To: SLO BOS

a) I urge the Board to keep Oceano within District 4 as it is now. I have heard that Lynn Compton is trying to move Oceano out of the 4th District and move more of Edna Valley into the 4th district in order to increase votes for her reelection to the BOS. This is not appropriate for the following reasons.

First, gerrymandering is defined as manipulating the boundaries an electoral constituency so as to favor one party or class. This is not fair. The BOS website states that "...districts shall not be drawn for purposes of favoring or discriminating against an incumbent, political candidate, or political party."

Second, The BOS website states that "The geographic integrity of city, local neighborhood, or community of interest shall be respected in a manner that minimizes its division." and that "districts shall be drawn to encourage geographic compactness." Oceano lies within the Coastal Zone and its community members identify with the dunes. Distinct from other communities nearby, Oceano is an unincorporated community, like Nipomo down the road. Nipomo air quality is affected by the dunes area to the south of Oceano. In fact, two advisory committees now exist to weigh community matters, both focused largely on dunes to the south.

b) The Board of Supervisors recently voted not to allow a citizen advisory council to work with the Board. The BOS exists to serve the citizens. Communication is important. An advisory council should exist to support the flow of citizen opinion.

Please keep Oceano within District 4 and reverse the decision not to have a citizen advisory council!

ATTENTION: This email originated from outside the County's network. Use caution when opening attachments or links.

Hello,

I'm a County resident residing in Nipomo. I'm wanting to become more and better informed about the important redistricting process the County is undertaking and would like to know how I might access information from and about the last re-balancing of supervisorial districts in 2011.

Is there information available on-line (or somewhere) that describes and depicts the changes that were made to the various supervisorial districts in 2011? So one can see what the districts look like (and how they were constituted) before and after the changes?

Many thanks,

Michael Normoyle

Just wondering if there is any "how to" video or Powerpoint for understand better how the map drawing works?
I believe it has a few features that one may not be obviously aware of. I would just like to learn more how to use it.

Which district do you live in? If you're not sure, use our "[Find my Supervisor](#)" tool (opens in new window) to find your district* District 2
Community Of Interest Name* The coast (San simeon, Cambria, Cayucos, Morro Bay, Los Osos)
What are the common interests in your community? Describe how they are important* we share the same concerns about sea level rise, the health of our tourist economy, our water (or lack thereof). We travel the same roads and shop mostly within each of the coastal communities. Our children attend the same schools and we share the same recreational activities and facilities. Many of us along the coast work and shop in San Luis Obispo so we also have a connection with the city.
Explain the geographical location of your community of interest. What are the physical boundaries?* Pacific ocean, coastal range of mountains, up los osos valley into San Luis Obispo
What is the rationale for your community of interest to be used in the Board of Supervisor redistricting process? Please describe how the issues before the Board of Supervisors has an impact on your community.* The communities along the coast are mostly unincorporated and thus decisions made by the BOS affected us all, ie. vacation rentals, garbage rates, road paving priorities, parks decisions.
What else would you like to tell us about your community?* it is important that we remain in a single district and not be redistricted in with communities with which we do not share commonalities.

Hello, Mr. Normoyle. Thank you for your inquiry about the County's redistricting process. Our prior maps may be found on our Clerk-Recorder's site here: <https://www.slocounty.ca.gov/Departments/Clerk-Recorder/Forms-Documents/Elections-and-Voting/Redistricting.aspx>.

Regards,

County of San Luis Obispo Redistricting
