

WEEKLY REPORT OF ENVIRONMENTAL DOCUMENTS AVAILABLE FOR REVIEW (“Courtesy Notice”)

The purpose of the environmental review process is to provide information about the environmental effects of the actions and decisions made by the County, so that these considerations become a part of the decision-making process. The following is a summary of the most recent determinations made by the County's Environmental Coordinator; these weekly Courtesy Notices can be viewed online at slocounty.ca.gov/CourtesyNotice. The purpose of this listing is to notify the public of pending actions, which may affect the environment of San Luis Obispo County. You are invited to participate in this process by reviewing and providing comments on the recommendations of the Environmental Coordinator. Your comments should be addressed to the Environmental Coordinator (address at end of document). For more information about the environmental review process, please visit: slocounty.ca.gov/EnvironmentalReview

For the week of February 24th, 2024 – February 28, 2025.

1. Mitigated Negative Declaration

[Creston Road Bridge over Quail Creek Replacement Project, 300714/ ED24-106](#)

SCH Number: 2025021083

A Mitigated Negative Declaration has been prepared and issued for the County of San Luis Obispo Department of Public Works, Creston Road Bridge over Quail Creek Replacement Project. The purpose of this project is to replace the existing, structurally deficient bridge which was damaged during January 2023 storm events and temporarily repaired to preserve public access. The proposed permanent bridge would consist of a 75-foot-long, 38 feet wide, single-span, precast, prestressed voided slabs supported on seat type abutments founded on a pile cap and driven steel HP piles. Traffic will be accommodated during construction with a temporary detour via South El Pomar Road. Construction activities would occur over a period of 9 months and are anticipated to begin in May of 2026. Construction will be scheduled during the non-rainy season when conditions are dry, or creek flows are at their lowest, however creek diversion and dewatering may be required. Avoidance, minimization, and mitigation measures will be implemented to ensure project impacts are less than significant. The project location is located within the El Pomar-Estrella Subarea of the North County Planning Area, Supervisorial District 5, approximately 5 miles east of Highway 101 in a rural, unincorporated area of the county.

Additional project information can be found at:

[NOTICE OF INTENT TO ADOPT A NEGATIVE DECLARATION Pursuant to the California Environmental Quality Act \(CEQA\)](#)
