MEDICARE OPEN ENROLLMENT

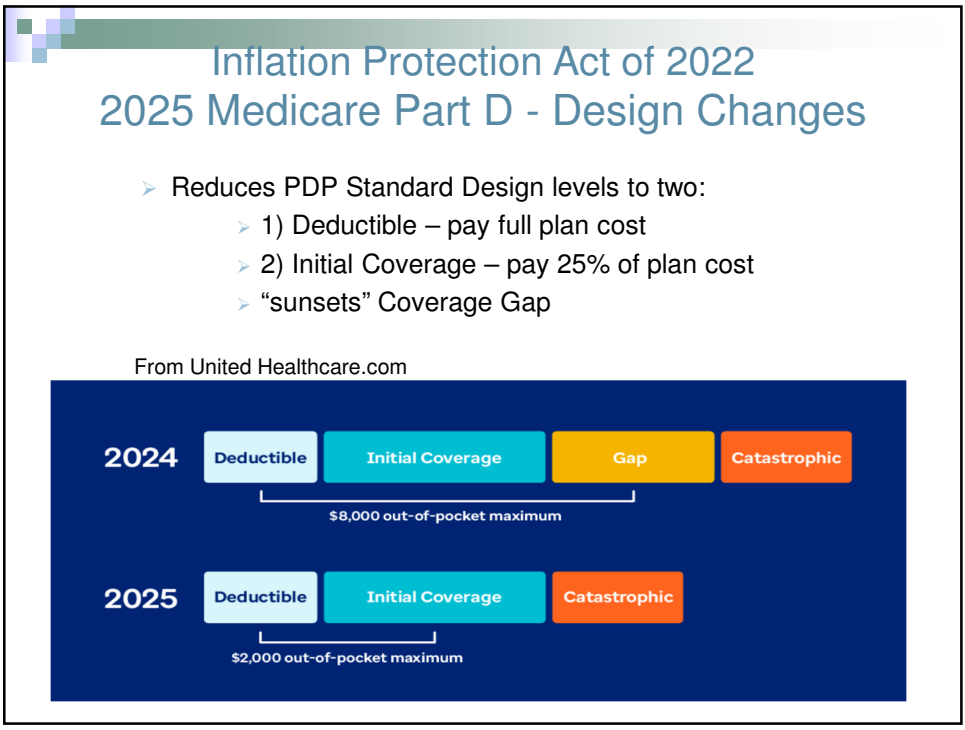

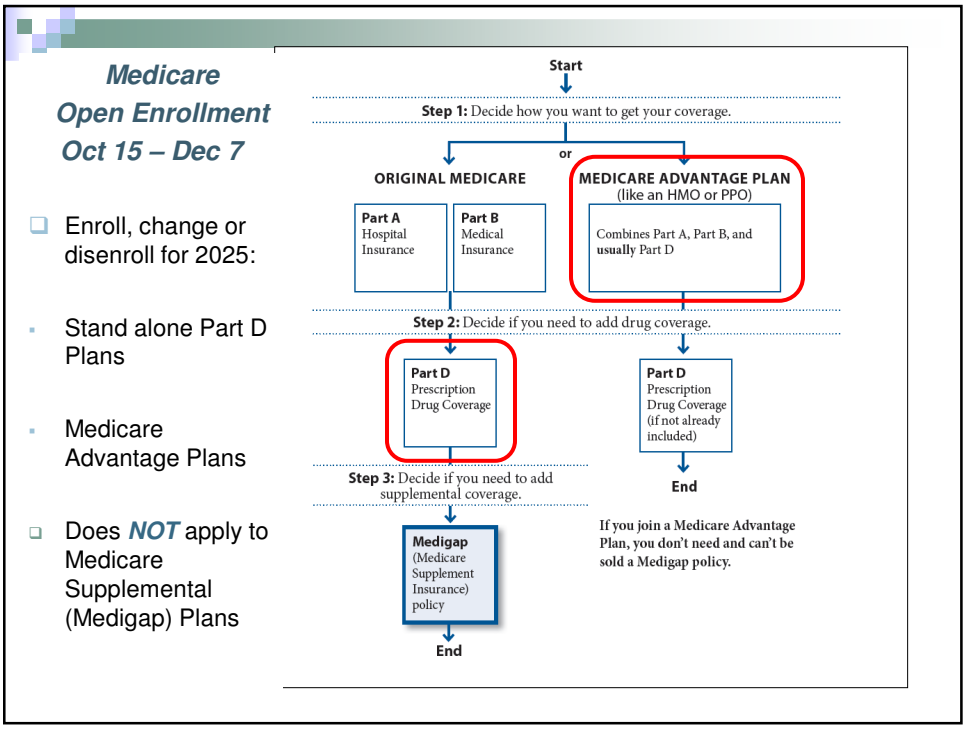

October 15 – December 7

- Can join, switch, or drop Prescription Drug Plans (Part D) or Medicare Advantage (MA) plans for 2025
- Enrolling in new plan automatically disenrolls you from old plan at the end of 2024 and new plan starts Jan 1, 2025

Plans can change ~ and so can you!

this is the time to do a new PDP comparison

- To enroll in a new plan for 2025:
 - Call the plan you want to join, or
 - Enroll online at Medicare.gov or the new plan website

Inflation Protection Act of 2022

2025 Medicare Part D - Design Changes

continued

- Caps Medicare Part D out-of-pocket costs for formulary drugs at \$2,000 (Maximum Out of Pocket – MOOP)
 - The \$2,000 out-of-pocket spending limit can increase every year like other Medicare Part D parameters
- Gives option to break that amount into even monthly payments
 - Creates **Medicare Prescription Payment Plan**
 - Requires option in all Part D plans (Stand-alone & MAPD)
 - Participation is voluntary
 - No cost to the beneficiary

Medicare Part D

Prescription Drug Plans

- Prescription drug insurance sold by private insurance companies
- Plans approved and monitored by Medicare to ensure strict guidelines are followed
- Voluntary (but subject to late enrollment penalty)
- Must have Medicare Part A **or** B to enroll in a stand-alone plan
- Two ways to enroll in a Part D plan:
 - **Prescription Drug Plans** – PDP – stand-alone plans offered by private health companies
 - **Medicare Advantage** – MA-PD – plans such as HMOs and PPOs that include prescription drug coverage

Note: the same coverage levels apply to both enrollment types

Part D - 2025 Levels of Coverage

The Levels of Coverage are reduced starting in 2025:

- **Deductible** – 0 to **\$590** – you pay full plan cost for drugs subject to the deductible
- **Initial Coverage** – after deductible you pay on average 25% of drug cost – continues until member has paid **\$2,000** for drugs under the plan
- **Catastrophic Coverage** – begins after beneficiary out-of-pocket spending reaches **\$2,000** – 0 co-pays

No cost-sharing for Part D formulary drugs for the remainder of the year after you reach the out-of-pocket threshold of \$2,000

- You have the option to enroll in the plan's **Medicare Prescription Payment Plan**

2025 Part D

Medicare Prescription Payment Plan

- Part of all Part D plans, whether stand-alone or included in a Med Adv plan
- Participation is voluntary and optional – i.e., you must “opt in” by notifying your Part D provider that you wish to participate
- There is no cost to participate, and your payments will never exceed the \$2,000 cap

How does it work?

- you continue to pay your plan premium
- you will also get a bill from the plan each month for your prescription drugs
 - **You do not pay the pharmacy**

How is your monthly bill calculated?

- your bill is based on what you would have paid for any prescriptions you get plus your previous balance, divided by the number of months left in the year. For examples, go to **Medicare.gov**

Part D 2025

Late Enrollment Penalty

- Part D *Late Enrollment Penalty* (LEP) applies if you had Medicare A or B but did not enroll in a Part D plan or have other creditable Rx coverage for over 60 days
- Formula for LEP is **1% of base premium x # months** you did not have Rx coverage and is added to your Part D premium for as long as you are enrolled in a Part D plan
- Base premium used to calculate LEP in 2025 is **\$36.78**
- Examples: If you had Medicare and opted not to enroll in a plan for 2024 but enroll in a 2025 plan, your LEP in 2025 would be:
 - $\$.3678 \times 12 \text{ months} = \4.4136 - rounded to nearest .1 = **\$4.40**
- If you were Medicare eligible in 2005 and did not enroll in a plan by May 2006 or since then, but enroll in a 2025 plan your LEP in 2025 would be: **\$82.00**

2025 Part D - California Prescription Drug Plans

- **18** stand alone plans in California (23 in 2024)
 - 2 Clear Spring Health plans are under sanctions and cannot enroll new members
- monthly premiums
 - **12** plans have increased premiums up to \$35 – **6** have decreased
 - lowest = **\$ 1.80** *Cigna Assurance Rx* (\$0.40 in 2024)
 - highest = **\$183.50** *Blue Shield Rx Enhanced* (\$188.40 in 2024)
- deductibles on some or all drugs
 - range from **\$120 to \$590**
 - some plans have increased applicable Rx levels
 - 3 plans have 0 deductible (one is a sanctioned Clear Spring plan)
 - lowest premium plan with 0 deductible:
 - *AARP MedicareRx Preferred* - **\$115.40** (\$82.60 in 2024)

2025 Part D California Plan Changes

- 2025 Discontinued Plans
- AARP Medicare Walgreens from UHC
 - Changing name to **2025 AARP Medicare Rx Preferred**

Medicare Advantage Plans

- Alternative to fee-for-service delivery of Medicare Part A and Part B benefits - may have monthly premium and co-pays for services
- Must have Medicare Parts A & B to enroll - still pay Part B Premium
- Medicare sponsors MA plans and pays private insurance companies to provide health services to beneficiaries who have enrolled in plans
- Plans are geographic-specific and can change each year
- MA plans with Part D follow the same rules and coverage periods as stand-alone Part D
- MA plans are required to have **Maximum Out of Pocket** limit
 - after reach this amount, co-pays are waived for the rest of the year
- Can include benefits in addition to Medicare covered services
