves location in writing, grease traps do not have to be moved. - Observed three compartment sink directly plumbed. Ensure three compartment sink is indirectly plumbed into a floor sink. If Building and Planning department requires three compartment sink to be directly plumbed, then it can remain the way it is.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	07/08/2024	01/23/2025
- Observed degrading sheet vinyl in front prep station. Repair/replace. Ensure facility installs flooring from the approved flooring list on the EHS website. - Observed no coving in toilet rooms. If cleanability becomes an issue, coving will need to be installed. - Observed degrading paint, hole in wall (near prep line hand wash sink) and chipped corners in food facility. Ensure all floors/walls/ceilings are smooth, nonabsorbent and easily cleanable.

Site Address: 3165 BROAD ST, SAN LUIS OBISPO

Record ID: PR0000831

Program Description: HR25 - RESTAURANT (SEATING 51 +) - FULL PREP

Inspection Date: 11/14/2024

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 95.5

Overall Inspection Comments: While the food workers at the facility do a great job keeping their work areas clean and sanitized and are observing safe food handling practices, the facility presents with a multitude of structural and equipment related inconsistencies. Those have been documented over several years. Natural deterioration of equipment and structure (floors walls and ceiling) will, if not headed off by regular maintenance and repair, impede regular deep cleaning which can lead to infestations by vectors such as rodents and insects. Pre-existing, non-conforming conditions will have to be brought into code compliance prior to potential change of ownership or as part of a remodel, whichever comes first. In the meantime, the facility should work on repairs of those areas most in need to stay code compliant.

Violation Item	Points Lost	Comply By Date	Complied On Date
K033: Nonfood-Contact Surfaces Clean	<u>0.5</u>	<u>12/03/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Excessive grease, grime and dirt accumulation noted behind, under and around the cook line, as well as the utensil wash area==> use a pressure cleaning device to remove and render those areas easily cleanable by replacing the missing floor tile wherever applicable.			
K034: Warewashing Facility/Test Strips: Adequate, Used	<u>0.5</u>	<u>11/22/2024</u>	<u>Uncorrected as of 5/2/2025</u>
The utensil wash area has to be cleaned and repaired. Remove cutting board from the floor and clean hard to reach places behind the mechanical dishwasher regularly.			
K035: Adequate/Approved Equipment/Utensils, Maintained	<u>0.5</u>	<u>12/03/2024</u>	<u>Uncorrected as of 5/2/2025</u>
From previous reports: Cook line refrigerators are still on casters with raw wooden boards. Wooden boards are neither easily cleanable, nor clean. Please remove grime and dirt accumulation on a regular basis==>upon remodel or change of ownership any and all pre-existing, non-conforming will have to be brought into code compliance, focus on smaller improvements to the facility until then to facilitate regular cleaning.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
In the small storage area next to the mop sink closet there is so much debris on the floor which makes it very difficult to distinguish between potential rodent droppings vs dirt. ==>Maintain ALL food facility areas clean and organized so that regular cleaning can easily be accomplished. Work in a "section by section" approach, as per discussion onsite.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>	<u>03/03/2025</u>	<u>Uncorrected as of 5/2/2025</u>
The flooring throughout this facility is in a state of deterioration and has been written up in the last report to repair/replace: Evaluate the tile (floor and base) throughout the facility. There are multiple areas where broken tile make cleaning very challenging thus not performed. In those areas still present with food and oil debris built up.==>Contact this section with plans for making approved repairs to mainly broken and missing floor tile, but also severely compromised wall covers. The flooring in the walk-in refrigerator is peeling off. Contact this office PRIOR to making repairs to ensure the method and material is approved.			
K054: Repeat Violations - Good Retail Practices (24 -51)	<u>2.0</u>		<u>Uncorrected as of 5/2/2025</u>
The facility presents with a multitude of structural and equipment related inconsistencies which have been documented over several years repeatedly. The same conditions apply today. Natural deterioration of equipment and structure (floors walls and ceiling) will, if not headed off by regular maintenance and repair as needed, impede regular deep cleaning. Those pre-existing, non-conforming conditions will have to be brought into code compliance prior to potential change of ownership or as part of a remodel, whichever comes first. In the meantime the facility should work on repairs of those areas most in need to stay code compliant.

Department Action Description: NEXT REGULAR

Score: 93.5

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized	3.0	02/25/2025	
1) ONo sanitizer was measured in the sanitizer bucket. No active preparation was observed at the time of the inspection. A sanitizer bucket with a concentration of 100 ppm chlorine or 200 ppm quaternary ammonium is required during active preparation. 2) Observed butcher paper covering the prep table. The person in charge stated that the butcher paper was changed once a week. All food facility finishes must be smooth, durable, non-porous and easily cleanable. Discontinue covering the table with paper.			
K021: Hot and Cold Water Available	2.0	Uncorrected as of 5/2/2025	
Hot water was measured at a maximum of 116F. Maintain an adequate supply of hot potable water (minimum of 120°F) and cold potable water under pressure to all sinks (except hand washing sinks).			
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	Uncorrected as of 5/2/2025	
Not every employee had a food handler card available for review at the time of the inspection. Ensure all food employees have a valid/current food handler card/certificate. Please note that an employee with a Food Safety Manager's Certificate cannot act as food safety manger in multiple locations. Each location must have it's own Food Safety Manager.			
K040: Wiping Cloths: Properly Used and Stored	0.5	Uncorrected as of 5/2/2025	
Observed wet wiping clothes stored outside of the sanitizer bucket. Discontinue using wiping cloths for multiple uses without storing in sanitizing solution.

Score: 89.5

Overall Inspection Comments: Food facility needs to have a plumber come out as soon as possible to check underground plumbing and floor sink. See comments below for more detailed information.

This facility will be re-inspected in two weeks to ensure that the plumbing/backflow issue has been addressed.

Called owner after inspection to discuss all of my comments and to let him know that I will be back in a couple of weeks to see if these issues have been addressed.

Violation Item	Points Lost	Comply By Date	Complied On Date
K007: Proper Hot and Cold Holding Temperatures	<u>3.0</u>	<u>07/07/2023</u>	<u>Corrected On Site</u>
Refrigeration units were at ambient temperatures 43/45F due to prep top units being open and a delivery just being put in the walk-in refrigerator. - Ensure prep top lids are closed to maintain temperatures at 41F or below. Corrected on site by manager. - Ensure walk-in refrigerator is maintained at 41F or below after delivery.			
K024: Person In Charge Present and Performs Duties; Valid Certification	<u>1.0</u>	<u>07/10/2023</u>	<u>01/19/2024</u>
Facility was not able to show any food handler or food manager certifications on site. Ensure all employees have food handlers certifications and at least one employee has a food manager certification. Ensure these certifications are stored on site and able to be shown during time of inspection.			
K027: Food Separated and Protected	<u>1.0</u>	<u>07/07/2023</u>	<u>01/19/2024</u>
Observed shell eggs being stored above ready to eat foods. Ensure all food products are stored so as to be protected from contamination at all times. To protect food from cross-contamination during storage, always store cooked and ready to eat foods above raw foods.			
K030: Food Storage; Food Storage Containers Identified	<u>0.5</u>	<u>07/08/2023</u>	<u>01/19/2024</u>
1. Observed multiple buckets of beans and chicken in walk-in refrigerator without lids/covers. Ensure all food items are stored with sufficient protection (lids) to prevent cross contamination. 2. Observed bags of beans and sugar open in dry storage area near chemicals. Ensure all bulk food is in a container with a lid and in an area approved for open food storage.			
K034: Warewashing Facility/Test Strips: Adequate, Used	<u>0.5</u>	<u>07/08/2023</u>	<u>01/19/2024</u>
Observed no sanitizer test strips at food facility. Provide approved and correct testing equipment to test for sanitizer concentration.			
K035: Adequate/Approved Equipment/Utensils, Maintained	<u>0.5</u>	<u>07/08/2023</u>	<u>01/19/2024</u>
Observed bucket of water in walk-in refrigerator catching water droplets from fan. Ensure all equipment is maintained and in good repair. Repair/replace walk-in refrigerator.			
K040: Wiping Cloths: Properly Used and Stored	<u>0.5</u>	<u>07/07/2023</u>	<u>01/19/2024</u>
REPEAT VIOLATION: Observed wiping cloths being kept on prep line. Ensure wiping cloths are stored in sanitizer solution when not in use.			
K041: Plumbing; Proper Backflow Devices	<u>0.5</u>	<u>07/07/2023</u>	<u>01/19/2024</u>
REPEAT VIOLATION: Observed foul odor in back kitchen area, possibly emitting from floor drain near kitchen entrance. There was also fluid on kitchen floor by prep line. This plumbing issue needs to be addressed immediately. Floors need to be cleaned and sanitized to prevent any cross contamination from the fluid on the floor.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	<u>0.5</u>	<u>07/07/2023</u>	<u>01/19/2024</u>
1. REPEAT VIOLATION: Observed old equipment being stored in back area of food facility. Ensure the premises is kept free of litter and items that are unnecessary to the operation and/or maintenance of the facility. 2. Observed open door in the back of food facility. Ensure kitchen is enclosed at all times. If getting a delivery, maintain fly fan/air curtain on during times of delivery.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>	<u>07/07/2023</u>	<u>01/19/2024</u>
1. REPEAT VIOLATION: Observed food debris/ grime build up throughout food facility. Ensure all floors/walls/ceilings are cleaned and sanitized on a regular basis. 2. Observed broken/cracked tiles throughout food facility. Ensure all floors are maintained and in good repair throughout food facility.			

Two Years of Retail Food Facility Inspection Results

Score: 88.5

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K007: Proper Hot and Cold Holding Temperatures	5.0	03/28/2025	
Observed large containers of breakfast food held on a prep table without temperature control. Measured sausage links at 55F and cut sausage pieces at 53F. A food employee stated that the food had been removed from temperature control at 7 AM. Education and direction regarding 2 hour prep time were given at the time of the inspection. Education and direction regarding Time as a Public Health Control were given at the time of the inspection. The violations were corrected onsite by an employee voluntarily discarding the food in the trash.			
K021: Hot and Cold Water Available	2.0	Uncorrected as of 5/2/2025	
Hot water was not available at the hand sink in the men's restroom. Maintain an adequate supply of hot potable water under pressure to all sinks.			
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	Uncorrected as of 5/2/2025	
1) No food safety manager's certificate was available for review at the time of the inspection. Ensure the food facility owner or an employee has a valid/current food safety protection certificate or ensure all food employees have adequate knowledge of, and are properly trained in food safety as it relates to their assigned duties. 2) Not every employee had a food handler card available for review at the time of the inspection. Ensure all food employees have a valid/current food handler card/certificate.			
K029: Toxic Substances Properly Identified, Stored, Used	0.5	Uncorrected as of 5/2/2025	
Observed a can of raid inside the facility. Only pesticides that are specifically authorized for use inside a food facility may be used. Only people who are licensed pest control operators may apply pesticides inside a food facility. Discard the unapproved pesticide.			
K033: Nonfood-Contact Surfaces Clean	0.5	Uncorrected as of 5/2/2025	
Observed an accumulation of grime on the beer service lines inside the walk in cooler. Ensure all nonfood-contact surfaces are maintained clean.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	Uncorrected as of 5/2/2025	
Observed an unsecured CO2 cylinder in the walk in cooler. Properly secure the pressurized CO2 tank.			
K042: Proper Waste Disposal; Facilities Maintained	0.5	Uncorrected as of 5/2/2025	
Observed the janitorial sink to be inaccessible due to an accumulation of kitchen supplies and utensils. The person in charge stated that mop water was emptied into the three compartment sink. Make the janitorial sink accessible and begin discarding mop water into the janitorial sink.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	Uncorrected as of 5/2/2025	
Observed evidence of deferred cleaning on the floor, especially between the true display cooler and the wall in the walk-in cooler prep area.			
K047: Signs Posted; Last Inspection Report Available	0.5	Uncorrected as of 5/2/2025	
The last inspection report was not available for review at the time of the inspection. Maintain a copy of the most recent routine inspection report at the facility.

Violation Item	Points Lost	Comply By Date	Complied On Date
K007: Proper Hot and Cold Holding Temperatures	3.0	10/17/2024	Corrected On Site
Observed two door reach in fridge next to ice machine holding at 55F. Ensure refrigeration units are at 41F or below at all times. Corrective action: operator adjusted thermostat and called technician. Food to be moved to walk-in.			
K008: Procedures/Records for Time as PH Control Method	2.0	10/17/2024	Uncorrected as of 5/2/2025
Fresh mozzarella cheese found at room temperature (approx 70F). The cheese is made fresh at the facility in the morning. Mozzarella contains more moisture than hard cheeses and should not be kept unrefrigerated as it qualifies as a potentially hazardous food. If a variance to this code requirement is sought it must be obtained from California Department of Food and Agriculture (CDFA). ==> until a variance is obtained, the following options are available to be in compliance: 1) The cheese can remain at room temperature for a maximum of 4 hours and any left overs must be discarded. Label product with a sticker indicating at what time it was made and when it must be disposed. 2) OR cheese must remain at or below 41F at all times.			
ONGOING REPEAT VIOLATION.			
K024: Person In Charge Present and Performs Duties: Valid Certification	1.0	10/17/2024	Uncorrected as of 5/2/2025
Food Manager Certificate on file is expired. Ensure at least one person has a valid Food Manager Certificate and all others have a valid Food Handlers Card. Keep copies of certificates on site at all times.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	10/17/2024	Uncorrected as of 5/2/2025
Discontinue washing dishes and storing dirty dishes in the food preparation sink in deli area. Food preparation sinks shall be used strictly for food preparation to protect from cross contamination.			
K038: Approved Lighting/Ventilation: Adequate, Used	0.5	10/17/2024	Uncorrected as of 5/2/2025
Observed heavy dust accumulation on the fan cover in the walk-in. Clean more frequently.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	10/17/2024	Uncorrected as of 5/2/2025
Floors throughout kitchen are in need of cleaning, especially in hard to reach areas (under racks, equipment, cook line).			
K053: Repeat Violations - Critical (1 - 23)	5.0	10/17/2024	Uncorrected as of 5/2/2025
REPEAT VIOLATIONS: - Mozzarella cheese at room temp

Violation Item	Points Lost	Comply By Date	Complied On Date
K001: Demonstration of Knowledge	5.0	12/23/2024	Uncorrected as of 5/2/2025
Staff was not able to demonstrate food safety knowledge practices and principles in regards to sanitation. Food facility has not been using sanitizer to properly clean equipment and food contact surfaces. Warewashing requirements were reviewed with staff. Ensure all equipment and food contact surfaces are sanitized with 100 ppm chlorine or 200 ppm quat. Obtain test strips to ensure proper dosage.			
K014: Food Contact Surfaces: Clean and Sanitized	3.0	12/23/2024	Corrected On Site
At the time of the inspection sanitizer buckets contained less than 100 ppm chlorine. Ensure bleach or quaternary ammonium is used to make up sanitizer buckets. Ensure a concentration of at least 100 ppm chlorine concentration. Ensure chlorine sanitizer test strips are obtained and used to monitor sanitizer in solution. Corrected on site.			
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	12/27/2024	Uncorrected as of 5/2/2025
Unable to verify Food Manager/ Food Handler Cards at the time of the inspection. Ensure at least one employee obtains a valid Food Manager Certificate and all others have valid Food Handler Cards. Store copies on site for inspector review.			
K034: Warewashing Facility/Test Strips: Adequate, Used	0.5	12/27/2024	Uncorrected as of 5/2/2025
REPEAT VIOLATION: Unable to verify test strips at the time of the inspection. Ensure chlorine test strips are obtained and used to measure 100 ppm chlorine in solution at the 3-compartment sink and in the wiping cloth buckets.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	12/27/2024	Uncorrected as of 5/2/2025
Observed a build up of grime on refrigeration handles. Ensure equipment is maintained clean, functional, and in good repair.			
K038: Approved Lighting/Ventilation: Adequate, Used	0.5	12/27/2024	Uncorrected as of 5/2/2025
Observed a build up of food debris on hood filters. Clean and maintain the hood grease filters and hood surfaces.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	12/27/2024	Uncorrected as of 5/2/2025
Observed mop being stored in mop bucket. Ensure mops are hung up to air dry without soiling walls or equipment. Facility could install a mop hook.			
K054: Repeat Violations - Good Retail Practices (24 -51)	2.0		Uncorrected as of 5/2/2025
See comments in section 34.

Facility Name: DOMINO'S PIZZA

Facility ID: FA0000781

Site Address: 129 S FRONTAGE RD, NIPOMO

Record ID: PR0000781

Program Description: MR23 - RESTAURANT (SEATING UNDER 10) - MODERATE PREP

Inspection Date: 04/17/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 92.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized	3.0	04/17/2025	Corrected On Site
Observed no sanitizer solution set up during active food preparation. Ensure all food contact surfaces are maintained clean and sanitized. Food facility needs to set up sanitizer solution/buckets during active food preparation and ensure sanitizer concentration is 100ppm bleach or 200ppm quaternary ammonium. Corrected on site.			
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	04/21/2025	Uncorrected as of 5/2/2025
REPEAT VIOLATION: Unable to verify food manager safety certification or food handler cards for all employees. Ensure facility has at least one person/owner with a valid food manager safety certification and all other employees obtain a food handler card. Ensure copies are stored on site and able to be presented during time of inspection.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	04/19/2025	Uncorrected as of 5/2/2025
Observed raw wood near electrical panel in back kitchen. Raw wood is not approved for food facilities. Ensure raw wood is rendered smooth, nonabsorbent and easily cleanable.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	04/19/2025	Uncorrected as of 5/2/2025
- Observed accumulation of food debris underneath equipment. Ensure all floors/walls/ceilings are maintained clean. Facility can implement a deep cleaning schedule to ensure equipment is moved for cleaning. - Observed hole in wall in dry storage room. Ensure all walls are maintained in good repair. - Observed chipped paint in doorway of dry storage room. Repair/replace. Ensure all walls are maintained smooth, nonabsorbent and easily cleanable.			
K047: Signs Posted; Last Inspection Report Available	0.5	04/18/2025	Uncorrected as of 5/2/2025
Ensure copy of most recent health inspection report is maintained on site.			
K049: Permits Available	0.5	04/19/2025	Uncorrected as of 5/2/2025
REPEAT VIOLATION: Ensure 2025 Health Permit is posted in a conspicuous place.			
K054: Repeat Violations - Good Retail Practices (24 -51)	2.0	04/17/2025	Uncorrected as of 5/2/2025
See comments in section 24 and 49.

Score: 99.0 Award of Excellence Issued

Overall Inspection Comments: Education and direction regarding Time as a Public Health Control were given at the time of the inspection.

Please maintain written procedures and develop a process for labeling food with the time it will expire.

114000. Time as a public health control

(a) Except as specified in subdivision (b), if time only, rather than time in conjunction with temperature, is used as the public health control for a working supply of POTENTIALLY HAZARDOUS FOOD before cooking or for READY-TO-EAT POTENTIALLY HAZARDOUS FOOD that is displayed or held for service for immediate consumption, the following shall occur:

(1) The FOOD shall be marked or otherwise identified to indicate the time that is four hours past the point in time when the FOOD is removed from temperature control.

(2) The FOOD shall be cooked and served, served if ready-to-eat, or discarded within four hours from the point in time when the FOOD is removed from temperature control.

(3) The FOOD in unmarked containers or packages or marked to exceed a four-hour limit shall be discarded.

(4) Written procedures shall be maintained in the FOOD FACILITY and made available to the ENFORCEMENT AGENCY upon request, that ensure compliance with this section and Section 114002, for FOOD that is prepared, cooked, and refrigerated before time is used as a public health control.

Violation Item	Points Lost	Comply By Date	Complied On Date
AWRD: EXCELLENCE AWARD	0.0		
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0		Uncorrected as of 5/2/2025
Not every employee had a food handler card available for review at the time of the inspection. Ensure all food employees have a valid/current food handler card/certificate.			
The new manager must obtain a food safety manager's certificate within 60 days of taking the position.			

Inspection Date: 06/19/2024

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 84.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K005: Proper Handwash Procedures and Glove Use	5.0	06/19/2024	Corrected On Site
Observed latex gloves being used in food facility. Per CA Retail Food Code (section 113973): The use of latex gloves is prohibited in FOOD FACILITIES and RETAIL FOOD establishments. Types of nonlatex gloves that may be used in a FOOD FACILITY or RETAIL FOOD establishment include, but are not limited to, nitrile, polyethylene, and vinyl. Employee discarded latex gloves.			
K007: Proper Hot and Cold Holding Temperatures	3.0	06/19/2024	Corrected On Site
Observed pizza sauce and garlic parmesan spread being kept on counter. Ensure all potentially hazardous food items are maintained at 41F or below. Employee was instructed to put items back into refrigeration. Facility can also use time as a public health control (TPHC) method if they want to keep these items out of temperature compliance. If TPHC method is used, then all food items must be discarded after four hours.

Inspection Date: 03/28/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 99.0 **Award of Excellence Issued**

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
AWRD: EXCELLENCE AWARD	0.0		
K034: Warewashing Facility/Test Strips: Adequate, Used	0.5	04/28/2025	Uncorrected as of 5/2/2025
Provide approved and correct testing equipment to test for sanitizer concentration. If Chlorine is utilized ensure the sanitizing solution measures at 100 ppm OR if a quat based sanitizer is used ensure that the sanitizing solutions measures at 200ppm.			
K041: Plumbing: Proper Backflow Devices	0.5	03/28/2025	Corrected On Site
- At the beginning of the inspection, the faucet spout (of the 3 compartment sink) completely detached when a staff member was beginning to prepare/fill the compartments with water. The staff member was able to twist the faucet spout back on. Please monitor the faucet to ensure it doesn't become loose again/problematic. Corrected on site.			
- Observed the hose at the janitorial sink completely submerged in the sink basin. Ensure it is always kept out of it to prevent backflow. Corrected on site.

Facility Name: DUTCHMAN'S LANDING

Facility ID: FA0000049

Site Address: 701 EMBARCADERO, MORRO BAY

Record ID: PR0000049

Program Description: HR25 - RESTAURANT (SEATING 51 +) - FULL PREP

Inspection Date: 02/27/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 86.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K007: Proper Hot and Cold Holding Temperatures Observed raw fish fillets in a tray in an ice bath measuring 48F - 50F. Maintain all potentially hazardous foods (PHF) at 41°F or below or at or above 135°F.	3.0		Uncorrected as of 5/2/2025
K014: Food Contact Surfaces: Clean and Sanitized Observed an accumulation of debris on the table mounted can opener. Clean and sanitize the can opener. Food debris on the can opener must be washed, rinsed and sanitized within 4 hours to prevent cross contamination of food.	3.0		Uncorrected as of 5/2/2025
K016: Shell Stock: Quality, Storage, Tags 1) Observed portioned clams and mussels in the reach in cooler without shell stock tags. This violation was corrected by the facility cooking the food very thoroughly to above 145F and by discontinuing storing shell stock without proper tags or a log to associate each shell stock piece with the appropriate tag information. Discontinue repackaging shellstock without shellstock tag or approved labeling. 2) The frozen clam and mussel tag information was not kept as required. Maintain shellfish certification tags with the original container until empty, and then maintain tags in chronological order on the premises for a period of not less than 90 days from the date of harvest.	3.0		02/27/2025
K018: HACCP/Variance Required: Approved/Records Kept 1) Observed cooked chicken in reduced oxygen packaging (ROP) dated 2/18/25. This violation was corrected by an employee voluntarily discarding the food in the trash. 2) Observed raw chicken in ROP marked with the date prior to the inspection but without the approved label of date and time packaged. This violation was corrected by opening the ROP and returning the food to be held at 41 or below. Discontinue preparing or processing foods using reduced oxygen packaging at the facility unless as exempted, until an approved HACCP plan is obtained from the CA Department of Public Health.	2.0		02/27/2025
K023: No Rodents, Insects, Birds, or Animals Observed evidence of rodent activity in the attic storage area where food contact utensils are stored. Effective pest control consists of the following: 1) Seal all cracks and crevices that may provide entrance or harborage. Maintain the facility fully enclosed. Remove unused or unneeded equipment to eliminate stagnated areas where harborage might continue unnoticed. 2) Remove sources of food 3) Remove sources of water 4) Maintain regular professional pest control service. The operator is directed to clean and sanitize all affected areas.	2.0		Uncorrected as of 5/2/2025
K040: Wiping Cloths: Properly Used and Stored Observed wet towels and a soiled dry towel stored on a prep surface. Discontinue using wiping cloths for multiple uses without storing in sanitizing solution.	0.5		Uncorrected as of 5/2/2025
K044: Premises; Personal/Cleaning Items; Vermin-Proofing Observed the kitchen back door propped open. Maintain all exterior doors closed except when in use.	0.5		Uncorrected as of 5/2/2025

Violation Item	Points Lost	Comply By Date	Complied On Date
K027: Food Separated and Protected	1.0	06/27/2024	
Observed uncovered containers with meat in cook line prep cooler. Ensure all food products are stored so as to be protected from contamination at all times.			
K030: Food Storage; Food Storage Containers Identified	0.5	07/11/2024	02/28/2025
1) Observed tray with food on floor of walk in cooler. Properly elevate food items/packages/container at least 6 inches above the floor.			
2) Observed unlabeled white bins with bulk food. Provide labels to all working containers to indicate contents.			
K033: Nonfood-Contact Surfaces Clean	0.5	07/11/2024	02/28/2025
1) Observed debris accumulation on rubber door gaskets in salad prep cooler. Clean, sanitize and maintain.			
2) Observed mold like growth on ice machine deflector panel. Clean, sanitize and maintain on routine schedule.			
K038: Approved Lighting/Ventilation: Adequate, Used	0.5	07/11/2024	02/28/2025
Observed light shields on light bulb missing in bar fridge and in walk-in freezer. Ensure all light bulbs are either shatter proof/coated/or shielded to prevent contamination of food/equipment/utensils.			
K039: Thermometers Provided and Accurate	0.5	07/11/2024	02/28/2025
Ensure to provide an accurate thermometer to all refrigeration units holding Potential Hazardous Foods (PHF).

Violation Item	Points Lost	Comply By Date	Complied On Date
K018: HACCP/Variance Required: Approved/Records Kept	2.0	07/10/2023	Corrected On Site
Facility is packaging food using reduced-oxygen packaging (ROP) but does not have a state approved HACCP plan. Any retail food facility processing potentially hazardous foods using ROP is required to have a Hazardous Analysis Critical Control Point (HACCP) plan approved by California Department of Public Health (CDPH) (Cal Code 114057.1). IMMEDIATELY DISCONTINUE USING ROP AND DISPOSE OF ALL ROP PRODUCTS UNTIL YOU HAVE SUBMITTED A HACCP PLAN AND BEEN APPROVED BY THE CDPH OR FOLLOW THE BELOW EXEMPTION RULES. Exemption: Your retail food facility is not required to have an approved HACCP plan for ROP of potentially hazardous food if all the following standards are always met: 1. The food is labeled with the production time and date. 2. The food is held at 41° F or lower during refrigerated storage. 3. The food is removed from its package in the food facility within 48 hours after packaging. The lack of oxygen creates an anaerobic environment, which favors the growth of two very dangerous pathogens: Clostridium botulinum and Listeria monocytogenes. Continued operation of a ROP procedure without an approved HACCP plan can result in condemnation of all ROP products, impoundment of any equipment used for ROP, or suspension of your permit to operate. To request a CDPH-FDB ROP HACCP plan review, submit a hard copy of the ROP HACCP plan along with a completed Retail Food Program Service Request Application and fee to the address on the application. For information on submitting a HACCP plan for approval, please contact CDPH at (916) 650-6500 or by e-mail, fdinfo@cdph.ca.gov Once you have received a letter of approval, please contact your inspector to review your HACCP plan. ** California Retail Food Code section 114057.1. (c) Except for FISH that is FROZEN before, during, and after packaging, a FOOD FACILITY shall not package FISH using a reduced-oxygen packaging method.			
K034: Warewashing Facility/Test Strips: Adequate, Used	0.5	07/10/2023	12/02/2024
Obtain sanitizer test strips to ensure 100ppm chlorine sanitizer or 200ppm quaternary ammonium sanitizer in solution.

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 97.0

Overall Inspection Comments: Change of ownership inspection for food facility. Please contact EHS department for guidance on flooring/construction updates that are necessary for this food facility. See comments below for details.

Violation Item	Points Lost	Comply By Date	Complied On Date
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	06/04/2024	Uncorrected as of 5/2/2025
Observed no valid/current food safety certifications. Ensure at least one employee/owner has a food manager safety certification and all other employees obtain a valid/current food handler safety certification. Ensure copies are kept on site and available for review during time of inspection.			
FACILITY HAS 60 DAYS TO OBTAIN PROPER FOOD SAFETY CERTIFICATIONS.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	04/06/2024	Uncorrected as of 5/2/2025
Observed leaking faucet at employee toilet room hand washing sink. Repair/replace. Ensure all equipment is maintained in good repair.			
K038: Approved Lighting/Ventilation: Adequate, Used	0.5	04/05/2024	Uncorrected as of 5/2/2025
Observed light out in hood system (wood burning area). Repair/replace.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	06/04/2024	Uncorrected as of 5/2/2025
Observed multiple construction violations that need to be corrected by new owner of food facility. Please contact inspector prior to any work being done.			
- Observed raw wood on window above food preparation sink. Raw wood is not an approved material in food facilities. - Observed coving that needs to be repaired by three compartment sink and mop sink. - Observed hole in the wall by piping underneath three compartment sink. - Observed particle board ceiling tiles in back storage room. These ceiling tiles are not approved in food facilities. - Observed no coving in dry storage room/ice machine room. Provide the required 4" base coving with 3/8 inch radius coving. - Observed unsealed concrete in front prep area (near pizza oven). - Observed degrading concrete in back storage area. - Observed roll up door near front prep station. This door is to remain closed during active food preparation. If a permanent screen door can be installed, then the roll up door may be open during active food preparation.			
Ensure all floors/walls/ceilings in food facility are smooth, nonabsorbent, easily cleanable and maintained in good repair.			
K047: Signs Posted; Last Inspection Report Available	0.5	04/04/2024	Uncorrected as of 5/2/2025
Observed no hand washing signs at front prep hand wash sink and back kitchen hand wash sink. Ensure every hand wash sink has a hand washing sign.

Score: 84.0

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	3.0	06/18/2024	Corrected On Site
Staff are using a two compartment sink for hand washing as there is no hand wash sink located in the facility. Ensure a pump soap dispenser and single service paper towel dispenser are provided at sink and are stocked at all times. Ensure a hand wash sink is installed for hand washing at all times. Submit spec sheets for approval, prior to installing.			
K014: Food Contact Surfaces: Clean and Sanitized	3.0	06/18/2024	Corrected On Site
Facility not approved for food processing (such as slicing and prepackaging bulk foods) as there is no three compartment sink on-site for sanitizing equipment and utensils. Discontinue slicing meats and cheeses at facility until a three compartment sink is installed per current code requirements (indirect drainage, properly sized, more durable wall covering, etc.). Please contact this division for additional information regarding the installation of three compartment sinks. In lieu of installing a three compartment sink, facility may choose to slice meats and cheeses at production facility and transport sliced foods to the retail facility for sale or consumption. Foods must be protected from contamination during transport.			
Please advise inspector which option will be utilized for code compliance.			
K024: Person In Charge Present and Performs Duties: Valid Certification	1.0	06/28/2024	Uncorrected as of 5/2/2025
Ensure a Food Managers Certificate is obtained. Store copy on site, available for Inspector review upon request. Ensure all other employees obtain a Food Handler card and store copy on site.			
K034: Warewashing Facility/Test Strips: Adequate, Used	0.5	06/28/2024	Uncorrected as of 5/2/2025
Provide sanitizer testing strips. Monitor sanitizer levels in wiping cloth buckets to ensure a minimum effective residual is maintained. None observed at the time of inspection.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	06/28/2024	Uncorrected as of 5/2/2025
Observed unapproved, household refrigeration/freezer combo. Ensure only NSF/commercial grade equipment is installed/used in facility.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	06/28/2024	Uncorrected as of 5/2/2025
Observed household stove in facility without hood system. Ensure unit is not used as facility does not have an approved hood system. Contact local fire department for installation. Or remove from facility.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5		Uncorrected as of 5/2/2025
Per current code requirements restroom doors shall be self closing and self latching. Install self closing device on restroom door.			
K053: Repeat Violations - Critical (1 - 23)	5.0	06/18/2024	Uncorrected as of 5/2/2025
REPEAT VIOLATION:			
1. Staff are using a two compartment sink for hand washing as there is no hand wash sink located in the facility. Ensure a pump soap dispenser and single service paper towel dispenser are provided at sink and are stocked at all times. Ensure a hand wash sink is installed for hand washing at all times. Submit spec sheets for approval, prior to installing.			
2. Facility not approved for food processing (such as slicing and prepackaging bulk foods) as there is no three compartment sink on-site for sanitizing equipment and utensils. Discontinue slicing meats and cheeses at facility until a three compartment sink is installed per current code requirements (indirect drainage, properly sized, more durable wall covering, etc.). Please contact this division for additional information regarding the installation of three compartment sinks. In lieu of installing a three compartment sink, facility may choose to slice meats and cheeses at production facility and transport sliced foods to the retail facility for sale or consumption. Foods must be protected from contamination during transport.			

Please advise inspector which option will be utilized for code compliance.

K014: Food Contact Surfaces: Clean and Sanitized	3.0	12/16/2024	Uncorrected as of 5/2/2025
Facility had no sanitizer buckets set up in the kitchen but was actively preparing foods. Ensure a sanitizer solution of 100ppm chlorine or 200ppm quaternary ammonium is prepared BEFORE beginning any type of food preparation. Sanitizer solution shall be changed every 4 hours or more often if needed. Check using the appropriate test strips. Corrected on site. REPEAT VIOLATION.			
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	12/16/2024	Uncorrected as of 5/2/2025
Some employees are missing a Food Handlers Card (specifically the Manager on site). Ensure at least one employee has a valid Food Manager Certificate and all other employees have a valid Food Handlers Card. Keep copies on site and available for review during inspections. REPEAT VIOLATION.			
K034: Warewashing Facility/Test Strips: Adequate, Used	0.5	12/16/2024	Uncorrected as of 5/2/2025
Obtain chlorine sanitizer test strips to ensure 100ppm sanitizer concentration. Use daily to check sanitizer buckets and the 3-compartment sink.			
K038: Approved Lighting/Ventilation: Adequate, Used	0.5	12/16/2024	Uncorrected as of 5/2/2025
Observed very heavy accumulation of grease inside the ventilation hood. Clean more frequently to prevent risk of fire.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	12/16/2024	Uncorrected as of 5/2/2025
- Observed both front and back door propped open without screens. Either keep doors closed or install tight fitting screens to prevent entrance of vermin (rodents, cockroaches, flies). - Observed employee belongings (phone, lunch bag) sitting on top of the pizza prep top unit. Discontinue storing employee belongings on food contact surfaces. Store in a designated area away from food, food equipment, and food prep surfaces.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	12/16/2024	Uncorrected as of 5/2/2025
Observed deteriorating walls in the employee restroom. Plan for future repairs to ensure the walls are smooth, non-absorbent, and easily cleanable. REPEAT VIOLATION.			
K053: Repeat Violations - Critical (1 - 23)	5.0	12/16/2024	Uncorrected as of 5/2/2025
REPEAT VIOLATION: - #14			
K054: Repeat Violations - Good Retail Practices (24 -51)	2.0	12/16/2024	Uncorrected as of 5/2/2025
REPEAT VIOLATIONS: - #24 - #35

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized	<u>3.0</u>	<u>08/08/2023</u>	<u>Corrected On Site</u>
Facility had no sanitizer buckets set up in the kitchen but was actively preparing foods. Ensure a sanitizer solution of 100ppm chlorine or 200ppm quaternary ammonium is prepared BEFORE beginning any type of food preparation. Sanitizer solution shall be changed every 4 hours or more often if needed. Check using the appropriate test strips. Corrected on site.			
K023: No Rodents, Insects, Birds, or Animals	<u>2.0</u>	<u>08/08/2023</u>	<u>Uncorrected as of 5/2/2025</u>
Observed several flies inside the kitchen and the back and front doors propped open. Immediately eliminate flies from the facility by safe, legal, and effective means at once. Doors must either remain shut at all times or be equipped with a tight fitting screen and/or air curtain. Air curtains on both doors were turned off at start of inspection.			
K024: Person In Charge Present and Performs Duties; Valid Certification	<u>1.0</u>	<u>08/08/2023</u>	<u>Uncorrected as of 5/2/2025</u>
Some employees are missing a Food Handlers Card. Ensure at least one employee has a valid Food Manager Certificate and all other employees have a valid Food Handlers Card. Keep copies on site and available for review during inspections.			
K035: Adequate/Approved Equipment/Utensils, Maintained	<u>0.5</u>	<u>08/08/2023</u>	<u>Uncorrected as of 5/2/2025</u>
Observed mildew growth on the racks in the "cold drinks" fridge. Clean and sanitize regularly.			
K040: Wiping Cloths: Properly Used and Stored	<u>0.5</u>	<u>08/08/2023</u>	<u>Uncorrected as of 5/2/2025</u>
Multi-use wiping cloths were observed stored on prep surfaces. Discontinue using wiping cloths for multiple uses without storing in sanitizing solution. Store wiping cloths in an approved sanitizer solution between uses or provide a clean cloth for each use.			
K043: Approved Toilets: Maintained, Accessible, Clean	<u>0.5</u>	<u>08/08/2023</u>	<u>Uncorrected as of 5/2/2025</u>
Repair the broken self closing mechanism on the restroom door.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>	<u>08/08/2023</u>	<u>Uncorrected as of 5/2/2025</u>
Observed deteriorating walls in the employee restroom. Plan for future repairs to ensure the walls are smooth, non-absorbent, and easily cleanable. Repeat violation.

Violation Item	Points Lost	Comply By Date	Complied On Date
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	11/01/2024	Uncorrected as of 5/2/2025
Ensure a person in charge obtains a food safety manager certificate AND ensure all food employees have adequate knowledge of, and are properly trained in food safety as it relates to their assigned duties. 60 days will be granted to get certification. Email health inspector proof of completion when done.			
K034: Warewashing Facility/Test Strips: Adequate, Used	0.5	09/13/2024	Uncorrected as of 5/2/2025
Provide approved and correct testing strips to test for sanitizer concentration. If Chlorine is used, ensure the concentration is at 100ppm. If Quat based sanitizer is used ensure concentration is at 200ppm.			
K039: Thermometers Provided and Accurate	0.5	09/13/2024	Uncorrected as of 5/2/2025
Provide secondary thermometers to all refrigeration units holding Potential Hazardous Foods (PHF).			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	09/01/2025	Uncorrected as of 5/2/2025
Observed areas in the back room, where it is evident that the floor sealant has deterioration. Floors must be kept smooth, easily cleanable, and finished with approved materials. If flooring worsens and becomes problematic for cleaning and poses a slipping hazard, ensure it is repaired/re-sealed as soon as possible.

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 94.5

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K007: Proper Hot and Cold Holding Temperatures	5.0	02/18/2025	
1) Observed the following potentially hazardous foods on a prep table at the scullery without temperature control. The person in charge stated they were kept there because they facility was busy and they needed to keep them there during the rush. Carne Asada 82-93F, Al Pastor 74F, Chicken 135F.			
2) Measured a 5 quart cambro full of compound garlic butter at 68 F.			
3) Ribs in the walk in cooler were measured at 64F. The person in charge stated that the ribs are cooked in the smoker at 200F over night. Once the cooking cycle is complete the ribs are left in the smoker overnight before moving them in to the walk in cooler. Discontinue allowing potentially hazardous food to be held at temperatures lower than 135F.			
These violations were corrected by rapidly cooling the PHF to 41F or below.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	Uncorrected as of 5/2/2025	
Observed a beer pitcher stored inside a 5 gallon bucket of salsa in a manner than may allow the handle to contaminate the food. Store all utensils in a manner that does not allow food contamination.

K014: Food Contact Surfaces: Clean and Sanitized

3.0

12/30/2024

Uncorrected as of 5/2/2025

Observed mildew on the panel inside the ice machine. Ice machines and ice dispensers should be cleaned as often as necessary to prevent buildup of mold, bacteria, or other factors that may affect the ice being produced.

Note that cleaning an ice machine or ice dispenser is dependent on the specific make and model you have purchased.

1. Go to the manufacturer website to access information for your machine.
2. Find the cleaning instructions for your type of machine.
3. Discard all ice from the machine prior to cleaning. Use only approved chemicals to sanitize.

K024: Person In Charge Present and Performs Duties; Valid Certification

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized	<u>3.0</u>	<u>08/12/2024</u>	<u>Corrected On Site</u>
- Facility had no sanitizer buckets set up in the kitchen but was actively preparing foods. Ensure a sanitizer solution of 100ppm chlorine or 200ppm quaternary ammonium is prepared BEFORE beginning any type of food preparation. Sanitizer solution shall be changed every 4 hours or more often if needed. Check using the appropriate test strips. Corrected on site. REPEAT VIOLATION. - Discontinue use of the large bucket/bin for mixing pizza sauce. This bucket is too large to fit into the 3-compartment sink and be thoroughly cleaned and sanitized. All equipment that is hand washed must be able to fit into the compartments and fully submerged in water.			
K024: Person In Charge Present and Performs Duties; Valid Certification	<u>1.0</u>	<u>08/12/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Unable to locate or verify food safety certifications for all employees. Ensure at least one employee has a valid Food Manager Certificate and all other employees have a valid Food Handlers Card. Keep copies on site and available for review during inspections. REPEAT VIOLATION.			
K035: Adequate/Approved Equipment/Utensils, Maintained	<u>0.5</u>	<u>08/12/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Facility does not have an approved food preparation sink. See following requirements: The food preparation sink must have a minimum dimension of 18 inches in length by 18 inches in width and 12 inches in depth with an integral drainboard or adjacent table at least 18 inches in length by 18 inches in width. The food preparation sink must be located in the food preparation area, provided exclusively for food preparation, accessible at all times and be equipped with an hot and cold running water through a mixing valve. If food preparation sink is to remain right next to the 3-compartment sink, install a splash guard between the 2 sinks to prevent cross contamination. REPEAT VIOLATION.			
K036: Equipment, Utensils and Linens: Storage and Use	<u>0.5</u>	<u>08/12/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed the ice scoop inside the ice machine with handle touching ice. Ensure scoop is maintained without handle contacting ice to prevent cross contamination.			
K042: Proper Waste Disposal; Facilities Maintained	<u>0.5</u>	<u>08/12/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed lids to trash dumpster open. Ensure dumpster lids are maintained closed at all times to prevent attracting vermin and to prevent stormwater pollution during the rainy season.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	<u>0.5</u>	<u>08/12/2024</u>	<u>Uncorrected as of 5/2/2025</u>
1) Observed both the front and back doors propped open. Back door has a screen and air curtain but neither were in use at start of inspection. Facility needs to be protected from entrance of vermin. Either keep doors closed or install tight fitting screens. 2) Close the gap above the screen door in kitchen to exclude vermin. REPEAT VIOLATION. 3) Ensure mops are hung to dry. REPEAT VIOLATION.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>	<u>08/12/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Floors throughout kitchen are in need of a deep cleaning. Ensure floors are cleaned more frequently.			
K053: Repeat Violations - Critical (1 - 23)	<u>5.0</u>	<u>08/12/2024</u>	<u>Uncorrected as of 5/2/2025</u>
REPEAT VIOLATIONS: - No sanitizer solution set up in kitchen			
K054: Repeat Violations - Good Retail Practices (24 - 51)	<u>2.0</u>	<u>08/12/2024</u>	<u>Uncorrected as of 5/2/2025</u>
REPEAT VIOLATIONS: - Missing food certifications for all employees - Unapproved food preparation sink - Large gap in screen door - Mops not being hung to dry

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized	3.0	08/29/2023	Uncorrected as of 5/2/2025
1) Observed quaternary ammonium sanitizer solution in the 3-compartment sink at <10ppm. Ensure the sanitizer solution measures 200ppm quaternary ammonium sanitizer or 100ppm chlorine sanitizer at all times. Check with the appropriate test strips and change every 4 hours or more often if needed. Corrected on site. 2) Observed meat slicer with food debris and grime build up. This piece of equipment is a direct food contact surface and shall be cleaned and sanitized after each use or every 4 hours if being used for long periods of time. Wiping down the meat slicer is not sufficient, it must be taken apart and sanitized fully. 3) Facility had no sanitizer buckets set up in the kitchen but was actively preparing foods. Ensure a sanitizer solution of 100ppm chlorine or 200ppm quaternary ammonium is prepared BEFORE beginning any type of food preparation. Sanitizer solution shall be changed every 4 hours or more often if needed. Check using the appropriate test strips. Corrected on site.			
K021: Hot and Cold Water Available	2.0	08/29/2023	Uncorrected as of 5/2/2025
Provide and maintain an adequate supply of hot potable water (minimum 100°F) and cold potable water to all hand wash sinks. Hand sink in the customer restroom is not reaching temperature.			
K024: Person In Charge Present and Performs Duties; Valid Certification	1.0	08/29/2023	Uncorrected as of 5/2/2025
Ensure at least one employee has a valid Food Manager Certificate and all other employees have a valid Food Handlers Card. Keep copies on site and available for review during inspections. All employee food safety certs will be reviewed at the next inspection.			
K030: Food Storage; Food Storage Containers Identified	0.5	08/29/2023	Uncorrected as of 5/2/2025
Ensure all food in prep top units and walk-in are protected with lids to prevent cross contamination.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	08/29/2023	Uncorrected as of 5/2/2025
1) Facility does not have an approved food preparation sink. See following requirements: The food preparation sink must have a minimum dimension of 18 inches in length by 18 inches in width and 12 inches in depth with an integral drainboard or adjacent table at least 18 inches in length by 18 inches in width. The food preparation sink must be located in the food preparation area, provided exclusively for food preparation, accessible at all times and be equipped with an hot and cold running water through a mixing valve. 2) Discontinue storing dirty dishes in the food preparation sink. This sink shall be used for food preparation only and shall be kept clean and sanitary.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	08/29/2023	Uncorrected as of 5/2/2025
Discontinue lining shelves, racks, floors, or any other areas of kitchen with cardboard. Ensure all equipment is smooth, non-absorbent and easily cleanable.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	08/29/2023	Uncorrected as of 5/2/2025
1) Close the gap above the screen door in kitchen to exclude vermin. 2) Ensure mops are hung to dry.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	08/29/2023	Uncorrected as of 5/2/2025
1) Several areas of the cove tile around the walk-in are broken and falling away from the wall. Plan for future repairs of the cove tiles. A 4" base coving with 3/8 inch radius coving is required in the kitchen. See attachment for approved flooring materials. 2) FRP walls in the employee restroom is degrading and has water damage. Plan for future repairs.

Department Action Description: NEXT REGULAR

Score: 95.5

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K023: No Rodents, Insects, Birds, or Animals	<u>2.0</u>	<u>12/03/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed rodent droppings outside near the storage sheds. Ensure a professional pest control company is contacted for regular treatments.			
K024: Person In Charge Present and Performs Duties; Valid Certification	<u>1.0</u>	<u>12/03/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Unable to verify Food Handler Cards for employees. Keep copies on site at all times.			
K033: Nonfood-Contact Surfaces Clean	<u>0.5</u>	<u>12/03/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Excessive food, grease, and debris buildup has occurred on many equipment surfaces in the kitchen. Need to clean and sanitize all equipment surfaces and implement a more frequent cleaning schedule. Emphasis at the following locations:			
-equipment at the cook line			
-door handles/gaskets of refrigerator units			
-lids of food storage containers			
-steam table surface			
-dish machine surfaces			
-deep fryer			
-microwave			
K038: Approved Lighting/Ventilation: Adequate, Used	<u>0.5</u>	<u>12/03/2024</u>	<u>Uncorrected as of 5/2/2025</u>
Observed extremely excessive grease accumulation on the filters in the ventilation hood. Clean more frequently to prevent risk of fire.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>	<u>12/03/2024</u>	<u>Uncorrected as of 5/2/2025</u>
- Flooring throughout kitchen is in need of cleaning, especially underneath equipment.			
- Ceilings are accumulating dust and grease. Clean regularly.			
- Flooring throughout kitchen is deteriorating and missing proper coving in many areas. Plan for future repairs of flooring. Upon a change of ownership for this facility, flooring replacement will be required.			

Inspection Date: 08/21/2023

Type of Service Description: REINSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 98.0

Overall Inspection Comments: Facility is approved to open. Continue to work on the following violations:

Violation Item	Points Lost	Comply By Date	Complied On Date
K024: Person In Charge Present and Performs Duties; Valid Certification	<u>1.0</u>	<u>08/21/2023</u>	<u>Uncorrected as of 5/2/2025</u>
Food Manager Certificate is expired. Ensure at least one employee has a valid Food Manager Certificate and all other employees have a valid Food Handlers Card. Keep copies on site and available for review during inspections.			
K041: Plumbing; Proper Backflow Devices	<u>0.5</u>	<u>08/21/2023</u>	<u>Uncorrected as of 5/2/2025</u>
Repair the leak at the food preparation sink.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>	<u>08/21/2023</u>	<u>Uncorrected as of 5/2/2025</u>
Several areas of the floors and walls are deteriorating. Sanitary coving is missing in several places. Plan for future repairs/remodeling of the floors and some areas of the walls.

Inspection Date: 08/17/2023

Type of Service Description: REINSPECTION

Inspection Result Description: IMMINENT PUBLIC HEALTH HAZARD

Department Action Description: CLOSED UNTIL ABATED

Score: 97.5

Overall Inspection Comments: Facility to remain closed until violations abated.

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	<u>3.0</u>	<u>08/15/2023</u>	<u>Corrected On Site</u>
Discontinue storing dishes in the hand washing sink. Hand washing sinks shall be used for hand washing only. Corrected on site.			
K023: No Rodents, Insects, Birds, or Animals	<u>2.0</u>	<u>08/17/2023</u>	<u>Uncorrected as of 5/2/2025</u>
The amount of cockroaches has significantly decreased following pest control treatment. Some live roaches were still observed in the kitchen. Facility needs to exterminate all live cockroaches before reopening. Continue pest control treatment and contact your inspector when ready to be re-inspected.			
K023: No Rodents, Insects, Birds, or Animals	<u>2.0</u>	<u>08/15/2023</u>	<u>Uncorrected as of 5/2/2025</u>
Observed cockroaches at all life stages inside the kitchen, especially near the walk-in refrigeration units. Facility must close and immediately address infestation. A licensed pest control company must be used to eliminate all live cockroaches. Facility must be thoroughly cleaned and sanitized (all equipment, walls, floors, ceilings, shelving, etc) before approved to re-open. Provide proof of pest control services to your inspector.			
K027: Food Separated and Protected	<u>1.0</u>	<u>08/15/2023</u>	<u>Uncorrected as of 5/2/2025</u>
Discontinue storing produce or open food in the storage sheds behind the facility. The sheds are not approved for food storage.			
K033: Nonfood-Contact Surfaces Clean	<u>0.5</u>	<u>08/15/2023</u>	<u>Uncorrected as of 5/2/2025</u>
Excessive food, grease, and debris buildup has occurred on many equipment surfaces in the kitchen. Need to clean and sanitize all equipment surfaces and implement a more frequent cleaning schedule. Emphasis at the following locations:			
-equipment at the cook line -door handles/gaskets of refrigerator units -lids of food storage containers -steam table surface -dish machine surfaces -ice machine interior -deep fryer -microwave			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	<u>0.5</u>	<u>08/15/2023</u>	<u>Uncorrected as of 5/2/2025</u>
1) Repair the screen door in the kitchen to prevent entrance of vermin. 2) Repair the damaged ceiling above the walk-in fridge			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>	<u>08/17/2023</u>	<u>Uncorrected as of 5/2/2025</u>
1) Additional cleaning is needed under the cook line to remove food debris. 2) Continue working on repairs to the floors, walls and ceilings where needed.

Inspection Date: 01/13/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 84.0

Overall Inspection Comments: A reinspection is required due to violations listed on this report which do not meet the requirements set forth in the California Retail Food Code commencing with §113700-114437. All violations must be corrected within the time specified. If violations noted on this report are not corrected by the "Next Inspection Date" indicated above; a chargeable reinspection fee may be assessed.

Violation Item	Points Lost	Comply By Date	Complied On Date
K004: Proper Eating, Tasting, Drinking or Tobacco Use	<u>2.0</u>	<u>01/13/2025</u>	<u>Corrected On Site</u>
Observed drinking from a personal cup on prep line. Discontinue this practice. Ensure all employees eat and drink away from food contact surfaces. Ensure all personal cups have lids.			
K007: Proper Hot and Cold Holding Temperatures	<u>3.0</u>	<u>01/16/2025</u>	<u>Corrected On Site</u>
Observed prep top refrigeration unit at 48F. Food in unit was probed, potentially hazardous food items were either voluntarily discarded or moved into freezer based on temperature compliance. Ensure all refrigeration units are maintained at 41F or below. Facility is closed the next two days and will repair the unit.			
K014: Food Contact Surfaces: Clean and Sanitized	<u>3.0</u>	<u>01/13/2025</u>	<u>Corrected On Site</u>
- Observed no sanitizer solution set up during active food preparation. Ensure all food contact surfaces are maintained clean and sanitized. Food facility needs to set up sanitizer solution/buckets during active food preparation and ensure sanitizer concentration is 100ppm bleach or 200ppm quaternary ammonium. Corrected on site.			
- Observed improper wash/rinse/sanitize for warewashing. Employee only washed dish and placed it on the counter for use. Ensure all dishes are washed/rinsed/sanitized to properly sanitize food contact surfaces. Employee instructed to re-do this process with the dish.			
K023: No Rodents, Insects, Birds, or Animals	<u>2.0</u>	<u>01/16/2025</u>	<u>Corrected On Site</u>
Observed a few rodent droppings in dry storage room and underneath three compartment sink. Food facility has professional pest management in place. Ensure all evidence of rodents (e.g. droppings, dead rodents, nesting material, rub marks) is removed from the facility by safe, legal, and effective means at once.			
K027: Food Separated and Protected	<u>1.0</u>	<u>01/13/2025</u>	<u>Corrected On Site</u>
Observed open container of broccoli near screen door on the outside. Ensure all food items are maintained INSIDE food facility and protected from contamination. Corrected on site.			
K033: Nonfood-Contact Surfaces Clean	<u>0.5</u>	<u>01/18/2025</u>	<u>Uncorrected as of 5/2/2025</u>
REPEAT VIOLATION: Thoroughly clean all equipment, cabinets, and shelving especially in the hard to reach areas.			
K034: Warewashing Facility/Test Strips: Adequate, Used	<u>0.5</u>	<u>01/16/2025</u>	<u>Uncorrected as of 5/2/2025</u>
REPEAT VIOLATION: Observed no bleach/chlorine test strips to measure sanitizer concentration. Ensure correct testing equipment is obtained to properly measure sanitizer concentration.			
K035: Adequate/Approved Equipment/Utensils, Maintained	<u>0.5</u>	<u>01/16/2025</u>	<u>Uncorrected as of 5/2/2025</u>
- Observed cardboard covering window near prep top unit. Discontinue this practice. Cardboard can harbor vermin. Ensure all equipment is smooth, nonabsorbent, easily cleanable and commercial grade.			
REPEAT VIOLATIONS:			
- Observed storage of old equipment that is no longer in use. Remove items that are not in use to avoid vectors harboring.			
- Observed broken faucet at two compartment sink. Repair/replace.			
- Observed degrading mop sink with duct tape being used in basin for leaks. Repair/replace.			
K040: Wiping Cloths: Properly Used and Stored	<u>0.5</u>	<u>01/16/2025</u>	<u>Uncorrected as of 5/2/2025</u>
REPEAT VIOLATIONS:			
- Observed wiping cloth being stored on prep counter. Ensure sanitizer bucket is being used and wiping cloths are stored in sanitizer bucket when not in use.			
- Observed sponges being used for warewashing. Discontinue this practice.

Program Description: HR24 - RESTAURANT (SEATING 11 - 50) - FULL PREP

Inspection Date: 01/13/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 84.0

Overall Inspection Comments: A reinspection is required due to violations listed on this report which do not meet the requirements set forth in the California Retail Food Code commencing with §113700-114437. All violations must be corrected within the time specified. If violations noted on this report are not corrected by the "Next Inspection Date" indicated above; a chargeable reinspection fee may be assessed.

Violation Item	Points Lost	Comply By Date	Complied On Date
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	<u>0.5</u>	<u>01/16/2025</u>	<u>Uncorrected as of 5/2/2025</u>
REPEAT VIOLATIONS:			
- Observed items not pertaining to food facility throughout. Ensure premises of food facility is kept clean and free of litter and rubbish.			
- Observed soiled linen sitting on shelf above prep top. Ensure soiled linen is stored properly and away from food preparation.			
- Observed ripped screen on back screen door. Repair/replace.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	<u>0.5</u>	<u>01/16/2025</u>	<u>Uncorrected as of 5/2/2025</u>
REPEAT VIOLATION: Observed food debris/grime underneath equipment. Ensure facility is cleaned and sanitized on a regular basis to prevent build up of debris.			
K054: Repeat Violations - Good Retail Practices (24 -51)	<u>2.0</u>	<u>01/13/2025</u>	<u>Uncorrected as of 5/2/2025</u>

Inspection Date: 10/23/2023

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 91.5

Overall Inspection Comments: Food facility needs to take note of sections that have continued repeat violations. The repeat violations listed have been presented on multiple health inspection reports. Please ensure food facility displays progress towards these violations at the next inspection.

Violation Item	Points Lost	Comply By Date	Complied On Date
K023: No Rodents, Insects, Birds, or Animals	<u>2.0</u>	<u>10/24/2023</u>	<u>01/13/2025</u>
Observed multiple flies in food facility. Ensure facility is kept free of vermin.			
K024: Person In Charge Present and Performs Duties; Valid Certification	<u>1.0</u>	<u>10/27/2023</u>	<u>01/13/2025</u>
Observed expired food handler certification. Ensure current/valid food handler certification is kept on site and available during time of inspection.			
K030: Food Storage; Food Storage Containers Identified	<u>0.5</u>	<u>10/23/2023</u>	<u>01/13/2025</u>
- Observed bag of onions being stored on the ground in back storage. Ensure food is stored 6 inches above the ground.			
- Observed open containers of bulk food. Ensure all bulk food containers are sealed in dry storage area.			
K033: Nonfood-Contact Surfaces Clean	<u>0.5</u>	<u>10/30/2023</u>	<u>01/13/2025</u>
REPEAT VIOLATION: "Thoroughly clean all equipment, cabinets, and shelving especially in the hard to reach areas. "			
K034: Warewashing Facility/Test Strips: Adequate, Used	<u>0.5</u>	<u>10/23/2023</u>	<u>01/13/2025</u>
Observed no bleach/chlorine test strips to measure sanitizer concentration. Ensure correct testing equipment is obtained to properly measure sanitizer concentration.			
K035: Adequate/Approved Equipment/Utensils, Maintained	<u>0.5</u>	<u>10/30/2023</u>	<u>01/13/2025</u>
- REPEAT VIOLATION: Observed storage of old equipment that is no longer in use. Remove items that are not in use to avoid vectors harboring.			
- Observed broken faucet at two compartment sink. Repair/replace.			
- Observed degrading mop sink with duct tape being used in basin for leaks. Repair/replace.			
K040: Wiping Cloths: Properly Used and Stored	<u>0.5</u>	<u>10/23/2023</u>	<u>01/13/2025</u>
- Observed wiping cloth being stored on prep counter. Ensure sanitizer bucket is being used and wiping cloths are stored in sanitizer bucket when not in use.			
- Observed sponges being used for warewashing. Discontinue this practice.

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 94.0

Overall Inspection Comments: Change of ownership inspection for food facility. Please see violations listed below for details.

Violation Item	Points Lost	Comply By Date	Complied On Date
K030: Food Storage; Food Storage Containers Identified	0.5	05/14/2024	04/04/2025
Observed open food being stored in a dry storage room with unapproved flooring (sealed concrete with no coving). Discontinue this practice. Ensure only dry food in unopened, original packaging is stored in this room OR update flooring.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	05/16/2024	04/04/2025
- Observed plastic shelving in back kitchen area. Ensure all shelving is commercial grade. - Observed raw wood in food facility. Raw wood is not an approved material in food facilities. Ensure all materials are smooth, nonabsorbent and easily cleanable. - Observed multiple pieces of equipment that did not appear to be commercial grade. Ensure ALL equipment is commercial grade and ANSI/NSF approved. Send specification sheets of new/replacement equipment to inspector prior to installation.			
K041: Plumbing; Proper Backflow Devices	0.5	05/10/2024	Corrected On Site
Observed piping going into floor sink. Ensure there is an air gap (at least one inch) between the water inlet and the rim of the floor sink. Corrected on site.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	09/16/2024	Uncorrected as of 5/2/2025
Observed unapproved concrete sealant in back prep area. Ensure only an approved concrete sealant is used. Paint is not acceptable. Concrete surface must be smooth and free from pits, chips, or exposed aggregate; cove base must be either an integral coved concrete curb or a "keyed in" tile cove base. Please contact inspector PRIOR to any work being done on the flooring.

K007: Proper Hot and Cold Holding Temperatures	3.0	04/04/2024	Corrected On Site
Cold case near entrance of kitchen measured 61F. Manager voluntarily discarded breakfast burritos at 54F degrees. Manager plugged in refrigeration unit that had been unplugged. Ensure cold holding units are maintained at 41F and below.			
K034: Warewashing Facility/Test Strips: Adequate, Used	0.5	04/05/2024	Uncorrected as of 5/2/2025
Ensure quat sanitizer test strips are obtained and used to monitor 200 PPM sanitizer in solution.			
K039: Thermometers Provided and Accurate	0.5	04/05/2024	Uncorrected as of 5/2/2025
Ensure secondary thermometer is installed in the cold case holding burritos.			
K047: Signs Posted; Last Inspection Report Available	0.5	04/05/2024	Uncorrected as of 5/2/2025
Ensure recent health inspection report is stored on site, available for Inspector and customer review upon request.			
K049: Permits Available	0.5	04/05/2024	Uncorrected as of 5/2/2025
Ensure the health permit is posted in a conspicuous location.			

Inspection Date: 02/08/2024

Type of Service Description: OPENING INSPECTION

Inspection Result Description: NOT APPLICABLE

Department Action Description: NEXT REGULAR

Score: 100.0

Overall Inspection Comments: Note:

- 1) Observed unapproved rubber top set and flooring in food prep area. Management shall provide specification cut sheet for flooring/cove base located in food prep area for further review and approval.
- 2) Post hand wash signs at kitchen and toilet hand wash sinks.
- 3) Obtain and use quat sanitizer test strips.
- 4) Store food manager and food handler cards on site, available for inspector review upon request.
- 5) Discontinue use of sponges on food contact equipment and surfaces.

Inspection Date: 01/27/2025

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 69.5

Overall Inspection Comments: Education and direction regarding the following topics were given at the time of the inspection:

- 1) Warewashing
- 2) Backsiphonage
- 3) Sanitizer concentrations.
- 4) Sanitizer contact time.

Observed a plumbing snake under the three compartment sink. Having a plumbing snake in the food facility in an area that is not likely to cause contamination is not a violation. The operator stated that there was a sewage backup from the prep area floor drain about a month prior to the inspection. No evidence of sewage contamination was observed at the time of the inspection. However this issue has been noted on a previous inspection report and will continue to be documented. The operator is directed to maintain the plumbing in working order to prevent sewage backing up onto the prep area floor.

Violation Item	Points Lost	Comply By Date	Complied On Date
K000: STORMWATER POLLUTION Observed a full mop bucket outside the back door of the facility. Upon questioning the operator stated that they discard the dirty mop water in the parking lot. Observed greasy residue in the area behind the facility. Discontinue emptying mop bucket outside the facility. ???????????????? ???,???,????????????? ?????????????? ????????????? K001: Demonstration of Knowledge At the time of the inspection, no employee in the facility was able to demonstrate knowledge of proper warewashing procedure. Education and direction were given. Ensure all food employees have adequate knowledge of, and are properly trained in food safety as it relates to their assigned duties.	<u>0.0</u>		<u>Uncorrected as of 5/2/2025</u>

Department Action Description: TO BE RE-INSPECTED

Score: 69.5

Overall Inspection Comments: Education and direction regarding the following topics were given at the time of the inspection:

- 1) Warewashing
- 2) Backsiphonage
- 3) Sanitizer concentrations.
- 4) Sanitizer contact time.

Observed a plumbing snake under the three compartment sink. Having a plumbing snake in the food facility in an area that is not likely to cause contamination is not a violation. The operator stated that there was a sewage backup from the prep area floor drain about a month prior to the inspection. No evidence of sewage contamination was observed at the time of the inspection. However this issue has been noted on a previous inspection report and will continue to be documented. The operator is directed to maintain the plumbing in working order to prevent sewage backing up onto the prep area floor.

Violation Item	Points Lost	Comply By Date	Complied On Date
K005: Proper Handwash Procedures and Glove Use Observed an employee dip shrimp into tempura batter, place the shrimp into the deep fryer, then rinse her hands in a nearby container of water that also held a pair of tongs. Ensure all employees properly wash their hands with soap and warm water prior to engaging in food preparation or handling food contact surfaces, equipment, utensils, or linen.	5.0	01/27/2025	
K006: Adequate/Accessible Handwash Sinks, Supplies 1) No designated mop sink was observed in the facility. The sink that could act as a mop sink was designated as a hot line hand sink. The operator stated that they fill the mop bucket with the hose outside and dump dirty water into the parking lot. All wastewater must be discarded into the sewer. 2) No standard preparation sink was observed in the facility. However, a large two compartment sink with dual drainboards was observed in the facility. Submit plans for approval showing the following sinks in the back of the house: a) A hand sink accessible from the hot line. b) A hand sink accessible from the scullery c) A hand sink accessible from the prep line. Note, three hand sinks are not required. If a hand sink is adequately accessible it may serve multiple areas. d) A prep sink e) A janitorial sink f) A three compartment sink 3) No hand soap was available from any hand sink except the restroom. 4) Observed soiled utensils in the sink that was the designated prep area hand sink. Discontinue using the hand sink for anything except washing hands.	3.0	Uncorrected as of 5/2/2025	
K007: Proper Hot and Cold Holding Temperatures Observed the sushi case at the sushi bar set to 43F. Measured fish in the cooler at 44F. 2) Measured crab meat in an ice bath on the prep table at 47F. 3) Measured sushi rice in a bowl without temperature control at 65F. 4) Measured the following in the cold top cooler: soup base 46 F, cooked corn 46F, miso base 43 F. 5) Observed soup bases at the hot line without temperature control. Maintain all potentially hazardous foods (PHF) at 41°F or below or at or above 135°F.	5.0	01/27/2025

Violation Item	Points Lost	Comply By Date	Complied On Date
K014: Food Contact Surfaces: Clean and Sanitized	5.0		01/27/2025
1) Observed an employee actively washing dishes without a sanitizing step. No sanitizer was measured in the third compartment of the three compartment sink. After setting up and testing the sanitizer concentration to 100ppm chlorine, the employee was not observed allowing proper sanitizer contact time for manually washed utensils. This violation was corrected by the following: a) Properly set up the third compartment sanitizer solution. b) Provide education about sanitizer contact time. c) Re-sanitize improperly sanitized utensils. Clean and sanitize multi-use utensils and equipment in the following manner after coming in contact with food or becoming contaminated; wash with detergent and water not less than 100°F; rinse with clear potable water; sanitize with 100 ppm chlorine for 30 seconds, 200 ppm quaternary ammonium for 1 minute, 25ppm iodine for 1 minute, complete immersion in water of at least 171° F for 30 seconds, or other methods as approved. 2) No sanitizer bucket was set up at the hot line during active food preparation. This violation was corrected by setting up a sanitizer bucket.			
K022: Sewage and Wastewater Properly Disposed	2.0		Uncorrected as of 5/2/2025
Observed a full mop bucket outside the back door of the facility. Upon questioning the operator stated that they discard the dirty mop water in the parking lot. Observed greasy residue in the area behind the facility. Discontinue emptying mop bucket outside the facility.			
K023: No Rodents, Insects, Birds, or Animals	2.0		Uncorrected as of 5/2/2025
Observed rodent droppings on top of bulk sauce buckets in the dry storage area of the facility. Clean and sanitize all affected areas.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5		Uncorrected as of 5/2/2025
1) Observed a square stick with bottle caps screwed into it hanging from a string at the two compartment prep sink. The operator stated that it was used for scraping scales from fish. 2) Observed a plaster mixing tool with residual batter on the tip in the hand sink in the prep area. 3) Observed a cordless drill with a mixer attachment and food debris on the drill, stored on a shelf in the prep area. Ensure all equipment is listed by an ANSI certified testing laboratory such as NSF or Intertek. 4) Observed an inoperable sushi cooler at the sushi bar. Observed an inoperable chest freezer outside the back door of the facility. Observed an inoperable set of cold drawers. Observed an accumulation of unused equipment in the outside storage area behind the locked fence. Remove or repair all unused or inoperable equipment.

No evidence of sewage contamination was observed at the time of the inspection. However this issue has been noted on a previous inspection report and will continue to be documented. The operator is directed to maintain the plumbing in working order to prevent sewage backing up onto the prep area floor.

Violation Item	Points Lost	Comply By Date	Complied On Date
K038: Approved Lighting/Ventilation: Adequate, Used	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
Observed a gap between grease filters in the exhaust hood above the fryer. Observed an accumulation of grease on the grease filters in the exhaust hood. Observed dripping grease from the exhaust hood. Maintain the filters in place to prevent grease entering the ductwork. Clean the exhaust hood regularly. Operate the hood as designed to collect grease in the filters.			
K040: Wiping Cloths: Properly Used and Stored	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
Observed wet towels stored on a prep counter at the hot line. No sanitizer bucket was set up at the hot line. Discontinue using wiping cloths for multiple uses without storing in sanitizing solution.			
K041: Plumbing: Proper Backflow Devices	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
Observed spray nozzles on hoses from 4 different faucets. On nozzle was observed hanging inside a plastic bucket. None of the faucets were equipped with vacuum breakers. Remove the hoses or install vacuum breakers to prevent back siphonage.			
K044: Premises: Personal/Cleaning Items; Vermin-Proofing	<u>0.5</u>		<u>Uncorrected as of 5/2/2025</u>
1) Observed the back door propped open. Maintain all exterior doors closed except when in use. 2) Observed personal medication stored on a shelf at the sushi bar. Remove medications from all food preparation or utensil storage areas to prevent accidental contamination of food or utensils. 3) Observed an employee drink without a lid on a prep surface. Employees may drink from cups that have a lid and a straw to minimize the surface that is contaminated by the mouth. The drink must be stored on a lower self to prevent food contamination in case of a spill. 4) Observed partially eaten bowls of food on a prep surface that also stored bags of bulk ingredients. Employees may eat in a designated area where no food contamination is possible. Do not store employee food on prep surfaces. 5) Observed a car battery on the floor of the prep area. 6) Observed a pressure washer in the prep area. Equipment that is not essential to the operation of the facility must be stored out of the food preparation area.

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: MINOR VIOLATIONS

Department Action Description: NEXT REGULAR

Score: 91.5

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	3.0	02/24/2025	Uncorrected as of 5/2/2025
Discontinue using the hand washing sink at the bar as a dump sink for customer drinks, as this promotes cross contamination. Hand sinks are to be used for hand washing only. Utilize one of the other sinks for dumping purposes.			
K014: Food Contact Surfaces: Clean and Sanitized	3.0	02/24/2025	Uncorrected as of 5/2/2025
Observed 0ppm sanitizer in solution in both sanitizer buckets (in kitchen and at bar). Ensure 200ppm quat or 100ppm chlorine sanitizer at all times. Change sanitizer every 4 hours or more often as needed. Check regularly with sanitizer test strips. Corrected on site.			
K027: Food Separated and Protected	1.0	02/24/2025	Uncorrected as of 5/2/2025
Observed several containers in multiple refrigeration units without lids or covers. Ensure foods are covered to protect from cross contamination.			
K034: Warewashing Facility/Test Strips: Adequate, Used	0.5	11/24/2025	Uncorrected as of 5/2/2025
- The 3 compartment sink had no hot water at start of inspection. Hot water had been turned off. Ensure hot water is available at the 3-compartment sink at all times. Corrected on site. - Replace the missing faucet on the left side of 3-compartment sink - Repair the leak on the right side of 3-compartment sink			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	02/24/2025	Uncorrected as of 5/2/2025
Observed in-use utensils being stored in stagnant water. Ensure in-use utensils are maintained in running water of sufficient velocity to flush of loose particles (i.e. - dipper well) OR in a container of water that is maintained at a temperature of 135F and the container is cleaned at least every 24 hours. REPEAT VIOLATION.			
K040: Wiping Cloths: Properly Used and Stored	0.5	02/24/2025	Uncorrected as of 5/2/2025
Observed wet wiping cloths on food preparation surfaces. Ensure in-use wiping cloths are stored inside a sanitizer solution between uses.

Observed slight mildew growth inside of the ice machine. Ice machines and ice dispensers should be cleaned as often as necessary to prevent buildup of mold, bacteria, or other factors that may affect the ice being produced. Note that cleaning an ice machine or ice dispenser is dependent on the specific make and model you have purchased. 1. Go to the manufacturer website to access information for your machine. 2. Find the cleaning instructions for your type of machine. 3. Discard all ice from the machine prior to cleaning. Use only approved chemicals to sanitize.

0.5

04/30/2024

09/24/2024

The floor tile in this kitchen presents with caked on grime and dirt. Due to the very uneven profile of the current kitchen floor tile, regular mop cleaning will not suffice alone to maintain a clean floor. Please schedule a pressurized steam cleaning unit to be used to dislodge grime currently observed in the profile of the floor tile.

The flooring will need to be replaced upon remodeling of the kitchen with a more suitable material accepted by this section prior to installation. Underneath refrigeration and other equipment the flooring does not meet the definition of smooth, easily cleanable. render so upon remodel.

Score: 90.5

Overall Inspection Comments: Education and direction regarding the following topics were given at the time of the inspection:

- 1) Cooling
- 2) PHF holding temperatures
- 3) Sanitizer concentrations

Violation Item	Points Lost	Comply By Date	Complied On Date
K003: No Discharge From Eyes, Nose, and Mouth	2.0		01/08/2025
Observed a food employee prepping food while having a persistent discharge from their nose.			
Discontinue allowing employees experiencing persistent sneezing, coughing, runny nose, or discharge from the eyes which can not be controlled by medication to work with exposed foods, clean equipment, clean utensils, or clean linen.			
The food employee shall be restricted from working with exposed food until the symptoms have been resolved.			
This violation was corrected by instructing the food employee to wash their hands and by providing education.			
K006: Adequate/Accessible Handwash Sinks, Supplies	3.0		Uncorrected as of 5/2/2025
No paper towels were available from the wall mounted dispenser at the kitchen hand sink.			
Provide approved handwashing cleanser and towels or drying device in dispensers at or adjacent to each hand washing facility.			
K007: Proper Hot and Cold Holding Temperatures	3.0		Uncorrected as of 5/2/2025
Measured Manacotti and Carbonara Sauce in the reach in prep cooler between 44F and 45F.			
Maintain all potentially hazardous foods (PHF) at 41°F/45°F or below or at or above 135°F.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5		Uncorrected as of 5/2/2025
1) Measured food in the cold top reach in cooler between 44F and 45F. The thermometer read 45F at the time of inspection. Repair the cooler to maintain all potentially hazardous foods (PHF) at 41°F or below.			
2) Observed a container of partially frozen condensation in the walk in cooler. Repair the cooler.			
3) Observed containers of condensation under the pizza prep cooler. Repair the cooler so the condensation is evaporated as designed or else the condensation shall be drained to the sewer.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5		Uncorrected as of 5/2/2025
Observed an unsecured CO2 cylinder.			
Properly secure the pressurized CO2 tank.			
K049: Permits Available	0.5		Uncorrected as of 5/2/2025
Maintain the Public Health Permit in a conspicuous place.

Department Action Description: NEXT REGULAR

Score: 97.0

Overall Inspection Comments: Education and direction regarding the following were given at the time of the inspection:

1) Consumer Advisory for Raw and Undercooked Food were given at the time of the inspection.

114093. Consumer advisory, less than thoroughly cooked
Identification of the animal-derived FOODs marked by an
asterisk denoting a footnote that states that the items are served
raw or undercooked, or contain or may contain raw or
undercooked ingredients.

Statement:

Consuming raw or undercooked meats, POULTRY, seafood,
shellfish, or EGGS may increase your risk of foodborne illness,
especially if you have certain medical conditions.

2) Baked goods available for customer self service must be properly labeled.

114089. Labeling

(a) FOOD prepackaged in a FOOD FACILITY shall bear a label that complies
with the labeling requirements.

(b) Label information shall include the following:

(1) The common name of the FOOD, or absent a common name,
an adequately descriptive identity statement.

(2) If made from two or more ingredients, a list of ingredients in
descending order of predominance by weight, including a
declaration of artificial color or flavor and chemical
preservatives, if contained in the FOOD.

(3) An accurate declaration of the quantity of contents.

(4) The name and place of business of the manufacturer, packer, or
distributor.

(5) Except as exempted in the Federal Food, Drug, and Cosmetic

Violation Item	Points Lost	Comply By Date	Complied On Date
K018: HACCP/Variance Required: Approved/Records Kept	2.0	06/21/2024	Uncorrected as of 5/2/2025
Observed food facility using reduced oxygen packaging methods. Manager stated that it is primarily used for roast beef. Ensure facility complies with the following standards below; if facility does not comply, a HACCP plan will be required for facility.			
Per CA Retail Food Code (section 114057.1 (d)), "A FOOD FACILITY is not required to have an HACCP plan in the FOOD FACILITY uses a REDUCED-OXYGEN PACKAGING method to package hazardous FOOD that always complies with the following standards with respect to packaging the hazardous FOOD:			
(1) The FOOD is labeled with the production time and date; (2) The FOOD is held at 41 degrees Fahrenheit or lower during refrigerated storage.;			
(3) The FOOD is removed from its package in the FOOD FACILITY within 48 hours after packaging"			
K029: Toxic Substances Properly Identified, Stored, Used	0.5	06/22/2024	Uncorrected as of 5/2/2025
Observed unlabeled spray bottles. Ensure all spray bottles are labeled as to their contents.			
K034: Warewashing Facility/Test Strips: Adequate, Used	0.5	06/24/2024	Uncorrected as of 5/2/2025
Observed no sanitizer/high heat test strips. Ensure correct testing equipment is obtained in order to properly measure sanitizer concentration/water temperature.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	06/22/2024	Uncorrected as of 5/2/2025
Observed raw wood in food facility (toilet room and office/dry storage). Ensure all equipment is smooth, nonabsorbent and easily cleanable. Facility can seal the raw wood.			
K040: Wiping Cloths: Properly Used and Stored	0.5	06/21/2024	Uncorrected as of 5/2/2025
Observed multiple soiled wiping cloths being stored on prep line. Ensure wiping cloths are stored in sanitizer solution (when not in use) and soiled wiping cloths are being changed out frequently.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	06/24/2024	Uncorrected as of 5/2/2025
Observed mops being stored in mop sink. Ensure all mops are hung up to air dry without soiling walls or equipment.			
K049: Permits Available	0.5	06/22/2024	Uncorrected as of 5/2/2025
Unable to verify dairy license. Ensure facility has a dairy license for soft serve station and send copy to inspector within 24 hours. If facility has no dairy license, it must CEASE selling soft serve IMMEDIATELY.

Violation Item	Points Lost	Comply By Date	Complied On Date
K027: Food Separated and Protected	1.0	08/26/2024	Uncorrected as of 5/2/2025
Facility does not have a food preparation sink but is cutting and preparing produce and thawing frozen foods in the 3-compartment sink and/or hand wash sink. Immediately discontinue preparing foods or install a food preparation sink. Washing produce and thawing meats in the 3-compartment sink and/or hand wash sink produces a high risk of cross contamination. REPEAT VIOLATION. Due to an upcoming menu change to include full service dinner and this ongoing repeat violation, installation of a food preparation sink is required. Install a food preparation sink that meets the following requirements per California Retail Food Code: 114163. Food preparation sinks (a) Except as specified in subdivision (b), all PERMANENT FOOD FACILITIES that wash, rinse, soak, thaw, or similarly prepare FOODs shall be provided with a FOOD PREPARATION sink. (1) The FOOD PREPARATION sink shall have a minimum dimension of 18 inches by 18 inches in length and width and 12 inches in depth with an integral drainboard or adjacent table at least 18 inches by 18 inches in length and width. (2) The FOOD PREPARATION sink shall be located in the FOOD PREPARATION area, provided exclusively for FOOD PREPARATION, and accessible at all times. (3) The sink shall be equipped with an adequate supply of hot and cold running water through a mixing valve. (4) The sink shall be indirectly plumbed to a floor sink.

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	3.0	07/02/2024	Uncorrected as of 5/2/2025
- Observed no paper towels at the hand sink near the cook line. Ensure paper towels are available for hand washing at all times. - The hand sink near the 3-compartment sink has been disconnected and is no longer usable. Ensure all hand sinks are fully operable at all times.			
K014: Food Contact Surfaces: Clean and Sanitized	3.0	07/02/2024	Corrected On Site
- Facility had no sanitizer set up in the kitchen but was actively preparing foods. Ensure a sanitizer solution of 100ppm chlorine or 200ppm quaternary ammonium is prepared BEFORE beginning any type of food preparation. Sanitizer solution shall be changed every 4 hours or more often if needed. Check using the appropriate test strips. Corrected on site. - Observed mildew on the panel inside the ice machine. Ice machines and ice dispensers should be cleaned as often as necessary to prevent buildup of mold, bacteria, or other factors that may affect the ice being produced. Clean and sanitize immediately.			
K023: No Rodents, Insects, Birds, or Animals	2.0	07/02/2024	Uncorrected as of 5/2/2025
Observed flies inside facility. Both the front and back doors were propped open. The facility does not have an enclosed kitchen and therefore needs to protect from entrance of vermin. Doors must remain closed or have tight fitting screens. Use of an air curtain at the front entrance is permitted instead of a screen.			
K027: Food Separated and Protected	1.0	07/02/2024	Uncorrected as of 5/2/2025
Observed raw shrimp being rinsed/drained at the 3-compartment sink. Discontinue this practice. Utilize the food preparation sink in the prep room for this purpose to protect from cross contamination.			
K040: Wiping Cloths: Properly Used and Stored	0.5	07/02/2024	Uncorrected as of 5/2/2025
Observed multiple employees in the kitchen with wiping cloths in their pockets. Discontinue this practice as it can lead to cross contamination. Any wiping cloths used on food contact surfaces shall be stored in a sanitizer bucket between uses. Employees should not be wiping hands on rags or cloths as a replacement for hand washing.

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	3.0	03/27/2024	Uncorrected as of 5/2/2025
1) Provide a six (6) inch high metal splashguard on each side of the hand washing sink at the coffee station. The sink is very close to the ice container and syrups used for coffee. This is to prevent cross contamination. REPEAT VIOLATION. 2) Observed paper towels in the employee restroom stored on the shelf. Ensure the paper towels are stored inside the dispenser.			
K007: Proper Hot and Cold Holding Temperatures	3.0	03/27/2024	Corrected On Site
Observed the fridge at the coffee station with dairy products and coffee supplies at 50F at start of inspection. Ensure fridges are maintained 41F or below at all times. Corrective action: employee adjusted internal thermostat. Final reading after 15 min was within temperature. Check temp of fridge regularly to ensure it is working properly. Corrected on site.			
K027: Food Separated and Protected	1.0	03/27/2024	Uncorrected as of 5/2/2025
Observed open top syrups for the coffee bar stored directly underneath the paper towel dispenser for the hand sink. Discontinue storing food directly under the paper towels to prevent cross contamination. Relocate the syrups or put completely enclosed lids on the bottles.			
K035: Adequate/Approved Equipment/Utensils, Maintained	0.5	03/27/2024	Uncorrected as of 5/2/2025
Observed slight mildew growth inside of the ice machine. Ice machines and ice dispensers should be cleaned as often as necessary to prevent buildup of mold, bacteria, or other factors that may affect the ice being produced. Note that cleaning an ice machine or ice dispenser is dependent on the specific make and model you have purchased.			
1. Go to the manufacturer website to access information for your machine. 2. Find the cleaning instructions for your type of machine. 3. Discard all ice from the machine prior to cleaning. Use only approved chemicals to sanitize.			
K036: Equipment, Utensils and Linens: Storage and Use	0.5	03/27/2024	Uncorrected as of 5/2/2025
Discontinue storing merchandise (shirts, jackets, etc.) in the employee restroom. Remove any merchandise or products to be sold in the store from the restroom and relocate to an approved location.			
K042: Proper Waste Disposal; Facilities Maintained	0.5	03/27/2024	Uncorrected as of 5/2/2025
Observed accumulation of trash and recycling out back by the trash bins. Maintain trash bin area clean and free of litter and rubbish.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	03/27/2024	Uncorrected as of 5/2/2025
Observed very dirty floor sink near the ice machine in the back room. Maintain floor sinks clean.			
K053: Repeat Violations - Critical (1 - 23)	5.0	03/27/2024	Uncorrected as of 5/2/2025
REPEAT VIOLATIONS:			
- Splash guard needed at the hand sink at coffee bar

Ensure scoops are maintained in running water of sufficient velocity OR in a container of water that is maintained at a temperature of 135F and the container is cleaned at least every 24 hours.	0.5	01/26/2024	12/02/2024
K049: Permits Available Cannot verify valid health permit to operate. No food facility shall operate without a valid permit from the health department. If the health permit has not been received due to non-payment of health permit fees, immediately pay all applicable fees within 5 business days or closure of the facility may result. Contact (805) 781-5544 to pay by phone, visit www.slopublichealth.org/eh to pay online, or mail payments to/pay in person at 2156 Sierra way, San Luis Obispo, CA, 93401. Please note that mailed payments may not be received by the compliance deadline and it is the responsibility of the permit holder to ensure that payment is received prior to the compliance deadline in order to prevent facility closure.	0.5	02/01/2024	12/02/2024

Department Action Description: NEXT REGULAR

Score: 96.5

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K036: Equipment, Utensils and Linens: Storage and Use	0.5	12/17/2024	Uncorrected as of 5/2/2025
Observed bowl used as a scoop in food container inside one of the two door reach in refrigerators. Ensure all utensils have a handle that does not come in contact with the food. This is to prevent cross contamination. REPEAT VIOLATION.			
K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	12/17/2024	Uncorrected as of 5/2/2025
Facility does not have a janitorial sink. The facility must have a janitorial sink with drain, or a curbed cleaning facility, that is conveniently located. Cleaning equipment and supplies must be stored in a specific room, area or cabinet that is away from food prep, storage and warewashing areas, and that allows mops to air dry after use without soiling walls, equipment or supplies. Janitorial sinks must be equipped with hot and cold water and an atmospheric vacuum breaker.			
K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	12/17/2024	Uncorrected as of 5/2/2025
- Floors and walls throughout kitchen are in need of cleaning, especially in hard to reach areas like under equipment and shelving and near the steam pot - Observed floor tiles and cove tiles missing in a few places in kitchen (under dish machine, under steam pot). Replace all broken/missing tiles. - Tile flooring near the dish machine and 3-compartment sink needs to be re-grouted. Deep grooves between tiles do not allow floors to be properly cleaned - Walls in a few areas throughout kitchen have peeling paint. Re-paint walls or install FRP so that they are smooth and easily cleanable			
K054: Repeat Violations - Good Retail Practices (24 -51)	2.0	12/17/2024	Uncorrected as of 5/2/2025
REPEAT VIOLATIONS: - #36 - #45			

Inspection Date: 09/13/2023

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 87.5

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date
K006: Adequate/Accessible Handwash Sinks, Supplies	3.0	09/13/2023	Corrected On Site
Hand washing sink near the cook line was obstructed with a bucket inside the sink. Discontinue storing any dishes or equipment inside hand sinks. Hand sinks shall be easily accessible at all times.			
K007: Proper Hot and Cold Holding Temperatures	3.0	09/13/2023	Corrected On Site
Prep top unit at cook line measured 60F. Ensure cold held potentially hazardous foods are kept at or below 41F at all times. Corrective action: employees voluntarily discarded several types of food including: raw chicken, raw hamburger, raw fish, sliced onion, sliced tomato, shredded cheese, and various sauces. Corrected on site.			
Unit must be serviced and cannot be used until a reinspection to confirm it is maintaining temperature is conducted.			
K014: Food Contact Surfaces: Clean and Sanitized	3.0	09/13/2023	Corrected On Site
Sanitizer bucket at cook line measured 10ppm quat sanitizer. Ensure a sanitizer solution of 100ppm chlorine or 200ppm quaternary ammonium is available at all times. Sanitizer solution shall be changed every 4 hours or more often if needed. Check using the appropriate test strips. Corrected on site.

Inspection Date: 09/13/2023

Type of Service Description: REGULAR INSPECTION

Inspection Result Description: SIGNIFICANT VIOLATIONS

Department Action Description: TO BE RE-INSPECTED

Score: 87.5

Overall Inspection Comments: None entered

Violation Item	Points Lost	Comply By Date	Complied On Date

K023: No Rodents, Insects, Birds, or Animals	2.0	09/13/2023	12/17/2024

- 1) Observed flies inside the kitchen. Ensure flies are excluded from the kitchen immediately. Maintain doors closed to prevent entrance of vermin.
 2) Observed evidence of a past rodent issue. Old mice droppings were observed in some of the dry storage closets and sticky traps in various locations throughout the kitchen. No evidence of an active infestation was found. Ensure all droppings are removed and those areas thoroughly cleaned and sanitized.

K036: Equipment, Utensils and Linens: Storage and Use	0.5	09/13/2023	12/17/2024

Observed bowl used as a scoop in the flour container for breading chicken/fish etc. Ensure all utensils have a handle that does not come in contact with the food.

K044: Premises; Personal/Cleaning Items; Vermin-Proofing	0.5	09/13/2023	12/17/2024

Observed employee phone on food prep table at the cook line. Discontinue allowing employees to store personal belongings on food contact surfaces as this may lead to cross contamination.

K045: Floors/Walls/Ceilings: Built, Maintained, Clean	0.5	09/13/2023	12/17/2024

Facility is in need of a deep cleaning of all floors, walls, and ceilings. Ensure all areas of floors especially hard to reach areas below equipment are cleaned frequently. Walls and ceilings shall be cleaned on a regular basis.
