Footnotes
FY 2024-2025

- 1) The department wishes to recover the full cost of service (including consultant cost) for all major projects, peer reviews and/or technical reports. This includes all projects for which the fee schedule requires a real Time Billing Deposit. Additionally, if the processing cost of an application, including environmental review or administering the conditions of approval, will be substantially in excess of the fee/deposit, which is collected at intake, the applicant may be notified before the project is scheduled for public hearing that the total processing cost will be determined by full cost recovery techniques and that additional charges (invoices) may be forthcoming. Invoices not paid within 30 days of billing will have all processing of the project stop until the invoice is paid in full. This option can also be used where the department determines that processing costs will be substantially less than the original fee/deposit. In this case, the unused portion of the fee/deposit will be refunded. Billing for Land Use/ Division Applications will be at the Department's hourly rate for Planning (currently \$142/per hour). Billing for Building permit applications will be at the Department's hourly rate for Building (currently \$135/per hour). These rates will be charged at 1.5 times these hourly rates when work is performed during overtime conditions at the applicant's request. The deposit will be collected on applications at intake. - 2) The Department wishes to recover the full cost of staff time required to resolve land use violation cases that do not require issuance of a land use permit. The Department shall notify the property owner at the time a violation is verified to exist. The total administrative cost of resolving the enforcement case will be determined by full cost recovery techniques, and the property owner will be billed accordingly.

- 3) A refund of any unused portion of fees for withdrawn or partially completed projects shall be determined by the Planning Director based on code requirements and/or an appraisal of the cost of staff work up to the time the project is withdrawn. Any fee erroneously paid or collected will be refunded in full or credited in full to the correct fee. All requests for refunds shall be in writing from the property owner or designee as listed on the application as originally filed with the department, with the refund paid only to that owner.
