

SAN LUIS OBISPO COUNTY FLOOD CONTROL AND WATER CONSERVATION DISTRICT
WATER RESOURCES ADVISORY COMMITTEE (WRAC)

SLO City/County Library Community Room
995 Palm Street, San Luis Obispo CA

Wednesday, May 6, 2026
1:30 pm

Via Zoom Teleconference:

<https://us06web.zoom.us/j/88647250277?pwd=NDRwQXVqMjZkVzN2Z0x5RkR3QmNDUT09>

Call-in information: 1 (669) 900 6833, Meeting ID: 886 4725 0277, Passcode: 181580

Note: Members must be physically present in order to count toward the quorum and cast votes.

WRAC Agenda

1.	Introductions & Welcome	1:30pm
2.	Approval of April 1, 2026 WRAC Meeting Minutes	1:35pm
3.	Receive Presentation on the DESAL Plan	1:40pm
4.	Ongoing Updates: a. Rain & Reservoir Report b. Drought Updates c. Groundwater Basin Management Efforts d. Flood Control Zones e. Integrated Regional Water Management (IRWM) f. Master Water Report (MWR) Update g. State Water Project (SWP) h. Desalination i. Various County Water Programs, Policies, and Ordinances j. Open Reporting on Water Conservation Opportunities & Information	3:10pm
5.	Future Agenda Items	3:15pm
6.	Public Comment for Items not on the Agenda	3:20pm
7.	Adjourn Meeting	3:25pm

The agenda packet and attachments are available online at www.slocounty.ca.gov/wrac

Next Regular Meeting: June 3, 2026, 1:30 pm
SLO City/County Library Community Room
995 Palm Street, San Luis Obispo CA

Please contact WRAC Secretary, Brendan Clark, with any questions. bclark@co.slo.ca.us

Purpose of the Committee:

To advise the County Board of Supervisors concerning all policy decisions relating to the water resources of the San Luis Obispo County Flood Control and Water Conservation District. To recommend to the Board of Supervisors specific water resource and water conservation programs with recognition of the economic and environmental values of the programs. To recommend methods of financing water resource programs.

Excerpts from WRAC By-Laws dated January 23, 2024

SAN LUIS OBISPO COUNTY FLOOD CONTROL AND WATER CONSERVATION DISTRICT
WATER RESOURCES ADVISORY COMMITTEE (WRAC)

THIS PAGE IS INTENTIONALLY LEFT BLANK

MINUTES (DRAFT)

Chairperson: Thomas Burhenn
Vice Chairperson: Christine Mulholland
Secretary: Brendan Clark

The following action minutes are listed as they were acted upon by the Water Resources Advisory Committee (WRAC) as listed on the Regular Meeting agenda for **April 1, 2026** together with staff reports and related documents attached thereto and incorporated therein by reference.

The video recording of the meeting and materials submitted to the WRAC are available online: [https://www.slocounty.ca.gov/Departments/Public-Works/Committees-Programs/Water-Resources-Advisory-Committee-\(WRAC\).aspx](https://www.slocounty.ca.gov/Departments/Public-Works/Committees-Programs/Water-Resources-Advisory-Committee-(WRAC).aspx)

Call to order at 1:30 PM

1) Determination of a Quorum and Introductions

T. Burhenn called the meeting to order. 15 voting Members were present, constituting a quorum.

2) Approval of December 4, 2025, WRAC Meeting Minutes

Item start time ~ 00:03:30

T. Burhenn introduced the item and opened the floor for questions or comments from the Committee.

E. Greening noted a correction to his comment in the Ongoing Updates report regarding the referenced Substack website, clarifying that "Biotech" should be changed to "Biotic."

MOTION: Approve the December 4, 2025 WRAC Meeting Minutes as Amended

MOTION BY: E. Greening

SECOND BY: D. Roques

MOTION CARRIES

AYES: 14

NOES: 0

ABSTAIN: 1

ABSENT: 2

3) Election for Chairperson and Vice-Chairperson

Item start time ~ 00:05:10

T. Burhenn introduces item and asked for Chair and Vice-Chair nominations from the Committee.

C. Mulholland nominated T. Burhenn for Chairperson. No other nominations were received, and T. Burhenn accepted the nomination.

MOTION: Appoint T. Burhenn as WRAC Chairperson MOTION BY: C. Mulholland SECOND BY: A. Loe				
MOTION CARRIES	AYES: 15	NOES: 0	ABSTAIN: 0	ABSENT: 2

T. Burhenn nominated C. Mulholland for Vice-Chairperson. No other nominations were received, and C. Mulholland accepted the nomination.

MOTION: Appoint C. Mulholland as WRAC Vice-Chairperson MOTION BY: T. Burhenn SECOND BY: E. Greening				
MOTION CARRIES	AYES: 15	NOES: 0	ABSTAIN: 0	ABSENT: 2

4) Consider Submitting the 2025 Annual Report to the District Board of Supervisors

Item start time ~ 00:06:12

T. Burhenn introduced the item and opened the floor for questions or comments from the Committee.

C. Mulholland expressed appreciation to staff for compiling the report.

E. Greening commented on the absence of Committee recommendations reflected in the report, asked whether recommendations are being solicited less frequently than in previous years, and requested consideration of future format changes to the annual report regarding recommendations and actions taken in response to those recommendations. B. Clark responded.

MOTION: Submit the 2025 Annual Report to the District Board of Supervisors MOTION BY: C. Mulholland SECOND BY: E. Greening				
MOTION CARRIES	AYES: 17	NOES: 0	ABSTAIN: 0	ABSENT: 0

5) Receive Updates from Community Services Districts (CSDs) on Water Issues Relevant to Their Agency

Item start time ~ 00:09:20

T. Burhenn and B. Clark introduced the item and opened the floor for updates from CSD members on water issues relevant to their agencies.

J. Green provided updates for Cambria CSD.

D. Groshart provided updates for Heritage Ranch CSD.

D. Chipping asked whether Heritage Ranch has encountered issues with mercury levels. D. Groshart responded.

E. Greening asked whether fire-related pollution had been mitigated or continued to pose a threat. D. Groshart responded.

R. Munds provided updates for Los Osos CSD.

C. Mulholland asked about the pipeline between Los Osos and Chorro Valley and whether a planned alignment had been identified in connection with the bridge project. R. Munds responded.

E. Greening asked whether Los Osos CSD had observed measurable sea level rise on a year-to-year or decade-to-decade basis that may contribute to increased seawater intrusion. R. Munds responded.

J. Britz provided updates for Templeton CSD.

T. Burhenn asked what changes allowed the water connection waitlist to be removed. J. Britz responded.

A. Villa provided updates for Oceano CSD.

E. Eby provided updates for Nipomo CSD.

6) Ongoing Updates

Item start time ~ 00:35:10

a) Rain & Reservoir Report

C. Mulholland noted her comparison of recorded rainfall to the City of San Luis Obispo's Whale Rock Dam data during the fall and asked why those totals appeared lower than surrounding rain stations and were not more closely aligned. B. Clark responded.

D. Crater asked if there is a dedicated station at that location or whether staff use an alternative method for recording rainfall. B. Clark responded.

M. van Ryn commented that recorded rainfall totals in Nipomo also appeared to be inaccurate. B. Clark responded.

b) California Drought Monitor Summary

B. Clark noted that the Multi-Jurisdictional Hazard Mitigation Plan received final approval from the County Board of Supervisors in January.

c) Groundwater Basin Management Efforts

C. Mulholland requested additional information be provided to the WRAC regarding the managed SGMA basins.

E. Greening noted that, while the WRAC does not regulate the CSDs, the Committee benefits from receiving regular updates from them and suggested a similar approach for ongoing SGMA updates, while respecting GSA autonomy and valuing transparency.

B. Clark responded.

D. Chipping commented on the benefit of the WRAC taking a more holistic approach to water resource discussions at the countywide level, including groundwater basin management. B. Clark responded.

D. Crater commented on the benefit of viewing water resources as a whole system rather than as separate parts.

d) Flood Control Zones

B. Clark commented on the completion of construction of the Mid-Higuera Bypass Project for Flood Control Zone 9, which has been planned and implemented over the past 20 years.

M. Pasa introduced herself as the new Supervising Engineer for Flood Control Zone 1/1A and touched on the written updates provided in the report.

D. Chipping asked whether there was any possibility of diverting water from the lower section of Meadow Creek as an option to help prevent flooding. M. Pasa responded.

e) Integrated Regional Water Management (IRWM)

B. Clark highlighted key points from the written update.

T. Burhenn asked when a response from the State regarding the Replacement Projects submittal could be expected. B. Clark responded.

f) Master Water Report (MWR) Update

B. Clark summarized the written update.

g) State Water Project (SWP)

No comments.

h) Desalination Executable Solution and Logistics Plan (DESAL Plan)

T. Burhenn noted that the DESAL Plan Project Team would be presenting to the WRAC at the May meeting and is planning to host two community engagement meetings, one in

Morro Bay and another in Grover Beach, to provide an update on the feasibility study and gather public input.

C. Mulholland commented on Norway's underwater desalination efforts and San Diego's deep seawater desalination system, noted potential differences in resource use between underwater and land-based operations, and suggested the County investigate similar options as desalination efforts continue.

i) Various County Water Programs, Policies, and Ordinances

E. Greening shared information about the upcoming Beaver Fest event scheduled for Saturday, April 11, 2026.

j) Open Reporting on Water Conservation Opportunities & Information

C. Mulholland commented on the effectiveness of conservation efforts in Southern California, noting significant reductions in water use in the Los Angeles area despite substantial population growth, and referenced a recent celebration related to the history of Mulholland Dam.

7) Future Agenda Items

None

8) Public Comment for Items not on the Agenda

E. Greening noted unusually hot conditions across the county and nationwide, including record highs, and encouraged research into effective public policy approaches to address climate change in the present and future.

DATE: May 6, 2025

SUBJECT: Item X: Receive Presentation on the DESAL Plan

Discussion

The DESAL Plan Feasibility Study team will present an update on progress, including an overview of the project background, objective and goals, review of scope, presentation of desalination project concept alternatives, follow up from April 20 and 21 Community Engagement Sessions, high level cost discussion, additional study needs and next steps.

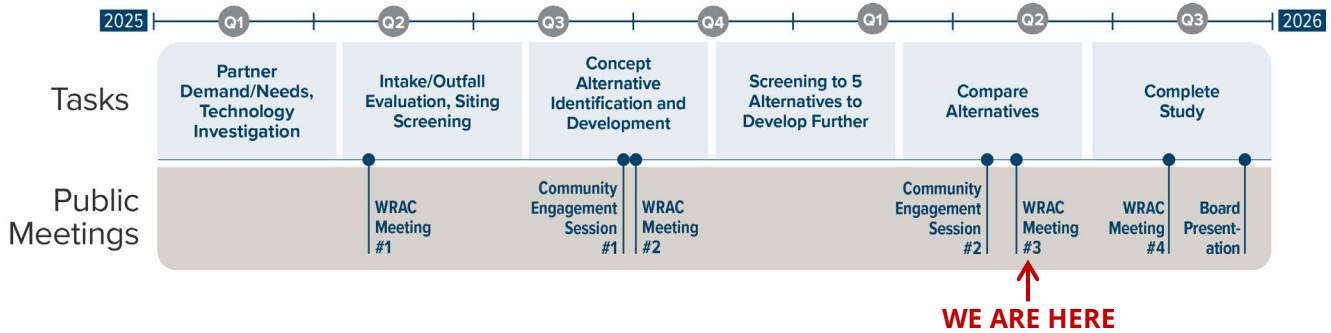

Background

Desalination, the process of removing salt from saltwater to make it freshwater, can offer a safe, long term, droughtproof water supply. The District, in collaboration with sixteen (16) partner agencies and with funding support from a U.S. Bureau of Reclamation WaterSMART grant, is conducting a planning effort to explore the potential for a regional desalination project in San Luis Obispo County. The DESAL Plan is in Phase 2: DESAL Planning Phase, which focuses on development of a USBR-compliant feasibility study (study) to identify, evaluate and compare desalination project alternatives.

The study includes identification of potential desalination locations and conceptual conveyance configurations associated with project needs while considering environmental, social, and physical constraints. Though no final decisions will be made during this phase, the study findings will support meaningful dialogue among partner communities regarding what role desalination might play in helping meet the region's long-term water supply goals and support a water-secure future.

At the October 1, 2025, WRAC meeting, the DESAL Plan Feasibility Study team presented an update on the study, including the site screening approach, project concept alternatives, site evaluation criteria, and screening process. Since then, through that initial screening and evaluation process, the District and partners identified and evaluated potential suitable locations and developed alternatives by combining locations with potential users and infrastructure needs. The process resulted in five project concept alternatives that are being evaluated in greater detail for the study.

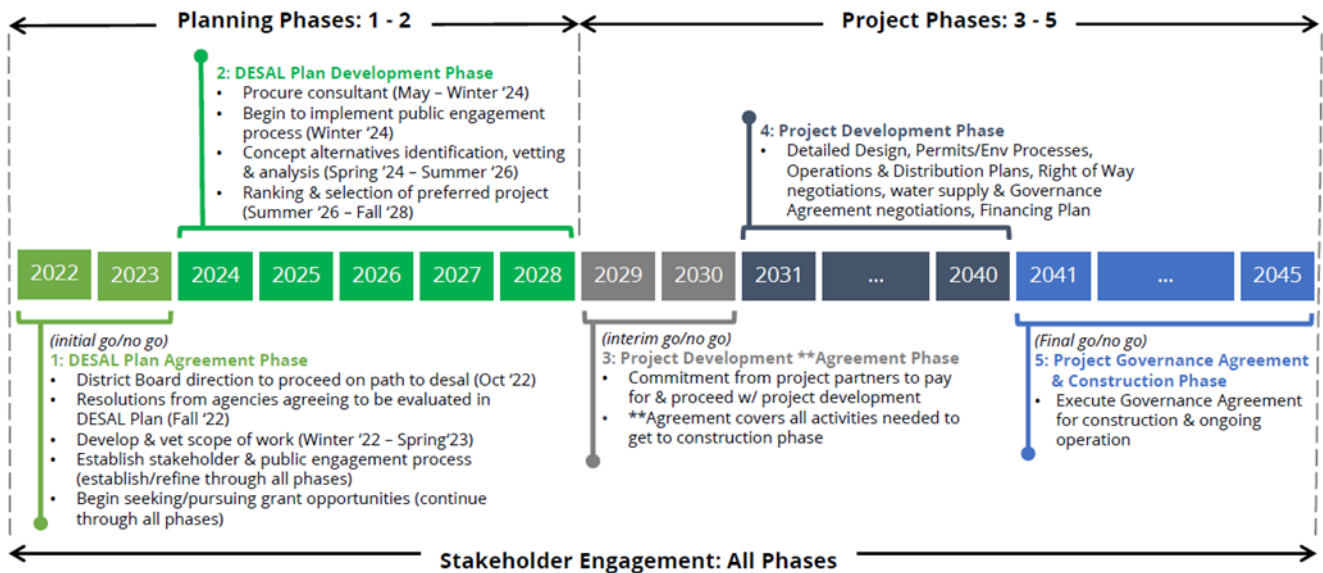

Community engagement and stakeholder outreach are ongoing. Two in-person Community Engagement Sessions were held on April 20 and April 21, 2026, in Morro Bay and Grover Beach, respectively, in an effort to improve in-person accessibility and attendance for community members countywide. The sessions were held to inform and get input on our region's water resources, to share progress made on the development and evaluation of potential desalination alternatives, to provide information regarding key tradeoffs, constraints, and considerations, and to give an opportunity for interested parties to ask questions and engage directly with the project team. A recording of the Community Engagement Session and the presentation slides are posted to <https://www.slocounty.ca.gov/desal>.

For more information, to join the DESAL Plan email list, submit public comments, or view project materials as they become available, please visit the County's DESAL Plan webpage at:

<https://www.slocounty.ca.gov/DESAL>

Desalination Executable Solution And Logistics Plan DESAL Plan*

TO: Water Resources Advisory Committee

FROM: Brendan Clark, Supervising Water Resources Engineer

DATE: May 6, 2026

SUBJECT: Agenda Item 4: Ongoing Updates

- a) **Rain & Reservoir Report.** See attached 2025-26 current report.
- b) **Drought Updates.**
 - o No updates.
- c) **Groundwater Management Efforts**

On December 18, 2019, the California Department of Water Resources (DWR) released the Final Sustainable Groundwater Management Act (SGMA) 2019 Prioritization¹ that designates each groundwater basin and subbasin (collectively, basins) as high, medium, low or very low priority. Groundwater sustainability agencies (GSAs) are required to develop and implement groundwater sustainability plans (GSPs) for each high or medium priority basin.

Basin Updates:

Basin	Update:
Los Osos Basin	<p>Los Osos Area Subbasin (adjudicated area) is designated as a very low priority basin subject to critical conditions of overdraft. SGMA does not apply to the portions of Los Osos Basin that are adjudicated provided that certain requirements are met (Water Code §10720.8). The fringe areas of the Los Osos Area Subbasin are not subject to the requirements of SGMA due to the DWR very-low prioritization. The Los Osos Basin Management Committee (BMC) oversees implementation of the Los Osos Basin Plan for the area.</p> <ul style="list-style-type: none"> • The scheduled BMC Meeting for April 15th, 2026 was canceled. • The scheduled BMC Meeting for Wednesday, May 20th, 2026 is anticipated to be canceled. Official notice will be posted on the BMC website closer to the meeting date. • The BMC is anticipating holding a Special BMC Meeting on Friday, May 29th at 1:30pm. Official notice will be posted on the BMC website closer to the meeting date. <p>Meeting notices, minutes, and recordings are available on the Los Osos Basin Management Committee website: https://www.losososbmc.org/.</p>
Atascadero Basin	<p>Atascadero Basin is designated as a very low priority basin and is not subject to the requirements of SGMA due to the DWR prioritization; however, the Atascadero Basin Groundwater Sustainability Agency (GSA) Executive Committee (EC) elected to develop, and submit to DWR, a groundwater sustainability plan</p>

¹ <https://water.ca.gov/Programs/Groundwater-Management/Basin-Prioritization>

	<p>(GSP) by January 31, 2022. The GSP was submitted on January 30, 2022 and approved by DWR on April 14, 2025.</p> <ul style="list-style-type: none"> • The EC met on March 25, 2026, regarding the following item: <ul style="list-style-type: none"> ○ Filing of Water Year 2025 Annual Report ○ Periodic Evaluation Update • The next EC meeting date has not been scheduled. <p>For more information or to view meeting material, visit: www.AtascaderoBasin.com</p>
<p>Santa Maria Basin</p>	<p>Santa Maria Area Subbasin (adjudicated area) is designated as a very low priority basin. The adjudicated areas of the Santa Maria Basin are managed by the Northern Cities Management Area, Nipomo Mesa Management Area, and Santa Maria Valley Management Area. The County is implementing wellhead improvements at coastal monitoring well cluster 11N/36W-12C (Dunes Well 12C). The main purpose of the work is to raise the wellhead, which is covered by dune sand, and to re-equip the well with new pumps for water quality monitoring.</p> <p>The Santa Maria Basin Fringe Areas – County of San Luis Obispo GSA is the GSA for the non-adjudicated fringe areas of the basin within the County. This subbasin consists of an adjudicated area and other non-adjudicated fringe areas. However, only the priority of the non-adjudicated fringe areas was assessed, which include the Ziegler Canyon Fringe Area in San Luis Obispo County and other fringe areas in Santa Barbara County.</p> <p>Arroyo Grande Subbasin is designated as a very low priority basin and is not subject to the requirements of SGMA due to the DWR prioritization; however, the County and City of Arroyo Grande as GSAs in the basin have prepared a GSP.</p> <p>For more information, please visit: www.slocounty.ca.gov/santamariabasin or www.slocounty.ca.gov/agbasin</p>
<p>Paso Basin</p>	<p>Paso Basin is designated as a high priority basin subject to critical conditions of overdraft. The Paso Basin – County of San Luis Obispo GSA, City of Paso Robles GSA, Estrella-El Pomar-Creston WD GSA, San Miguel CSD GSA, and Shandon San Juan WD GSA, entered into an agreement to develop and implement a single GSP for the basin and coordinate via the Paso Basin Cooperative Committee (PBCC). In April 2025, the County of San Luis Obispo GSA, City of Paso Robles GSA, Estrella-El Pomar-Creston WD GSA, and Shandon San Juan WD GSA formed the Paso Robles Area Groundwater Authority (Paso Authority) through a Joint Powers Agreement (JPA), which supersedes the PBCC and is the new governing body of Paso Basin.</p> <ul style="list-style-type: none"> • The Paso Authority held a regular meeting on April 22, 2026, regarding the following items: <ul style="list-style-type: none"> ○ Update and Direction on Key Policy Components for the Fiscal Year 2026-2027 Groundwater Sustainability Fee Report, and Set a Public Meeting Date for Potential Fee Adoption ○ Update on Upcoming Grant Opportunities ○ Update on Fallowed Land Registry Program

	<ul style="list-style-type: none"> The next Paso Authority regular meeting is scheduled for May 27, 2026. <p>For more information or to view meeting materials, please visit: www.pasoroblesaga.org/</p>
Cuyama Basin	<p>Cuyama Basin is designated as a high priority basin subject to critical conditions of overdraft. The Cuyama Basin GSA was formed through a Joint Powers Agreement (JPA) and is an independent agency governed by a Board of Directors for Cuyama Basin. An amended GSP was submitted to DWR on July 20, 2022 and on March 3, 2023, DWR issued a recommended "approval" of the GSP. The final approval with proposed corrective actions was received on May 25, 2023.</p> <ul style="list-style-type: none"> The next regular Cuyama Basin GSA Advisory and Board meetings are proposed for June 25, 2026, and July 1, 2026, respectively. <p>For more information, please visit: www.cuyamabasin.org</p>
San Luis Obispo Basin	<p>San Luis Obispo Basin is designated as a high priority basin. The County and City of San Luis Obispo GSAs, in coordination with other basin stakeholders, formed the Groundwater Sustainability Commission (GSC) to develop and submit a Groundwater Sustainability Plan (GSP) for the SLO Basin to DWR by the January 31, 2022 statutory deadline. The GSP was approved by DWR on April 27, 2023, and per the GSC MOA, the GSC terminated on March 18, 2024. DWR recommended four corrective actions and the County GSA and City GSA will be addressing these ahead of the next GSP periodic evaluation due January 26, 2027. Moving forward, the County GSA will work with local stakeholders to receive relevant feedback on the implementation of the GSP.</p> <ul style="list-style-type: none"> No meetings are currently scheduled at this time. <p>For more information, please visit: https://www.slocounty.ca.gov/slobasin</p>
Adelaida Area	<p>The Adelaida Area is not a DWR designated groundwater basin; however, the San Luis Obispo County Flood Control and Water Conservation District (District) has been coordinating with the U.S. Geological Survey (USGS) on a hydrogeologic study to increase understanding of the groundwater conditions, availability, and sustainability in the fractured rock area. Currently, the USGS is working to integrate and analyze the hydrogeologic system using data gathered in the initial study tasks, which commenced in 2019, to produce an interpretive report that is anticipated late 2026.</p> <p>For more information, please visit: https://www.slocounty.ca.gov/adelaidastudy</p>

d) County Flood Control Zones

The San Luis Obispo Flood Control and Water Conservation District is a resource to help individuals and communities in San Luis Obispo County identify and address flooding problems with the purpose "to provide for control, disposition and distribution of the flood and storm waters of the district and of streams flowing into the district..."

Updates by Zone:

Zone	Update:
------	---------

**Zone 1/1A
Arroyo
Grande
Creek
Channel**

Flood Control Zone 1/1A includes the maintenance and operations of the Arroyo Grande and Los Berros Channels to provide flood protection within the Zone located near the City of Arroyo Grande and the community of Oceano.

The following are updates to on-going District staff activities for Zone 1/1A:

- 1. Waterway Management Plan (WMP):** The Arroyo Grande Creek Channel WMP and associated environmental documents are the District's maintenance procedures, activity and schedule allowances to maintain storm flow conveyance while simultaneously enhancing water quality and sensitive species habitat. Since the last WRAC meeting, the Draft 2026 Annual Work Plan was timely submitted to regulatory agencies for review. The Final Work Plan will be publicly available on the Flood Zone website. The District continues to perform spring maintenance work, including invasive species control, levee mowing, and watering native planting sites. Please join us on Saturday, May 16th for a native planting site work day and meet your levee response team! Sign up using the following link: <https://survey123.arcgis.com/share/a19ca8f580034aa7a0aed309ac482c18>
- 2. Zone 1/1A and Arroyo Grande Creek Watershed Programs Funding Project:** This is an effort to update the Prop 218 Assessments from 2006 for the Zone 1/1A Program and to evaluate watershed-scale and other options to fund and implement other programs in the watershed that may impact the success of efforts in the Zone 1/1A area. A consultant Request for Proposals (RFP) was issued in January 2026, proposals were received and reviewed by the selection committee. The top-ranked firm is anticipated to be awarded the contract by the end of May to begin the funding assessment by evaluating existing and historical costs associated with levee operations, maintenance, and necessary improvements.
- 3. Arroyo Grande Creek Levees Project:** This is a scoping study, federally funded under the Pre-Disaster Mitigation Grant Program through the Federal Emergency Management Agency (FEMA) and the California Office of Emergency Services (Cal OES), to support the District's AG Creek channel flood protection efforts through an alternatives analysis to evaluate feasible flood mitigation solutions to improve flood protection for properties surrounding the channel. A consultant RFP was issued in January 2026, proposals were received and reviewed, and interviews completed. The contract with the top-ranked firm will be presented to the Board for recommendation for award by the end of May. This study is anticipated to run parallel with the funding project to capture long-term maintenance and improvement plans for both Zone 1/1A and other watershed-scale projects for potential funding opportunities.
- 4. Meadow Creek Lagoon Habitat Restoration Project:** This project aims to improve connectivity between the Meadow Creek and Arroyo Grande Creek lagoons and enhance steelhead rearing habitat by excavating pools and incorporating engineered wood structures to increase habitat complexity, in accordance with the US Army Corps of Engineers and

	<p>National Marine Fisheries Service Biological Opinion issued for the WMP. The District has selected a preferred alternative for the Project which was developed in collaboration with the Project science panel composed of agency and academic technical environmental specialists and engineers. The 30% design includes replacing the existing Sand Canyon Flap Gates with a tide gate and creation of complex habitat pools within lower Meadow Creek Lagoon. This report is available under the Plans & Reports section of the Zone 1/1A website (linked below). The Project science panel met in March and April to review and discuss environmental monitoring goals and objectives in preparation of moving to the environmental documentation phase of this Project. An updated Project timeline will be provided at the next WRAC meeting.</p> <p>5. Levee Operations Emergency Response Planning: The District is continuing to perform emergency response planning activities, including plan review and updates, staff training, managing response materials, maintaining field gages, and securing emergency response contracts.</p> <p>The next meeting of the Zone 1/1A Advisory Committee is scheduled for Tuesday, June 16th, 2026, at 3:00 PM. Meetings are held at the Sheriff's South Patrol Station, 1681 Front Street, Oceano, CA .</p> <p>For more information, please visit: https://www.slocounty.ca.gov/Zone1-1A</p>
<p>Zone 9 San Luis Obispo Creek</p>	<p>Flood Control Zone 9 provides flood control data and planning for the area encompassing San Luis Obispo Creek and its tributaries. City and County staff are currently planning an update to the Waterway Management Plan, installation of new stream gages and more.</p> <p>The next meeting of the Zone 9 Advisory Committee is scheduled for June 10, 2026, 1:30 PM, at the SLO Vets Hall Lounge Room, 801 Grand Ave, San Luis Obispo, CA 93401.</p> <p>For more information, please visit: https://www.slocounty.ca.gov/Zone9</p>

e) Integrated Regional Water Management (IRWM)

On January 27, 2026 the Board directed staff to submit an amendment request to DWR to replace Central Coast Blue, Phase 1 with two projects, the City of SLO's Groundwater Cleanup Project and the Heritage Ranch CSD's Disinfection Byproducts project. This has been submitted to DWR for inclusion into our agreement. Once this amendment is approved by DWR, the table below will be updated.

A summary of open and pending IRWM grants is below:

Prop 1E Stormwater Flood Mgmt Grant (2011)	\$2,797,000	Complete	
Prop 84 Implementation Grant (2011)	\$10,401,000	Complete	
Prop 1 Disadvantaged Community Involvement 2017	\$877,563	Complete	
Prop 1 Implementation Grant, Round 1	\$2,782,130	Complete	
Prop 1 Implementation Grant, Round 2	\$3,782,129	In Progress	

Grant Administration	\$132,374	In Progress	Flood Control District
Indirect Potable Reuse	\$1,200,000	In Progress	City of Morro Bay
Central Coast Blue, Phase 1	\$1,000,000	TBD	City of Pismo Beach
Master Water Report Information System	\$549,755	In Progress	Flood Control District
Water Resource Reliability Projects	\$600,000	In Progress	Oceano CSD
Water Reliability Projects	\$300,000	In Progress	San Miguel CSD

For questions, contact:

Brendan Clark, IRWM Program Manager

Email: bclark@co.slo.ca.us, Phone: (805) 788-2316

f) Master Water Report (MWR) Update

May Update:

County staff and the consultant team are planning the expansion of the Master Water Report Data and Information Management System (DIMS) to the rest of the County after having started with the Morro Bay Watershed. Focus areas have been developing and refining methodologies for integration with SMGA annual reports, the Planning Department's annual housing projections, vulnerability scoring related to SB-552 and the 2021 Regional Water Infrastructure Resiliency Plan, and updating the approved to environmental water demand.

Background:

On June 7, 2022, the District Board of Supervisors approved a contract with Carollo Engineers, Inc. to develop the Master Water Report Update and Information System. Board Item:

<https://agenda.slocounty.ca.gov/iip/sanluisobispo/agendaitem/details/14655>

For more information, please visit the project website:

<https://www.slocounty.ca.gov/Departments/Public-Works/Current-Public-Works-Projects/Master-Water-Report-and-Data-Information-System.aspx>

g) State Water Project (SWP)

- Current 2026 SWP Water Supply & Demand:

<u>2026 SWP Supply</u>		
The current SWP allocation % (and date) set by DWR:	30%	(1/29/2026)
The Table A water amount based on the current SWP allocation % applied to the District's 25,000 AF "Table A" contract translates to:	7,500 AF	Table A water
Estimate of "Carryover" water in storage at San Luis Reservoir <u>on January 1, 2026</u> (the start of the new SWP delivery year) was:	9,109 AF	Carryover water
Other District Surplus SWP water stored water outside the District:	350 AF	Additional Storage
Total Project water available to the District:	16,959 AF	Total Supply
<u>2026 SWP Demand</u> (As of 1/1/2026)		

Total Project water scheduled for delivery to the District within the Coastal Branch (under the District's 4,830 AF capacity share):	3,540 AF	Scheduled Deliveries
---	-----------------	-----------------------------

- **State Water Subcontractors Advisory Committee (SWSAC):** The next regular SWSAC meeting is being planned for Friday, May 29, 2026. More information, once available, will be posted to the SWSAC website: <https://www.slocounty.ca.gov/Departments/Public-Works/Committees-Programs/State-Water-Project-and-Subcontractors-Advisory-Co.aspx>

h) Desalination Executable Solution and Logistics Plan (DESAL Plan)

Please see Item 3 of today's agenda for a detailed update.

For more information, including the locations/areas identified for further study, to join the DESAL Plan email list, submit public comments, and view project materials as they become available, please visit the County's DESAL Plan webpage at: <https://www.slocounty.ca.gov/DESAL>

i) Various County Water Programs, Policies, and Ordinances

The County Department of Planning & Building's website for the water conservation programs in Nipomo Mesa, Paso Basin, and Los Osos: [Countywide Water Conservation Program - County of San Luis Obispo](#)

Current Los Osos Happenings

In order for the Community of Los Osos to develop, two programs need to be running: the Allocation Program and the Los Osos Habitat Conservation Plan (LOHCP). There have been delays with implementation of the LOHCP. This ultimately means Los Osos development is on hold until LOHCP Mitigation Credits are available. Those who own vacant lots can work towards obtaining a Title 19 Retrofit-to-Build certificate (available at [title-19-logwb-retrofit-to-build-requirement](#)). This certificate does not expire and is tied to the parcel it is applied for. This certificate is not a requirement to apply but is a requirement prior to permit issuance.

On December 16, 2025, Planning staff presented an annual review of the County Growth Management Ordinance (GMO) allocation and a recommendation for 2026 Los Osos growth rate to the Board of Supervisors. The Board voted to approve a growth rate of 0.4% (25 new dwelling units). Timelines for permitting and additional information can be found on the Planning and Building website at [Los Osos](#).

Nipomo Mesa

Offset Programs. The County is continuing to process building permits subject to the County's water offset fees at a 1:1 ratio to fund the Cash for Grass program, available for both residential and commercial uses. Funding is currently limited for the rebate programs and applications are accepted on a first-come, first-served basis. Applicants in the Nipomo CSD service area may pay the CSD's supplemental water fee to meet the County's offset requirement. For more information, visit: [https://www.slocounty.ca.gov/Departments/Planning-Building/Department-Divisions/Agriculture,-Water,-and-Energy/Water-Programs/Programs-and-Services/Nipomo-Mesa-Water-Conservation-Area-\(NMWCA\).aspx](https://www.slocounty.ca.gov/Departments/Planning-Building/Department-Divisions/Agriculture,-Water,-and-Energy/Water-Programs/Programs-and-Services/Nipomo-Mesa-Water-Conservation-Area-(NMWCA).aspx)

Paso Basin

Offset Programs. In the Paso Robles Groundwater Basin, there are funds available for the Cash for Grass program, available to both residential and commercial property owners. A well meter is required for compliance with Title 19.

The Ag Offset ordinance requires property owners to verify that new and expanded irrigated commercial crops are not increasing their existing water use on-site, based on a 5 year look back period, with a 5 AFY exemption for sites that do not have existing irrigation and are outside of the area of severe decline. For more information, visit:

[https://www.slocounty.ca.gov/Departments/Planning-Building/Department-Divisions/Agriculture,-Water,-and-Energy/Water-Programs/Programs-and-Services/Paso-Robles-Groundwater-Basin-\(PRGWB\).aspx](https://www.slocounty.ca.gov/Departments/Planning-Building/Department-Divisions/Agriculture,-Water,-and-Energy/Water-Programs/Programs-and-Services/Paso-Robles-Groundwater-Basin-(PRGWB).aspx).

Los Osos

Guide to Planning Information for Development in Los Osos. This website is currently the best resource for FAQ concerning what type of development is currently allowed within Los Osos:

<https://www.slocounty.ca.gov/departments/planning-building/grid-items/community-engagement/communities-villages/los-osos>

Offset Requirement.

The retrofit-to-build program within the community of Los Osos is allowing property owners to retrofit washers and/or hot water recirculation pumps within and outside the prohibition zone to acquire retrofit credits to offset water use for new development at a 2:1 ratio. Program information is available at:

<https://www.slocounty.ca.gov/Departments/Planning-Building/Department-Divisions/Agriculture,-Water,-and-Energy/Water-Programs/Programs-and-Services/Los-Osos-Groundwater-Basin-Plumbing-Retrofit-to-Bu.aspx>

Los Osos Community Plan:

On June 13, 2024, the California Coastal Commission issued suggested modifications to the Estero Area Plan and the proposed Los Osos Community Plan, including a maximum residential growth rate of 1% for the sustainable buildout of Los Osos if groundwater production remains below sustainable yield, based on the best available science. On October 29th, 2024, the County Board of Supervisors adopted a resolution to accept the California Coastal Commission's suggested modifications.

The Los Osos Community Plan (LOCP) can be found here:

<https://www.slocounty.ca.gov/departments/planning-building/forms-documents/plans-and-elements/community-plans/los-osos-community-plan/cert-los-osos-community-plan>. The LOCP is part of the County's General Plan and is not included in the County's Local Coastal Program. The LOCP provides a greater level of specificity for the community of Los Osos.

Excerpt from Chapter 1.1 Purpose of the LOCP:

"The purpose of this [LOCP] is to establish a vision for the future of Los Osos that will guide growth and development over the next 20 years...This plan is intended to be the community's plan...Continued community involvement is needed to achieve the vision."

Please contact waterprograms@co.slo.ca.us for further information or questions.

j) Open Reporting on Water Conservation Opportunities & Information

San Luis Obispo County Flood Control and Water Conservation District

Rainfall and Reservoir Report

Generated: 5/1/2026 0:00

Notes

- All data from automated sensors and preliminary (subject to verification and/or revision).
- All rainfall data in inches.
- * denotes data not available at time of generation.
- 1 SLO County FCWCD defines each Water Year from July 1 to the subsequent June 30.
- 2 Rainfall data for month of generation is partial (only to time of generation).
- 3 Water Planning Areas as defined by 2018 County IWRM update.
- 4 Per County Standard Drawing H-1, calculated over 42 year period from WY1955-56 to 1997-98.
- 5 Elevation datums vary; refer to operating agency materials for detail.
- 6 Salinas Reservoir was resurveyed in April 2024, with max storage decreasing from 23,843 in 1991. In late May 2024, the elevation datum was updated along with the storage-elevation curve. 2023 values use previous datum and storage-elevation assumptions.
- 7 n/a (no elevation) is reported for Twitchell when the pool elevation is below 535 feet.

SAN LUIS OBISPO COUNTY FLOOD CONTROL AND WATER CONSERVATION DISTRICT
WATER RESOURCES ADVISORY COMMITTEE (WRAC)

THIS PAGE IS INTENTIONALLY LEFT BLANK

TO: Water Resources Advisory Committee

FROM: Brendan Clark, Supervising Water Resources Engineer

DATE: May 6, 2026

SUBJECT: Agenda Item #5: Future Agenda Items

Anticipated Topics for 2026:

- District FY2026-27 Budget
- DESAL Plan
 - Potential WRAC Special Meeting in August.
- Master Water Report
- Salinas Dam
- Update discussions from agencies/other member groups

Areas of Interest – Future

- Considering Recreational use of water resources as part of the District's policies.
- Update on policies and studies related to groundwater in fractured rock
- Update on Salinas Reservoir Dam Project
- Well permitting regulation as a tool for groundwater management
- Nacimiento and San Antonio Lake Tunnel Project
- Biosolids Updates (i.e. barriers, regulations, etc.)
- City and/or Sector panel discussions
- Nursery & landscape panel discussion

Excerpt from WRAC By-laws dated January 23, 2024

Administration: The Secretary, in cooperation with the Chairperson, shall prepare the agenda for each regular and special meeting of the WRAC. Any WRAC member may contact the Secretary and Chairperson and request that an item be placed on the regular meeting agenda no later than 4:30 p.m. twelve calendar days prior to the applicable meeting date. Such a request must be also submitted in writing either at the time of communication with the Secretary or delivered to the County Public Works Department within the next working day. Consideration of the request by the Secretary, in cooperation with the Chairperson, for inclusion on the agenda will be limited to include review for consistency with District and Board of Supervisors priorities, the mandate of the WRAC, and available time.
