976 OSOS STREET ♦ ROOM 200 ♦ SAN LUIS OBISPO ♦ CALIFORNIA 93408 ♦ (805) 781-5600

*Promoting the Wise Use of Land ♦ Helping to Build Great Communities*

## WEEKLY REPORT OF ENVIRONMENTAL DOCUMENTS AVAILABLE FOR REVIEW

The purpose of the environmental review process is to provide information about the environmental effects of the actions and decisions made by the County, so that environmental considerations become a part of the decision making process. The following is a summary of the most recent determinations made by the County's Environmental Coordinator. The purpose of this listing is to notify the public of pending actions, which may affect the environment of San Luis Obispo County.

You are invited to participate in this process by reviewing and providing comments on the recommendations of the Environmental Coordinator. Your comments should be in writing and should be delivered to: **Ellen Carroll, Environmental Coordinator, Department of Planning and Building, 976 Osos Street, Room 300, San Luis Obispo, Ca 93408-2040.** For more information about the environmental review process, please write to the address above, call the Department of Planning and Building at (805) 781-5600, or review the environmental determination and other information on our website located at [www.sloplanning.org](http://www.sloplanning.org).

### **Proposed Negative Declarations**

A Negative Declaration is issued for projects that would not result in significant effects on the environment. In many cases, the project applicant has added mitigation measures to the project to reduce environmental impacts in order to qualify for a Negative Declaration. If you disagree with the issuance of a proposed Negative Declaration, you may provide comments or file a Request for Review (appeal) of the Negative Declaration. Requests for Review must be filed within two weeks of the date that the proposed Negative Declaration is posted and must address only environmental issues. There is a fee for the request. If you would like more information about this process, please contact the Environmental Coordinator.

### **For the week of August 14<sup>th</sup>, 2017**

#### Templeton Area

A Mitigated Negative Declaration has been prepared and issued for the Salinas Avenue Culvert Replacement Project. The County of San Luis Obispo Department of Public Works proposes to remove and replace the existing Salinas Avenue culvert crossing (two 36" corrugated metal pipes) with two new 66" high density polyethylene pipes on a new alignment. The purpose of the project is to improve safety and reduce the frequency of road closures on Salinas Avenue due to flooding. The project site is not on any of the lists enumerated under Section 65962.5 of the Government Code, including but not limited to lists of hazardous waste facilities, land designated as hazardous waste property, or hazardous waste disposal sites. The project is located on Salinas Avenue, where Toad Creek crosses under the roadway, between Eddy and Hawley Streets, in the community of Templeton. The project is located in the North County planning area, Salinas River subarea in Supervisorial District 1.
