

MHOAC

Medical Health Operational Area Coordinator

The MHOAC program is responsible for monitoring and ensuring adequate medical and health resources are in place during a local emergency. The MHOAC is authorized to coordinate medical and health mutual aid requests for San Luis Obispo County.

During non-emergency operations and the initial phases of an emergency, the MHOAC Program operates in a duty officer mode and is on call 24/7. Once the County Health Agency Department Operations Center (CHADOC) is activated, the MHOAC Program functions are distributed to various CHADOC positions. The MHOAC may also be at the County EOC as the Medical Health Branch Director.

If you are a first responder or medical/health organization representative and need to talk to a public health representative regarding an emergency situation:
