COUNTY OF SAN LUIS OBISPO Department of Public Works

John Diodati, Director

April 24, 2025

MEMORANDUM

TO: Nacimiento Project Commission
FROM: Harold Wright, Public Works Finance

SUBJECT: Nacimiento Water Operating Fund: Proposed Budget FY 2025-26

The Fiscal Year 2025-26 Nacimiento Water Operating Proposed Budget is prepared by the San Luis Obispo County Flood Control and Water Conservation District staff (Department of Public Works). The budget is based on the full allocation of 17,500 acre feet of Nacimiento Water.

The Proposed Budget is presented and reviewed at the following 24-25 meetings. Revisions may be made in accordance with Participant input.

- <u>February 27</u>: Distribution to the Commission.
- March 20: Presentation to the Technical Support Group (TSG) and Finance Committee for review and discussion.
- April 24: Presentation to the Commission and a formal vote of endorsement.
- June: District Board of Supervisors' budget hearings and budget adoption.

A summary of the FY 2025-26 budget by category is displayed in Table 1:

TABLE 1 By Category	2024	-25 Budget	2025	-26 Budget		Dollar Change	% Change
Operations and Maintenance							
Billable Routine	\$	3,429,296	\$	3,519,443	\$	90,147	3%
Billable Non-Routine		289,271		349,514		60,243	21%
Total Billable O&M	\$	3,718,567	\$	3,868,957	\$	150,390	4%
Billable Capital Outlay/Reserves	(*)	6,173,240		1,345,853		(4,827,427)	(78%)
Billable Debt Service		11,488,705		11,489,010		305	
Total Participant Billings	\$	21,380,512	\$	16,703,820	(\$	4,676,732)	(22%)
Variable Energy [a]		2,326,361		2,503,871		177,510	8%

[[]a] Variable Energy is displayed as a reference amount only. Variable Energy is not included in installment billings to Participants, but rather billed quarterly based upon actual usage.

^(*) Includes funding from City of SLO Reserves of \$1,300,000 and City of Paso Robles Reserves of \$1,084,226.

A summary of the FY 2025-26 installment billings by Participant is displayed in Table 2:

TABLE 2 Installment Billings by Participant [b]	2024-25 Budget	2025-26 Budget	Dollar Change	% Change
	Y			
City of Paso Robles	(*) \$ 6,880,565	\$ 5,629,461	\$ (1,251,103)	(18%)
Templeton CSD	445,460	378,272	(67,189)	(15%)
Atascadero MWC	4,087,238	3,525,382	(561,856)	(14%)

Bella Vista Mobile Home Park	9,488	3,597	(5,891)	(62%)
SMR Mutual Water Co	90,031	54,058	(35,973)	(40%)
Participant Installment Billings	21,380,512	16,703,820	(4,676,692)	(22%)

[[]b] Variable Energy is not included in installment billings to Participants, but rather billed quarterly based upon actual usage.

VARIANCE DISCUSSION

<u>Total Installment Billings to Participants (Table 2):</u>

Total billings to participating agencies Decreased from the prior year by \$4,676,692 or 22%. The increase is explained below within the budget categories.

Billable Routine Operations and Maintenance and Variable Energy (Table 1):

Routine Operations and Maintenance billings are \$90,147 higher than the prior year budget. This variance is relatively flat compared to prior year, some of the routine O&M elements have decreased but were offset by increases in other elements. Notable budget decreases were recognized in the Master Water Contract with Monterey County (\$235,577), Quagga Mussel program (\$25,361), Engineering labor costs (\$24,358), ISF equipment contribution (\$14,000), and a decrease in Water Rights (\$11,881). Notable budget increases are recognized under CWOH \$163,884, Environmental Labor \$19,505, Water Quality Lab \$32,683 and O&M efforts for the Naci units (General through T-11) \$151,725.

While the Variable Energy budget is not included in the installment billings to Participants, we include the budget/estimate in the table for reference. Budgetary/estimated amounts are higher by \$177K or 8% than the prior year budget based upon requested deliveries to the participating agencies and related energy pumping costs and the water line being down due to storm damage.

^(*) Includes funding from City of Paso Robles of \$1,084,226.

^(**) Includes funding from City of SLO Reserves of \$1,300,000.

^(***) Includes Reserve payback from City of SLO of \$494,188.

Billable Non-Routine Operations and Maintenance (Tables 1 and 3):

Non-Routine billings are \$60,243 higher than the prior year budget due to changes in the following projects, based on 5-year Capital Improvement Plan reviewed with the Technical Support Group at both the November and December monthly meetings.

TABLE 3	2024-25 Budget	2025-26 Budget	Dollar Change
Billable Non-Routine O&M

Subtotal	\$289,272	\$349,515	\$60,243

c.f.: carry forward remaining budget from prior year to continue the project

Billable Capital Outlay and Reserves (Tables 1 and 4):

Capital and Reserve billings budget increased by \$394,188 from the prior year budget. This was primarily due to the reduction of the unanticipated non-routine capital projects budget and reserve payback of \$494,188 from the City of San Luis Obispo.

Capital Outlays decreased by \$8.3M due to budgeting for the Permanent Repair of the Naci Pipeline at \$8,292,000, Intake Pump #4 rebuild \$156,600 and SYPS Isolation valve at \$62,640 not billed in FY 2025-26.

TABLE 4	2024-25 Budget	2025-26 Budget	Dollar Change
_ Billable Capital Outlay UNANTICIPATED NON-ROUTINE CAPITAL PROJECTS	\$ 200.000	¢ 100 000	¢ (100 000)
INTAKE PUMP #4 REBUILD	\$ 200,000 156,600	\$ 100,000 78,225	\$ (100,000) (78,375)
SYPS ISOLATION VALVE	62,640	0	(62,640)
23 STORM NACI PIPELINE REPAIR	8,292,000	52,150	(8,239,850)
TEMP REPAIR – YELLOMINE	0	31,290	31,290
CONTRIBUTION TO RESERVES	490,000	984,188	494,188
Subtotal	\$9,201,240	\$1,245,853	\$(7,955,387)

Not shown above is \$200,000 of capital outlay, funded from reserves, which is budgeted annually as a contingency should a mid-year emergency expenditure become necessary.

Billable Debt Service (Table 1):

Debt service payments reflect the payment schedule from the 2018 bond refinancing. Billable debt service is essentially flat from the prior fiscal year.

Nacimiento Water Operating Fund Fiscal Policies

(Articles refer to Nacimiento Project Water Delivery Entitlement Contract)

BUDGET

Operating Reserves

On November 19, 2009, the Commission approved a target reserve balance of 20% of annual Operations and Maintenance expenditures. This reserve will be accumulated from fund interest earnings until the target balance is reached.

Capital Reserves (Article 4(C))

No later than March 1st, the District shall determine the amount of Capital Reserves necessary for the Nacimiento Facilities for the upcoming water year and shall prepare its annual draft budget to reflect such Capital Reserves.

On November 19, 2009, the Commission approved the collection of Capital Reserves in the amount of \$490,000 annually. After five years of Capital Reserve collections, this amount will be reviewed for sufficiency based on a five-year capital replacement plan.

Capital reserves will be billed to agencies based on Delivery Entitlement Share and maintained in separate accounts by participating agency. Capital reserve expenditures will be allocated from these accounts based on unit percentage share (Article 16(C)(1)).

Interest Earnings

All revenues received and interest accrued thereon from the Nacimiento Facilities shall be used for the sole benefit of the Nacimiento Facilities (Article 4(B)).

District will maintain separate accounts for each of the participating agencies and will deposit installment debt service and capital reserve payments into such accounts to allow for the allocation of interest earnings and separate accounting of these funds.

Interest earnings on Operations and Maintenance payments will be allocated annually based on the percentage share of participating agencies' Operations and Maintenance costs of the corresponding fiscal year.

<u>Purchase of Reserve Water Delivery Entitlement and Reserved Capacity Fee (Buy-in Fee)</u>

As per Article 29(B), the methodology and development of the "Buy-in Fee" was approved by the Nacimiento Project Commission on August 8, 2008.

CONTRACT PAYMENTS ARTICLE 16 & 17

On or before April 1st of each calendar year, District shall estimate the new or additional Nacimiento Water Project Costs for the fiscal year commencing on the immediately following July 1st and the result shall comprise the Total Participant Contract Payment due.

On or before July 1st of each fiscal year, the Participating Agency shall pay a sum equal to 60% of the Participant's allocation of Capital Reserve and Operations & Maintenance Costs.

On the immediately following January 1st of each fiscal year, the Participating Agency shall pay a sum equal to 40% of the Participant's allocation of Capital Reserve and Operation & Maintenance Costs.

On or before July 1st of each fiscal year, the Participating Agency shall pay a sum equal to the Participant's annual allocation of Capitol Project Installment Debt Service.

On or before July 1st of each fiscal year, the Participant shall pay a sum equal to the Participant's allocation of Additional Capital Project Costs and Master Water Contract Costs.

The District shall apply the apportioned ad valorem taxes received to the reduction of Reserved Capacity Construction Cost Component in each fiscal year in which the District receives such taxes up to and until the said Reserved Capacity Construction Cost component is paid. The District shall credit to the Participants the Delivery Entitlement Share of said apportioned tax proceeds, less any amounts which the District is obligated to pay under the terms of the Master Water Contract and/or any amounts which are not received or retained by the District because of the operation of the Community Redevelopment Law (California Health and Safety Code Section 33000 *et seg.*) or any other applicable law.

On or before December 1st of each fiscal year, District shall deliver to the Participants a statement of the actual Operation & Maintenance Costs and Capital Reserve charges imposed or incurred during the fiscal year most recently concluded, to determine any additional contract payments or credits needed. Any additional contract payments must be paid within 180 days of receipt of the statement, or conversely, a credit will be made against the Participant's future Contract Payments to the District.

Variable Energy Costs will be billed by Calendar Quarter. Variable Energy Costs are divided by the total acre feet (AF) of water delivered, then multiplied by the number of AF delivered to each of the participants. District is to notify the Participants no more than 45 days following the end of each calendar quarter of the amount due and the invoice is due within 30 days of receipt.

Definitions

(Articles refer to Nacimiento Project Water Delivery Entitlement Contract)

Additional Capital Project Costs shall mean costs expended or incurred by the District for Additional Capital Projects and not attributable to, financed by or included in Capital Projects Installment Debt Service.

Calendar Quarter shall mean each three (3)-month period commencing on January 1, April 1, July 1, and October 1 of each year.

Capital Projects Installment Debt Service (Debt Service) shall mean payments on debt or similar obligations incurred by the District for the Nacimiento Facilities consisting of, in the aggregate, (a) principal and interest (or mandatory sinking fund payments, installments or lease or similar payments due) with respect to all Municipal Obligations at the time outstanding in accordance with their terms, provided that capitalized interest funded from the proceeds of Municipal Obligations need not be taken into account, (b) annual costs of administering the Municipal Obligations, including the annual fees of any trustee or paying agent therefore, and (c) the costs, if any, of annual credit enhancement for the Municipal Obligations, whether or not based on a June 27, 2006 derivative structure as provided in Section 5922(a) of the Government Code. In the event, and to the extent that, any Additional Capital Project is financed by means of the issuance of a series of additional Municipal Obligations, then the payments and costs associated with the additional Municipal Obligations shall become a part of the Capital Projects Installment Debt Service.

Capital Reserve Costs shall mean the District's annual costs of maintaining Capital Reserves, determined by the District and budgeted annually by the District as provided for in Article 4(C) to be apportioned among All Participants as provided for in Article 16(C)(1).

Capital Reserves shall mean those reserves established and maintained by the District for (i) Scheduled Maintenance or (ii) for anticipated costs of a Required Additional Project imposed, or likely to be imposed, by a Governmental Authority (an "External Requirement") in order for the District to continue to operate the Nacimiento Facilities, *provided* however, that the District shall not expend any portion of the Capital Reserves for any External Requirement until and unless such External Requirement becomes a final order of such Governmental Authority, not subject to further appeal. Such Capital Reserves may be established either, (i) on a year-to-year basis by the District in its annual budgets, copies of which shall be supplied to the Participant promptly following adoption, or (ii) on a multi-year basis by the District through the development and promulgation to the Participant of a long-term capital improvement plan of the District; *provided*, however, that no Approved Additional Projects shall be funded from the Capital Reserves.

Delivery Entitlement shall mean the quantity of Nacimiento Project Water which the Participant is entitled to have delivered by the District to the Participant in any given Water Year, as set forth in Article 6(A). "Delivery Entitlement Share" shall mean the proportion of the Delivery Entitlement as compared to the Total Delivery Entitlement Obligation in any given Water Year.

Due Date shall mean the date upon which each payment of Capital Projects Installment Debt Service is required to be made by the Participant or any Other Participant.

Fiscal Year shall mean the twelve (12)-month period from July 1 of a Calendar Year to June 30 of the immediately following Calendar Year, both dates inclusive or such other dates constituting the designated fiscal year of the Participant as shall be determined by the governing board of the Participant.

Master Water Contract shall mean that certain Agreement, entered into by and between the District and the Monterey County Water Resource Agency (the "Monterey Water Agency"), successor to the Monterey County Flood Control and Water Conservation District, on October 19, 1959, and all amendments thereto.

Master Water Contract Costs shall mean those amounts that the District is obligated to pay under the Master Water Contract and which are attributable to the 15,750 acre-feet per year of Nacimiento Project Water.

Operation and Maintenance Costs shall mean the reasonable and necessary current expenses of maintaining, repairing and operating the Nacimiento Facilities, including District administrative expenses directly attributable to the Nacimiento Facilities, but excluding the Capital Reserve Costs and the Capital Projects Installment Debt Service, all computed in accordance with generally accepted accounting principles applicable to enterprise funds of government agencies.

Project Administration Costs shall mean those costs expended or incurred by the District relating to the administration or management of the Nacimiento Project or the Nacimiento Facilities, including, but not limited to, costs relating to accounting services, legal services, risk management, insurance, and claims management. Project Administration Costs occur during the Design Phase, Construction Phase, and Operation and Maintenance Phase.

Reserved Capacity shall mean that part of the capacity of the Nacimiento Facilities which is not needed by the District for the delivery of the Total Delivery Entitlement Obligation.

Unit shall mean those facilities, which collectively make up the operating segments of the Nacimiento Facilities.

Unit Percentage Share shall mean the Participant's pro rata share of the Capital

Reserve Costs, the Operation and Maintenance Costs and All Other Construction Costs Component for each Unit and as set forth in Article 16(C)(1) and (3)(c); or, in the context of a Like-Contract with any Other Participant, the term

Unit Percentage Share shall mean and refer to the correlative pro rata share of such Other Participant or Participants.

Variable Energy Costs shall mean the actual Nacimiento Facilities pumping energy costs incurred by the District in conveying and delivering: (i) the Delivery Entitlement and Surplus Water to the Participant and (ii) the respective Other Delivery Entitlements and surplus water to the Other Participants as defined under their respective Like-Contracts and as set forth in Article 16(C)(2).

Water Delivery Entitlement Contracts shall mean the Contract and the other Nacimiento Project Water Delivery Entitlement Contracts entered into by and between the District and the Other Participants.

Water Year shall mean the twelve (12)-month period from October 1 of each year to and including September 30 of next following year.

Wheeling Customer shall mean any person or entity to which the District conveys water, other than Nacimiento Project Water, through any Unit.

41	[a]	Variable Energy: Reference Only	351.887	2,326,361	2,503,871	177,510	0.0709

[[]a] Variable Energy is not included in installment billings based upon budget. Rather variable energy is billed quarterly based upon actual usage.

The budget amount is offered only as a recommended budget for Agencies based upon full allocation.

[[]b] Funding from sources other than annual installment billings to Participating Agencies. (e.g. Investment earnings on Trustee Reserves, Billings to Lakeside Users, Reimbursable billings to outside agencies per Engineering Agreements, interest earned.)

 $[\]hbox{ [c]} \qquad \qquad \textit{Expenditures funded from sources other than annual installment billings to Participating Agencies}. \\$

[[]d] FY1920, \$490,000 initially budgeted for reserves.

^(*) For the City of Paso Robles billings, this shows the net amount of gross billing less using reserves of \$1,084,226 included in the Cancelled Reserves.

^(**) For the City of SLO billings, this shows the net amount of gross billing less using reserves of \$1,300,000 included in the Cancelled Reserves.

Nacimiento Water Operating Fund Capital and Special Project Summary

FY	2	02	5-	2	0	2	6
----	---	----	----	---	---	---	---

Project Name	Description
	Non Routine O&M Projects
Intake #4 Pump Rebuild	Operations staff noticed reduced flow rates when operating intake pump #4. This project will restore full pumping capacity to intake pump #4.
SYPS Isolation Valve	This project includes the installation of an isolation valve on the inlet of Santa Ysabel Pump Station. The isolation valve will improve operational flexibility and reduce discharges into the Salinas River.
23 Storm Naci Pipeline Repair	Permanent repair of the Nacimiento Water line damage due to 2023 Storm activity.

Nacimiento Water Operating Fund Reserves Projected at 6/30/26

Annual Key Date Activities Nacimiento Water Project

Red and Italic Text = DISTRICT

Blue Text = PARTICIPANTS

Blue Text = PARTICIPANTS			
January	February	March	April
1 st - Calendar Year Begins. 1 st - Payment due for 40% of the Capital Reserve Costs .[Article 17(A)(2)]	15^{th} - Determine and Allocate Variable Energy Costs from previous Quarter [Article $16(C)(2)$]	1 st - Submit Draft of the Annual Budget for Water Year [Article 4(C)]	1 st - Estimate new or additional Nacimiento Project Costs [Article 16(B)]
1 st - Payment due for 40% of the Operation and Maintenance Costs [Article 17(A)(2)]		17 th - Payment of the Variable Energy Costs from the previous Quarter [Article 17(A)(3)]	
May	June	July	August
15 th - Determine and Allocate Variable Energy Costs from previous Quarter [Article 16(C)(2)]	1 st - Invoice Operations and Maintenance Costs [Article 17(A)(1)]	1 st - Fiscal Year Begins 1 st - Payment due for 60% of the Operations and Maintenance Costs [Article 17(A)(1)]	15 th - Determine and Allocate Variable Energy Costs from previous Quarter [Article 16(C)(2)]
	1 st - Invoice Capital Reserve Costs [Article 17(A)(1)]	1 st - Payment due for 60% of the Capital Reserve Costs [Article 17(A)(1)]	
	1 st - Invoice Capital Projects Installment Debt Service [Article 17(A)(4)]	1 st - Payment due for All of Capital Projects Debt Installment Service due [Article 17(A)(4)]	
	1 st - Invoice of remaining Nacimiento Project Costs [Article 17(A)(5)]	1 st - Payment due for All Remaining Nacimiento Project Costs [Article 17(A)(5)]	
	14 th - Payment of the Variable Energy Costs from the previous Quarter [Article 17(A)(3)]		
	30th - Fiscal Year Ends	1st - Payment/Credit December Statement results are either due and payable, or credits granted on July st billing [Article 17(B)(4)]	
September	October	November	December
14 th Payment of the Variable Energy Costs from the previous Quarter [Article 17(A)(3)]	1 st - Water Year Begins	1 st - Submit schedule to Monterey Water Agency under Master Water Contract [Article 11(G)]	1 st - Statement of Operations and Maintenance Costs and Capital Reserve Charges incurred for prior Fiscal Year [Article 17(B)(4)]
30 th - Water Year Ends	1 st - Notify Participants of any Surplus Water available [Article 12(A)]	15 th - Determine and Allocate Variable Energy Costs from previous Quarter [Article 16(C)(2)]	15 th Payment of the Variable Energy Costs from the previous Quarter [Article 17(A)(3)] 31 st - Calendar Year Ends
30 th - Determine if water levels are low enough to require execution of Master Water Contract [Article 11(J)] of 12,000 min. ac-feet pool	1 st - Submit Preliminary Water Delivery Schedule for succeeding 3 Water Years [Article 7(A)]		

UNIT DESCRIPTIONS

- <u>Unit A Lake Nacimiento Intake and Pump Station to Camp Roberts West Property Line:</u> Shall consist of the raw water intake structure including rights-of-way, intake shaft, tunnel(s), multi-port underwater intake piping and valves with appurtenances, underwater piping and appurtenance anchor and support blocks, intake fish screens, a building, pumps, piping, surge control facilities, access road, screens, gates, valves, controls and communication, electrical service, instrumentation, grounds, fencing, corrosion control, and appurtenances; and pipeline from the intake to the Camp Roberts west property line including rights-of-way, road crossings, controls and communication, instrumentation, air release structures, blowoffs, valves, vaults, corrosion control, and appurtenances.
- <u>Unit A1 Camp Roberts West Property Line to and Including the Camp Roberts Tank</u>: Shall consist of the pipeline from the Camp Roberts west property line to the Camp Roberts Tank outlet piping connection to the main pipeline including rights-of-way, road crossings, the Nacimiento River crossing, controls and communication, instrumentation, air release structures, blowoffs, valves, vaults, corrosion control, appurtenances, and the Camp Roberts Tank including rights-of-way, piping and valves, connections to the main pipeline, controls and communication, instrumentation, electrical service, corrosion control and coatings, overflow facilities, access roads, grounds, fencing, and appurtenances.
- <u>Unit C Camp Roberts Tank Outlet to Monterey Rd / Wellsona:</u> Shall consist of the pipeline from the Camp Roberts Tank outlet piping connection to the main pipeline to the intersection of Old Highway 101 and Monterey Road, including rights-of-way, the highway crossing, road crossings, controls and communication, instrumentation, air release structures, blowoffs, valves, vaults, corrosion control, and appurtenances.
- <u>Unit C1 Monterey Rd / Wellsona to Paso Robles Turnout:</u> Shall consist of the pipeline from the intersection of Old Highway 101 and Monterey Road to and including the mainline connection "tee" for the Paso Robles Turnout, including rights-of-way, the Salinas River crossing, railroad crossing, road crossings, controls and communication, instrumentation, air release structures, blowoffs, valves, vaults, corrosion control, and appurtenances.
- <u>Unit D Paso Robles Turnout to Templeton CSD Turnout, excluding the Santa Ysabel Pump Station (Unit B):</u> Shall consist of the pipeline from the mainline connection "tee" for the Paso Robles Turnout to the main pipeline connection with the inlet side of the Santa Ysabel Pump Station, and from the main pipeline connection on the outlet side of the Santa Ysabel Pump Station to and including the mainline connection "tee" for the Templeton CSD turnout, including rights-of-way, surge control, tunneling twice across the Salinas River, access road, road crossings, controls and communication, instrumentation, air release structures, blowoffs, valves, vaults, corrosion control, and appurtenances.

- <u>Unit B Santa Ysabel Pump Station:</u> Shall consist of the Santa Ysabel Pump Station from the inlet connection off of the main pipeline to the discharge connection on the main pipeline, including rights-of-way, a building, pumps, piping, connections to the main pipeline, surge control facilities, access road, valves, controls and communication, electrical service, instrumentation, grounds, fencing, corrosion control, and appurtenances.
- <u>Unit E Templeton CSD Turnout to Atascadero MWC Turnout:</u> Shall consist of the pipeline from the mainline connection "tee" for the Templeton CSD turnout to and including the mainline connection "tee" for the Atascadero MWC turnout, including rights-of-way, road crossings, controls and communication, instrumentation, air release structures, blowoffs, valves, vaults, corrosion control, and appurtenances.
- <u>Unit F Atascadero MWC Turnout to Rocky Canyon Tank Inlet:</u> Shall consist of the pipeline from the mainline connection "tee" for the Atascadero MWC turnout to the Rocky Canyon Tank inlet piping connection off of the main pipeline, including rights-of-way, road crossings, controls and communication, instrumentation, air release structures, blowoffs, valves, vaults, corrosion control, and appurtenances.
- <u>Unit F1 Rocky Canyon Tank:</u> Shall consist of the Rocky Canyon Tank from the tank's inlet piping connection off of the main pipeline through the tank and to within 25-feet, more or less, of the inlet manifold connection to the Rocky Canyon Pump Station, including rights-of-way, piping and valves, connections to the main pipeline, controls and communication, instrumentation, electrical service, corrosion control and coatings, access roads, grounds, fencing, overflow facilities, and appurtenances.
- <u>Unit F2 Rocky Canyon Pump Station:</u> Shall consist of the Rocky Canyon Pump Station from the Rocky Canyon Tank outlet connection to the pump station inlet pipe-through the pump station and to the discharge connection on the main pipeline, including rights-of-way, a building, pumps, piping, connections to the main pipeline, surge control facilities, access road, valves, controls and communication, instrumentation, electrical service, grounds, fencing, corrosion control, and appurtenances.
- <u>Unit G Rocky Canyon Pump Station Discharge to Route 58/Maria Avenue:</u> Shall consist of the pipeline from the discharge connection of the Rocky Canyon Pump Station to the intersection of Maria Avenue and Route 58 in Santa Margarita, including rights-of-way, a Salinas River Crossing, railroad crossings, road crossings, controls and communication, instrumentation, air release structures, blowoffs, valves, vaults, corrosion control, and appurtenances.
- <u>Unit G1 Route 58/Maria Avenue to Cuesta Tunnel Tank Inlet:</u> Shall consist of the pipeline from the intersection of Maria Avenue and Route 58 in Santa Margarita to the inlet piping connection off of the main pipeline of the Cuesta Tunnel Tank, rights-of-way, including railroad and road crossings,

controls and communication, instrumentation, air release structures, blowoffs, valves, vaults, corrosion control, and appurtenances.

<u>Unit G2 – Cuesta Tunnel Tank:</u> Shall consist of the Cuesta Tunnel Tank from the inlet piping connection off of the main pipeline through the tank and to the outlet piping connection off of the main pipeline, including rights-of-way, piping and valves, connections to the main pipeline, controls and communication, instrumentation, electrical service, corrosion control and coatings, access roads, grounds, fencing, overflow facilities, and appurtenances.

<u>Unit H – Cuesta Tunnel:</u> Shall consist of the existing Nacimiento Pipeline in the Cuesta Tunnel from the existing north portal inlet connection to the main pipeline—through to the south portal outlet connection to the main pipeline, including rights-of-way, controls and communication, instrumentation, air release structures, blowoffs, valves, vaults, corrosion control, and appurtenances.

<u>Unit H1 – Cuesta Tunnel to San Luis Obispo Turnout:</u> Shall consist of the pipeline from the south portal outlet connection to the main pipeline of the Nacimiento Pipeline in Cuesta Tunnel to and including the mainline connection "tee" for the City of San Luis Obispo turnout, including rights-of-way, railroad crossings, road crossings, controls and communication, instrumentation, air release structures, blowoffs, valves, vaults, corrosion control, and appurtenances.

<u>Unit T2 – City of Paso Robles Turnout</u>. Shall consist of a pipeline from the outlet side of the "tee" connection on the main pipeline near Station 1176+50 to and including the turnout flow control facilities connecting the Nacimiento Facilities to the City of Paso Robles water system facilities near the Thunderbird Well Field west of the Salinas River. The turnout shall include rights-of-way, an isolation valve adjacent to the main pipeline, piping, Salinas River crossing, road crossings, controls and communication, instrumentation, electrical service, air release structures, blowoffs, flow meter, isolation valves, flow control valve, vaults and slabs, corrosion control, access roads, grounds, fencing, and appurtenances. The District and City of Paso Robles demarcation point is the buried flange connection located about five feet outside the fence as indicated on construction drawing number T2-C101.

<u>Unit T4 – Templeton Community Services District Turnout</u>: Shall consist of a pipeline from the outlet side of the "tee" connection on the main pipeline near Station 1403+00 to and including the turnout flow control facilities connecting the Nacimiento Facilities to the Templeton Community Services District water system facilities near the intersection of El Pomar Drive, Templeton Road and Vineyard Street west of the Salinas River. The turnout shall include rights-of-way, an isolation valve adjacent to the main pipeline, piping, Salinas River crossing, road crossings, controls and communication, instrumentation, electrical service, air release structures, blowoffs, flow meter, isolation valves, flow control valve, vaults and slabs, corrosion control, access roads, grounds, fencing, and appurtenances. The District and Templeton Community Services District

demarcation point is the buried flange connection located about five feet outside the fence as indicated on construction drawing number T4-C101.

<u>Unit T6</u> – Atascadero Mutual Water Company Turnout. Shall consist of a pipeline from the outlet side of the "tee" connection on the main pipeline near Station 1496+00 to and including the turnout flow control facilities connecting the Nacimiento Facilities to the Atascadero Mutual Water Company well field and water system facilities west-southwest of the Salinas River. The turnout shall include rights-of-way, an isolation valve adjacent to the main pipeline, piping, Salinas River crossing, road crossings, controls and communication, instrumentation, electrical service, air release structures, blowoffs, flow meter, isolation valves, flow control valve, vaults and slabs, corrosion control, access roads, grounds, fencing, and appurtenances. The District and Atascadero Mutual Water Company demarcation point is the buried flange connection located about five feet outside the fence as indicated on construction drawing number T6-C101.

<u>Unit T9 –SMR Mutual Water Company Turnout:</u> Shall consist of a pipeline from the outlet side of a "tee" connection on the AR/AV pipeline near Station 2140+19 to and including the turnout flow control facilities connecting the Nacimiento Facilities to the Santa Margarita Ranch Municipal Water Company. The turnout shall include rights-of-way, an isolation valve adjacent to the main pipeline, piping, controls and communication, instrumentation, electrical service, air release structures, blowoffs, flow meter, isolation valves, flow control valve, vaults and slabs, corrosion control, access roads, grounds, fencing, and appurtenances. The District and Santa Margarita Ranch Mutual Water Company demarcation point is located upstream and two feet away and adjacent to the vault. See North Coast Engineering Plans Sheets 1-4.

<u>Unit T11 –City of San Luis Obispo combined with the San Luis Obispo County Service Area No. 10A Turnout:</u> Shall consist of a pipeline from the outlet side of the "tee" connection on the main pipeline near Station 2510+00 to and including the turnout flow control facilities connecting the Nacimiento Facilities to the San Luis Obispo Water Treatment Plant. The turnout shall include rights-of-way, an isolation valve adjacent to the main pipeline, piping, Stenner Creek crossing, road crossings, controls and communication, instrumentation, electrical service, air release structures, blowoffs, flow meter, isolation valves, flow control valve, vaults and slabs, corrosion control, access roads, grounds, fencing, and appurtenances. The District and City of San Luis Obispo demarcation point is located downstream and two feet outside of the fence surrounding the turnout facilities shown on construction drawing T11-C101.
