-  County Road
-  State Highway
-  State Route
-  Earthquake Fault Zone
- Quaternary Faults**
-  Inferred
-  Moderately constrained
-  Well constrained

Source: U.S. - California Geological Survey 2006. Quaternary fault and fold database for the United States, accessed from USGS web site: <http://earthquakes.usgs.gov/regional/qfaults>

Locations of faults were taken from published literature; these investigations were carried out at a variety of scales of observation, hence some faults will be located more precisely and accurately than others. In general the locations are accurate as observed on a 1:250,000 scale map, or approximately 450 feet.
