

Banking made easy...

What is Direct Deposit?

Direct Deposit is an option to those families who receive CalWORKs payments.

The monies are directly deposited into your checking or savings account instead of being loaded onto your EBT Card.

You can use the checking or savings account that you already have, or you can open a new one for direct deposit. You can use any bank that regularly offers Direct Deposit. You pick the bank you want to use.

Note: The payee on the bank account should match the payee on the CalWORKs case.

For more information about this option or to request a Sign-Up form, please contact your case worker.

Direct Deposit is an option. If you are not interested in this option, you do not need to contact your case worker.
