Annual Cost-Of-Living Adjustment - 2013

The Retirement Plan, under Article 19: Cost-Of-Living, provides for an annual cost-of-living adjustment for retirees of up to 3% per year for retirees who are receiving a retirement allowance under the original “Tier 1” provisions of the Retirement Plan. In the future, employees first hired after 12/26/10 who retire may be subject to “Tier 2” or “Tier 3” provisions of the Retirement Plan (depending upon their actual date of hire). Retirement allowances paid to individuals who were employed under Tier 2 or Tier 3 will have a maximum COLA of up to 2% per year.

The cost of living adjustment specified in the Plan is determined by the two year average of the All Urban -Consumers CPI for the Los Angeles-Riverside-Orange County and the San Francisco-Oakland – San Jose areas. This average is **2.5%**. However, the Retirement Plan allows for credits for past inflation that was above the 3.0% maximum COLA – the “COLA bank” for retirees in Tier 1. It is important to note that we have experienced several years with low inflation so this “COLA bank” for most retirees has been used up. This is actually good news because it means that more of our retirees’ allowance’s purchasing power has been retained in recent years.

Therefore, depending on any individual’s retirement date the actual COLA to be granted will vary. The results of this calculation for the COLA are shown below:

Retirees who Retired		2013 COLA Increase
<u>Before January 1</u>	<u>and after January 2nd</u>	<u>Effective April 1, 2013</u>
2013	1988	2.50%
1988	1986	3.00%
1986	1985	2.90%
1985	1982	2.50%
1982	all prior	3.00%
